Engineering Department Director Craig Light approached the podium, "This is the downtown to A State improvement project that we've had a couple of grants for. The drawings are done from Church Street down to Reeves. We're working on the section from Reeves down to Marion Berry overpass, but it will be the sidewalks, bike lanes, pedestrian connection from A State to downtown. We're having to require some right away down Creath Street. A lot of the existing right away was as narrow as 40 feet and so to get the improvements on the proposed revenue it required some additional right away to get down through there. We are touching, I think, 38 properties, but most the properties are fairly small in terms of square footages. We're taking five to six feet, I think I recall seeing one that was nine foot of frontage." Chairman John Street said,

"Yeah, this one I think was seven feet. It had 363 square feet." Craig Light said, "We're not touching any of the actual structures that are on the properties."

A motion was made by Councilperson Chris Moore, seconded by Councilperson Ann Williams, that this matter be Recommended to Council . The motion PASSED with the following vote.

Councilmember Chris Moore said, "Mr. Chair I assume that has no effect on the widening of the intersection of Highland and Southwest; it's farther west than that project." Chairman John Street said, "It's just an encroachment, isn't Craig?" Engineering Department Director Craig Light approached the podium, "It will actually line up with the 50 yard line of the football field."

A motion was made by Councilperson Mitch Johnson, seconded by Councilperson Ann Williams, that this matter be Recommended to Council . The motion PASSED with the following vote.
