This item was Filed.

COM-15:046 Mosquito Control report for June, 2015

[play video](#)

Attachments: [June Mosquito Report](#)

Councilman Vance noted the city has been experiencing a bad mosquito problem lately. He added he thinks Vector is trying, but they may need to try harder to get the problem under control. Chairman Johnson explained the recent wet weather probably made the problem worse and the company may have gotten behind. Councilman Moore asked how many times Vector has flown over the city. Chairman Johnson and Councilman Vance both stated they only know of the company flying over the city twice so far this year. Further discussion was held concerning the mosquito issue. Councilman Moore suggested the city may have to look at paying for additional flights over the city. He noted last year when the city paid for more flyovers, he didn't think it cost that much. Chairman Johnson agreed. He also suggested having Jim Stark from Vector at the next meeting to give an update.

Councilman Moore explained he would be in favor of the city being sprayed every week between the flood stage and the harvest stage. Chairman Johnson noted they discussed doing that last year. Councilman Moore also noted the city may want to consider those options during the budget time.
