### 2. Roll Call by City Clerk Donna Jackson

**Present** 5 - Gene Vance; Chris Gibson; Chris Moore; Mitch Johnson and Todd Burton

### 3. Approval of minutes

**MIN-14:069** Minutes for the Public Safety Committee meeting on June 17, 2014

Attachments: [Minutes](#)

**A motion was made by Councilman Chris Moore, seconded by Councilman Chris Gibson, that this matter be Passed . The motion PASSED with the following vote.**

**Aye:** 5 - Gene Vance; Chris Gibson; Chris Moore; Mitch Johnson and Todd Burton

### 4. New Business

### 5. Pending Items

### 6. Other Business

**COM-14:063** Mosquito control report by Vector Disease Control for June 2014

Attachments: [June 2014 mosquito report](#)

*Mr. Jim Stark with Vector Disease Control explained the City had a major hatch of floodwater mosquitoes around June 27 and then a few days later they had a hatch of mosquitoes from the rice fields. He stated they have continuously worked on combating the mosquitoes since June 29 and they have seen the light trap numbers go down.*

*Mr. Stark stated he has received one used truck and one new truck today. He added he was told that Jonesboro is going to be receiving two new trucks and if he gets to keep the trucks he received today the City would be in good shape since the City is growing. He noted the airplane will be flying tonight.*

*Councilman Moore asked if Vector Disease Control flew the airplane between July 1 and July 6 because the mosquitoes seemed to be better by July 6. Mr. Starks answered they flew the plane on July 2.*

*Councilman Moore then inquired what the amount of the contract they have with the City is. Mr. Stark answered approximately \$439,000 and the contract allows for a yearly increase.*

*Councilman Moore questioned how long the mosquito season will last. Mr. Stark answered normally from July 1 to October 1.*

*Councilman Moore inquired how much it costs to fly and spray the City for one aerial flight. Mr. Chris New with Vector Disease Control answered he would need to contact his chief pilot for that answer.*

*Councilman Moore asked if there is a certain amount of chemicals Vector is not allowed to use that would prevent them from flying every week during the time when the rice fields are flooded. Mr. New answered he does not think so. He added the way the contract is structured now allows for them to bring the plane to the city every other week.*

*Councilman Moore stated he thinks the City needs to look at restructuring the contract that would allow for the City to be sprayed every week during the time the rice fields are flooded. He added he would like to know what it would cost to have them spray every week. He noted it would be roughly five additional aerial sprays and he believes it would be approximately a 10% increase in the contract price. Mr. New explained he would look into that. Mayor Perrin explained if he knew the cost per flight he would be able to do an addendum to the contract.*

*Further discussion was held concerning restructuring the contract.*

*Discussion was held concerning purchasing new spray trucks. Mr. New explained they hope to have 3 new spray trucks in service by the end of next week, along with the two new trucks they received today.*

**This item was Read.**

## **7. Public Comments**

## **8. Adjournment**

**With no further business, Chairman Johnson adjourned the meeting.**

## **City of Jonesboro Activity Report**

July 2014

Vector Disease Control, Inc. (VDCI) provides a proven, scientific approach to mosquito control for the city of Jonesboro. VDCI's operations include larval and adult mosquito surveillance followed by the application of larvicides and adulticides. In addition, our office responds to service requests from the public.

### **Mosquito Surveillance**

VDCI has utilized a total of thirteen (13) New Jersey light traps placed in residential and recreational areas throughout Jonesboro during this reporting period. These traps collected an average of 57.9 mosquitoes per trap night (2,199 total mosquitoes) during this time. There have been a total of 4 mosquito species collected, with *Anopheles quadrimacullatus* being the most predominant species.

### **Larval Control Activity**

Permanent water, flood water, artificial containers, and drainage system sites are inspected for larval mosquito breeding on a regular basis. In total, 76 sites were inspected fifteen sites had the presence of mosquito larvae. As a result of these inspections 74.0 ounces of the larvicide Aquabac 200G was applied to these mosquito breeding sites.

Additionally, VDCI is continuing to eliminate breeding habitats for artificial container mosquitoes by targeting bird baths, buckets, tires, etc.

## ADULT MOSQUITO CONTROL ACTIVITY

In response to community events and mosquito surveillance data, VDCI applied adulticide (25) truck night for this reporting period. All adulticide ULV applications were made with truck-mounted ULV units equipped with GPS-enabled monitors. During this report period, a total of 2,360.2 spray miles (81,563.6 acres) were treated with a total of 671.0 gallons of adulticide in residential and recreational areas. In addition to routine truck spraying, VDCI has responded to 324 service request and adulticided all parks and special events during this month.

### **Summary**

During this reporting period, VDCI has continued to provide exceptional control of larval and adult mosquito populations. VDCI will remain diligent in our surveillance and control activities to prevent a significant increase in the mosquito population. Based on recent weather conditions VDCI expects the trend of routine adulticiding and larviciding to continue. However, if VDCI detects a significant rise in the mosquito population we will increase larval and adult control. As always, VDCI welcomes residents with any mosquito-related questions or concerns to contact VDCI's Jonesboro office directly at 870.933.6939.
