Jonesboro, AR 72401

Mayor Brodell:

On behalf of Southwestern Bell Telephone Company, I would like to thank you for the opportunity to respond to your request for information and prices for Enhanced 9-1-1 equipment. Southwestern Bell provides over 90 percent of the 9-1-1 systems in Arkansas. Our 9-1-1 experience, service, support, maintenance and responsiveness is unrivaled.

Let me highlight some of the benefits of selecting Southwestern Bell as your Enhanced 9-1-1 equipment provider.

- Your E9-1-1 system will be supported and maintained by technicians trained specifically on your requirements. They will resolve problems quickly and have a vested interest to ensure the availability of 9-1-1 service.
- You avoid the problems of owning your equipment; you need never worry about maintenance contracts or equipment obsolescence.
- Our state-of-the-art technology will assure you the highest quality equipment for your system.
- The citizens of Jonesboro voter-approved the 5% E 9-1-1 Service Fee and are expecting the *best* E 9-1-1 Service. We feel Southwestern Bell is the supplier best equipped and positioned to provide this service.

Our 9-1-1 experience will show that we are the most qualified vendor to provide your Enhanced 9-1-1 equipment and we look forward to working with you on the installation of your system. If you have any questions or concerns, I can be reached at 501-373-5697.

We take pride in the quality, reliability and success of our 9-1-1 equipment, and are confident that our experience, knowledge and dependability is unmatched in Arkansas.

Sincerely,

Dwight A. Williams
Area Manager - 911

SUPPLIER SELECTION CRITERIA

Each supplier shall be evaluated against the following criteria:

1. **Ability to Respond Quickly and Professionally to Service Problems and Outages:**
 - a. Name and Address of company responsible for installing and maintaining the suppliers equipment: Southwestern Bell Telephone Company, Attn: Dwight Williams, 515 W. Pershing - Rm. 475, N. Little Rock, AR 72114
 - b. Nearest Reporting Location of 9-1 -1 Trained Technicians: Southwestern Bell Telephone Company, 723 S. Church, Jonesboro, AR
 - c. Approximate average time before technician arrive at the PSAP during service outages: Fifteen (15 minutes) (Note: 52 technicians in state)
 - d. Number of Trained 9-1 -1 technicians at nearest location: Three (12 in a 25-50 mile area)

Preference is typically given to firms with a technician reporting location in County.

2. Supplier's Stability:

- a. Date of Incorporation or Establishment: March 2, 1917 Southwestern Bell Telephone Company, licensed to do business in Arkansas.
- b. Years of experience in 9-1-1 CPE sales, installation and maintenance: 30 plus years
- c. Number of Employees Located within twenty-five miles of the City Hall: 250 employees
- d. Number of Total Employees: 2,700 employees in Arkansas (150,000 companywide)

3. System Design and Reliability:

- a. Is Equipment Designed To Be An E 9-1-1 System or Is It a Modified Telephone Switch: Southwestern Bell provided per MAARS is a totally designed 9-1-1 System.
- b. Are There Single Points of Failure. Southwestern Bell's provided PEI MAARS has no single points of failure.

- c. Does E 9-1-1 System Provide Redundancy.
Southwestern Bell's provided PEI MAARS has redundancy designed into and will be provided in the system .
 - d. Is The System Designed As A Distributed Micro-Processor Architecture Or Is It Designed On A Central Motherboard Approach.
Southwestern Bell's provided PEI MAARS is designed as Distributed Micro-Processor Architecture with a CPU in each and every module, therefore , it has no Single Point of Failure.
4. **Supplier Systems in Arkansas:**
- a. Number of Installed Systems:
Southwestern Bell is providing E 9-1-1 Service to 50 plus counties in Arkansas with 75 plus PSAPS.
 - b. List of Arkansas E 9-1-1 Customers:
A partial list of Arkansas E 9-1- 1 customer/references has already been provided to the City.

To: Mayor Hubert Brodell
City of Jonesboro

MEMORANDUM: MAJOR REASONS CITY/COUNTY GOVERNMENTS HAVE DECIDED "NOT TO OWN AND MAINTAIN" THEIR OWN PSAP EQUIPMENT.

- Customer owned and maintained equipment will require either maintenance contract or a sizable investment in spare parts. (How do you handle replacement or repair on replaced equipment)?
- Multiple service providers in a life-saving service, where any form of down-time from repair or maintenance has to be kept to an absolute minimum.
- It will require several phone calls to different repair groups to get repair and maintenance.
- Customer owned and maintained equipment has to contend with attempting some form of 7 days per week - 24 hours per day maintenance and repair.
- Customer maintained systems typically do not have capability for on-line maintenance and repair.
- Customer owned and maintained equipment typically has a limited number of personnel available to work on E 9-1-1 equipment. These people will have limited, to no training on E 9-1-1 equipment. What will be their level of productivity/efficiency?
- In the case of some catastrophic event (lightning strike, etc.) There are "no spare systems" available. Therefore, down-time can be a very serious factor.
- Customer owned and maintained equipment will necessitate, either contracting training for your dispatch personnel or attempting "in-house training".
- Customer owned and maintained equipment will require customer to keep up with "software revisions and updates".
- Customer owned and maintained equipment, taxes and insurance a factor.
- The majority of E 9-1-1 systems in Arkansas (95 +) lease their E 9-1-1 equipment from the telephone company.

To: Mayor Hubert Brodell
City of Jonesboro

MEMORANDUM: MAJOR REASONS CITY/COUNTY GOVERNMENTS "LEASE" E 9-1-1 EQUIPMENT FROM SOUTHWESTERN TELEPHONE COMPANY.

- E9-1-1 PSAP Equipment leased from Southwestern Bell Telephone Company ---All maintenance and repair is provided at no additional cost.
- City/County Government typically wants "One-Service Provide" of (this critical --life saving service) E9-1-1- System/Equipment. For example, typically, one-service provider is desired in radio equipment).
- One phone call to Southwestern Bell Telephone Company will get immediate response for any and all maintenance and repair.
- Southwestern Bell Telephone practically has on-site technicians-- they are only minutes away - available on 7 days a week , 24 hours a day basis.
- Southwestern Bell monitors E 9-1-1 PSAP equipment, network, etc. from our Special Services Center. We make on-line adjustments and dispatch our technicians when needed.
- Southwestern Bell has approximately 52 technicians trained on E 9-1-1 PSAP equipment in Arkansas. (Out technicians go through several training streams on the E 9-1-1 equipment.)
- Back-up in case of a catastrophic event (lightning strike, etc.) In order to keep down-time to a minimum, we have an E9-1-1 PSAP "Hot Spare" system in our 9-1-1 Service Centers in Jonesboro, Little Rock, etc.
- Southwestern Bell provides initial training on E 9-1-1 equipment, as well as on-going training. "Part of the "over-all" service provided by the SWBT E9-1-1 Team.
- SWBT will coordinate with county to keep current "software updates" on E 9-1-1 PSAP equipment.
- SWBT owns PSAP equipment; therefore, we take care of all property taxes and insurance on PSAP equipment.
