ZONING ANALYSIS: City Planning Staff has reviewed the proposed Zone Change and offers the following findings.

COMPREHENSIVE PLAN/ FUTURE LANDUSE MAP

The 1996 Comprehensive Plan Future Land Use Map (page 24) shows the area recommended as Medium Density Residential next to Regional Commercial. This area is pending a restudy on the land use map by the Land Use Advisory Committee.

Pertinent Zoning Ordinance sections include Section 14.44.05(b), 'change in District Boundary', beginning on page 104.

Approval Criteria- Section 14.44.05, (5a-g)- Amendments:

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the planning commission or city council in reaching a decision. The criteria to be considered shall include but not be limited to the following:

- (a) Consistency of the proposal with the Comprehensive Plan
- (b) Consistency of the proposal with the purpose of the zoning ordinance.
- (c) Compatibility of the proposal with the zoning, uses and character of the surrounding area;

- (d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment;
- (e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property;
- (f) Length of time the subject property has remained vacant as zoned, as well as its zoning at the time of purchase by the applicant; and
- (g) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services.

Findings:

With the new mall development to the north, this area abuts a changing commercial corridor which includes other new retail development just north of the subject property. With proper buffering, a quality commercial development can be incorporated into this planning area. In retrospect, with the current R-3 Multi-family Zoning Classification, the proposed site has the potential for an apartment complex. This area will prove conducive for commercial uses along Stadium Drive north and south of the mall given the traffic volume. However, Staff cautions the Commission that any permitted use listed under C-3 can be allowed and a limited use overlay would have to be recommended if additional restrictions are advised. Billboards should be discouraged for this piece of property as well as any high volume retail. Staff suggests a limited use overlay modification to the request, with a condition that the plan be revisited, reviewed by the Planning Commission prior to any permit issuance or construction.

Conclusion:

The Planning Department staff finds that the requested Zone Change submitted by Richard Gambill and Gary Meeker should be reviewed based on the observations above. In the Case of RZ-08-16, a request to rezone property from R-3 to C-3 Commercial should be recommended to the Jonesboro City Council as a C-3 Limited Use with a condition that:

The limited use overlay imposed should be restricted as follows:

1. Building permits shall not be issued in the zoned area for any new commercial uses until such proposals have been submitted, reviewed and approved by the Planning Commission.
2. Billboards, high-volume retail uses such as convenience store, car wash, pawn shop, restaurant - fast food, vehicle repair - limited, vehicle repair - general, agriculture farmers' market, and service station shall not be permitted.
3. A landscape/buffer screen shall be implemented to protect any residential to abut any future commercial uses.

Respectfully Submitted for Commission Consideration,

Otis T. Spriggs, AICP
Planning & Zoning Director
