Application for a Zoning Ordinance Map Amendment  
Attachment for Questions 1 – 14 on second page of Application

Rezoning Information:

1. How was the property zoned when the current owner purchased it? R-2
2. What is the purpose of the proposed rezoning? Why is the rezoning necessary? The applicant desires to build a “TeamClean” express tunnel carwash similar to the one on the corner of Stadium and Nettleton Avenue. R-2 zoning does not allow for the construction of an automated carwash.
3. If rezoned, how would the property be developed and used? A “TeamClean” express tunnel carwash similar to the one on the corner of Stadium and Nettleton Ave. would be constructed.
4. What would be the density or intensity of development (e.g. number of residential units; square footage of commercial, institutional, or industrial buildings)? The carwash tunnel would be approximately 3,700 sq. feet of enclosed space.
5. Is the proposed rezoning consistent with the *Jonesboro Comprehensive Plan* and the *Future Land Use Plan*? Yes. It is within the boundaries of thoroughfare commercial.
6. How would the proposed rezoning be in the public interest and benefit the community? The commercial development will provide a service to the city of Jonesboro by providing a “stay in your car” express tunnel carwash (another “TeamClean” carwash) for the southwest side of Jonesboro, as well as adding additional tax revenue to the City of Jonesboro and the Jonesboro School District.
7. How would the proposed rezoning be compatible with the zoning, uses, and character of the surrounding area? The proposed rezoning is located on Southwest Drive, a major arterial thoroughfare, with retail commercial businesses within 200 yards of the property. The adjacent property to the northwest and southwest are multi-family dwellings and a large church is located to the northeast.
8. Are there substantial reasons why the property cannot be used in accordance with existing zoning? There is not sufficient acreage to develop as multi-housing and the highest and best use of this property is commercial and consistent with the remainder of Southwest Drive which is overwhelmingly commercial.
9. How would the proposed rezoning affect nearby property including impact on property value, traffic, drainage, visual appearance, noise, light, vibration, hours of use or operation, and any restriction to the normal and customary use of the

affected property? The appearance of the carwash is very nice: the building consists of brick and block, high elevations, and many windows and nice landscaping. The hours of operation are 8:00 a.m. to 7:00 p.m. Mon. through Sat. and is always attended by staff when open. Given the hours of operation and the location on a busy commercial thoroughfare, there should be no adverse impact on adjacent property owners or land values. This is a redevelopment of a HUD housing project which was condemned by the City of Jonesboro and demolished.

10. How long has the property remained vacant? Approximately 1 year.
11. What impact would the proposed rezoning and resulting development have on utilities, streets, drainage, parks, open space, fire, police, and emergency medical services? Utilities, drainage and city services are adequate for the redevelopment of this property as an automated carwash.
12. If the rezoning is approved, when would development or redevelopment begin? Immediately.
13. How do neighbors feel about the proposed rezoning? Please attach minutes of the neighborhood meeting held to discuss the proposed rezoning or notes from individual discussions. *If the proposal has not been discussed with neighbors, please attach a statement explaining the reason. Failure to consult with neighbors may result in delay in hearing the application.* The current owner of this property owns the adjacent property to the northwest and fully supports this rezoning request. The applicant plans to meet with and discuss this proposed rezoning with adjacent property owners prior to the public hearing by the MAPC.
14. If this application is for a Limited Use Overlay (LUO), the applicant must specify all uses desired to be permitted. Automated carwash only. There will be no self-service carwash bays.
