APPLICANT: Mr. Tommy Gray requested on behalf of the Neighborhood Association requested a variance for addresses close to 4402 Jenni Lane – Mt. Carmel Road, Layman Drive and Jenni lane to place a subdivision sign upon entrance to the subdivision. The ordinance requires 15 feet from the back of the street easement. The variance is from 1 foot from the back of the street easement. This is located on an R-1 Single Family Residential District.

APPLICANT: Mr. Gray said the signs look similar to the ones at the Country Club. There will be two signs.

STAFF: Mr. Derrel Smith explained that Mr. Gray had been working with the Engineering Department. They did not realize at the time that there was an ordinance requiring them to be 15 feet from the street easement. If a variance were granted, they would lower this setback requirement from 15 feet to 1 foot. The Planning Department has no problem with the location of the signs.

BZA COMMISSION: Mr. Reece asked if applicant if they were putting in a sidewalk.

APPLICANT: Mr. Gray said they were. It will be in the city right-of-way. It will be 5 foot wide and 330 feet long. The Engineering Department has already approved the construction of the sidewalks. They want to do the sidewalks and the signs at the same time.

BZA COMMISSION: Mr. Rick Miles asked if the sidewalks were going to be on both sides of the street.

APPLICANT: Mr. Gray said they were not going to be on both sides of the street. The problem, and the reason for this request, is the signs will be in the middle of the lots they are being put on unless there is a variance granted.

BZA COMMISSION: Mr. Miles also asked if individuals using the sidewalks would run into the signs if they were riding their bikes.

APPLICANT: Mr. Gray said the signs were not a hazard to people using the sidewalks but they did purchase insurance for the sign just in case the sign did hurt someone.
