Concerning a request for the relinquishment of easement adjacent to Lots 5 & 6 in Merryman Subdivision in Jonesboro:

The proposed plan is to abandon the existing 10' utility easement to provide for new building construction. There is an existing buried cable and pedestal abutting the west end of this easement. Also, there are buried service wires serving the four residences in the existing two buildings possibly buried in the easement. We have no objection to this relinquishment provided the owner and/or developer reimburse Southwestern Bell for any and all expenses associated with moving and removing existing telephone plant, placing or replacing any telephone plant and repair or replacement of any telephone plant due to damages caused by construction in this area. Per our conversation this morning Ron Willett has agreed to pay any expenses.

Questions regarding this matter may be referred to me on 870-972-7596.

Sincerely,

Dennis Nix
