Better Students:
3% higher ACT scores after studying
the arts
12% higher GPAs

Better Professionals:
Nobel Laureates in sciences are 17
times more likely to be active in the
arts than other scientists.

Better Communities:

higher concentration of arts = lower crime and poverty rates

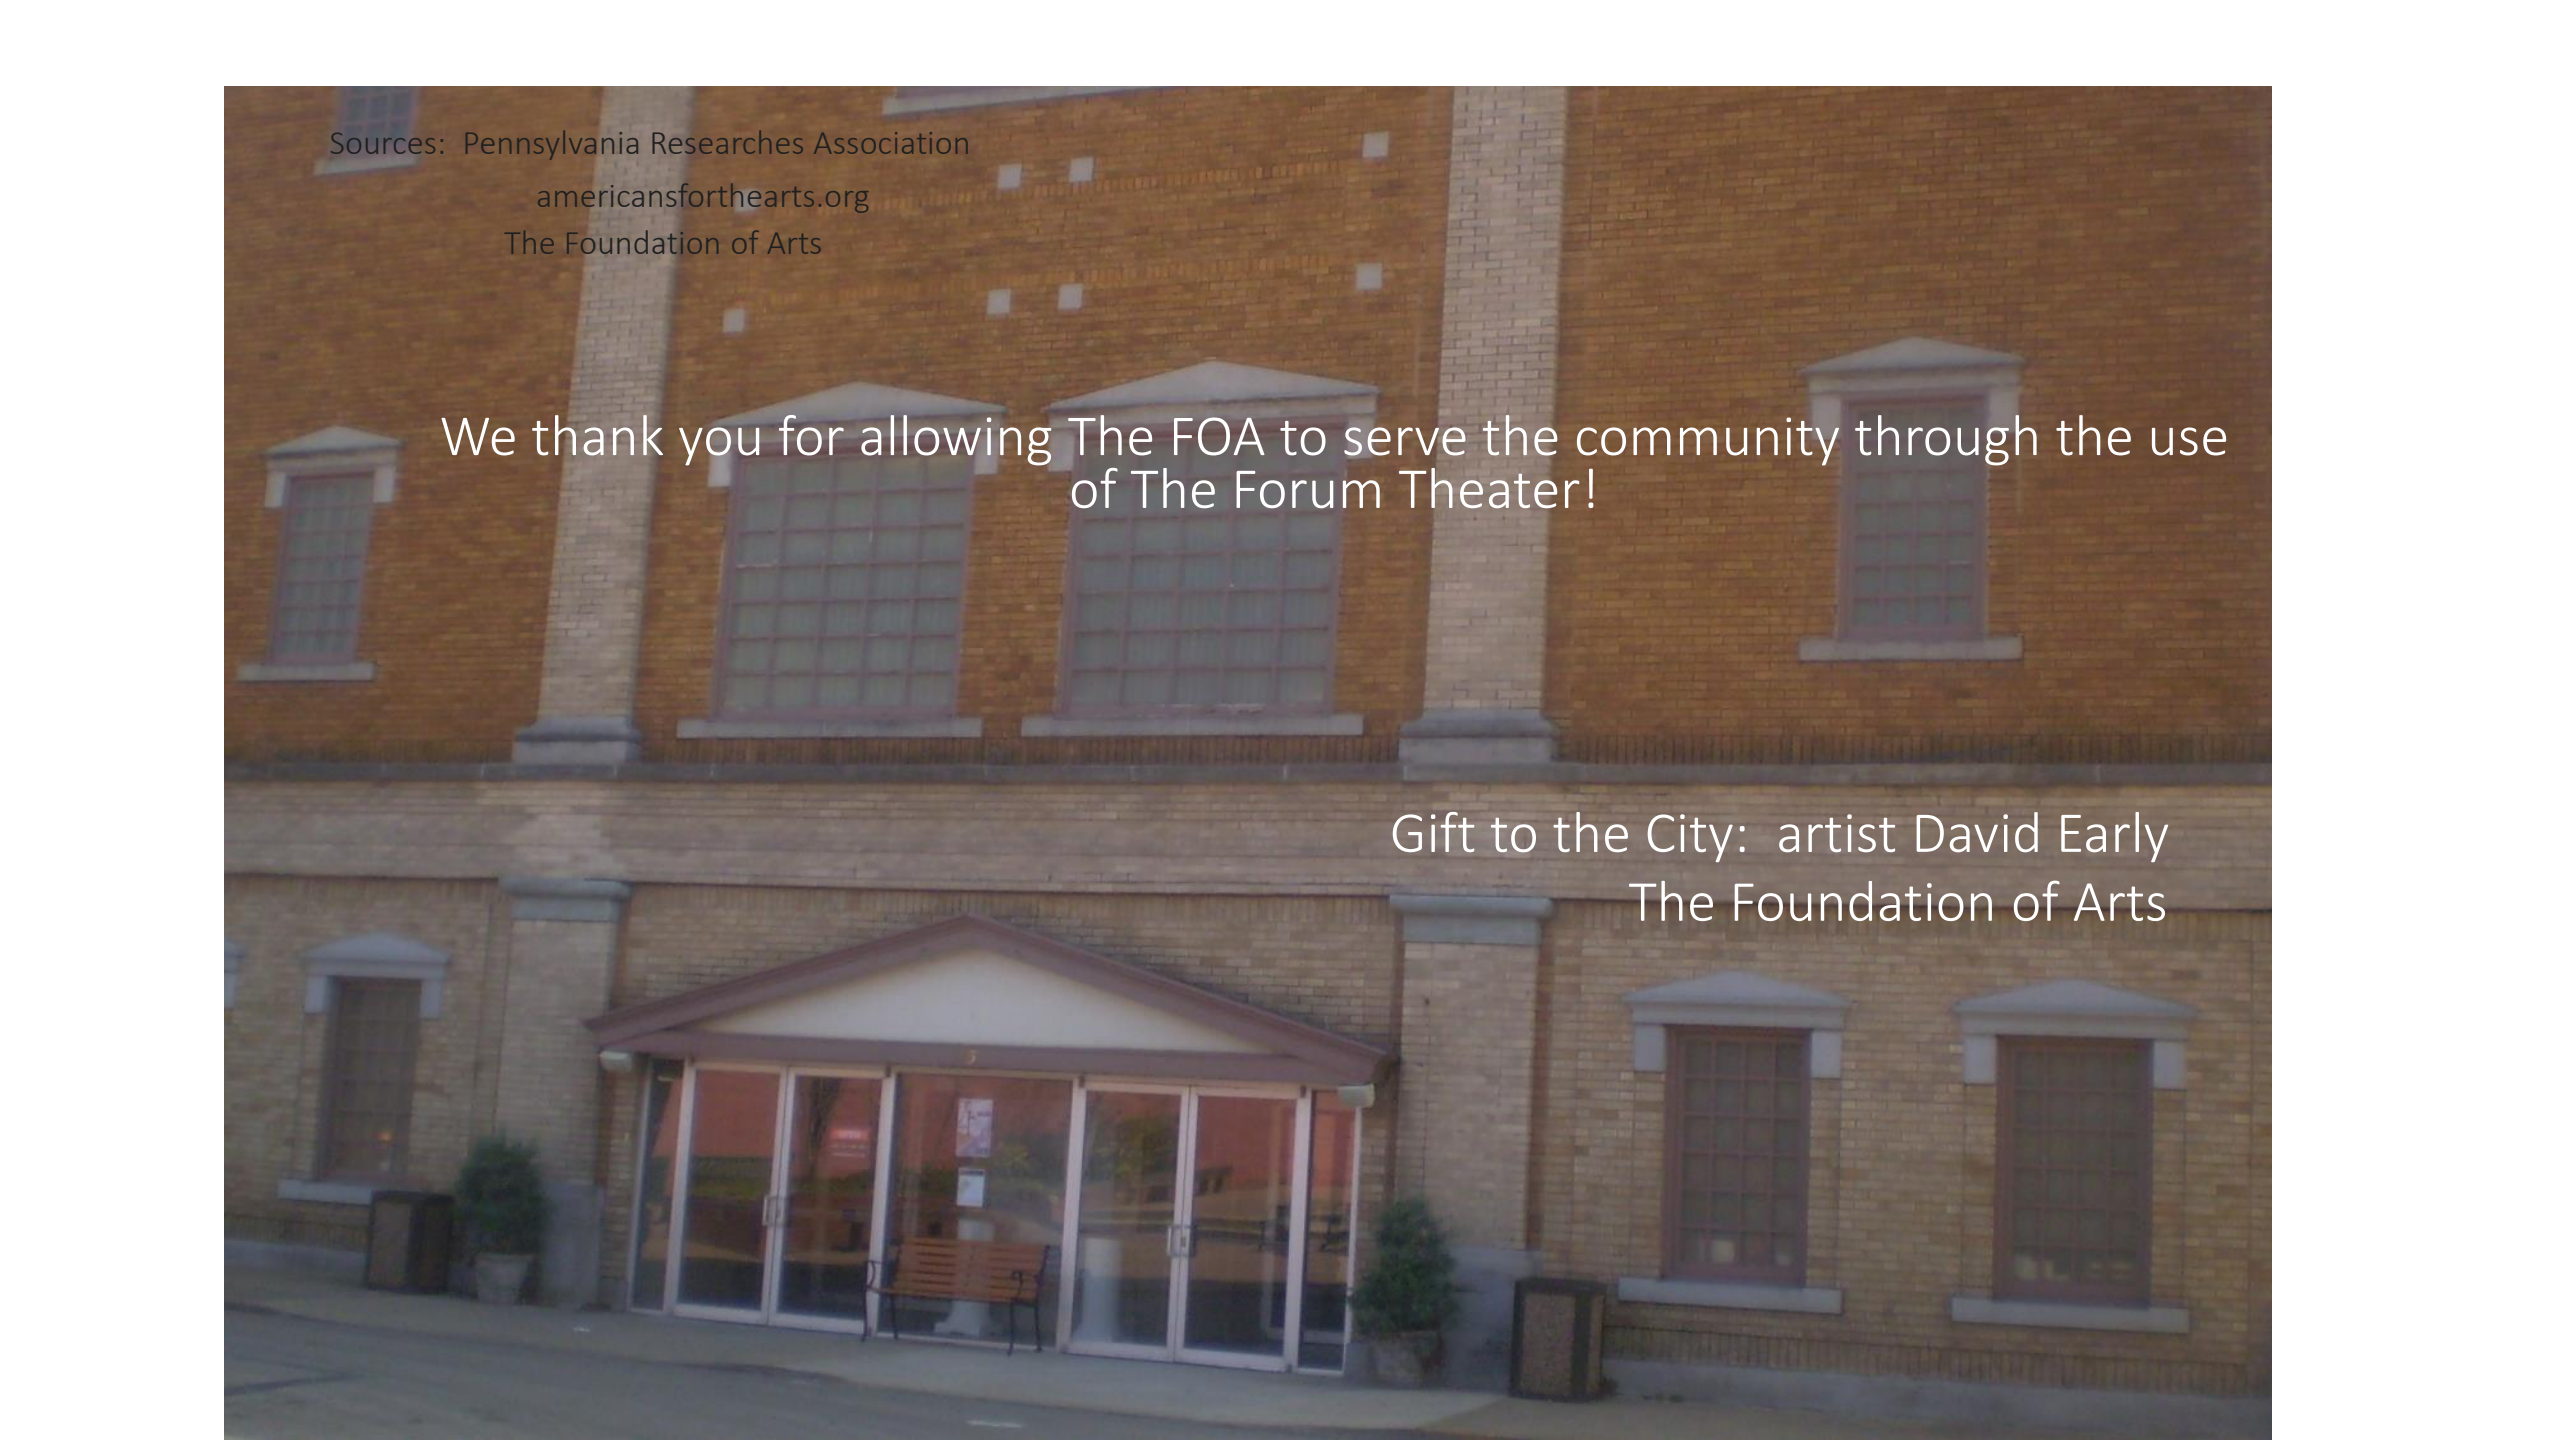

Bigger than Numbers

You are welcome at The FOA!

10 shows
fundraising events
50-70 classes

Be our guest at the first show of the 2015-2016
season!

The image shows the exterior of a brick building. The upper portion is made of dark red brick and features three large, multi-paned windows with white frames and decorative pediments. The lower portion is made of lighter-colored brick and features a glass entrance with a white pediment and a wooden bench in front. There are also two smaller windows on the lower level. The scene is captured at dusk or dawn, with some interior lights visible through the glass entrance.
