John Morgan
%Jonesboro Police Department
524 South Church
Jonesboro, AR 72401

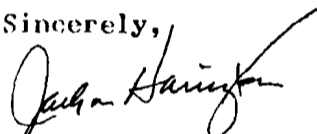

Dear Mr. Morgan:

On behalf of the Northeast Arkansas Internal Medicine Clinic I would like to request a caution light to be placed on Matthews, between Cobb and Church streets. There are currently pedestrian crosswalks available for crossing to and from the hospital, but the traffic seldom slows down.

We have several patients a day leaving our clinic in route to the hospital, many who are in wheel chairs, not to mention the patient flow from our neighboring clinic to and from the hospital. As you can see, this crosswalk is heavily traveled by physicians, patients, visitors, and other medical staff daily. The traffic definitely needs to be slowed down in this area and the current mechanisms don't seem to be working.

Please help us with this request.

Sincerely,

Jack Harrington
Assistant Administrator
