March 3, 2010

The Honorable Harold Perrin
Mayor of Jonesboro
P. O. Box 1845
Jonesboro, AR 72403

Dear Mayor Perrin:

Reference is made to your request and Arkansas State University's request to install a traffic signal at the intersection of Highway 91 and University Loop in Jonesboro. A traffic operations study, which included a 24-hour traffic count and an on-site investigation, has been conducted. Based on the results of the study, it has been determined that a traffic signal for this intersection is warranted as outlined in the Manual on Uniform Traffic Control Devices.

A project to signalize this intersection is eligible for 80% Federal-aid, 10% State and 10% City funding for construction and engineering costs. The City will be responsible for 100% of the cost of any additional right-of-way and utility adjustments required. Also, the City will be responsible for providing electrical power and signal maintenance once the project has been completed. We estimate that the construction and engineering costs for this project will be \$130,000.

Should the City desire to pursue this project, a copy of a sample Resolution is enclosed. After the Resolution is passed and signed, please return a copy to the Department and a project will be programmed and scheduled as funding becomes available.

Sincerely,

A handwritten signature in cursive script, which appears to read 'Frank Vozel'.

Frank Vozel
Deputy Director and
Chief Engineer
