VECTOR MOSQUITO CONTROL REPORT FOR THE CITY OF JONESBORO FOR THE MONTH OF JULY 2023

Attachments: [July 2023](#)

Chairman Mitch Johnson said, looks like they had a good count of mosquitoes for the month, in the last traps. Looks like they drove 1,193 and a half spray miles for 43,396 acres in the month of July. Jim was going to be in attendance, but he called me this morning and they're flying the plane for the next three nights, here in town as well as another out of town location. I don't know if they'll do us tonight and tomorrow night but we'll be two consecutive nights. They'll fly the north side of the bypass and then the south side, which will be our sprays, five and six. It will leave us with two aerial flights left on our current eight contract for the year. Jim said he felt like the sprays would be adequate to get us through the rest of the season, he felt, at the position we were in. Looks like they're variable to me. Sometimes there worse than

others. I did ask Jim if he had heard anything from ASU or anything like that. He said no one's reached out to him. I don't know if that's something we're going to have to follow up with the mayor on or not.
