Subject: Questions concerning the proposed budget 2021 for the City Council meeting today

Good Afternoon Steve Purtee,

I have a couple of questions for you concerning the proposed City 2021 Budget for Jonesboro I hope that you or Mayor Copenhaver can answer them during the Council meeting at 5:30 today.

1. I heard that the Airport filed with their insurance company after one of their buildings was taken by the tornado we had earlier this year. And after receiving the insurance money, I heard that the City put the \$1 million plus check into the City's general fund. Can you verify if this is true? If not, where was it deposited?
2. The following questions are about City automobiles: I'm assuming that Mayor Perrin turned in his City car. What is the City going to do with his car? Are they going to keep it, sell it or trade it? I did not see or maybe I missed where it listed the amount of money that will budgeted for Mayor Copenhaver's City car?
3. Last year I requested a list of all the automobiles and vehicles that the City owns from Bill Campbell. I've attached both of the emails and the inventory list that I received. At the beginning of 2020, the City owned 430 automobiles/trucks etc. I know in the proposed 2021 budget that there is almost 30 new vehicles that are going to be purchased. Can you provide me a list with what department or person(s) will be driving these new purchased vehicles and what does the City do with the old vehicle driven by the lucky person receiving a new one?

I appreciate your time. Thank you

Patti

Ms. Lack,

Please find the Bill of Sale attached and answers to your questions below.

Bill Campbell

Director of Communications
City of Jonesboro
870-336-7164 (w), 870-919-7042 (m)

1, On this Audit list that I received indicating the inventory as of 12/12/2019, all the departments listed with their cars/trucks/mowers/city equipment listed for each one.

The questions I have for a couple departments are as listed:

[New list of Insured vehicles is attached.](#)

A. For the Police Department, there are 191 vehicles listed, 19 leased vehicles and 2 scrapped vehicles.

They ALL have the status of ACTIVE.

-Why are the 2 scrapped vehicles still on the ACTIVE list? [They must remain on the list until they are sold or Council removes them – they are not insured – they are used for parts to keep the other “like” vehicles going.](#)

-Does the Police Department currently have possession of the 191 vehicles listed on this report? [If they are listed as Active and not scrapped, they are being used.](#)

-If the answer to the above question is yes, can you tell me why we needed to budget for 9 more police cars this month? [Vehicles are rotated out of the department each year. The old ones in bad condition are scrapped once the new ones are put on line.](#)

B. The Fire Department has 31 vehicles/trucks listed with 2 leases – [Leases were paid off years ago on those vehicles.](#)

C. The Inspection Department has 6 vehicles listed

D. The Animal Control has 10 vehicles listed

E. Planning as 2 vehicles listed

F. Information has 2 vehicles listed

G. Code Enforcement as 5 vehicles listed

H. Building Management has 8 vehicles listed

I. Land Bank has 1 vehicle listed

J. General Administration has 1 vehicle listed

-What is the General Administration?

K. The Mayor has 3 vehicles listed in this category.

-Who is the Mayor's assistant? [It is listed as assistant but it is the Operations Director.](#)

-It lists Land Bank- but they already have a car listed (item I), so who is this car issued to? [This vehicle was transferred from Land Bank to Mayor's office and the vehicle in Mayor's was transferred to Land Bank](#)

-Then the Mayor's car. Which in the updated report, it will show his new automobile and then the Tahoe listed will be added to the Police Department L. The Street Department has 1 leased, 5 mowers type equipment and 49 vehicles M. The Engineer Department has 10 vehicles listed N. The Sanitation Department has 8 leased equipment, 21 miscellaneous mowers and 21 vehicles listed O.

The 911 Department has 1 vehicle listed

P. The Parks Department has 5 vehicles listed

Q. The Cemetery Department has 5 vehicles listed R. "Softball" Department has 1 vehicle listed S. The Grant Department has 1 vehicle listed

T. The Jets Bus has 20 vehicles listed

U. The total amount of cars/trucks/mowers/city equipment is 430!

Are ALL the above, listed on this 12/12/2019 Fixed Asset Report insured? **Unless they are notated as scrapped, yes, they are insured.**

If the answer is YES, how much money does the City spend on insuring ALL these assets per year?

V. I believe there is 30 cars/truck/equipment that indicated that the City is leasing them. **Older vehicles that are shown as Lease (when purchased) have long been paid off. The only leased vehicles we currently have are Sanitation Trucks**

How much money does the City spend on leasing these assets per year?

2. I'd like to rephrase my number 2 and number 3 questions that I asked Steve on January 13, 2020- and that is:

Who are the employees that work at City Hall or what Department Heads that drive a City vehicle 24/7?

And do these individuals have a credit card to use to put fuel in these vehicles? **Each vehicle has a gas card assigned to it. An employee is assigned a number to be able to use the vehicle so we know who is buying gas for which vehicle.**

3. I still have not received a copy of the sales contract for the Mayor's new automobile. **Attached**
