**Street Frontage:** 300 feet along Commerce Drive  
**Topography:** Flat.  
**Existing Development:** Single family housing

**SURROUNDING CONDITIONS:**

ZONE	LAND USE

**ZONING ANALYSIS**

*City Planning Staff has reviewed the proposed Zone Change and offers the following findings:*

**COMPREHENSIVE PLAN LAND USE MAP**

The Current/Future Land Use Map recommends this location as a Moderate Intensity Growth Sector. A wider mix of land uses is appropriate in the moderate intensity sectors. Control of traffic is probably the most important consideration in this sector. Additionally, good building design, use of quality construction materials, and more abundant landscaping are important considerations in what is approved, more so than the particular use. Limits on hours of operation, lighting standards, screening from residential uses, etc. may be appropriate. Consideration should be given to appropriate locations of transit stops.

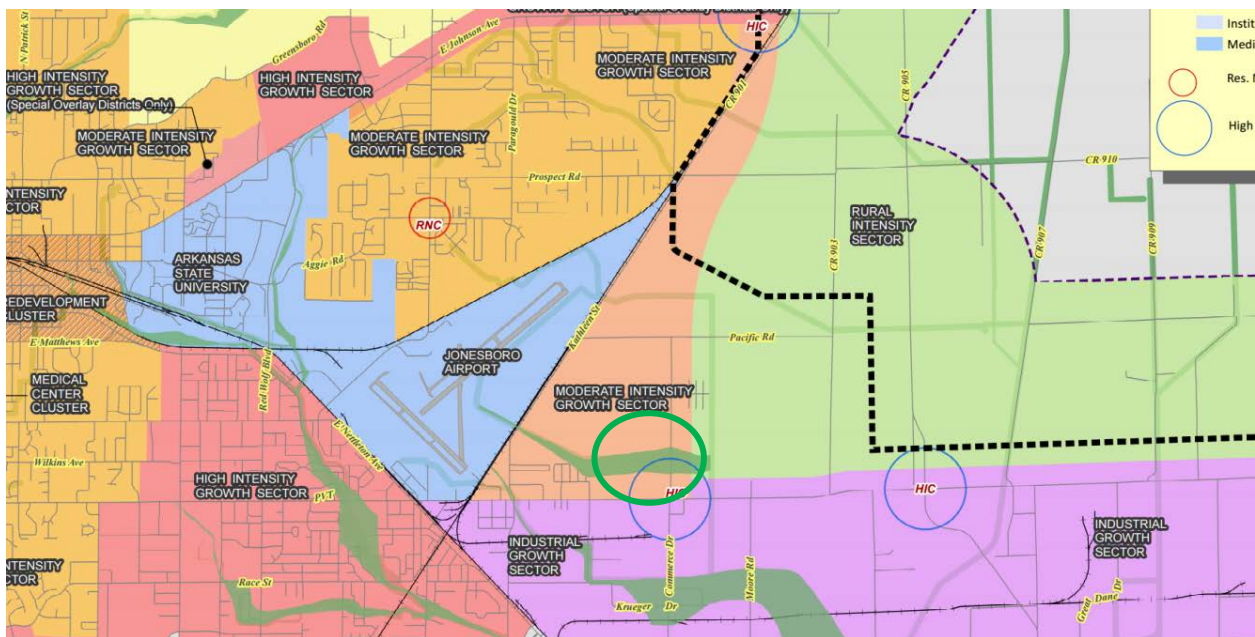

### **Moderate Intensity Growth Recommended Use Types Include:**

- Single Family Residential
- Attached Single Family Residential, duplexes, triplexes, and fourplexes
- Neighborhood retail, Neighborhood services
- Office parks
- Smaller medical offices
- Libraries, schools, other public facilities
- Senior living centers/nursing homes, etc.
- Community-serving retail
- Small supermarket
- Convenience store
- Bank
- Barber/beauty shop
- Farmer's Market
- Pocket Park

Note: The density for residential development in this sector is “no more than 8 Dwelling Units per acre for Multi-Family.”

### **Master Street Plan/Transportation**

The subject site is served by Commerce Drive, which on the Master Street Plan is defined as a Principal Arterial; the street right-of-ways must adhere to the Master Street Plan.

**Adopted Land Use Map**

**Aerial/Zoning Map**

**Approval Criteria- Chapter 117 - Amendments:**

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the MAPC or City Council in reaching a decision. The criteria to be considered shall include, but not be limited to the following:

Criteria	Explanations and Findings	Comply Y/N
(a) Consistency of the proposal with the Comprehensive Plan/Land Use Map.	The proposed RM-12 rezoning is not consistent with the Future Land Use Plan, which was categorized as a Moderate Intensity Growth Sector - which recommends up to 8 units per acre on multi-family.	
(b) Consistency of the proposal with the purpose of Chapter 117-Zoning.	The proposal will achieve consistency with the purpose of Chapter 117.	
(c) Compatibility of the proposal with the zoning, uses and character of the surrounding area.	Compatibility is achieved. Although the property is surrounded by single-family housing, the R-2 zonings surrounding the property would allow for multi-family.	
(d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment.	Property is suitable for multifamily development.	
(e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property.	This site and use should not be a detriment to the area if controls are implemented to screen and buffer any environmentally sensitive surrounding uses.	
(f) Length of time the subject property has remained vacant as zoned, as well as its zoning at the time of purchase by the applicant.	These properties have single family residential houses on them.	
(g) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services.	Minimal impact if rezoned if controls are implemented to screen and buffer any environmentally sensitive surrounding uses.	

**Staff Findings:****Applicant's Purpose:**

The applicant feels like a rezoning would allow for a more attractive development and limit the number of access points to Commerce Drive. She also feels like the R-2 and RM-12 zoning districts allow for the same maximum density per acre. If the rezoning is approved the property would be developed within the RM-12 guidelines. This development would consist of 36 multi-family units. The rezoning would allow for more control over the property and provide additional affordable housing.

**Chapter 117 of the City Code of Ordinances/Zoning defines Commercial District as follows:**

***RM-12 Residential Multifamily Classification.*** The purpose of this classification is to provide appropriate locations for multifamily residential units. The district allows for all forms of units, duplexes, triplexes, quads, and higher.
