RE: Bramblewood Subdivision

Dear Sirs:

TCI of Arkansas has no objection to the proposed reduction in the width of the Utility Easement on Lots 1 and 3 of Bramblewood Subdivision from a total width of twenty five (25') feet to a total width of ten (10') feet and to reduce the Utility Easement at the rear of Lot 4 from a total of twenty five (25') feet to a total width of twenty (20') feet.

The proposed width of the Utility Easement will provide ample space for our facilities. It is also understood that this proposal will have no effect on the ten (10') foot drainage easement as shown.

Sincerely
TCI of Arkansas

Garry Bowman

RE: Bramblewood Subdivision

Dear Council Members and Other Concerned Parties:

City Water and Light has no objection to the proposed reduction in the width of the Utility Easement on Lot 1 and 3 of Bramblewood Subdivision from a total width of twenty five feet (25') to a total width of ten feet (10'), and to reduce the Utility Easement at the rear of Lot 4 from a total width of twenty-five feet (25') to a total width of twenty feet (20').

Due to a revision in our plans, the sewer lines will be in a location other than that originally proposed, and the need for the additional width as requested in the staff review for Final Approval has been eliminated. We hereby endorse the proposed revision in the easement width. We also understand that this endorsement will have no effect on the ten foot (10') drainage easement as shown.

Sincerely,

RE: Bramblewood Subdivision

Dear Council Members and Other Concerned Parties:

Arkansas Louisiana Gas has no objection to the proposed reduction in the width of the Utility Easement on Lot 1 and 3 of Bramblewood Subdivision from a total width of twenty five feet (25') to a total width of ten feet (10'), and to reduce the width of the Utility Easement at the rear of Lot 4 from a total width of twenty-five feet (25') to a total width of twenty feet (20').

Our facilities will be located within the street Rights-of-Way as is usually the case, and we have ne need for the additional width at the rear of the lots. We hereby endorse the proposed revision in the easement width. We also understand that this endorsement will have no effect on the ten foot (10') drainage easement as shown.

Sincerely,

James A. Jones construction foreman
Arkansas Louisiana Gas
