

**The Department of Homeland Security (DHS)
Notice of Funding Opportunity (NOFO)
Fiscal Year 2019 Assistance to Firefighters Grant Program (AFG)**

NOTE: If you are going to apply for this funding opportunity and have **not** obtained a Data Universal Numbering System (DUNS) number and/or **are not** currently registered in the System for Award Management (SAM), please take immediate action to obtain a DUNS Number, if applicable, and then to register immediately in SAM. It may take four weeks or more after you submit your SAM registration before your registration is active in SAM, then an additional 24 hours for Grants.gov to recognize your information. Information on obtaining a DUNS number and registering in SAM is available from Grants.gov at: <http://www.grants.gov/web/grants/register.html>. Detailed information regarding DUNS and SAM is also provided in [Section D – Application and Submission Information](#) of this NOFO, subsection, Content and Form of Application Submission. An active registration is required in order to apply for funding.

Program Overview, Objectives, and Priorities

Overview

The Fiscal Year (FY) 2019 Assistance to Firefighters Grant (AFG) Program is one of three grant programs that constitute the Department of Homeland Security (DHS), Federal Emergency Management Agency's (FEMA) focus on enhancing the safety of the public and firefighters with respect to fire and fire-related hazards. The AFG Program accomplishes this by providing financial assistance directly to eligible fire departments, nonaffiliated emergency medical service (EMS) organizations, and State Fire Training Academies (SFTA) for critical training and equipment. The AFG Program represents one part of a comprehensive set of measures authorized by Congress and implemented by DHS. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, the AFG Program supports the goal to Strengthen National Preparedness and Resilience. In awarding grants, the Administrator of FEMA is required to consider the following:

- The findings and recommendations of the Technical Evaluation Panel (TEP);
- The degree to which an award will reduce deaths, injuries, and property damage by reducing the risks associated with fire related and other hazards;
- The extent of an applicant's need for an AFG grant and the need to protect the United States as a whole; and
- The number of calls requesting or requiring a firefighting or emergency medical response received by an applicant.

The [2018-2022 FEMA Strategic Plan](#) creates a shared vision for the field of emergency management and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. The AFG Program supports the goal of Ready the Nation for Catastrophic Disasters. We invite all of our stakeholders and partners to also adopt these priorities and join us in building a stronger Agency and a more prepared and resilient Nation.

Objectives

The objectives of the AFG program are to provide critically needed resources that equip and train emergency personnel to recognized standards, enhance operational efficiencies, foster interoperability, and support community resilience.

Priorities

Information on program priorities and objectives for the FY 2019 AFG can be found in [Appendix B](#), FY 2019 AFG Programmatic Information and Priorities.

Performance Metrics

Performance metrics for this program are as follows:

- Percentage of AFG PPE recipients who equipped 100 percent of on-duty active members with PPE in compliance with applicable NFPA and OSHA standards
- Percentage of AFG equipment recipients who reported that the AFG grant brought them into compliance with either state, local, NFPA, or OSHA standards
- Percentage of AFG award recipients who reported having successfully replaced their fire vehicles 25 years old or older in accordance with industry standards

B. Federal Award Information

Award Amounts, Important Dates, and Extensions

Available Funding for the NOFO: \$315,000,000¹

Projected number of Awards: 2,500

Period of Performance: Twelve months from the date of award. For additional information on period of performance extensions, refer to Section H.

Projected Period of Performance Start Date(s): May 1, 2020

Projected Period of Performance End Date(s): April 30, 2021

Funding Instrument: Grant

C. Eligibility Information

Eligible Applicants

Fire Departments: Fire departments operating in any of the 50 states, as well as fire departments in the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico,² or any federally recognized Indian tribe or tribal organization. A fire department is an agency or organization having a formally recognized arrangement with a state, local, tribal or territorial authority (city, county, parish, fire district, township, town or other governing body) to provide fire suppression to a population within a

¹ Note that this figure differs from the total amount appropriated under the *Department of Homeland Security Appropriations Act, 2019*, Pub. L. No. 116-6. In this FY 2019 AFG NOFO, percentages of “available grant funds” refers to the total amount appropriated—\$350,000,000—by Pub. L. No. 116-6 to meet the statutory requirements of § 33 of the *Federal Fire Prevention and Control Act of 1974*, as amended (codified at 15 U.S.C. § 2229). A portion of these “available grant funds” will be allocated to the Fire Prevention & Safety (FP&S) program, which will have a separate NOFO and application period. \$35,000,000 will be allocated to FP&S for FY 2019.

² The District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico are all defined as “States” in the *Federal Fire Prevention and Control Act of 1974*. See 15 U.S.C. § 2203(10).

geographically fixed primary first due response area.

Nonaffiliated EMS organizations: Nonaffiliated EMS organizations operating in any of the 50 states, as well as, the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico,² or any federally recognized Indian tribe or tribal organization. A nonaffiliated EMS organization is an agency or organization that is a public or private nonprofit emergency medical service entity providing medical transport that is not affiliated with a hospital and does not serve a geographic area in which emergency medical services are adequately provided by a fire department. FEMA considers the following as hospitals under the AFG Program:

- Clinics
- Medical centers
- Medical college or university
- Infirmary
- Surgery centers
- Any other institution, association, or foundation providing medical, surgical, or psychiatric care and/or treatment for the sick or injured.

State Fire Training Academies: A State Fire Training Academy (SFTA) operates in any of the 50 states, as well as the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa and the Commonwealth of Puerto Rico.² Applicants must be designated either by legislation or by a Governor's declaration as the sole fire service training agency within a state, territory, or the District of Columbia. The designated SFTA shall be the only agency/bureau/division, or entity within that state, territory or the District of Columbia, to be an eligible AFG SFTA applicant.

Eligible Activities

AFG has three activities:

- Operations and Safety
- Vehicle Acquisition
- Regional Projects

Each activity has its own eligibility requirements. These requirements are outlined in [Appendix B: Programmatic Information and Priorities](#).

Other Eligibility Criteria

National Fire Incident Reporting System (NFIRS)

NFIRS reporting is not a requirement to apply for any AFG Program; however, fire departments that receive funding under this program must agree to provide information to the NFIRS for the period covered by the assistance. If a recipient does not currently

participate in the incident reporting system and does not have the capacity to report at the time of the award, that recipient must agree to provide information to the system for a twelve-month period commencing as soon as possible after they develop the capacity to report. Capacity to report to the NFIRS must be established prior to the termination of the one-year performance period. The recipient may be asked by FEMA to provide proof of compliance in reporting to NFIRS. Any recipient that stops reporting to NFIRS during their grant's period of performance may be subject to the remedies for noncompliance at 2 C.F.R. § 200.338, unless it has yet to develop the capacity to report to NFIRS, as described above. There is no NFIRS reporting requirement for nonaffiliated EMS organizations or SFTAs.

Note: Although data collection is an important tool for understanding and justifying assistance, participation in other data sources, (e.g., National Fire Operations Reporting System [NFORS]) does not satisfy the requirement for reporting to NFIRS).

National Incident Management System (NIMS) Implementation

AFG applicants are not required to be in compliance with NIMS to apply for AFG funding or to receive an AFG award. Any applicant who receives an FY 2019 AFG award must achieve the level of [NIMS compliance](#) required by the Authority Having Jurisdiction (AHJ) over the applicant's emergency service operations (e.g., a local government), prior to the end of the grant's period of performance.

Maintenance of Effort

Pursuant to 15 U.S.C. § 2229(k)(3), an applicant seeking an AFG grant shall agree to maintain, during the term of the grant, the applicant's aggregate expenditures relating to activities allowable under this NOFO, at not less than 80 percent of the average amount of such expenditures in the two fiscal years prior to the fiscal year an AFG grant is awarded.

In other words, an applicant agrees that, if it receives a grant award, the applicant agrees to keep its overall expenditures during the award's period of performance (including those funded with non-Federal funding) for activities that could be allowable costs under this AFG NOFO at a level that is at least 80 percent or more of the average of what the applicant spent on such costs for those activities in fiscal years 17 and 18.

Cost Share or Match

Recipient cost sharing is generally required as described below and pursuant to 15 U.S.C. § 2229(k)(1). In general, eligible applicants shall agree to make available non-federal funds to carry out an AFG award in an amount equal to and not less than 15 percent of the grant awarded. Exceptions to this general requirement apply to entities serving smaller communities as follows:

- When serving a jurisdiction of 20,000 residents or fewer, the applicant shall agree to make available non-federal funds in an amount equal to not less than 5 percent

- of the grant awarded;
- When serving a jurisdiction of more than 20,000 residents, but not more than 1 million residents, the applicant shall agree to make available non-federal funds in an amount equal to not less than 10 percent of the grant awarded;
- When serving a jurisdiction of more than 1 million residents, the applicant shall agree to make available non-federal funds in an amount equal to not less than 15 percent of the grant awarded.

The cost share for SFTAs will apply the requirements above based on the total population of the state. The cost share for a Regional application will apply the requirements above based on the aggregate population of the primary first due response areas of the Host and participating partner organizations that execute a Memorandum of Understanding (MOU) as described in [Appendix B](#), Section J, Regional projects.

FEMA has developed a cost share calculator tool in order to assist applicants with determining their cost share. The cost share tool is available at: <https://www.fema.gov/media-library/assets/documents/153366>

Types of Cost Share

- i. ***Cash (Hard Match)***: Cost share of non-federal cash is the only allowable recipient contribution for AFG activity (Vehicle Acquisition, Operations and Safety, and Regional).
- ii. ***Trade-In Allowance/Credit***: On a case-by-case basis, FEMA may allow recipients already owning assets acquired with non-federal cash, to use the trade-in allowance/credit value of those assets as cash for the purpose of meeting their cost share obligation. For FEMA to consider a trade-in allowance/credit value as cash, the allowance amount must be reasonable, and the allowance amount must be a separate entry clearly identified in the acquisition documents.
- iii. ***In-kind (Soft Match)***: In-kind cost share is not allowable for AFG.

The award budget will not account for any voluntary committed cost sharing or overmatch. The use of an overmatch is not given additional consideration when scoring applications.

Economic Hardship Waivers

The Administrator of FEMA may waive or reduce recipient cost share or maintenance of effort requirements in cases of demonstrated economic hardship. Please see [Appendix C: Award Administration Information](#) for additional information.

D. Application and Submission Information

Key Dates and Times

Date Posted to Grants.gov:	January 27, 2020
Application Start Date:	February 3, 2020 at 8:00 AM ET

Application Submission Deadline: March 13, 2020 at 5:00 PM ET
Anticipated Funding Selection Date: April 30, 2020
Anticipated Award Date: April 30, 2020

In general, DHS/FEMA will not review applications received after the deadline or consider them for funding. DHS/FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicant’s control that prevent submission of the application by the deadline, or other exigent or emergency circumstances. If applicants experience technical issues, they must notify the AFG Help Desk as soon as possible. The AFG Help Desk can be reached at 1-866-274-0960 or by e-mail: firegrants@fema.dhs.gov. The AFG Help Desk is open Monday – Friday, 8:00am – 4:00pm Eastern Time.

Other Key Dates

Event	Suggested Deadline for Completion
Obtaining DUNS Number	Four weeks before actual submission deadline
Obtaining a valid EIN	Eight weeks before actual submission deadline
Updating SAM registration	Four weeks before actual submission deadline
Register Organization in FEMA GO	Prior to beginning application
Submitting complete application in FEMA GO	One week before actual submission deadline

Agreeing to Terms and Conditions of the Award

By submitting an application, the applicant agrees to comply with the requirements of this NOFO and the terms and conditions of its award, should the applicant receive an award.

Address to Request Application Package

The online FY 2019 AFG application is only available via the Assistance to Firefighters Grant Program’s FEMA GO (FEMA Grants Outcomes) application portal, at <https://go.fema.gov>.

Note: Hard copies of the application are not available. However, the Telephone Device for the Deaf (TDD) and/or Federal Information Relay Service (FIRS) number available for this Notice is: (800) 462-7585.

FEMA will process applications through FEMA GO. Application tutorials and Frequently Asked Questions (FAQs) explain the current AFG grant program, assist with the online grant application, and highlight lessons learned and changes for FY 2019. For more details, please visit the AFGP website at <http://www.fema.gov/firegrants>.

Content and Form of Application Submission

DHS makes all funding opportunities available on the internet, accessible at <http://www.grants.gov>. If applicants experience difficulties accessing information or have any questions, please call the Grants.gov Contact Center at (800) 518-4726.

The Grants.gov website will direct applicants to FEMA GO, at <https://go.fema.gov>, which contains the online AFG application. The online AFG application incorporates all required forms.

FEMA GO will allow the applicant's authorized representative(s) to log in and create their own account. This account is specific to the authorized user and must not be shared with other personnel. The FEMA GO account is separate from any previous accounts created in the eGrants system. Applicants can save, retrieve, update and revise their work through the end of the application period. The automated system does not allow applicants to submit incomplete applications. The system alerts applicants when required information has not been entered. Prior to final submission, an online application may be saved, retrieved, or edited up to the application deadline.

Technological Note: FEMA GO is compatible with Internet Explorer (version 11 or higher), Firefox (version 63 or higher), or Chrome (version 70 or higher). Users who attempt to use tablet type devices or other browsers may encounter issues with using FEMA GO.

NO APPLICATIONS WILL BE RELEASED BACK TO THE APPLICANT AFTER FINAL SUBMISSION

After an application has been completed and submitted, no changes can be made. There is no appeal process for inaccurate or incomplete information retained by the system due to improper or multiple browser usage by applicants.

Unique Entity Identifier and System for Award Management (SAM)

*All applicants for this award **must**:*

- 1. Be registered and active in SAM in order to apply;*
- 2. Provide a valid DUNS number in its application; and*
- 3. Continue to maintain an active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by a DHS FAO.*

DHS/FEMA may not make a federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time DHS/FEMA is ready to make a federal award, DHS/FEMA may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making the federal award to another

applicant.

Electronic Delivery

DHS is participating in the Grants.gov initiative that provides the grant communities a single site to find grant funding opportunities. Before applying for a DHS Grant, applicants must have a [Data Universal Number System, or DUNS number](#), and must be registered and active in SAM.

DUNS Number

All entities applying for funding, including renewal funding, must have a Data Universal Numbering System (DUNS) number from Dun & Bradstreet (D&B). Applicants must enter the DUNS number in the data entry field labeled "Organizational DUNS" on the SF-424 form. Instructions for obtaining a DUNS number can be found at the following website: <http://www.grants.gov/web/grants/applicants/organization-registration/step-1-obtain-duns-number.html>.

System for Award Management (SAM)

Applicant registration in SAM is free. All applicants must be registered and active in order to apply online. Step-by-step instructions for registering with SAM can be found here: [SAM Registration Home Page](#). Please remember that SAM registration is only active for one year and must be renewed annually.

Existing SAM.gov account holders should check their account to make sure it is "ACTIVE." SAM registration should be completed at the very beginning of the application period and renewed annually to avoid becoming "INACTIVE."

Please allow plenty of time before the grant application submission deadline to obtain a DUNS number and then to register in SAM. It may take four weeks or more after the applicant submits the SAM registration before the registration is active in SAM, then an additional 24 hours for Grants.gov to recognize the information.

FEMA may not make a federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time DHS is ready to make a federal award. DHS may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant.

IMPORTANT: The SAM registration process must be completed by the applicant. It is imperative that the information provided by the applicant is correct and current. Please ensure that your organization's name, address, DUNS number, and [Employer Identification Number, or EIN](#), are up to date in SAM and that the DUNS number used in SAM is the same one used to apply for all other FEMA awards. The organization's name on the SF 1199A Direct Deposit Form must be entered as it appears in SAM. Payment under any FEMA award is contingent on the recipient's having a current SAM registration.

Help with SAM

The SAM quick start guide for new recipient registration and SAM video tutorial for new applicants are tools created by the General Services Administration (GSA) to assist those registering with SAM. If applicants have questions or concerns about a SAM registration, please contact the Federal Support Desk at <https://www.fsd.gov/fsd-gov/home.do> or call toll free (866) 606-8220.

How to Get a Commercial and Government Entity (CAGE) Code

To get a CAGE code, applicants must first be registered in SAM, which is a requirement for doing business with the Federal Government. Applicants will be assigned a CAGE code as part of the SAM validation process, and as soon as the registration is active, applicants may view the CAGE code online by logging in to the SAM account.

Timely Receipt Requirements and Proof of Timely Submission

All applications must be received by March 13, 2020 at 5 p.m. Eastern Time. FEMA GO automatically records proof of timely submission and the system generates an electronic date/time stamp when FEMA GO successfully receives the application. The individual with the Authorized Organization Representative (AOR) role that submitted the application will also receive the official date/time stamp and a FEMA GO tracking number in an email serving as proof of their timely submission on the date and time that FEMA GO received the application. Applications received by FEMA GO after the established due date for applications will be considered late and will not be considered for funding.

Applicants using slow internet connections, such as dial-up connections, should be aware that transmission can take some time before FEMA GO receives your application. FEMA GO will provide either an error message or a successfully received transmission in the form of an email sent to the AOR that submitted the application. The FEMA GO Support Center reports that some applicants end the transmission because they think that nothing is occurring during the transmission process. Do not do this – it may cause your application to fail to be submitted and consequently not be considered for funding. Please be patient and give the system time to process the application.

Intergovernmental Review

An intergovernmental review may be required. Applicants must contact their State's Single Point of Contact (SPOC) to comply with the State's process under Executive Order 12372 (see <https://www.archives.gov/federal-register/codification/executive-order/12372.html>; <https://www.whitehouse.gov/wp-content/uploads/2019/02/SPOC-February-2019.pdf>).

Funding Restrictions

Federal funds made available through this award may only be used for the purposes set forth in this award and must be consistent with the statutory authority for the award. Award funds may not be used for matching funds for any other federal grants/cooperative agreements, lobbying, or intervention in federal regulatory or

adjudicatory proceedings. In addition, federal funds may not be used to sue the Federal Government or any other government entity. Failure to adhere to the award conditions will cause the recipient to be considered in default of the grant agreement and may require the return of all federal funds disbursed under the grant.

Federal employees are prohibited from serving in any capacity (paid or unpaid) on the development of any proposal submitted under this program.

Construction

Construction costs are *not eligible* under the AFG grants. Construction includes major alterations to a building that changes the profile or footprint of the structure.

Modifications to facilities activities described in [Appendix A Funding Priorities](#), are not considered construction costs and may be eligible.

Pre-award Costs

Generally, grant funds cannot be used to pay for products and services contracted for or obligated prior to the effective date of the award. Fees for grant writers are considered an exception and may be included as a pre-award expenditure. Further, other costs incurred after the application deadline, but prior to an offer of award, may be eligible for reimbursement only if the following conditions are met:

- The recipient must submit a written request to FEMA to incur such pre-award costs by providing notification (containing the application number and a justification narrative) to FEMA via email to the AFG Help Desk at FireGrants@fema.dhs.gov. The notification to FEMA should be concurrent with the recipient's acquisition activity and must be submitted prior to the effective date of the award.
- The recipient must receive confirmation from FEMA that the expenses have been reviewed and that FEMA has determined the costs to be justified, unavoidable, and consistent with the grant's scope of work.

Fire Departments and Nonaffiliated EMS organizations

The total amount of funding a fire department or nonaffiliated EMS organization recipient may receive under an AFG award is limited to maximum amounts set by §33(c)(2) of the Federal Fire Prevention and Control Act of 1974, as amended (15 U.S.C. § 2229(c)(2)). These award limits are based on two factors: population served and a one percent aggregate amount of available grant funds.

The population of the jurisdiction served by the recipient will determine the maximum amount of AFG funding a recipient is eligible to receive but no recipient may receive an award that exceeds one (1) percent of available grant funds in FY 2019, or \$3,500,000. FEMA may waive this aggregate cap of \$3.5 million in individual cases where FEMA determines that a recipient has an extraordinary need for a grant that exceeds the aggregate cap. FEMA may not waive the statutory funding caps based on population se

The following table explains the maximum funding that a recipient may receive in FY

2019:

Population of jurisdiction served by the recipient	Maximum award in FY 2019	Statutory waiver available subject to extraordinary need?
100,000 or fewer people	No more than \$1 million	None available
100,001 – 500,000 people	No more than \$2 million	None available
500,001 – 1,000,000 people	No more than \$3 million	None available
1,000,001 – 2,500,000 people	No more than \$3.5 million	Yes, but no more than \$6 million
More than 2,500,000 people	No more than \$3.5 million	Yes, but no more than \$9 million

Regional applicants will be subject to the funding limitations based on the total population served by the host and participating partners. Additionally, Regional grants awarded are included in the host organization’s funding limitations. For example: if a recipient serves a population of 100,000 or fewer and is the recipient of a Regional award for \$1 million, they have met their cap and are no longer eligible for additional funds through the Operations & Safety or Vehicle activity.

Allocations and Restrictions of Available Grant Funds by Organization Type

- **Nonaffiliated EMS Organizations:** Not more than 2 percent of available grant funds shall be collectively awarded to all nonaffiliated EMS organization recipients.
- **Emergency Medical Services Providers:** Not less than 3.5 percent of available grant funds shall fund emergency medical services provided by fire departments and nonaffiliated EMS organizations.
- **State Fire Training Academy:** Not more than 3 percent of available grant funds shall be collectively awarded to all State Fire Training Academy recipients. Further, not more than \$500,000 of available grant funds are eligible per applicant.
- **Vehicles:** Not more than 25 percent of available grant funds may be used by recipients for the purchase of vehicles. Of that amount, based on stakeholder recommendations, FEMA intends to allocate 10 percent of the total vehicle funds for ambulances.
- **Micro Grants:** The selection of the voluntary Micro Grant option (cumulative federal funding of \$50,000) for eligible Operations and Safety activities does not impact an applicant’s request or federal participation under the Vehicle Acquisition or Regional projects. Applicants who select Micro Grants under Operations and Safety as a funding opportunity choice may still apply for a Vehicle(s) Acquisition or Regional project.

Management and Administration (M&A) Costs

Management and administrative expenses should be based only on actual expenses or known contractual costs; requests that are simple percentages of the award, without supporting justification, will not be allowed or considered for reimbursement. No more than 3 percent of the federal share of AFG funds awarded may be expended by the recipient for management and administration (M&A) for purposes associated with the AFG award.

Indirect Facilities & Administrative (F&A) Costs

Indirect costs are allowable under this program as described in 2 C.F.R. pt. 200, including 2 C.F.R. § 200.414. Applicants with a negotiated indirect cost rate agreement that desire to charge indirect costs to an award must provide a copy of their negotiated indirect cost rate agreement at the time of application. Applicants that are not required by 2 C.F.R. pt. 200 to have a negotiated indirect cost rate agreement but are required by 2 C.F.R. pt. 200 to develop an indirect cost rate proposal must provide a copy of their proposal at the time of application. Copies of the indirect cost rate agreements or proposals, along with the AFG application number, must be submitted electronically to FireGrants@fema.dhs.gov. Post-award requests to charge indirect costs will be considered on a case-by-case basis and based upon the submission of an agreement or proposal as discussed above.

Environmental and Historical Preservation (EHP)

As a federal agency, DHS/FEMA is required to consider the effects of its actions on the environment and historic properties to ensure that all activities and programs funded by the agency, including grant-funded projects, comply with Federal EHP regulations, laws, and Executive Orders as applicable.

Recipients proposing projects that have the potential to impact the environment, including but not limited to modification or renovation of existing buildings, structures, and facilities, must participate in the DHS/FEMA EHP review process. The EHP review process involves the submission of a screening form that includes a detailed project description that explains the goals and objectives of the proposed project along with supporting documentation, so that DHS/FEMA may determine whether the proposed project has the potential to impact environmental resources and/or historic properties. In some cases, DHS/FEMA may also be required to consult with other regulatory agencies and the public in order to complete the review process. The EHP review process must be completed before funds are released to carry out the proposed project. DHS/FEMA will not fund projects that are initiated without the required EHP Review.

Applicants will be notified via email if EHP review is required and will be provided instructions on how to comply.

Additionally, all recipients are required to comply with FEMA EHP Policy Guidance. EHP Policy Guidance can be found in FP 108-023-1, [Environmental Planning and Historic Preservation Policy Guidance](#).

All modifications to Facility activities, and any renovation to facilities that would qualify as a modification to facilities supporting activities under Training, Equipment, PPE, or Wellness and Fitness, will require an EHP review. Some Equipment activities will require an EHP review as well. Such activities include but are not limited to the installation of:

- Air compressor/fill station/cascade system (fixed) for filling SCBA
- Air quality systems
- Fire/smoke/carbon monoxide alarm systems for the facility (life safety)
- Generators (fixed)
- Sprinklers
- Vehicle exhaust systems (fixed)
- Washer/dryer/extractor

The following activities would not require the submission of the FEMA EHP Screening Form:

- Planning and development of policies or processes
- Management, administrative or personnel actions
- Classroom-based training
- Acquisition of mobile and portable equipment (not involving installation) on or in a building

E. Application Review Information

Funding priorities and criteria for evaluating AFG applications are established by FEMA based on the recommendations from the Criteria Development Panel (CDP). Each year, FEMA convenes a panel of fire service professionals to develop funding priorities for the AFG grant program. The panel makes recommendations about funding priorities as well as developing criteria for awarding grants.

The **nine major fire service organizations** represented on the panel are:

- International Association of Fire Chiefs
- International Association of Fire Fighters
- National Volunteer Fire Council
- National Fire Protection Association
- National Association of State Fire Marshals
- International Association of Arson Investigators
- International Society of Fire Service Instructors
- North American Fire Training Directors

- Congressional Fire Service Institute

The CDP is charged with making recommendations to FEMA regarding the creation or modification of previously established funding priorities as well as developing criteria for awarding grants. The content of this NOFO reflects implementation of the CDP's recommendations with respect to the priorities, direction, and criteria for awards.

FEMA will rank all complete and submitted applications based on how well they match the program priorities for the type of jurisdiction(s) served. Answers to the application's activity specific questions provide information used to determine each application's ranking relative to the stated program priorities.

Application Evaluation Criteria

Prior to making a federal award, the federal-awarding agency is required by 31 U.S.C. § 3321 note, 41 U.S.C. § 2313, and 2 C.F.R. § 200.205 to review information available through any OMB- designated repositories of government-wide eligibility qualification or financial integrity information. Therefore, application evaluation criteria may include the following risk based considerations of the applicant: (1) financial stability; (2) quality of management systems and ability to meet management standards; (3) history of performance in managing federal award (s); (4) reports and findings from audits; and (5) ability to effectively implement statutory, regulatory, or other requirements.

All investments selected for recommendation will also undergo an additional risk review conducted by the DHS/FEMA Grants Management Specialist to evaluate the risk for noncompliance in carrying out the federal award. Using their subject matter expertise, the questions the DHS/FEMA Grants Management Specialist may assess include, but are not limited to:

- Is the applicant on any exclusion lists as identified in the System for Award Management (SAM.gov)?
- If the applicant has received federal funding in the past, has the applicant performed all audits required by the Single Audit requirements under 2 C.F.R. Part 200, Subpart F?
- Has the applicant provided sufficient budget information and justification as required by the NOFO?
- Are the costs proposed by the applicant in the budget information and justification allowable and reasonable based on the criteria set forth in this Manual and the applicable appendix, NOFO, and regulations?
- Is the budget representative of the total cost of performance of the projects?
- If indirect costs are included, has the applicant provided an approved Indirect Cost Rate agreement?
- Is the applicant delinquent on any federal debt?
- Has the applicant had substandard performance in a prior award?
- Is the applicant on the Do Not Pay List?

Based on the outcome of this review, DHS/FEMA may determine that it will not make an award to an applicant that poses a risk of noncompliance. DHS/FEMA may also determine that it will make an award to an at-risk applicant, subject to additional terms and conditions as described in 2 C.F.R. § 200.207.

Supplemental Financial Integrity Review

Prior to making a federal award where the anticipated federal share of a federal award will be greater than the simplified acquisition threshold, currently \$250,000 (see Section 805 of the National Defense Authorization Act for Fiscal Year 2018, Pub. L. No. 115-91, OMB Memorandum M-18-18 at <https://www.whitehouse.gov/wp-content/uploads/2018/06/M-18-18.pdf>; see also FEMA Information Bulletin No. 434, *Increases and Changes to the Micro-Purchase and Simplified Acquisition Thresholds*):

- DHS/FEMA is required to review and consider any information about the applicant in the designated integrity and performance system accessible through the System for Award Management (SAM), which is currently the Federal Awardee Performance and Integrity Information System (FAPIIS) and is also accessible through the SAM website.
- An applicant, at its option, may review information in FAPIIS and comment on any information about itself that a federal awarding agency previously entered.
- DHS/FEMA will consider any comments by the applicant, in addition to the other information in FAPIIS, in making a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when completing the review of risk posed by applicants, as described in 2 C.F.R. § 200.205.

Review and Selection Process

AFG applications are reviewed through a multi-phase process. All applications are electronically pre-scored and ranked based on how well they align with the funding priorities outlined in this NOFO.

Applications with the highest pre-score rankings are then scored competitively by (no less than three) members of a Peer Reviewer Panel. Applications will also be evaluated through a series of internal FEMA review processes for completeness, adherence to programmatic guidelines, technical feasibility, and anticipated effectiveness of the proposed project(s). Below is the process by which applications will be reviewed:

i. Pre-Scoring Process

The application undergoes an electronic pre-scoring process based on established program priorities listed in Appendix B and answers to activity specific questions within the online application. Application Narratives are not reviewed during pre-score process. "Request Details" and "Budget" information

should comply with program guidance and statutory funding limitations. The pre-score is 50 percent of the total application score.

ii. Peer Review Panel Process

Applications with the highest rankings from the pre-score process will undergo a peer review process. A panel of peer reviewers is comprised of fire service representatives recommended by the national organizations from the CDP. Peer reviewers will assess each application's merits based on the narrative statement on the requested activity. The evaluation elements listed in the "Narrative Evaluation Criteria" below will be used to calculate the narrative's score for each activity requested. Panelists will independently score each requested activity within the application, discuss the merits and/or shortcomings of the application with his or her peers, and document the findings. A consensus is not required. The panel score is 50 percent of the total application score.

iii. Technical Evaluation Process (TEP)

The highest ranked applications will be considered within the fundable range. Applications that are in the fundable range will undergo both a Technical Review by a Subject-Matter Expert (SME) as well as a FEMA Program Office review prior to being recommended for award. The FEMA Program Office will assess the request with respect to costs, quantities, feasibility, eligibility, and recipient responsibility prior to recommending any application for award.

Once the TEP is complete, each application's cumulative score will be determined and a final ranking of applications will be created. FEMA will award grants based on this final ranking and the ability to meet statutorily required funding limitations outlined in [Appendix B, V. Restrictions on Use of Award Funds](#).

Narrative Evaluation Criteria

1. Financial Need (25 percent)

Applicants should describe their financial need and how consistent it is with the intent of the AFG Program. The Financial Need statement should include details describing the applicant's financial distress such as summarizing budget constraints, unsuccessful attempts to secure other funding, and proving the financial distress is out of their control.

2. Project Description and Budget (25 percent)

The Project Description and Budget statement should clearly explain the applicant's project objectives and its relationship to the applicant's budget and risk analysis. The applicant should describe various activities, including program priorities or facility modifications, ensuring consistency with project objectives, the applicant's mission and national, state, and/or local requirements. Applicants should link the proposed expenses to operations and safety, as well as to the completion of the project's goals.

3. Cost Benefit (25 percent)

Applicants should describe how they plan to address the operations and personal safety needs of their organization, including cost effectiveness and sharing assets. The Operations and Safety/Cost Benefit statement should also include details about gaining the maximum benefits from grant funding by citing reasonable or required costs, such as specific overhead and administrative costs. The applicant's request should also be consistent with their mission and identify how funding will benefit their organization and affected personnel.

4. Statement of Effect on Operations (25 percent)

The Statement of Effect on Operations statement should explain how this funding request will enhance an organization's overall effectiveness. It should address how an award will improve daily operations and reduce an organization's risk(s). Applicants should include how frequently the requested item(s) will be used and in what capacity. Applicants should also indicate how the requested item(s) will help the community and increase an organization's ability to save additional lives and property. Jurisdictions that demonstrate their commitment and proactive posture to reducing fire risk, by explaining their code enforcement (to include Wildland Urban Interface code enforcement) and mitigation strategies (including whether or not the jurisdiction has a FEMA-approved mitigation strategy) may receive stronger consideration under this criterion.

F. Federal Award Administration Information

Notice of Award

Once FEMA has approved and recorded an award in the system, FEMA GO sends an award package to the grant official authorized by the recipient. FEMA GO will provide the award package and email notification. The authorized grant official should follow the directions in the notification to accept the award documents. The authorized grant official should read the award package carefully for instructions on administering the grant, to determine whether there has been an adjustment to the award, and to become familiar with the terms, conditions and responsibilities of federal award recipients.

The offered award will remain on hold and be available for a maximum of 30 days until the recipient either accepts or declines the award via FEMA GO online or unless FEMA grants additional time to accept the award. The recipient should follow the directions in the notification to confirm acceptance of the award. Failure to accept the grant award within 30 days of an offer of award may result in a loss of funds. Recipients may request additional time to accept the award if needed.

Differences Between Application Request and Award

During the review process for an AFG award, FEMA may have modified the application request(s). These modifications will be identified in the award package provided upon the offer of an award. If the awarded activities, scope of work, or requested dollar amount(s) do not match the application as submitted, the recipient shall only be

responsible for completing the activities actually funded by FEMA. The recipient is under no obligation to start, modify, or complete any activities requested by but not funded by the award. The award package will identify any differences under the Approved scope of work section.

Turndown Notifications

FEMA GO will provide all applicants who do not receive an FY 2019 AFG award with a turndown notification.

Administrative and National Policy Requirements

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Terms and Conditions, which are available online at: [DHS Standard Terms and Conditions](#). The applicable DHS Standard Terms and Conditions will be those in effect at the time in which the award was made.

Before accepting the award, the Authorized Organizational Representative (AOR) should carefully read the award package for instructions on administering the grant award and the terms and conditions associated with responsibilities under Federal Awards. Recipients must accept all conditions in this NOFO as well as any special terms and conditions in the Notice of Award to receive an award under this program. By submitting an application, applicants are deemed to have accepted all of the conditions in this NOFO as well.

Reporting

Recipients are required to submit various financial and programmatic reports as a condition of their award acceptance. Future awards and funds drawdown may be withheld if these reports are delinquent. Recipients should keep detailed records of all transactions involving the grant. FEMA may at any time request copies of purchasing documentation along with copies of cancelled checks or other proof of payment documentation for verification.

Record Retention

Financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for at least three years from the date the final FFR is submitted or longer if the award or entity is under audit or other circumstances necessitate longer retention of records. See, e.g., 2 C.F.R. § 200.333. If the recipient does not submit a final FFR and the award is administratively closed, FEMA uses the date of administrative closeout as the start of the three-year retention period.

FEMA requires that recipients maintain the following documentation for federally funded purchases:

- Specifications
- Solicitations

- Competitive quotes or proposals
- Basis for selection decisions
- Purchase orders
- Contracts
- Invoices
- Cancelled checks

Recipients should keep detailed records of all transactions involving the grant. FEMA may at any time request copies of purchasing documentation along with copies of cancelled checks for verification. See, e.g., 2 C.F.R. §§ 200.318(i), 200.333, 200.336.

Recipients who fail to fully document all purchases may find their expenditures questioned and subsequently disallowed.

Federal Financial Reporting Requirements

Federal Financial Reports (FFR)

Recipients of AFG grants are required to submit a Federal Financial Report (SF-425) on a semi-annual basis. The FFR is to be submitted using the online FEMA GO based on the calendar year beginning with the period after the award is made. Grant recipients are required to submit an FFR throughout the entire period of performance of the grant.

Reports are due:

- No later than July 30 (for the period January 1 – June 30)
- No later than January 30 (for the period July 1 – December 31)
- Within 90 days after the end of the Period of Performance

The Federal Financial Report Form (SF-425) and instructions are available at the following sites: [SF-425 OMB #4040-0014](#).

Financial and Compliance Audit Report

For audits of fiscal years beginning on or after December 26, 2014, recipients that expend \$750,000 or more from all federal funding sources during their fiscal year are required to submit an organization-wide financial and compliance audit report. The audit must be performed in accordance with the requirements of GAO's Government Auditing Standards, located at <http://www.gao.gov/govaud/ybk01.htm>, and the requirements of Subpart F of 2 C.F.R. Part 200, located at: <https://www.ecfr.gov/cgi-bin/text-idx?SID=6f12725a5b5811eb8f2ed19f6dde0417&mc=true&node=pt2.1.200&rgn=div5>.

Program Performance Reporting Requirements

The recipient is responsible for completing and submitting a Programmatic Performance Report (PPR) using FEMA GO. The programmatic Performance Report is due every six months after the grant's award date, and thereafter until the period of performance ends.

The PPR should include the following:

- A brief narrative of overall project(s) status
- A summary of project expenditures
- A description of any potential issues that may affect project completion

Program Performance Reporting Periods and Due Dates

The following reporting periods and due dates apply for the PPR:

- **No later than July 30** (for the period January 1 – June 30)
- **No later than January 30** (for the period July 1 – December 31)

Monitoring

Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestones, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance, and administrative processes and policies, activities, and other attributes of each federal assistance award and will identify areas where technical assistance, corrective actions, and other support may be needed. Recipients should keep detailed records of all transactions involving the grant. FEMA may at any time request copies of purchasing documentation along with copies of cancelled checks or other adequate payment documentation for verification. Recipients have the opportunity to participate in a Post Award Orientation (PAO) offered by the FEMA Regional Fire Program Specialist (FPS) to have their questions answered, receive technical assistance, or to review the terms and conditions of the grant. The PAO is optional.

Closeout

Within 90 days after the end of the period of performance, recipients must submit a final Federal Financial Report Form (SF-425) and a final performance report (within the closeout module in FEMA GO) detailing all accomplishments and a qualitative summary of the impact of those accomplishments throughout the period of performance. The closeout tutorial may be found at: <https://www.fema.gov/closeout-report-tutorial-introduction>.

In addition, any recipient that issues subawards to any subrecipient is responsible for closing out those subawards as described in 2 C.F.R. § 200.343. Recipients must ensure that they complete the closeout of their subawards in time to submit all necessary documentation and information to DHS/FEMA during the closeout of their prime grant award.

After the final SF-425 and final performance reports have been reviewed and approved by FEMA, a Closeout Notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be

deobligated, and address the requirement of maintaining the grant records for a minimum of three years from the date of the final Federal Financial Report Form (SF-425). The recipient is responsible for returning any federal funds that they have liquidated but remain unobligated by the recipient. Information on how to return funds to FEMA is available at:

<http://www.fema.gov/media-library/assets/documents/31261?id=7080>.

Administrative Closeout

Administrative closeout is a unilateral mechanism for FEMA to move forward with closeout of a grant award using available grant award information in lieu of final reports from the recipient. It is a last resort and recipients should always submit their final reports instead of relying on this mechanism. This mechanism can also require FEMA to make cash or cost adjustments and ineligible cost determinations based on the information it has, which may result in identifying a debt owed to FEMA by the recipient.

FEMA may use the administrative closeout process when a recipient is not responsive to FEMA's reasonable efforts to collect required reports needed to complete the standard closeout process. FEMA will make three written attempts to collect required reports before initiating administrative closeout.

If FEMA administratively closes an award where no final FFR has been submitted, FEMA uses that administrative closeout date in lieu of the final FFR submission date as the start of the three-year record retention period under 2 C.F.R. § 200.333.

In addition, if an award is administratively closed, FEMA may decide to impose remedies for noncompliance per 2 C.F.R. § 200.338, consider this information in reviewing future award applications, or apply special conditions to existing or future awards.

Disclosing Information per 2 C.F.R. § 180.335

This reporting requirement pertains to disclosing information related to government-wide suspension and debarment requirements. Before a recipient enters into a grant award with FEMA, the recipient must notify FEMA if it knows if it or any of the recipient's principals under the award fall under one or more of the four criteria listed at 2 C.F.R. § 180.335:

- Are presently excluded or disqualified;
- Have been convicted within the preceding three years of any of the offenses listed in 2 C.F.R. § 180.800(a) or had a civil judgment rendered against it or any of the recipient's principals for one of those offenses within that time period;
- Are presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of the offenses listed in 2 C.F.R. § 180.800(a); or

- Have had one or more public transactions (federal, state, or local) terminated within the preceding three years for cause or default.

At any time after accepting the award, if the recipient learns that it or any of its principals falls under one or more of the criteria listed at 2 C.F.R. § 180.335, the recipient must provide immediate written notice to FEMA in accordance with 2 C.F.R. § 180.350.

G. DHS Awarding Agency Contact Information Contact and Resource Information

AFG Help Desk

The AFG Help Desk provides technical assistance to applicants for the online completion and submission of applications into FEMA GO, answers questions concerning applicant eligibility and recipient responsibilities, and helps in the programmatic administration of awards. The AFG Help Desk can be contacted at (866) 274-0960 or by email at FireGrants@fema.dhs.gov. Normal hours of operation are from 8:00 a.m. to 4:30 p.m., Monday through Friday. All times listed are Eastern Time.

FEMA Regional Fire Program Specialists

Each FEMA region has Fire Program Specialists who can assist applicants with application information, award administration, and technical assistance. Contact information for a Regional Fire Program Specialist can be located on the AFG website at <https://www.fema.gov/fire-grant-contact-information>.

FEMA GO System Information

For technical assistance with FEMA GO, please contact the Enterprise Service Desk at (877) 611-4700. Regular hours of operation are also from 8:00 a.m. to 4:30 p.m. ET, Monday through Friday.

H. Additional Information

Extensions to the Grant Period of Performance

Extensions to the period of performance under this grant program are allowed. An award's period of performance must be active for a recipient to submit a proposed extension request to FEMA. Recipients should request extensions sparingly and only under exceptional circumstances. ***Approval is not guaranteed.***

Extensions to the initial period of performance identified in the award will only be considered through formal amendment requests, via FEMA GO, and must contain specific and compelling justifications as to why an extension is required.

All extension requests must contain:

- Grant Program, fiscal year, and award number
- Reason for delay—this must include details of the legal, policy, or operational challenges being experienced that prevent the final outlay of awarded funds by the

- applicable deadline
- Current status of the activity/activities
- Approved period of performance termination date and new project completion date
- Amount of funds drawn down to date
- Remaining available funds, both federal and non-federal
- Budget outlining how remaining federal and non-federal funds will be expended
- Plan for completion, including milestones and timeframes for achieving each milestone and the position/person responsible for implementing the plan for completion
- Certification that the activity/activities will be completed within the extended period of performance without any modification to the original Statement of Work approved by FEMA

Requirements for Extension Consideration

To be eligible for consideration, recipients must submit extension requests via FEMA GO. Recipients generally can submit requests no later than 60 days prior to the end of the award's period of performance. In accordance with FEMA policy, FEMA reviews extensions on a case-by-case basis and typically grants them for no more than a six-month period. FEMA will grant extension requests only due to compelling legal, policy, or operational challenges. The review process can take up to 30 days or longer. Applicants should factor this review period in to the timing of when to submit a request for an extension.

Example: Recipients may request an extension, for example, when an equipment order was placed during the period of performance but factors beyond the recipients' control have resulted in a delay in the expected delivery and receipt of the equipment outside of the existing period of performance; or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other extenuating circumstances warrant a brief extension.

Appendix A – FY 2019 AFG Program Updates

Appendix A contains a brief list of changes between FY 2018 and FY 2019 to the AFG Program.

New for FY 2019

The FY 2019 AFG NOFO contains some changes to definitions, descriptions and priority categories. Changes to the FY 2019 AFG NOFO include:

- Under Micro Grants:
 - Wellness and Fitness is now eligible as a micro and regional grant.
 - Modifications to Facilities activities are now eligible as a micro grant.
- Under Equipment category:
 - Training ‘props’ are limited to \$50,000 except for a State Fire Training Academy request.
 - Learning Management Systems (LMS) to include software and computer programs for local departments and states to track training and certifications were added as high priority.
- Under Operation and Safety and Regional category:
 - Immediately Dangerous to Life or Health (IDLH), Protection for Fire Investigators (single-use respiratory protection) is added as high priority.
 - Definition of Primary First Due Response Area is updated to be consistent with NFPA 1710 Current Edition. The geographic area surrounding a fire station in which a company from that station is projected to be the first to arrive on the scene of an incident.
 - Application will include data/statistics on fire departments implementation of National Fire Protection Association (NFPA) 1582 physicals. This information is not included in the peer review determination.
- Under Vehicle Acquisition
 - Brush vehicles are now a high priority for urban, suburban and rural communities. The only exception is for urban communities, a brush truck may not exceed Type III in specifications. This does not preclude a department from applying for a Type I urban interface pumper. Type I pumpers should be requested as a pumper and specified in the request as Type I.

Appendix B –Programmatic Information and Priorities

Appendix B contains details on AFG Program information and priorities. Reviewing this information may help applicants make their application(s) more competitive.

A. Ineligible Applications and/or Organizations

FEMA considers two or more separate fire departments or nonaffiliated EMS organizations with different funding streams, personnel rosters, and EINs but sharing the same facilities as being separate organizations for the purposes of AFG eligibility. If two or more organizations share facilities and each submits an application in the same program area (i.e., Equipment, Modify Facilities, Personal Protective Equipment, Training, and Wellness and Fitness Programs), FEMA reserves the right to review all of those program area applications for eligibility. This determination is designed to avoid the duplication of benefits.

Examples of ineligible applications and/or organizations include:

- Although fire departments and nonaffiliated EMS organizations may share some common program priorities, there are some restricted activities for nonaffiliated EMS organizations; nonaffiliated EMS organizations are not eligible to request any activity that is specific or unique to structural/proximity/wildland firefighting gear.
- Fire departments that are a Federal Government entity, or contracted by the Federal Government, and are solely responsible under a formally recognized agreement for suppression of fires on federal installations or land.
- Fire departments or nonaffiliated EMS organizations that are not independent entities but are part of, controlled by, or under the day-to-day operational command and control of a larger department, agency or Authority Having Jurisdiction (AHJ).
- Fire-based EMS organizations are not eligible to apply as a nonaffiliated EMS organization.
- Auxiliaries, hospitals or fire service associations or interest organizations that are not the AHJ over the applicant.
- State or local agencies, or subsets of any governmental entity, or any authority that do not meet the requirements as defined by 15 U.S.C. § 2229(a), (c).
- If an applicant submits two or more applications for the same equipment or other eligible activity (for example, if an applicant submits two or more applications, one under the Regional activity, and one under the Operations and Safety activity for SCBA), both applications may be disqualified. If an applicant submits two separate applications for the same activity (i.e., two separate vehicle applications for exactly the same type of vehicle) during the same application period, both applications may be disqualified.
- Eligible applicants may submit only one application for each activity (Operations and Safety or Regional) but may submit for multiple projects within each activity. Under the Vehicle Activity, applicants may submit one application for vehicles for their department and one separate application for a

Regional vehicle (the same vehicle may not be requested for both purposes). All submissions of duplicate applications may be disqualified.

- Dive teams, search and rescue squads, or similar organizations that do not provide medical transport.
- Fire departments, regional, or nonaffiliated EMS organizations that are for profit.

B. Supporting Definitions for this NOFO

Authority Having Jurisdiction (AHJ) is that person or office charged with enforcing the NFPA codes (Per NFPA101-2015 Edition: Life Safety Code).

Automatic Aid is a plan developed between two or more fire departments for immediate joint response on first alarms, (Per NFPA 1710 – 2016 edition and NFPA 1720 – 2014).

Career Fire Department, as defined in 15 U.S.C. §2229, means a fire department that has an all-paid force of firefighting personnel other than paid-on-call firefighters.

Combination Fire Department, as defined in 15 U.S.C. §2229, means a fire department that has paid firefighting personnel and volunteer firefighting personnel

Mutual Aid is a written intergovernmental agreement between agencies and/or jurisdictions stating that they will assist one another on request by furnishing personnel, equipment, and/or expertise in a specified manner (NFPA 1710 Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Career Fire Departments, 2016 edition and NFPA 1720 Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Volunteer Fire Departments, 2014 Edition).

Metro Department is a metropolitan fire department that has minimum staffing of 350 career firefighters as defined by the International Association of Fire Chiefs (IAFC). AFG collects information on metro departments for statistical purposes only. Status as a metro department is not a factor in scoring or funding.

Primary First Due is a geographic area surrounding a fire station in which a company from that station is projected to be first to arrive on the scene of an incident. NFPA 1710; 3.3.28. <https://www.nfpa.org/Codes-and-Standards/All-Codes-and-Standards/Free-access>

Volunteer fire department, as defined in 15 U.S.C. § 2229, means a fire department that has an all-volunteer force of firefighting personnel.

C. Community Classifications

The information the applicant organization supplies in Department Characteristics I and II of the AFG application determines whether the jurisdiction is identified by FEMA as urban, suburban, or rural. The community classification will determine the funding priority.

The US Census Bureau’s urban-rural classifications are fundamentally a delineation of geographical areas. For more information, please visit:

<http://www.census.gov/geo/www/ua/urbanruralclass.html>.

FY 2019 demographics for determining urban, suburban, or rural include:

Community	Urban	Suburban	Rural
Population of primary first due response area	>3,000 sq. mi. or 50,000 + population	1,000-2,999/sq. mi. or 25,000-50,000 population	0-999/sq. mi. or <25,000 population
Water Supply (percentage of primary first due response area covered by hydrant service)	75-100% hydrants (municipal water)	50-74% hydrants	<50% hydrant
Land Use within Primary first due response area	<25% for agriculture (based on zoning) industrial and commercial combined >50%	25-49% used for agriculture (based on zoning) industrial and commercial combined >25%-49%	50% used for agriculture (based on zoning) industrial and commercial combined <25%
Square miles within primary first due response area per station	<3 sq. mi. per station	3-9 sq. mi. per station	>10 sq. mi. per station

D. Application Tips

The following information may be useful when preparing a competitive application:

- [National Fire Protection Association \(NFPA\) – “FREE ACCESS”](http://www.nfpa.org/freeaccess) - As part of its commitment to enhancing public safety and supporting the emergency responder, the NFPA makes its codes and standards available online for free. Please visit: <http://www.nfpa.org/freeaccess>
- Regional Applicants are eligible to only apply for Training, Equipment, and/or PPE within Operations and Safety, and Vehicle Acquisition, and Wellness & Fitness.
- SFTA Applicants are only eligible to apply for Equipment, and/or PPE within

Operations and Safety, and Vehicle Acquisition.

- Successful Regional applicants will be subject to the funding limitations based on the total population served by the host and participating partners. Any Regional award made will not impact or be included in the host organization's funding limitations.
- Applications differ based on the applicant type. For example, the SFTA application for a vehicle will be different from the fire department application for a vehicle. Be sure to select the appropriate applicant type when applying.
-

E. Restrictions on Use of Award Funds

- No AFG funds may be used to support hiring (part-time or full-time), salaries, benefits, or fringe benefits (including but not limited to contributions for social security, insurance, workman's compensation, pension, or retirement plans) for any personnel.
- Documented back fill and/or overtime/lost wages costs to support awarded training activities are allowable personnel expenses.
- Instructor's rates/base rates should be provided as part of the application narrative, as well as the market researched competitive rate for delivering the requested training.
- If the instruction provided for an awarded training activity is delivered by an existing member(s) of the recipient's organization, only the established base rate of compensation, without benefits or overtime, may be eligible for reimbursement.
- Recipients are encouraged to allow other organizations to benefit from an awarded activity; e.g., filling another organization's SCBA cylinders using a grant funded compressor, or cleaning another organization's turnout gear, or offering excess capacity training opportunities (if recipients choose to include costs associated with shared benefit [e.g., backfill, overtime, tuition] for members outside of their department, they must apply as a Regional application).
- Under the Operations and Safety Activity, when requesting additional funding in the request detail section of an application, items being requested may only be from that same Activity's area. Furthermore, improperly requesting a grant award for an activity that is not an Operations and Safety Activity may disqualify the request, for example:
 - Do not request cascade system under Personal Protective Equipment, or PPE (cascade systems are classified as equipment)
 - Do not request Rapid Intervention Team (RIT) packs under PPE (RIT packs are classified as equipment)
 - Do not request a Personal Safety/Rescue Bailout System under equipment (a Personal Safety/Rescue Bailout System is classified as PPE)

F. Funding Priorities

I. Operations and Safety – Training Overview

FEMA has determined that hands on, instructor-led training that meets a national, state, or DHS adopted standard and results in a national or state certification provides the greatest training benefit.

All of the following are considerations in pre-scoring and peer review determinations: (HIGH (H), MEDIUM (M), LOW (L))

Fire Department, Regional, and State Fire Training Academy Training Priorities by Purpose	
H	<ul style="list-style-type: none">• Training evaluated using national or state standards
H	<ul style="list-style-type: none">• Training that brings a department into compliance with recommended NFPA or other national standards
H	<ul style="list-style-type: none">• Instructor led training that requires student testing to demonstrate academic competence or practical proficiency
H	<ul style="list-style-type: none">• Training that benefits the highest percentage of applicable personnel, such as the hazardous materials training within a fire department or training that will be open to other eligible organizations
M	<ul style="list-style-type: none">• Training that does not result in certification
M	<ul style="list-style-type: none">• Training that is self-directed/validated
L	<ul style="list-style-type: none">• Training that will address an identified risk however it is not associated with compliance to any standards

Fire Department and Regional Training Priorities by Course Type

Funding Priorities for Fire Departments and Nonaffiliated EMS Organizations Training

AFG provides training grants to meet the educational and performance requirements of fire departments and nonaffiliated EMS personnel. Training should align with the U.S. National Highway Traffic Safety Administration (NHTSA), which designs and specifies a National Standard Curriculum for EMT training and the National Registry of Emergency Medical Technicians (NREMT), a private, central certifying entity whose primary purpose is to maintain a national standard (NREMT also provides certification information for paramedics who relocate to another state).

A higher priority is assigned to the following due to time and cost of upgrading an organization's response level:

- Organizations seeking to elevate the response level from Emergency Medical Responder (EMR) to Emergency Medical Technician (EMT).
- Organizations seeking to elevate the response level from Advanced EMT (AEMT) to Paramedic.
- Organizations seeking to train Community Paramedics: Organizations seeking to train a high percentage of the active EMRs will receive additional consideration when applying under the Training activity.

Eligible Training Activities for Fire Departments and Regional Applications include but are not limited to:	
<ul style="list-style-type: none"> • Train-the-trainer courses • Alternative fuel firefighting • Response to natural disasters • Minor interior alterations (requested under Additional Funding and limited to \$10,000 total expenditure) to support the awarded Training activities (e.g., removal/construction of a non-weight bearing wall) • Overtime expenses paid to career firefighters to attend training or to backfill positions for colleagues who are in training • Rental of facilities to conduct training 	<ul style="list-style-type: none"> • Tuition, exam/course fees, and certifications/certification expenses • Purchase of training curricula and training services (instructors) • Chemical Biological Radiological Nuclear and Explosive (CBRNE) awareness, performance, planning, and management • Travel expenses associated with Type 3 Incident Management Teams (IMT) attending position development/mentoring assignment with national Type 2 or Type 1 IMTs
<ul style="list-style-type: none"> • Travel expenses associated with attendance at a formal training course or conference (mileage, hotel, and lodging expenses). • Compensation to volunteers (Fire and nonaffiliated EMS) for wages lost to attend training; there is no overtime or backfill for volunteers 	<ul style="list-style-type: none"> • Those supplies or expendables for one time-use items essential for an award's scope of work, such as foam, breaching materials (e.g., wood or sheetrock) for ventilation or rescue props, or the amount of fuel required to sustain an awarded live fire training activity, or per NFPA 1403 Standard on Live Fire Training Evolutions, reasonable safety mitigations to a structure acquired for training • Props (single-use or permanent) for training programs cannot exceed \$50,000 for Operation and Safety requests. This does not apply to State Fire Training Academy requests.

Ineligible Training Activities for Fire Departments and Regional Applications include but are not limited to:

- | | |
|---|--|
| <ul style="list-style-type: none"> • Construction of facilities (buildings, towers, sheds, etc.) • Firefighting equipment or PPE, such as SCBA, used exclusively for training • Remodeling not directly related to grant activities • Any costs associated with planning and/or participating in formal or planned special event exercises to identify user needs, evaluate an organization’s performance capabilities, validate existing capabilities, or to facilitate coordination and asset sharing | <ul style="list-style-type: none"> • Site preparation to accommodate or modify any training activity, facility, or prop that is a permanent or semi-permanent improvement, including but not limited to: landscaping, cutting or grading an access road, trenching, paving a training area, exterior stairs or sidewalks, or the installation of utilities is an ineligible and non-reimbursable Training activity • Purchase or lease of real estate (this does not preclude departments from securing necessary training facilities such as classrooms, use of towers, training props, etc.) • Purchase of Unmanned Aerial Vehicles (UAVs) and Drones • Food and beverages |
|---|--|

Eligible Nonaffiliated EMS Training Activities include but are not limited to:

- | | |
|---|---|
| <ul style="list-style-type: none"> • Emergency Medical Responder (EMR) • Emergency Medical Technician (EMT) • Advanced EMT (AEMT) • AEMT to Paramedic • Paramedic (Applicant must clearly demonstrate plan to accomplish paramedic training within the period of performance). • Community Paramedics (Paramedics with Primary Care certification) • Travel expenses associated with attendance at a formal training course or conference (air/rail transportation, mileage, hotel/lodging expenses), Note: Food and beverages are ineligible travel expenses. | <ul style="list-style-type: none"> • Attendance at formal training forums or conferences providing continuing education credits, etc. • Overtime expenses paid to career nonaffiliated EMS responders to attend training or to backfill positions for colleagues who are in training • Compensation to volunteers (Fire and nonaffiliated EMS) for wages lost to attend training; there is no overtime or backfill for volunteers • Supplies or expendables or one-time use items essential to complete the training activity of a nonaffiliated EMS award’s scope of work. Examples include bandages, splints, expendable respiratory supplies, etc. |
|---|---|

II. Operations and Safety - Equipment Overview

AFG grants fund equipment for effective response, firefighting, rescue, and emergency medical operations to enhance the public safety.

Requests to replace obsolete or damaged equipment should enable the applicant to meet a consensus standard (e.g., a personal SCBA face piece for every operational member of an organization).

Reminder: When requesting training for any items in this section, enter the request under “Other” within “Additional Funding” in the “Request Details” section of the application. Make sure to identify the type and scope of training, time frame, etc. in the explanation section of additional funds. Training must be specific to the use of the equipment (i.e., vendor training) and not duplicative of courses listed under the Training activity.

NOTE:

- Accountability systems are located under equipment activity.
- All simulators, tow vehicles, and all mobile or fixed fire/evolution props (e.g., burn trailers, forcible entry, or rescue/smoke mazes) are located under the equipment activity.

All of the following are considerations in pre-scoring and peer review determinations:

NOTE: Equipment product lifecycles are assigned an age category of Short (5- 7 years), Intermediate (8-14 years), or Long (15-20 years). These age categories are used to compare like types of equipment of a similar age category. Under this system, an item that should have a useful life of 10 years is only compared against other items that have a similar lifecycle. An application does not score higher or lower based on the product lifecycle of an item. It only serves to ensure a more even scoring of equipment based on type.

Priority	Age Category	Fire and Fire Regional	SFTA
BASIC EQUIPMENT			
H	Intermediate	Air Compressor/Fill Station/Cascade System (Fixed or Mobile) for filling SCBA	Air Compressor/Fill Station/Cascade System (Fixed or Mobile) for filling SCBA

Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Equipment Priorities		
Priority		Definition
H	Obtain equipment to achieve minimum operational and deployment standards for existing missions	Applies to requests for equipment needed, and not currently owned, to achieve minimum operational and deployment standard for a department's existing mission requirements. AFG will only fund basic equipment not listed in NFPA 1901/1906 chapters 1 to 28.
H	Replace unusable/unrepairable equipment to meet current standard	Applies to equipment that is no longer usable because it is broken and/or damaged beyond repair. Replacement equipment requested under a grant must meet the most current and appropriate standards for that type of equipment.
H	Replace non-compliant equipment to current standard	Applies to equipment that is deemed obsolete and/or is out of compliance with current standards for that type of equipment. Equipment requested under this reason for purchase has not been deemed inoperable, and while it may not be in compliance with current standards it is not broken, damaged, or otherwise unusable.

Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Equipment Priorities		
M	Obtain equipment for new mission	Applies to requests for equipment supplies or inventories that are intended to fulfill minimum services requirements associated with new missions that a department is taking on and building the capability for but has not been previously fulfilled. For example, this may include, but is not limited to, establishing a new Hazardous Materials (HazMat) capability or Swift Water Rescue capability.
L	Upgrade technology to current standard	Applies to requests for equipment that may or may not be owned, but newer technology is available.

Additional Considerations for Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Equipment Priorities	
<ul style="list-style-type: none"> • Equipment that has a direct effect on firefighters’ health and safety • Age of equipment considered for replacement • Equipment that operationally benefits other jurisdictions • Equipment that brings the department into compliance with a national recommended standard, (e.g., NFPA or statutory compliance like Occupational Safety and Health Administration [OSHA]) 	

Eligible Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Equipment Activities include but are not limited to:	
<ul style="list-style-type: none"> • Shipping, taxes, assembly and installation of the requested equipment • Extended warranties and service agreements if acquired concurrent with initial acquisition • Minor interior alterations (requested under Additional Funding and limited to \$10,000 total expenditure) to support the awarded Equipment activities (e.g., removal /construction of a non-weight bearing wall) 	<ul style="list-style-type: none"> • Equipment for response to incidents involving CBRNE/WMD • Training specific to the requested equipment • Requested support activities for Equipment requiring supplies or expendables or “onetime” use items essential for an award’s scope of work, such as foam, breaching materials (e.g., wood or sheetrock) for ventilation or rescue props, or the amount of fuel required to sustain an awarded live fire training activity, or per NFPA1403 Standard on Live Fire Training Evolutions, reasonable safety mitigations to a structure acquired for training

Ineligible Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Equipment Activities include but are not limited to:

- | | |
|--|---|
| <ul style="list-style-type: none"> • Construction of facilities, such as buildings, towers, sheds to house communications, or • All fixed non-mobile repeaters or fixed site amplifiers • Sirens or other outdoor warning devices • Signage of any kind • Phones (telephone/satellite/cell) • Investments in emergency communications systems and equipment must meet applicable SAFECOM Guidance. • Personal Safety/Rescue Bailout System (PPE) • Computer assisted dispatch (CAD) systems and software, geographic information systems (GIS), dispatch consoles, workstations and office furniture | <ul style="list-style-type: none"> • Nonaffiliated EMS expendable supplies (including, but not limited to medications) • Utility Vehicles and All-Terrain Vehicles (UTV/ATV) • Unmanned Aerial Vehicles (UAVs) and Drones • Bomb disposal equipment and robots • Mobile radios for personally owned vehicles (except Chief Fire Officer’s personal vehicle if justified) • Those supplies or expendables or common one-time use items such as foam, soaps, disinfectant wipes, medical gowns/gloves, bandages, any drug, intravenous bags/fluids, defibrillator pads/electrodes, syringes, cervical collars, batteries, exhaust system filters and splints • Flashover or other simulators/props that do not meet NFPA 1402 or 1403 standard (homemade or aftermarket simulators) • Subscriptions, memberships, equipment rental or lease to purchase |
|--|---|

IMPORTANT: The only eligible AFG activity for interoperable communications equipment is the acquisition of P-25 compliant equipment.

- P-25 compliant interoperable communications equipment has a digital platform that is programmable, scalable, and can communicate in analog mode with legacy radios, and in both analog and digital mode with other P-25 equipment. P-25 compliance enhances interoperability, allowing first responders to communicate with each other to coordinate their response to and mitigate all hazards.
- The procurement of interoperable communications equipment that does not meet P-25 compliance is unallowable.
- There are no waivers for P-25 compliance. All recipients awarded activities with emergency communication equipment and its related activities must comply with the SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications.
- The technical specifications for FY 2018 SAFECOM Guidance on Emergency Communications Grants is available at:
<https://www.dhs.gov/safecom/blog/2018/05/16/release-fy-2018-safecom-guidance-emergency-communications-grants>

It is the recipient’s responsibility to obtain documented evidence that the equipment to be acquired has been tested and passed all the applicable P- 25

requirements and the recipient shall be able to produce such documentation to FEMA upon request.

- AFG applicants are not required to identify a specific P-25-compliant product in their application narrative, but they must affirm that the interoperable communications equipment requested or acquired will be P-25 compliant.

Note: Recipients using FY2019 AFG funds to support emergency communications activities should review and comply with the [SAFECOM Guidance for Emergency Communication Grants](#), including provisions on technical standards that ensure and enhance interoperable communications. Communication equipment (e.g., portable radios) would be included in this standard. Recipients investing in emergency communications must ensure their projects support the Statewide Communications Interoperability Plan (SCIP) for their state.

III. Operations and Safety - Personal Protective Equipment (PPE) Overview

AFG funds used to acquire PPE may only be used to acquire compliant PPE for firefighting and nonaffiliated EMS personnel. Only the acquisition of PPE compliant with the most current edition of NFPA 1971, 1976, 1977, 1981, and 1999, are eligible activities. The acquisition of used, refurbished or updated PPE will be ineligible for reimbursement.

PPE requested should have the goal of increasing firefighter safety. When requesting to replace noncompliant or inoperable/unusable/unrepairable PPE (e.g., Turnout Gear and SCBA), applicants will be asked to provide the age of the items being replaced. All PPE items in the current inventory must be accurately described and accounted for in the application narrative.

Based in part on NFPA 1851, Standard on Selection, Care, and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting, in order for PPE (to include SCBA) to be considered noncompliant, the items must be a minimum of 2 NFPA cycles and 10 years of age or older from the date they were manufactured.

Training for requested PPE

- Applicants must certify that all grant-funded PPE will only be used by sufficiently trained personnel (failure to meet this requirement will result in the request for funding deemed ineligible).
- If applicants are requesting training to support a PPE activity, it must be entered in the “Additional Funding” section within the “Request Details” section of the application.

- Acquiring or replacing an individual SCBA face piece for each operational member of an organization is High **H** Priority. To the extent a request for additional face pieces exceeds any face pieces requested as part of an SCBA unit,

that request should be entered as a separate request line item, and will not be considered a request “to increase supplies” (e.g., the applicant has the need for 35 Face Pieces, and requested 25 SCBA Units, applicants should separately request 10 additional Face Pieces).

- FEMA considers a complete set of Structural/Proximity PPE Turnout Gear to be comprised of these NFPA 1971 or 1976 compliant components: one pair pants, one coat, one helmet, two hoods, one pair boots, two pairs gloves, and one pair suspenders, one pair goggles. In the AHJ where additional PPE such as a Personal Safety/Rescue Bailout System is statutorily required, FEMA will consider all statutorily required items to be part of a complete PPE set.
- FEMA considers a complete set of EMS PPE Turnout Gear to be comprised of these NFPA 1999 compliant components: one pair pants, one coat, one helmet, one pair boots, one pair gloves, one pair suspenders and one pair goggles.
- FEMA considers a complete set of Wildland PPE Turnout Gear to be comprised of these NFPA 1977 compliant components: one pair pants, one coat, one jumpsuit, one helmet, one pair boots, one pair gloves, one pair suspenders, one pair goggles, one fire shelter, web gear, backpack and canteen/hydration system. **(Note: funding is limited to (1) set of PPE Turnout Gear per person.)**
- FEMA considers a complete SCBA unit to be comprised of a harness/backpack, one face piece and two cylinders. The following are considerations in pre-scoring and peer review determinations:

Fire Department, Nonaffiliated EMS, Joint/Regional, and State Fire Training Academy Personal Protective Equipment (PPE) Priorities		
Priority	Activity	Definitions
H	Replace unusable/unrepairable PPE to meet current standard	Applies to PPE-Turnout Gear that is no longer usable because it is broken and/or damaged beyond repair. (This turnout gear is out-of-service and not being worn by emergency responders). All PPE-Turnout gear requested under a grant must meet the appropriate standards for PPE-Turnout Gear. Departments requesting entire inventory replacement under this purpose will be required to provide documentation to validate inventory condition.
H	Increase supply for new hires and/or existing firefighters that do not have one set of turnout gear (PPE) or allocated seated positions (SCBA)	Applies to PPE-Turnout Gear for new firefighters (i.e. new hires or volunteer recruits) and/or existing firefighters that do not currently have one set of PPE-Turnout Gear.

Fire Department, Nonaffiliated EMS, Joint/Regional, and State Fire Training Academy Personal Protective Equipment (PPE) Priorities

M	Replace noncompliant PPE to current standard	Applies to PPE-Turnout Gear that is deemed obsolete and/or is out of compliance with current standards for PPE-Turnout Gear. PPE-Turnout Gear to be replaced, it has not been deemed inoperable, and while it may not be in compliance with current standards it is not broken, damaged, or otherwise unusable.
----------	--	---

Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Self-Contained Breathing Apparatus (SCBA) Priorities

H	<p>Note: FEMA considers SCBA (PPE) noncompliant if it is a minimum of two NFPA cycles and 10 years of age or older, from the date of manufacture.</p> <ul style="list-style-type: none"> • Replace unusable or unrepairable equipment to current standard, NFPA 1981, 2002 Edition or prior. (These SCBA(S) are out-of-service and not being used by emergency responders). • Increase supply for new hires and/or existing firefighters that do not have one set of SCBA for allocated seated positions. • Funding every operational member with their own individual face piece. 	
M	<ul style="list-style-type: none"> • Replace noncompliant PPE to upgrade technology. 	

Additional Considerations for Fire Department, Nonaffiliated EMS, Regional, and State Fire Training Academy Self-Contained Breathing Apparatus (SCBA) Priorities

- Applicants will be required to provide the age of the PPE being replaced.
- Priority of the requested PPE is a factor.
- Call volume can contribute to the justification for new risk.
- Applicants with the oldest PPE and/or trying to bring the department into 100 percent NFPA compliance or the number of active members who will have compliant gear.

Personal Protective Equipment List

Structural/Proximity	
<ul style="list-style-type: none"> • ANSI Traffic Vests • Boots • Coats • Complete Set of Turnout Gear • Gloves • Goggles 	<ul style="list-style-type: none"> • Helmets • Hoods • Pants • Pass Devices • Personal Safety/Rescue Bailout System • Suspenders

|---|---|

IV. Operations and Safety - Wellness and Fitness Overview

Wellness and Fitness activities are intended to strengthen emergency responders so that their mental, physical, and emotional capabilities are resilient enough to withstand the demands of all hazardous operations. In order to be eligible for funding, applicants must offer, or plan to offer, all five of the following Priority 1 activities as discussed in the table below.

Note: AFG has added cancer screening programs as an eligible item.

Fire Department and Nonaffiliated EMS Wellness and Fitness Priorities

Priority 1 - Below are the five activities required for a complete Wellness and Fitness program.

- Initial medical exams
- Job-related immunization
- Annual medical and fitness evaluation
- Behavioral health
- Cancer Screening Program to meet NFPA 1582

NOTE: Applicants are encouraged to review NFPA 1583 for guidance on the minimum requirements for the development, implementation and management of a health-related fitness program.

Priority 2 - Applicants may only apply for Priority 2 Items if the applicant offers or is requesting a combination of the five activities required under Priority 1.

Fire Department and Nonaffiliated EMS Wellness and Fitness Priorities

- Candidate physical ability evaluation.
- Injury/illness rehab.
- Formal fitness, injury prevention.
- IAFF or IAFC peer fitness trainer program, (including transportation, travel, overtime/backfill, and reasonable expenses associated with member participation in Train-the-Trainer for IAFC/IAFF and implementation of a peer fitness trainer programs). Core components included in a firefighter fitness assessment include:
 - Aerobic Capacity
 - Body Composition
 - Muscular Strength
 - Muscular Endurance, and
 - Flexibility

Departments that have some of the Priority 1 programs in place must apply for funds to implement the missing Priority 1 programs before applying for funds for any additional program or equipment within this activity. In addition, for all AFG Programs, all grant-funded physicals (except those for explorers) must meet NFPA 1582 standards (Chapter 6, Medical Evaluations of Candidates 6.1 and Chapter 9, Essential Job Tasks — Specific Evaluation of Medical Conditions in Members). The cost of physicals should be based on local physician or health center prices. Detailed information on implementing NFPA 1582 physicals can be found at <https://www.fstaresearch.org/roadmap>.

NOTE: Simultaneous requests for Priority 1 and Priority 2 activities will receive a lower funding consideration than requests that complete the bundle of the five Priority 1 activities. Applicants should review Health Related Fitness Programs as outlined in NFPA 1583 which is summarized below.

NFPA 1583 Standards on Health-Related Fitness Programs for Fire Department Members

Scope. This standard establishes the minimum requirements for the development, implementation, and management of a health-related fitness program (HRFP) for members of the fire department involved in emergency operations.

Purpose.

The purpose of this standard is to provide the minimum requirements for a health-related fitness program for fire department members that enhances the members' ability to perform occupational activities efficiently and safely and reduces the risk of injury, disease, and premature death.

This document is intended to help fire departments develop a health-related fitness program for fire department members that requires mandatory participation but is not punitive.

This document is not intended to establish physical performance criteria.

Eligible Fire Department and Nonaffiliated EMS Wellness and Fitness activities include but are not limited to:

<ul style="list-style-type: none"> • The five Priority 1 items, initial medical exams, job-related immunization, annual medical and fitness evaluation, behavioral health and cancer screening. • Behavioral health programs to include, but not limited to: Critical Incident Stress Management Programs or Employee Assistance Programs. • Transportation expenses related to a member’s participation in offered Wellness and Fitness activities. 	<ul style="list-style-type: none"> • Contractual costs (non-hiring) for personnel (such as nutritional counseling), physical fitness equipment (including shipping charges and sales tax, as applicable), and supplies directly related to physical fitness activities. • Minor interior alterations (requested under Additional Funding and limited to \$10,000 total expenditure) to support the awarded Wellness and Fitness activities (e.g., removal/ construction of a non-weight bearing wall), will require EHP review.
---	---

Ineligible Fire Department and Nonaffiliated EMS Wellness and Fitness activities include but are not limited to:

<ul style="list-style-type: none"> • Fitness club memberships for participants or their families. • Non-cash incentives, (e.g., t-shirts or hats of nominal value and vouchers to local businesses or time-off). • Purchase of real estate. • Cash incentives. • Food and beverages 	<ul style="list-style-type: none"> • Purchase of medical equipment that is not used as part of the Wellness and Fitness program. • Contractual services with anyone other than medical professionals (e.g., health care consultants, trainers, and nutritionists) for programs such as smoking cessation. • Subscriptions and memberships.
--	---

V. Operations and Safety - Modifications to Facilities Overview

AFG grant funds may be used to modify fire stations and other facilities. New fire station construction is not eligible.

Eligible activities include source capturing exhaust, sprinkler, carbon monoxide alarms or smoke/fire detection systems.

The benchmark for eligibility does not apply to minor interior alterations (requested under Additional Funding and limited to \$10,000 total expenditure) to support Training, or Wellness and Fitness activities (e.g., removal/construction of a non-weight bearing wall). However, the eligibility of certain minor interior alterations does not release the recipient from their EHP responsibilities resulting from those alterations.

In recognition of the risks posed by exposure to diesel fumes, Source Capture Exhaust Extraction Systems (SCES) are an AFG High **H** Priority item for vehicle exhaust mitigation under Modification to Facilities.

An SCES is a system where exhaust gases from a vehicle are captured directly, via a conduit that attaches to/over the end of the vehicle’s exhaust system at the tailpipe. The captured exhaust gases are expelled through the attached conduit via mechanical/pneumatic means to the exterior of the building.

No modification may change the structure’s footprint or profile. If requesting multiple items, such as a sprinkler system and exhaust system, the funding for any projects or activities cannot cumulatively exceed \$100,000 (Total Project Cost(s)) for any individual station. Eligible projects under this activity must have a direct effect on the health and safety of firefighters.

Note: Vehicle Mounted Exhaust Systems are now listed as a “medium” priority in the equipment activity.

All of the following are considerations in pre-scoring and peer review determinations:

Eligible Fire Department and Nonaffiliated EMS Modifications to Facilities Priorities include but are not limited to:

H	<ul style="list-style-type: none"> Departments requesting source capture exhaust systems, sprinkler systems, carbon monoxide, or smoke/fire detection systems
M	<ul style="list-style-type: none"> Emergency generators, Air Quality Systems (AQSs) <p>Note: AQSs are fixed equipment that are air purifying, scrubbing, and/or air exchange systems</p>

Ineligible Fire Department and Nonaffiliated EMS Modifications to Facilities activities include but are not limited to:

<ul style="list-style-type: none"> Station maintenance Resurfacing bay floors 	<ul style="list-style-type: none"> Interior remodeling not pertaining to the requested project(s) Food and beverages
---	--

Facility Considerations

- H** Staffed
- H** Facilities with sleeping quarters
- M** Facilities without sleeping quarters **M** Part-time or selected coverage
- L** Not on a regular basis
- L** Training facilities and marine fire facilities

G. Regional Applications

Overview

A Regional application is an opportunity for a Fire Department or a Non-Affiliated EMS (NAEMS) organization to act as a host and apply for funding on behalf of itself and any number of other participating AFG eligible organizations (a NAEMS organization who is a host regional applicant can only host other NAEMS organizations). Fire Department that serve as host regional applicants can apply on behalf of other eligible fire departments and NAEMS organizations within the same application. SFTAs are not eligible to apply under the Regional activity. Eligible Regional activities are Vehicle Acquisition and Operations and Safety (but only for Training, Equipment, Wellness and Fitness, and PPE activities). Regional activities should achieve cost effectiveness, support regional efficiency and resilience, and benefit more than one local jurisdiction (county, parish, town, township, city or village) directly from the activities implemented with the grant funds.

The community identification characteristic (e.g., Rural, Urban, or Suburban) and the organizational status of the host applicant (e.g., Career, Combination, or Volunteer) will be entered and used for the regional application, regardless of the composition of the participating partners.

Regional populations served are the aggregate of the geographically fixed primary first due response areas of the host and participating partner organizations.

Neither the regional host nor any participating partner is prevented from also applying on behalf of their own organization for any AFG activity (Vehicle Acquisition or Operations and Safety) however, it cannot be for the same item. For example, a department cannot apply for PPE under its own organization and participate in a regional PPE application.

In the application narrative, a Regional host must include a list of all the AFG eligible participating organizations benefitting from a proposed Regional project, including validated points of contact, each organization's Employee Identification Number (EIN), and clear and detailed information on the regional activities requested.

Host organizations should provide specific details, fully explaining the distribution of any grant-funded acquisitions or grant-funded contracted services, as well as the responsibilities between the host and the partner organizations.

In order to apply for a regional project, the host organization must agree, if awarded, to be responsible for all aspects of the grant. This includes, but is not limited to, cost share, accountability for the assets, and all reporting requirements in the regional application.

The host will be required to enter information that captures the macro demographics (e.g., total square miles) and master listings of information (e.g., combined SCBA inventories) of the partners that serve the region.

All participants of a Regional applicant must be compliant with AFG requirements, including being current with past grants, closeouts, and other reporting requirements. Upon notification by the AFG Program Office, the host agency shall not distribute grant funded assets or provide grant-funded contractual services to non-compliant partner organizations. The host and the delinquent partners will be notified by the AFG Program Office of their specific deficiency.

Regional host applicants and participating partner agencies must execute a Memorandum of Understanding (MOU) or equivalent document signed by the host and all participating organizations. The agreement should specify the individual and mutual responsibilities of the participating partners, the participant's level of involvement in the project(s), and the proposed distribution of all grant funded assets and/or contracted services. Copies of the MOU will be requested during the technical evaluation of the application.

The MOU must specify the individual and mutual responsibilities of the host and participating partners, the host's and participant's level of involvement in the project(s), the participating partner's EIN numbers, and the proposed distribution of all grant funded assets or contracted services. Any entity named in the application as benefiting from the award must be an eligible AFG organization and must be a party to the MOU or equivalent document.

H. Vehicle Acquisition

Overview

Vehicles purchased with AFG funds must be compliant with NFPA 1901 (Standard for Automotive Fire Apparatus), NFPA 1906 (Standard for Wildland Fire Apparatus), or NFPA 1917 or equivalent (Standard for Automotive Ambulances). Leases, loan payments, or installment plans to obtain a vehicle are not eligible acquisition activities under the AFG Program and will not be reimbursed.

Community Paramedic vehicles are non-transport vehicles and are not intended to have a dual role (e.g., as utility or support vehicles). There is nothing inherent in the delivery of community paramedic services that requires any emergency response packages (e.g., lights, sirens) or operational equipment (e.g., rescue tools, structural/wildland firefighting equipment); consequently, such activities are ineligible.

Applicants may apply for more than one vehicle. Requests cannot exceed the financial cap based on population listed in the application. If a department submits multiple types of applications, and more than one of those requests are approved, the department will be held to the same financial cap based on the population listed in the application.

When requesting more than one vehicle, applicants will be asked to fill out a separate line item and answer all the questions including a separate narrative for each vehicle. For example, if applicants are requesting to replace three ambulances, the applicant must fill out the age and vehicle identification number (VIN) of each vehicle being

replaced. Applicants cannot use the same VIN in each line item.

In the case(s) when an applicant is not replacing a vehicle but only changing the service status of a vehicle(s), such as from first due to reserve, a VIN number is still required for the narrative and for the vehicle being reassigned.

Applicants requesting fire vehicles that do not have drivers or operators trained to NFPA 1002 or equivalent and are not planning to have a training program in place by the time the awarded vehicle(s) is delivered, will not receive a vehicle award.

Applicants requesting nonaffiliated EMS vehicles that do not have drivers or operators trained to the National Standard Emergency Vehicle Operator Curriculum (EVOC) developed by the United States Department of Transportation (DOT), or equivalent, and are not planning to have a training program in place by the time the awarded vehicle(s) is delivered, will not receive a vehicle award.

All applicants may request funding for a driver training program within the “Vehicle Acquisition” section but must add the request in the “Additional Funding” area in the “Request Details” section of the Vehicle Application.

All driver training program(s) must be in place prior to the delivery of the awarded vehicle(s) or the recipient will be considered to be in violation of the grant agreement.

The pre-score evaluation criteria consider the department’s need for the vehicle based on the age/condition of current vehicles and/or the demands on the organization. *All of the following are considerations in pre-scoring and peer review determinations:*

Eligible Fire Department, and State Fire Training Academy Vehicle activities include but are not limited to the following Vehicle Priorities:

Priority	Urban Communities	Suburban Communities	Rural Communities
<p style="text-align: center;">H</p>	<ul style="list-style-type: none"> • Aerial • Ambulance • Pumper • Rescue Vehicle Light, Medium, or Heavy • Non-Transport EMS (Community Paramedic/Healthcare) • Quint • Brush Type III or larger 	<ul style="list-style-type: none"> • Aerial • Ambulance • Pumper • Tanker/Tender • Rescue Vehicle Light, Medium or Heavy • Non-Transport EMS (Community Paramedic/Healthcare) • Quint • Brush 	<ul style="list-style-type: none"> • Aerial • Ambulance • Brush/Attack • Pumper • Tanker/Tender • Non-Transport EMS (Community Paramedic/Healthcare) • Quint

Eligible Fire Department, and State Fire Training Academy Vehicle activities include but are not limited to the following Vehicle Priorities:

M	<ul style="list-style-type: none"> • Command/Mobile Communications Vehicle • Hazardous Materials Unit • Air/Light Unit • Rehab Unit 	<ul style="list-style-type: none"> • Command/Mobile Communications Vehicle • Hazardous Materials Unit • Air/Light Unit • Rehab Unit 	<ul style="list-style-type: none"> • Command/Mobile Communications Vehicle • Hazardous Materials Unit • Air/Light Unit • Rescue Vehicle Light, Medium, or Heavy
L	<ul style="list-style-type: none"> • ARFF (Aircraft Rescue Firefighting) • Foam Truck • Fire Rescue/Boat • Highway Safety Unit • Hybrid (i.e. Transport Engine) • Tanker/Tender 	<ul style="list-style-type: none"> • ARFF • Foam Truck • Highway Safety Unit • Hybrid (i.e. Transport Engine) • Fire Rescue/Boat 	<ul style="list-style-type: none"> • ARFF • Foam Truck • Highway Safety Unit • Hybrid (i.e. Transport Engine) • Fire Rescue/Boat • Rehab Unit

Eligible Regional Vehicle activities for Fire Departments (ALL Community Types)

H	<ul style="list-style-type: none"> • Aerial • Air/Light Unit • Bariatric Ambulance • Command/Mobile Communications Vehicle • Non-Transport EMS (Community Paramedic/Healthcare) • Rehab Unit • Rescue Vehicle Light, Medium or Heavy • Tow Vehicle (Applied for underequipment)
M	<ul style="list-style-type: none"> • Highway Safety Unit
L	<ul style="list-style-type: none"> • Hazardous Materials Unit • Foam Truck

Eligible Nonaffiliated EMS and Nonaffiliated Regional Vehicle activities

H

- Ambulances
- Bariatric Ambulance
- Non-Transport EMS (Community Paramedic/Healthcare)

Compliance with Standards

- Ambulances must comply with NFPA 1917, Edition 2016, or GSA Federal Standard KKK-A-1822F
- Applicants must certify that unsafe vehicles will be permanently removed from service if awarded a grant. Acceptable uses of unsafe vehicles include farm, nursery, scrap metal, salvage, construction, or donation to a foreign entity
- Applicants should consider adopting the principles of Traffic Incident Management Systems. The USFA report on TIMS can be found at: https://www.usfa.fema.gov/downloads/pdf/publications/fa_330.pdf
- New fire apparatus must be compliant with NFPA 1901 or 1906 for the year ordered/manufactured

Additional Considerations (to include, but not limited to)

- Age and mileage of the vehicle being replaced; older equipment receives higher consideration
- Age of the newest vehicle in the department's fleet that is like the vehicle to be replaced
- Average age of the fleet; older equipment within the same class
- Call volume of primary first due response area or region
- Converted vehicles (with an emphasis on tanker/brush trucks) not designed or intended for use in the fire service departments that have automatic aid agreements, mutual aid agreements, or both. A converted vehicle is any vehicle that is not engineered to an NFPA standard, or not being used for its original design, or over its gross vehicle weight (GVW)
- Vehicles on loan to the organization in the application narrative but not in the organization's inventory
- Damaged vehicles and out of service vehicles in the organization's inventory
- Replacement of open cab/jump seat configurations

IMPORTANT

Upon accepting an offer of an award for Vehicle Acquisition under AFG activity, grant recipients must submit a copy of their vehicle purchase contract to the designated Regional Fire Program Specialist. To locate Regional Fire Program Specialists, please visit: <https://www.fema.gov/fire-grant-contact-information>

Applicants will be asked to scan document(s) into a PDF format and email them to the Regional Fire Programs Specialist for inclusion in the grant file. Submitting a vehicle purchase contract will assist in the programmatic monitoring of an award and help

ensure programmatic compliance with the Improper Payments Eliminations and Recovery Act of 2012 (Pub. L. No. 112-248). If recipients do not submit a vehicle purchase contract, they will be unable to:

- Submit for an advance of federal funds for partial vehicle payment or chassis payment.
- Submit an amendment requesting a Period of Performance extension for the project.

Performance Bond Strongly Recommended: Performance bonds are strongly recommended but not required by the AFG Program. This is for any organization that is going to advance its own funds to their vendor prior to receipt of the vehicle. The bond may be obtained through the vendor or bank. The concept behind this is to ensure the applicant's funds are not lost in the event of a vendor's failure to perform, e.g., not finishing or delivering the vehicle or going out of business.

Prepayment Bond Required: AFG vehicle awardees are required to obtain a prepayment bond if the recipient plans to advance federal funds to their vendor for a down payment. This is to safeguard the federal funds against loss if the vendor goes out of business or fails to deliver the vehicle. Prepayment bonds may be obtained through the vendor or bank. The cost of a Prepayment Bond is a reimbursable activity under a vehicle acquisition award.

Penalty Clause Required: All contracts for any AFG-funded vehicle must contain a penalty clause. Non-delivery by the contract's specified date, or other vendor nonperformance, will require a penalty that is no less than \$100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient.

Down Payment: A down payment for the purchase of a vehicle is allowable if required in the vehicle purchase contract, but FEMA will only allow up to 25 percent of the federal share to be drawn for this purpose.

Any costs over-and-above the 25 percent limit, such as the cost of a chassis or any other fees or services, must be borne by the recipient or deferred until final payment is drawn.

Federal funds may not be requested for any other payments to include, but not limited to: periodic or progress vehicle payments, loan payments, or the acquisition of NFPA 1901 compliant equipment for the awarded vehicle if they are being supplied under the vehicle contract. Purchases outside of the vehicle contract can be requested for payment, i.e. driver/operator training, physical exams for driver/operator, and NFPA 1901/1906 compliant equipment specific to the type of apparatus awarded.

Final Payment: To expedite the acquisition process, and prior to the vehicle being received, inspected, and accepted, the recipient may request the final vehicle payment as an advance payment request.

However, the recipient shall not disburse or satisfy the vehicle obligation until after the

vehicle is received, inspected, and accepted by the recipient.

Vehicle Loans: Pursuant to 2 C.F.R. § 200.313 (a)(2), recipients may not encumber AFG-funded equipment unless approved by FEMA. For example, recipients may not use a vehicle funded with AFG funds as collateral for any type of financial loan unless approved by FEMA.

Eligible Fire Department, Nonaffiliated EMS Organizations, Regional, and State Fire Training Academy Vehicle activities include but are not limited to:

- | | |
|---|--|
| <ul style="list-style-type: none"> • Cost of vehicle • Physicals to meet current NFPA 1582/US Department of Transportation 649F • Cost of associated equipment that is eligible under current NFPA 1901/1906 | <ul style="list-style-type: none"> • Driver/operator training programs that meet applicable standards, current NFPA 1002 or Emergency Vehicle Operator Curriculum (EVOC), or equivalent • Travel expenses (air/rail transportation, mileage, hotel/lodging) to inspect a requested vehicle during production (if justified in the Vehicles narrative) <p>Note: Food and beverages are ineligible travel expenses.</p> |
|---|--|

Ineligible Fire Department, Nonaffiliated EMS Organizations, Joint/Regional, and State Fire Training Academy Vehicle activities include but are not limited to:

- | | |
|---|---|
| <ul style="list-style-type: none"> • Leasing, rental, or installment purchase of any grant funded vehicle • Aircraft, bulldozers, and construction-related equipment • Using the vehicle being awarded as collateral for any financial loan • Food and beverages. | <ul style="list-style-type: none"> • Utility Vehicles (UTVs) and All-Terrain Vehicles (ATVs) are not eligible • Unmanned Aerial Vehicles (UAVs) and Drones • Used or refurbished apparatus are ineligible activities under Vehicle Acquisition. • Converted vehicles not originally designed for firefighting are not eligible for refurbishment. |
|---|---|

Example of vehicles types

- Pumper (an apparatus that carries a minimum of 300 gallons of water and has a pump with the capacity to pump a minimum of 750 gallons per minute)
- Urban interface vehicles (Type I) pumper (300 gallons of water and 750 GPM)
- Ambulance (vehicle used for transporting patients)

- Tanker/Tender (an apparatus that has water capacity in excess of 1,000 gallons of water)
- Quint Aerial (an aerial ladder, elevating platform, or water tower that is designed to position personnel, handle materials, provide continuous egress, or discharge water)
- Quint (Fire apparatus with a permanently mounted fire pump, a water tank, a hose storage area, an aerial ladder or elevating platform with a permanently mounted waterway, and a complement of ground ladders)
- Aerial Ladder: Elevating platform, or water tower that is designed to position personnel, handle materials, provide continuous egress, or discharge water.

Unsafe Vehicles

If applicants specify the vehicle(s) to be replaced are unsafe, they must certify that if awarded, the unsafe vehicle to be replaced will be permanently removed from emergency service response. Permanently removed from emergency service response means the recipient cannot use the vehicle being replaced for any emergency service response, nor can the recipient sell or otherwise transfer title to any individual or emergency service response organization that will use the unsafe vehicle for emergency service response.

A recipient who certifies it will remove an unsafe vehicle from service but then sells/transfers the unsafe vehicle to another emergency service response organization, or otherwise does not remove the unsafe vehicle from emergency service response, is considered to be in violation of the grant agreement.

Acceptable dispositions (donation or sale) of unsafe vehicles include but are not limited to: a training facility (NO emergency response off the training grounds), farm use, construction or nursery use, sale to a non-emergency service response entity for refurbishment, scrap metal, salvage or foreign donation.

Appendix C: Award Administration Information

Appendix C contains detailed information on AFG Award Administration. Reviewing this information may help recipients in the programmatic and financial administration of their award(s).

Help FEMA Prevent Fraud, Waste, and Abuse

If applicants or recipients have information about instances of fraud, waste, abuse, or mismanagement involving FEMA programs or operations, they should contact the DHS OIG Hotline at (800) 323-8603, by fax at (202) 254-4297, or email DHSOIGHOTLINE@dhs.gov.

I. Economic Hardship Waivers of Cost Share and Maintenance of Effort

In cases of demonstrated economic hardship, and upon the request of the recipient, the Administrator may waive or reduce an AFG cost share or maintenance of effort requirement for certain recipients. (15 U.S.C. § 2229(k)(4)(A)) As required by statute, the Administrator of FEMA established guidelines for determining what constitutes economic hardship and published these guidelines at FEMA's website https://www.fema.gov/.../Eco_Hardship_Waiver_FPS_SAFER_AFG_IB_FINAL.pdf. An award must be accepted before a hardship waiver for cost share or maintenance of effort can be submitted as an amendment request via the online FEMA GO.

II. Grant Writer/Preparation Fees

Fees for grant writers may be included as a pre-award expenditure. Fees payable on a contingency basis are not an eligible expense. For grant writer fees to be eligible as a pre-award expenditure, the fees must be specifically identified and listed within the "Request Details" section of the application. FEMA will only consider reimbursements for application preparation, not administration, up to, but not more than \$1,500. Pursuant to 2 C.F.R. Part 180, recipients may not use federal grant funds to reimburse any entity, including a grant writer or preparer, if that entity is presently suspended or debarred by the Federal Government from receiving funding under federally-funded grants or contracts. Recipients must verify that the contractor is not suspended or debarred from participating in specified federal procurement or non-procurement transactions pursuant to 2 C.F.R. § 180.300.

By submitting the application, applicants are certifying all of the information contained therein is true and an accurate reflection of the organization, and that regardless of the applicant's intent, the submission of information that is false or misleading may result in actions by FEMA. These actions include but are not limited to the submitted application not being considered for award, temporary withholding of funding under the existing award pending investigation, or referral to the DHS Office of the Inspector General (OIG).

Prior to submission of the application, please review all work produced by grant writers or other third parties for accuracy. In addition, in order to charge grant writer fees to the grant award, the fees must have been paid no later than 30 days after the end of the application period. The following documentation shall be provided to FEMA upon request:

- i. A copy of the grant writer's contract for services
- ii. A copy of the invoice or purchase order
- iii. A copy of the canceled check (front and back)

Failure to provide the requested documentation may result in the grant writer fee being deemed ineligible and the grant reduced accordingly.

NOTE: FEMA requires that all applicants identify any individual or organization that assisted with the development, preparation, or review of the application to include drafting or writing the narrative and budget, whether that person, entity, or agent is compensated or not and whether the assistance took place prior to submitting the application.

III. Maintenance and Sustainment for AFG Programs

The use of FEMA preparedness grant funds for the costs of repairs or replacement, as well as maintenance contracts, warranties, and user fees may be allowable.

The intent of eligible Maintenance and Sustainment activities is to provide direct support to the critical capabilities developed using FEMA and other DHS Grants and support activities. Routine upkeep and the supplies, expendables, or one-time use items that support routine upkeep (e.g., gasoline, tire replacement, routine oil changes, monthly inspections or grounds and facility maintenance) are the responsibility of the recipient and may not be funded with AFG funding.

Generally, when purchasing a maintenance agreement, service contract, or extended warranty for systems or equipment, the period of coverage provided under such a plan may not extend beyond the period of performance of the grant with which the agreement, warranty or contract is purchased.

The duration of an extended warranty purchased incidental to the original purchase of the equipment may exceed the period of performance as long as the coverage purchased is consistent with that which is typically provided for, or available through, these types of agreements, warranties, or contracts. When purchasing a stand-alone warranty or extending an existing maintenance contract on an already-owned piece of equipment or system, coverage purchased may not exceed the period of performance of the award used to purchase the maintenance agreement or warranty. As with warranties and maintenance agreements, this policy extends to licenses and user fees as well.

Even if purchased incidental to the original purchase of the equipment, the duration of an extended maintenance agreement or warranty must also be reasonable for the type of equipment or system being purchased. For example, if a vendor offers a 10-year extended warranty incidental to the purchase of a piece of equipment, but the useful life of that equipment being purchased is five years, the purchase of a 10-year extended warranty would not be a reasonable cost and may not be charged to the grant.

IV. Taxes, Fees, Levies, and Assessments

Taxes, fees, levies, or assessments that the recipient is legally required to pay and is directly related to any eligible AFG Program acquisition activity may be charged to an AFG award pursuant to 2 C.F.R. §200.470. These charges shall be identified and enumerated in the AFG application narrative, as well as the “Request Details” section of the acquisition activity.

Any avoidable and unreasonable costs that result from the action or inaction of a recipient (or recipient’s agent) or that prevent that recipient from enjoying any lawful exemption, waiver, or reduction of any tax, fee, levy, or assessment directly related to any eligible AFG Program acquisition activity, are not chargeable to any AFG award.

Example: Governmental entities and Public Safety Agencies are exempt from some Federal Communications Commission (FCC) fees*, but only if the eligible organization submits an exemption or waiver request to the FCC.

**Government entities are not required to pay FCC regulatory fees. Non-profit entities (exempt under Section 501 of the Internal Revenue Code) may also be exempt. The FCC requires that any entity claiming exempt status submit, or have on file with the FCC, a valid IRS Determination Letter documenting its nonprofit status or certification from a governmental authority attesting to its exempt status. For more information, please visit <http://www.fcc.gov>.*

V. Excess Funds

After completing the initial projects proposed in the recipient's application, some recipients may have unexpended funds remaining in their budget. These excess funds may result from any combination of under-budget acquisition activities or competitive procurement processes.

These cost-shared excess funds may be utilized to address an organization’s local needs or to mitigate identified capability gaps. FEMA expects excess funds to be obligated concurrent with an award’s period of performance to address a known or critical need.

Excess Funds Restrictions

In general, excess funds are limited to no more than \$10,000 for any award. If you have any questions, contact our help desk at 866-274-0960 or e-mail us at firegrants@dhs.gov.

The \$10,000 maximum is cumulative for any grant, regardless of the number of activities within the award, and will require no amendment except when the use of excess funds is for any eligible activity that would normally require an EHP review.

- Excess funds cannot be used to support Fire Prevention and Safety activities.
- The opportunity for excess funds is limited when the original uncompleted Scope of Work is changed via an Amendment.

Example: An award has a single activity (i.e., the acquisition of 50 SCBAs) that is reduced via Amendment. The federal participation and the recipient cost obligation are both reduced and any remaining unliquidated federal funds resulting from the reduction in quantity is *not allowable* as excess funds.

- Excess funds cannot be used for grant writer/preparer fees.
- Excess funds may only be used for allowable activities identified in the program guidance for that fiscal year's grant cycle.

Exceptions to the \$10,000 use may be considered by FEMA if urgent and compelling need that can be directly related to a demonstrated event impacting the health and safety of the firefighters within the department can be identified. This request must be submitted in writing via an amendment.

VI. Procurement Integrity

Through audits conducted by DHS Office of Inspector General (OIG) and FEMA grant monitoring, findings have shown that some FEMA recipients have not fully adhered to the proper procurement requirements when spending grant funds. Anything less than full compliance with Federal procurement policies jeopardizes the integrity of the grant as well as the grant program. Noncompliance with the Federal procurement rules may result in FEMA imposing specific conditions as described in 2 C.F.R. § 200.207 or other remedies for noncompliance under 2 C.F.R. § 200.338.

The below highlights the Federal procurement requirements for FEMA recipients when procuring goods and services with Federal grant funds. DHS will include a review of recipients' procurement practices as part of the normal monitoring activities. ***All procurement activity must be conducted in accordance with Federal Procurement Standards at 2 C.F.R. §§ 200.317 – 200.326.*** Select requirements under these standards are listed below. The recipient must comply with all requirements, even if they are not listed below.

Under 2 C.F.R. § 200.317, when procuring property and services under a Federal award, states must follow the same policies and procedures they use for procurements from their non-Federal funds; additionally, states must follow 2 C.F.R. § 200.322 regarding procurement of recovered materials, and 2 C.F.R. § 200.326 regarding required contract provisions.

All other non-Federal entities, such as tribes, must use their own documented procurement procedures which reflect applicable state, local, territorial and tribal laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in 2 C.F.R. Part 200. These standards include, but are not limited to, providing for full and open competition consistent with the standards of 2 C.F.R. § 200.319.

Competition and Conflicts of Interest

Among the requirements of 2 C.F.R. § 200.319(a) applicable to all non-Federal entities other than States, in order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. ***FEMA considers this an organizational conflict of interest and interprets this restriction as applying to contractors that help a recipient develop its grant application, project plans, or project budget. This prohibition also applies to the use of former employees to manage the grant or carry out a contract when such former employees worked on such activities while they were employees of the non-Federal entity.***

Under this prohibition, unless the non-Federal entity solicits for and awards a contract covering both development and execution of specifications (or similar elements as described above), and this contract was procured in compliance with 2 C.F.R. §§ 200.317 – 200.326, Federal funds cannot be used to pay a contractor to carry out the work if that contractor also worked on the development of such specifications. This rule applies to all contracts funded with Federal grant funds, including pre-award costs, such as grant writer fees, as well as post-award costs, such as grant management fees. For more information on grant writer and grant management costs, see Section D.

Additionally, some of the situations considered to be restrictive of competition include, but are not limited to:

- Placing unreasonable requirements on firms in order for them to qualify to do business.
- Requiring unnecessary experience and excessive bonding.
- Noncompetitive pricing practices between firms or between affiliated companies.
- Noncompetitive contracts to consultants that are on retainer contracts.
- Organizational conflicts of interest.
- Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement.
- Any arbitrary action in the procurement process.

Pursuant to 2 C.F.R. § 200.319(b), non-Federal entities other than states must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, territorial or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts state licensing laws. When contracting for architectural and engineering services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

Pursuant to 2 C.F.R. § 200.318(c)(1), non-Federal entities other than states are required to maintain written standards of conduct covering conflicts of interest and governing the actions of their employees engaged in the selection, award, and administration of contracts. ***No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest.*** Such conflicts of interest would arise when the employee, officer or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

The officers, employees, and agents of the non-Federal entity may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, non-Federal entities may set standards for situations in which the financial interest is not substantial, or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees or agents of the non-Federal entity.

If the recipient or subrecipient (other than states) has a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe, the non-Federal entity must also maintain written standards of conduct covering organizational conflicts of interest. In this context, organizational conflict of interest means that because of a relationship with a parent company, affiliate, or subsidiary organization, the non-Federal entity is unable or appears to be unable to be impartial in conducting a procurement action involving a related organization. The non-Federal entity must disclose in writing any potential conflicts of interest to FEMA or the pass-through entity in accordance with applicable FEMA policy.

Supply Schedules

Generally, a non-Federal entity may seek to procure goods or services from a Federal supply schedule, state supply schedule, or group purchasing agreement. State and local governments may procure goods and services from a General Services Administration (GSA) schedule. Information about GSA programs for state and local governments can be found at <https://www.gsa.gov/resources-for/programs-for-state-and-local-governments>. For local governments that purchase off a GSA schedule, this will satisfy the Federal requirements for full and open competition provided that the recipient

follows the GSA ordering procedures; however, local governments will still need to follow the other rules under 2 C.F.R. §§ 200.317 – 200.326, such as contract cost and price (§ 200.323) and solicitation of minority, women-owned, or small businesses (§ 200.321).

For non-Federal entities other than states, such as tribes, that want to procure goods or services from a state supply schedule, cooperative purchasing program, or other similar program, in order for such procurements by to be permissible, the following must be true:

- The procurement of the original contract or purchasing schedule and its use by the recipient complies with state and local law, regulations, and written procurement procedures.
- The state or other entity that originally procured the original contract or purchasing schedule entered into the contract or schedule with the express purpose of making it available to the recipient and other similar types of entities.
- The contract or purchasing schedule specifically allows for such use, and the work to be performed for the non-Federal entity falls within the scope of work under the contract as to type, amount, and geography.
- The procurement of the original contract or purchasing schedule complied with all of the procurement standards applicable to a non-Federal entity other than states under at 2 C.F.R. §§ 200.317 – 200.326.
- With respect to the use of a purchasing schedule, the recipient must follow ordering procedures that adhere to state and local laws and regulations and the minimum requirements of full and open competition under 2 C.F.R. Part 200.

If a non-Federal entity other than a state seeks to use such a state supply schedule, cooperative purchasing program, or other similar type of arrangement, it is recommended that recipients discuss their procurement plans with the FEMA Grant Programs Directorate.

Documentation

Non-Federal entities are required to maintain and retain the following:

- Backup documentation, such as bids and quotes.
- Cost/price analyses on file for review by Federal personnel, if applicable.
- Other documents required by Federal regulations applicable at the time a grant is awarded to a recipient.

FEMA requires that non-Federal entities maintain the following documentation for Federally funded purchases:

- Specifications
- Solicitations

- Competitive quotes or proposals
- Basis for selection decisions
- Purchase orders
- Contracts
- Invoices
- Canceled checks

Non-Federal entities should keep detailed records of all transactions involving the grant. FEMA may at any time request copies of purchasing documentation along with copies of cancelled checks for verification. *See, e.g.,* 2 C.F.R. §§ 200.318(i), 200.333, 200.336.

Non-Federal entities who fail to fully document all purchases will find their expenditures questioned and subsequently disallowed.

VII. Payments and Amendments

AFG payment/drawdown Requests are generated using FEMA GO. AFG payment/drawdown requests from state or local government entities will be governed by applicable federal regulations in effect at the time a grant is awarded to the recipient and may be either advances or reimbursements. Recipients should not expend funds until all special conditions listed on the grant award document have been met and the request for payment in FEMA GO has been approved. Recipients should draw down funds based upon immediate disbursement requirements, however, FEMA strongly encourages recipients to draw down funds as close to disbursement or expenditure as possible to avoid accruing interest.

Advances

Recipients shall be paid in advance, provided they maintain, or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of funds and its disbursement by the recipient (not to exceed 30 days), and the financial management systems that meet the standards for fund control and accountability as established in 2 C.F.R. Part 200.

Although advance drawdown requests are permissible, recipients remain subject to applicable federal laws in effect at the time a grant is awarded to the recipient. Governing interest requirements include the *Uniform Administrative Requirements Cost Principles, and Audit Requirements for Federal Awards* at 2 C.F.R. Part 200 and the *Cash Management Improvement Act (CMIA)* and its implementing regulations at 31 C.F.R. Part 205. Interest under CMIA will accrue from the time federal funds are credited to a recipient's account until the time the recipient pays out the funds for program purposes. For the rate to use in calculating interest, please visit Treasury Current Value rate at https://www.fiscal.treasury.gov/fsreports/rpt/cvfr/cvfr_home.htm.

Reimbursement

Payment by reimbursement is the preferred method when the requirements to be paid in advance, pursuant to 2 C.F.R. § 200.305, cannot be met. In accordance with US Department of Treasury regulations at 31 C.F.R. Part 205, if applicable, the recipient shall maintain procedures to minimize the time elapsing between the transfer of funds and the disbursement of said funds.

Rebates

Recipients shall disburse program income, rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds before requesting additional cash payments, in accordance with 2 C.F.R. § 200.305. The reduction of federal financial participation via rebates/refunds *may* generate excess funds for the recipient if the recipient previously obligated their Cost Share match based upon the original award figures. If the recipient previously obligated their original Cost Share *prior* to the rebate, then the recipient *may* have minimum excess funds equal to the difference between the original Cost Share less the rebate adjusted Cost Share.

Payment Requests During Closeout

A recipient may only submit reimbursement payment requests up to 90 days after the expiration of the period of performance, during an award's closeout reconciliation. Reimbursement payments are the only eligible type of requests to be submitted after a grant's period of performance has expired. The expenditure must have been obligated and received during the period of performance of the award. The recipient's request should contain clear and specific information certifying that the liquidation of federal funds is reimbursement for an obligation properly incurred during the active period of performance; FEMA may request documentation supporting the reimbursement for review at any time.

Amendments

FEMA may approve AFG award amendments on a case-by-case basis, for the following reasons:

- Extension of the period of performance in order to complete the scope of work.
- Changes to the activity, mission, retroactive approval [pre-award], closeout issues, some excess funds requests, requests for economic hardship Cost Share waiver, and requests for maintenance of expenditure waivers.
- Budget changes (adding funds to award/non-closeout deobligation of funds)
- Economic Hardship Waiver.

FEMA will only consider amendments submitted via FEMA GO. These requests must contain specific and compelling justifications for the requested change. FEMA strongly encourages recipients to expend grant funds in a timely manner, to be consistent with AFG Grant Program's goals and objectives.

NOTE: A recipient may deobligate (i.e., return) unused funds (i.e., those remaining funds previously drawn down via payment request and/or remaining award funding

that was never requested) to DHS/FEMA prior to the end of an award's period of performance. To exercise this option, a recipient must submit an amendment via FEMA GO and state in the amendment that the unliquidated funds (i.e., the funds to be returned) are not necessary for the fulfillment or success of the grant's obligations or mission. The recipient must also indicate in the amendment that it understands that the returned funds will be deobligated and unavailable for any future award expenses. Deobligation of funds will decrease the federal portion of the grant and the amount of the recipient's Cost Share obligation. FEMA will confirm deobligation amendments with all points of contact; after confirmation of the recipient's intent to deobligate, FEMA will hold the approved deobligation request for 14 calendar days as a period for recipient reconsideration before FEMA processes the deobligation request.

VIII. Disposition of Grant Funded Equipment

A recipient must use, manage, and dispose of AFG-funded equipment in accordance with the *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* at 2 C.F.R. § 200.313. With the exception of state governments, when original or replacement equipment acquired under an AFG award is no longer needed for the original project, program, or other activities currently or previously supported by a federal awarding agency, the recipient must request disposition instructions from FEMA. FEMA strongly recommends contacting a Regional Fire Program Specialist or the AFG Help Desk prior to the disposition of AFG-funded equipment, to include vehicles.
