Subject: Purchasing Used Warner-Swasey Machine

Mr. Dale Chambers has a used Warner-Swasey Ditch Cleaning Machine parked at the corner of Kathleen and Nettleton Avenue (Hwy. 63B). He was asking \$15,000 for this machine. I had my Street Department Superintendent and my Swasey Operator to check out the machine. They both have agreed that it is a very good used machine.

The Mayor has met with Mr. Dale Chambers and they have agreed to a price of \$13,250.00. I believe this is a very fair price and should be accepted.
