**Subject:** City Curfew

I appreciate all of your hard work and provisions to help our community during the Covid-19 threat and tornado destruction. However, I do not agree with a city-wide curfew to prevent spread of the Coronavirus. With all of the activity in town during the day, a curfew at night seems to be irrelevant and ineffective. A curfew for regular, law-abiding citizens is not necessary to prevent the spread of a virus. Since businesses are closing early, most people will be at home anyway. If someone must go out after 10:00 for some reason or another, they should feel free to do so. I feel that this curfew is an infringement on our rights and freedoms as Americans. If anyone is violating loitering or trespassing laws, those people should be charged appropriately. However, an unnecessary curfew for everyone is excessive, especially with Covid-19 numbers far below what was predicted and at a point when we understand that the country is moving toward opening back up.

Thank you for your time.
