Jonesboro, Arkansas 72401

REQUEST - CLOSE ALLEY

We have a sanitary sewer main installed in the alley east of Kays Street and directly east of your funeral home building. This sanitary sewer main serves a considerable area north of Johnson Avenue and is a vital link in our sewer collection system.

We would have no objection to your request to close this alley, subject to an easement for utility purposes that would restrict the construction of any permanent facility over the sanitary sewer main. It is highly unlikely that maintenance would require the main to be excavated; however, in the event of a main breakage or severe stoppage it might be necessary to excavate over the main, and for this reason we would object to any permanent structures built over or near enough to the main that would restrict excavation for maintenance and repairs.

If you have any questions concerning the exact location of the main, please contact us.
