

Dear BZA Members

I would like to express my opposition to the application for a fence variance at 415 Warner. Fences are not supposed to cover the front of a building unless they are short and are open. The appearance of the property at the southwest corner of Witt and Parr has been compromised by the construction of a privacy fence across the front of the house. Please vote to deny this variance which could have important implications on future applications for fence variances in our historic neighborhood.
