**Subject:** IPMC - International Property Maintenance Code

City Council Members:

I am a homeowner in Jonesboro. I understand that the you, as our current council members, are wanting to implement the IPMC code. I am e-mailing to ask that this be placed on the ballet and let the citizens, homeowners and voters decide whether or not this should be implemented. It should be a decision made by **ALL** interested parties, not just a select number of individuals, i.e., Council Members.

Thank you,

Sandra Arwood
