July 23, 2018

City of Jonesboro 300 S Church St Jonesboro, AR 72401

Re: Property:

108 N Allis St

Jonesboro, AR 72401

Client:

City of Jonesboro (CLIENT)

Pursuant to your request, I have prepared an appraisal report of the property captioned in the "Summary of Salient Features" which follows. To the best of my knowledge, this report conforms to the current requirements prescribed by the Uniform Standards of Professional Appraisal Practice of the Appraisal Standards Board of the Appraisal Foundation (as required by the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA)).

The accompanying report is based on a site inspection of improvements, investigation of the subject neighborhood area of influence, and review of sales, cost, and income data for similar properties. This appraisal has been made with particular attention paid to applicable value-influencing economic conditions and has been processed in accordance with nationally recognized appraisal guidelines.

The value conclusions stated herein are as of the effective date as stated in the body of the appraisal, and contingent upon the certification and limiting conditions attached. The person signing this report has the knowledge and experience to complete this assignment competently. Please do not hesitate to contact me or any of our staff if we can be of additional service to you.

STATE CERTIFIED Prenton King CR3948

RECONCIL	completed, Subject to the following required inspection based	following repairs or a sed on the extraordina orking order.	Iterations on the basery assumption that as of the subject pur) opinion of the	sis of a hypothetical countries the condition or deficient	ondition that the ency does not t the street, d ined, of the	ne repai require defined real pro	rs or alterations have alteration or repair: , scope of work, sta operty that is the	Assument subject	ompleted, or es marketa	subject to the able title and that

The scope of work includes an identification of the property rights valued	fee simple interest), a definition of th	ne value sought (market value), an
opinion of the highest and best use (residential), physical observation of t	e subject site and improvements, a	locational analysis of the
neighborhood and city, and an economic analysis of the market for prope	ties such as the subject. The Cost,	Sales, and Income Approaches were
considered.		
The first \$350 tax of a homeowner's primary residence has been waived.	The tax amount reported in this appr	raisal is before this credit.
Highest and Best Use: The subject site's physical characteristics, such a	s size, dimensions, topography, and	soil composite, is suitable for a single
family residential improvement. There is no zoning restrictions on the pro-		
no deed restrictions, to appraiser's knowledge, that limits the improveme	t of the site with a single family resid	lence. The economic trend of the
area is clearly single family residences. The effective age of most homes		
existing housing. Subject is currently improved with a single family detact		
total property in excess of the site. Therefore, the current use (single fam	ly residential) represents the highest	t and best use of the site.
Clarification of Environmental Comments & Exhibits: The existence of ha		
polychlorinated biphenyls, petroleum leakage, lead based paint, molds, a		
property, or other environmental conditions, were not called to the attention inspection of the site and improvements. The appraiser has no knowledge		
stated in this report. The appraiser, however, is not qualified nor licensed		
substances or environmental conditions may affect the value of the prope		
such condition on or in such proximity thereto that it would cause a loss in		
expertise or engineering knowledge required to discover the same.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

valid as if a paper version of this appraisal report were delive	red containing my original hand written signature.

Scope of Work:

This report has been prepared for the referenced client. The report has been performed to assist the client in determining fair market value of the subject property. If this report is placed in the hands of anyone other than the client, the client shall make such third party aware of all the assumptions and limiting conditions of the assignment. This report is being restricted to the stated client's use only and for the stated purposes only. No other user is identified and no other use is identified. The scope of this appraisal consisted of an observation of subject site from the public street. **This report is being made based on an** extraordinary assumption that the interior of the improvements are in similar type condition as the interior. Any differences that exist from what is observed and assumed are subject to review by the appraiser and the value is subject to change. Pictures of the exterior of the improvements were taken and can be found in this report. The livable area was derived from www.arcountydata.com which is believed to be a reliable source. The cost approach was not applicable/not completed (explained elsewhere in this report) . The MLS, local public records, as well as local comp services were researched for comparable sales in the neighborhood/subdivision. Those used were deemed the best available. The comparable sales were compared to the subject and adjustments in value were made as deemed appropriate. The income approach was not used in this report based on engagement and scope of work agreed on by client and appraiser. The approaches to value used in this report were reconciled and an opinion of value was rendered based on the data available. This report is an appraisal and not an environmental, structural, termite, or building inspection. If the user or client desires such type of reports, they should be ordered from a licensed home inspector or an environmental expert. This appraisal report does not guarantee that the property is free of defects. The appraiser is not a home inspector, termite inspector, or environmental inspector.

Digital Signature:

This appraisal report contains digital signatures that meet the requirements of Statement on Appraisal Standards No.8 (SMT-8). The software programs used to transfer the report electronically provide digital signature security features for the appraiser signing the report. The appraiser that has signed (affixed an electronic signature) to this report has ensured that the electronic signature(s) is protected and the appraiser has maintained control of the signature. Per SMT-8 of the Uniform Standards of Professional Appraisal Practice, electronically affixing a signature to a report carries the same level of authenticity and responsibility as an original ink signature on a paper copy report.

Digital Images:

Digitized images, such as photographs, maps, exhibits, etc., contained in this report, are unaltered from their original likeness. Digital images, however, may have been modified for formatting, brightness, or resolution. These modifications are made only to reduce file size or enhance readability and do not manipulate the original likeness.

Comps Over One Mile:

Comparable sales over one mile away were used because they are the best available in this area. Expanding the search to a radius greater than one mile developed sales that are still within the same market. These sales are the best comparables to the subject property and are therefore used in this report.

Comps Over Six Months:

A thorough search for comparable sales was made in this market area. Comparables that sold within six months of the date of appraisal were significantly different in location, size, age, conditions and other value influencing items. In the appraisers judgement, the comparables selected are a better indication of value than most recent sales.

Age Adjustments:

Age adjustments were made based off of the effective age of each property respectively. The effective age takes into consideration the condition of the property as well as the functional utility that remains with each property. A 1% adjustment per effective age difference was made based on the contrat price of the sales.

Sales Concessions:

No sales concessions were conducted due to them being a traditional occurrence in this market. Not only are they a normal occurrence, but the lack of disclosures of sales concessions is poor. It is not a requirement in the state of Arkansas to disclose sales concessions and disclosing these sales concessions could result in violations of Arkansas law.

PRIVACY NOTICE

Pursuant to the Gramm-Leach-Bliley Act of 1999, effective July 1, 2001, Appraisers, along with all providers of personal financial services are now required by federal law to inform their clients of the policies of the firm with regard to the privacy of client nonpublic personal information. As professionals, we understand that your privacy is very important to you and are pleased to provide you with this information.

Types of Nonpublic Personal Information We Collect

In the course of performing appraisals, we may collect what is known as "nonpublic personal information" about you. This information is used to facilitate the services that we provide to you and may include the information provided to us by you directly or received by us from others with your authorization.

Parties to Whom We Disclose Information

We do not disclose any nonpublic personal information obtained in the course of our engagement with our clients to nonaffiliated third parties, except as necessary or as required by law. By way of example, a necessary disclosure would be to our employees, and in certain situations, to unrelated third party consultants who need to know that information to assist us in providing appraisal services to you. All of our employees and any third party consultants we employ are informed that any information they see as part of an appraisal assignment is to be maintained in strict confidence within the firm.

A disclosure required by law would be a disclosure by us that is ordered by a court of competent jurisdiction with regard to a legal action to which you are a party.

Confidentiality and Security

We will retain records relating to professional services that we have provided to you for a reasonable time so that we are better able to assist you with your needs. In order to protect your nonpublic personal information from unauthorized access by third parties, we maintain physical, electronic and procedural safeguards that comply with our professional standards to insure the security and integrity of your information.

Please feel free to call us an any time if you have any questions about the confidentiality of the information that you provide to us.
