**Discussion concerning financial findings of JETS**

*JETS Director Steve Ewart explained there are certain things they were not charged for in previous years such as insurance for fleets and workman's comp. He added certain items are being charged out now, which will require JETS to pay out an additional \$60,000 to \$70,000 next year. He stated JETS has received the money from the City for this year but the additional \$60,000 to \$70,000 expenses will reduce the effectiveness of the City's contribution. He added there are no emergency items that need to be addressed as of now.*

*Councilman Darrel Dover questioned how the City would adjust for the fund accounting charged to JETS. Finance Director Jim Barksdale answered they would do a proposed amendment to the budget and the Council would vote on that item. Councilman John Street questioned if the funds are used to receive federal matching funds. Mr. Ewart answered yes. Councilman Dover requested Mr. Barksdale provide more information at the next meeting concerning how switching to fund accounting will affect the \$130,000 and what the JETS shortfall will be.*

*Discussion was held concerning draw down of the FTA lease reimbursement account and subleasing space to other City departments.*

*Mr. Barksdale stated they are currently required to do accounting on just the cash basis. He added the City would be losing out on additional revenues if the City costed items out.*

*put together a report regarding the lease for the Committee.*
