Re: Approval for an 8' Privacy Fence @ 2305 Arrowhead Drive for  
Dental Solutions Dental Office

Dear Sirs,

We write this letter to you seeking approval for construction of a new 8' privacy fence at the address shown above.

We are planning to replace our dilapidated 6' wood privacy fence along our back property line with a new fence. This current fence does not offer any privacy from the daily traffic from Harrisburg Road as the road sits up considerably higher than our property. We would like to have an 8' tall fence installed which would offer some privacy from the traffic and the noise.

There is currently an 8' tall fence on the back property line of our neighbor that sits to the left (South) of our property (See google map picture) so our fence line would continue on matching theirs.

Sincerely,

Julie Waldo
