Dear Jonesboro Area Business Owner:

The City of Jonesboro was recently introduced to an exciting new internet project. When completed, this project will provide Jonesboro area businesses with another way to communicate with potential customers.

The City of Jonesboro has accepted the services of Rochester, New York-based CGI Communications, Inc. (www.cgicomcommunications.com). eLocalLink, a division of CGI Communications will produce an online video program that will highlight the Jonesboro area's business/industry, education, health care, recreation, and housing assets and attributes.

It will now be possible for a limited number of Jonesboro businesses to share their story with visitors to the City's website by using video streaming. When the project is completed, the City of Jonesboro' website (www.jonesboro.org) will serve as the entrance for Jonesboro's story on the internet.

The City of Jonesboro certainly wishes eLocalLink, a division of CGI Communications, Inc., well in this endeavor and looks forward to the final product. Thank you in advance for your consideration and support.

Sincerely,

Doug Formon
Mayor
