COMMISSION: Lonnie Roberts Jr. asked for commissioner comments.

COMMISSION: Mary Margaret Jackson stated she is concerned about some of the things they were doing on the MAPC. In all of the rezoning decisions they are affecting the quality of life and making future changes to the city. She stated she wants to make sure they do so wisely. When you have moderate intensity developments side by side and each development has its own ingress and egress, curb cuts, and no shared parking, you will result in another Red Wolf Blvd. When you have a speed limit of 55 mph down Johnson Ave. you will have Arkansas State University warning students about the new crosswalks. She stated everything they are doing here is very serious and wants everyone to consider having a framework to look at future development in the city. The Future Land Use Plan was adopted in 2017. They acknowledge in this plan that because specialized expertise is needed for the amount of detailed analysis deserved, this committee forwards the following priority items to the MAPC and the city council. It states, the city, in the very near future, needs to consider contracting out a master parks and recreation plan. The city needs to begin individual neighborhood study plans starting with already established neighborhood association plans. What they are talking about is the beginning of a comprehensive plan. If we have separate plans looking at future comprehensive plans, that is fine. She stated in her opinion, they need to start now. Everything they do is changing the city. We saw the majority of our public is interested in the future of the city regardless of how they view quality of life. That needs to be taken seriously. On the city website it says the MAPC is responsible for ensuring the orderly development of the city through the adoption and periodic revision of the city of Jonesboro comprehensive plan which we do not have one right now. She stated they are changing the city every month with these rezonings. The city is going to continue to grow and expand and they need to think about what they are doing. The city is spending its reserves. She stated that they need all of the public involved to decide what we want our city to be and make those changes now. They do not have, as a body, the framework to make those decisions, but should consider moving forward to the next step.
