Land Use Plan

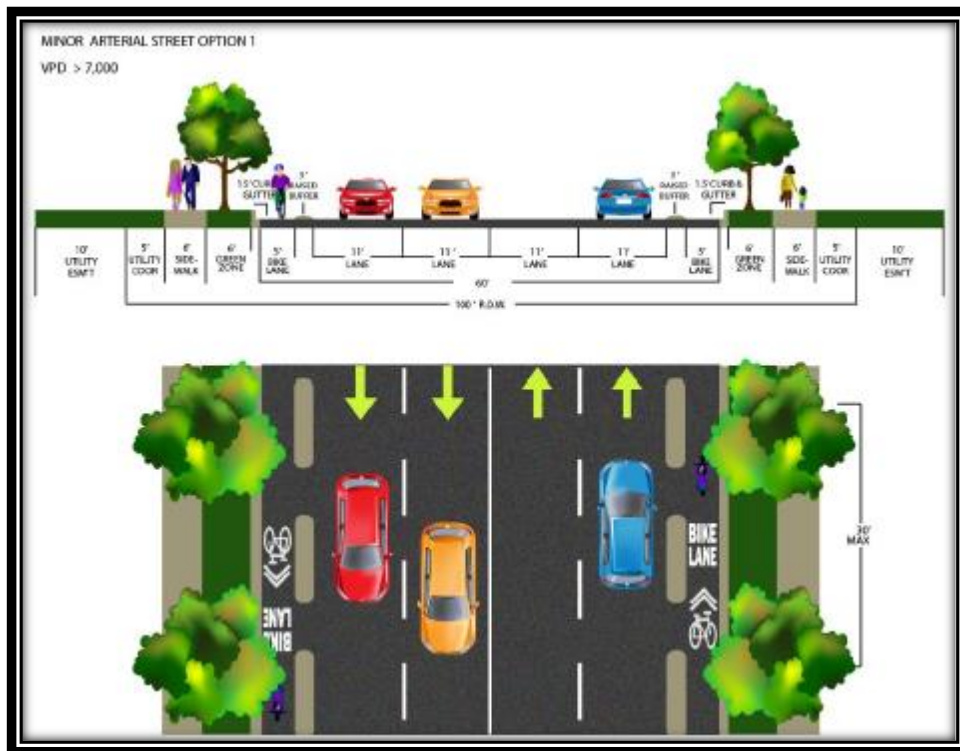

Master Street Plan

## Master Street Plan/Transportation

The subject property is served by East Nettleton Avenue. The Master Street Plan classifies East Nettleton Avenue as a **Minor Arterial**. The Minor Arterials function similarly to principal arterials, but operate under lower traffic volumes, serve trips of shorter distances, and provide a higher degree of property access than principal arterials.

**FUNCTION:** Minor Arterials provide the connections to and through an urban area. Their primary function is to provide short distance travel within the urbanized area. Since a Minor Arterial is a high volume road, a minimum of 4 travel lanes is required. At intersections with Collector Streets or other Arterials (principal or minor), additional right-of-way may be required if the anticipated turning movements warrant extra lanes.

**DESIGN:** Cross-section selection shall be based on anticipated traffic volume and speed limit, or traffic impact analysis, if applicable. Design in accordance with AASHTO policy on Geometric design of highways and streets (current edition).

Note: Where VPD is > 7,000 and speed is <35 mph, three foot wide raised buffers should be used.

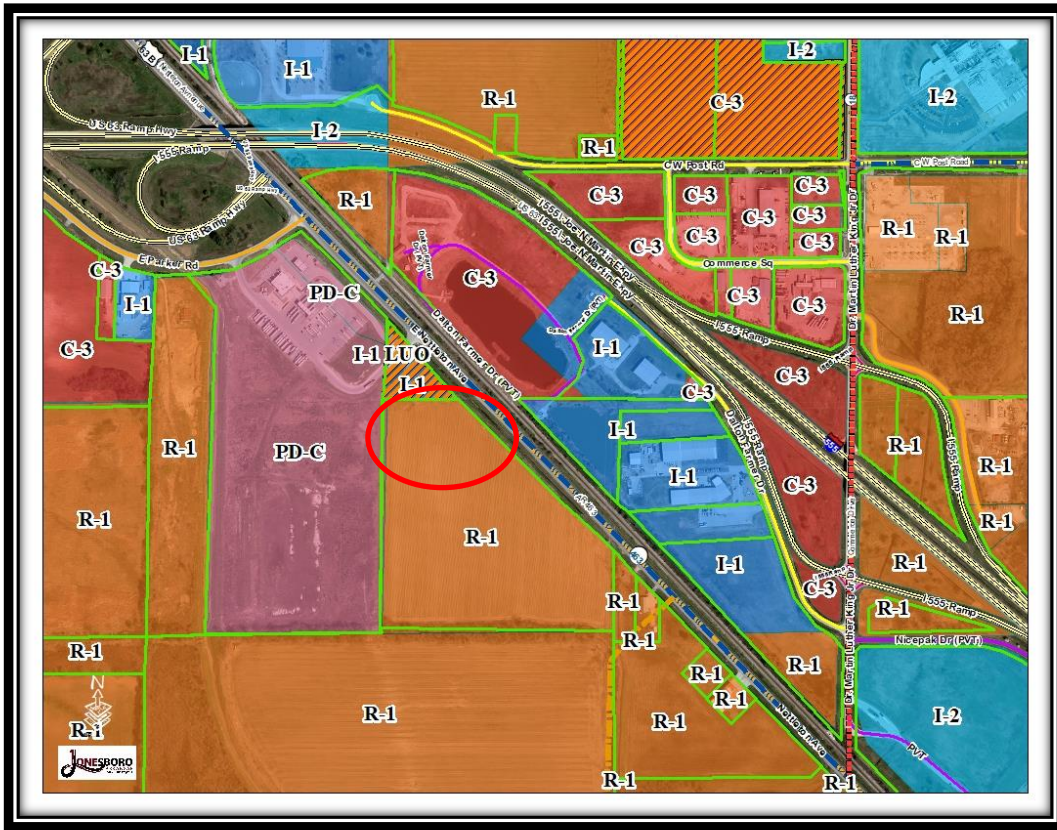

**OTHER MINOR ARTERIAL DESIGN OPTIONS:**

Note: Where VPD is > 7,000 and speed is  $\geq 35$  mph, separate bike lanes or a shared path should be utilized.

Note: Where VPD is > 7,000 and speed is  $\geq 35$  mph, separate bike lanes or a shared path should be utilized.

**Approval Criteria- Chapter 117 - Amendments:**

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the MAPC or City Council in reaching a decision. The criteria to be considered shall include, but not be limited to the following list on the next page.

Criteria	Explanations and Findings	Comply Y/N
<b>(a) Consistency of the proposal with the Comprehensive Plan/Land Use Map</b>	The proposed district rezoning is consistent with the Adopted Land Use Plan, which was categorized as a High Intensity Growth Sector.	
<b>(b) Consistency of the proposal with the purpose of Chapter 117-Zoning.</b>	The proposal will achieve consistency with the purpose of Chapter 117, with compliance of all District standards.	
<b>(c) Compatibility of the proposal with the zoning, uses and character of the surrounding area.</b>	Compatibility is achieved with this proposed rezoning considering there is C-3 General Commercial Zoning in this area.	
<b>(d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment;</b>	Without the proposed zoning map amendment, this property will not develop as anything other than what is on this location now or a new house. This is an R-1 Single Family Residential District and only a single family home can be built.	
<b>(e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property;</b>	No detrimental or adverse impacts are predicted, if proper planning is implemented.	
<b>(f) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services</b>	Minimal impact if rezoned due to the fact that businesses currently exist in this area.	

# Staff Findings:

## Applicant’s Purpose

The proposed area is currently classified as an R-1 Single Family Residential District. The applicant wants to rezone to C-3 General Commercial. Rezoning this property is consistent with the *Jonesboro Comprehensive Plan* and the *Future Land Use Plan*.

## Chapter 117 of the City Code of Ordinances/Zoning defines C-3 General Commercial District as follows:

Definition of C-3 General Commercial District - The purpose of this district is to provide appropriate locations for commercial and retail uses which are convenient and serve the needs of the traveling public. The district also provides locations for limited amounts of merchandise, equipment and material being offered for retail sale that are more suitable for storage and display outside the confines of an enclosed structure. Appropriate locations for this district are along heavily traveled arterial street. Development of groupings of facilities shall be encouraged, as opposed to less desirable strip commercial.
