Re: Allison Street closing

Dear Shirley:

City Water and Light has no objections to the closing of Allison Street, along the south end of Curtview Acres Subdivision. Before this street is closed, City Water and Light will need a 20' wide easement, 10' either side of our existing water line as constructed in the street. We also request the south 10' of the street as an easement for a future raw water line.

Please call if you have any questions.

Respectfully,

RE: Closing of Allison Street

Dear Ms. Collins:

Southwestern Bell Telephone Company does not object to the closing of Allison Street as shown on the attached sketch with the exception of the following.

1. Any existing cables serving residences or apartments placed within the boundaries of Allison Street as shown can remain as placed. If there are any requests to relocate any Southwestern Bell facilities placed within the boundary of Allison Street, the costs involved with the relocation of our facilities will be born by the requesting party.
2. If this closing eliminates the existing utility easement along the north line of East Park Subdivision, then we object to the street closing.

Questions regarding this matter may be referred to me on 972-7596.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Walker", written over the typed name.

Jim Walker
