Average annual food away from home expenditures of U.S. households 2010-2020

Published by Nils-Gerit Wunsch, Sep 27, 2021

This timeline depicts the average annual food away-from-home expenditure of United States households from 2010 to 2020. In 2020, average food away-from-home expenditure of U.S. households amounted to about 2,375 U.S. dollars. compared to 2019 this is a significant drop that is more than likely a result of the COVID-19 pandemic.
