Meeting Minutes City Council

Tuesday, October 17, 2023

5:30 PM

Municipal Center, 300 S. Church

PUBLIC HEARING AT 4:00 P.M.

City Clerk April Leggett opened the Public Hearing at 4:00 p.m. Ms. Leggett said, this is an appeal hearing for Options, Inc. regarding the decision of the Metropolitan Area Planning Commission to deny a rezoning request from R-2 to Multi-Family, Low Density District to C-2, LUO, Downtown Fringe Commercial District, Limited Use Overlay at 314 E. Nettleton Avenue.

City Attorney Carol Duncan asked, does someone want to come up to make their request about Council postponing. I know we got an email, but do we want to make an official request? Councilmember David McClain said, while he is on the way, can I ask a question? Ms. Duncan said, yes. Councilmember McClain said, I was just trying to understand a couple of things reading through the Staff Summary and all of that good stuff. Derrel, if you don't mind, can you tell me, I am reading this as compatibility is not achieved with this rezoning considering the surrounding area. Is there a zoning that you feel would be compatible for the area? Ms. Duncan said, they are requesting a postponement, can we get through that first and see if it is postponed before we discuss the actual? Councilmember McClain said, you don't get any discussion if you postpone, correct? Ms. Duncan said, right, you do next time. Councilmember McClain said, I wish you would answer that for me if you don't mind.

Planning Director Derrel Smith said, there is not a commercial zone in our zoning ordinance that would just blend seamlessly with this area. If you look at CR-1, it allows Multi-Family. We know that the area is not. Multi-Family is not what they want in that area. The rest of the commercial, nothing, we really don't have a good commercial district that would blend in. Now, we have in our redevelopment areas, we have some areas that would work. But, at this location, it is going to be hard to make a commercial zoning fit that classification in the standards that you have got there on that printout that would say that it would blend with the existing neighborhood.

City Clerk April Leggett asked if anyone else had any questions. City Attorney Carol Duncan said, I think they are ready for a motion.

Mr. Garrett Dunnam said, good afternoon, thank you for being here. Yes, there was an email sent earlier. I just want to make an official request that this item be tabled to November 21, 2023 to give us some more time to speak with those involved and hopefully come up with a positive solution.

Councilmember LJ Bryant motioned, seconded by Councilmember David McClain, to postpone the public hearing until Tuesday, November 21, 2023 at 4:00 p.m. All in attendance voted aye.

Councilmembers in attendance for the public hearing: John Street, LJ Bryant, Joe Hafner, David McClain, Chris Gibson, Ann Williams, Janice Porter.

Councilmembers absent for the public hearing: Brian Emison, Dr. Charles Coleman, Chris Moore, Dr. Anthony Coleman, Mitch Johnson.

Ms. Leggett said, this item has been postponed until November 21, 2023. Ms. Duncan said, let's set a time on November 21, 2023. What do we have that day? Ms. Leggett said, we will have the exact meetings as we have today starting with Public Services at 4:30 p.m. Councilmember Joe Hafner asked, 4:00 p.m. again? Ms. Duncan asked, 4:00 p.m.? All agreed. Ms. Leggett said, so it is set for 4:00 p.m. on Tuesday, November 21, 2023. Mr. Dunnam said, thank you. Ms. Leggett said, that will conclude the hearing. Thank you.

PUBLIC SERVICES COUNCIL COMMITTEE MEETING AT 4:30 P.M.

PUBLIC SAFETY COUNCIL COMMITTEE MEETING AT 5:00 P.M.

1. CALL TO ORDER BY MAYOR HAROLD COPENHAVER AT 5:30 P.M.

2. PLEDGE OF ALLEGIANCE AND INVOCATION

3. ROLL CALL (ELECTRONIC ATTENDANCE) INITIATED AND CONFIRMED BY CITY CLERK APRIL LEGGETT

Present 12 - Brian Emison;Chris Moore;Chris Gibson;David McClain;Joe Hafner;Mitch Johnson;Anthony Coleman;Janice Porter;John Street;Charles Coleman;LJ Bryant and Ann Williams

4. SPECIAL PRESENTATIONS

5. CONSENT AGENDA

Councilmember Chris Gibson motioned, seconded by Councilmember Chris Moore, to pull RES-23:176, RES-23:182, and RES-23:187 from the Consent Agenda. All voted aye.

Approval of the Consent Agenda

A motion was made by Councilperson Chris Gibson, seconded by Councilperson Joe Hafner, to Approve the Consent Agenda. The motioned PASSED

Aye: 12 - Brian Emison;Chris Moore;Chris Gibson;David McClain;Joe Hafner;Mitch Johnson;Anthony Coleman;Janice Porter;John Street;Charles Coleman;LJ Bryant and Ann Williams

City Attorney Carol Duncan said, on the three that were pulled, Mr. Roper had said that those liens had all been paid and so I think the request is just to postpone those three indefinitely. Code Enforcement Director Scott Roper stated that RES-23:176 needed to be postponed indefinitely because the lien had been paid.

A motion was made by Councilperson Chris Moore, seconded by Councilperson Charles Coleman, that this matter be Postponed Indefinitely. The motion PASSED with the following vote:

Aye: 12 - Brian Emison;Chris Moore;Chris Gibson;David McClain;Joe Hafner;Mitch Johnson;Anthony Coleman;Janice Porter;John Street;Charles Coleman;LJ Bryant and Ann Williams

Code Enforcement Director Scott Roper said, we have recently located an heiress to the deceased owner and this individual has taken responsibility for the property and has boarded the property up. We would like to postpone this item for six months since it has been boarded and secured and give her some time to get the property back into her name. City Attorney Carol Duncan said, the date would be April 16, 2024, that is the meeting that would be about six months from now.

A motion was made by Councilperson John Street, seconded by Councilperson Joe Hafner, that this matter be Postponed Temporarily. The motion PASSED with the following vote.

Aye: 12 - Brian Emison;Chris Moore;Chris Gibson;David McClain;Joe Hafner;Mitch Johnson;Anthony Coleman;Janice Porter;John Street;Charles Coleman;LJ Bryant and Ann Williams

Chief Administrative Officer Brian Richardson said, with the recent improvements and investments out at Parker Park, this was an opportunity that had arisen that the Land Bank kind of vetted and researched. As you have all noticed, the Land Bank has had a lot of activity the last couple of years and they are kind of tasked with identifying both benefits and at risk property here in the City of Jonesboro. This is one that they have kind of researched, talked with the developer, they talked with the owner. It is an R-3 property. It does have a house on it that was recently renovated. So, that does increase the price a little bit. I sent around appraisals for those earlier today that had some pictures of the house. It is a one acre lot that backs up immediately to the South side of Parker Park. We are also trying to continue conversations with the

adjacent one acre directly to the West of that property as well with the eventual hopes that we would be able to secure as much of that adjacent property to Parker Park as possible. I think it is just kind of a continued effort or at least an opportunity for us to consider when it comes to available properties right next to our parks and our civic centers. This is an opportunity that came about and it may not become available again once it gets developed. So, I appreciate the Land Bank's work on this and their willingness to bring this forward for consideration and an offer that we can entertain. I can answer some questions about it. I know that Derrel Smith is here with the Planning Department who oversees the Land Bank. If there are technicality questions asked, he would probably be the one to ask.

Councilmember David McClain said, taking a look, I'm trying to make sure I am going to ask the correct question. Is the property vacant or is it occupied. Mr. Richardson said, the property is currently occupied. There is a lease on the house until July of next year. Councilmember McClain said, got it. I guess we are going to just tear it down or what is our plan for that? I don't imagine that we want to be landlords. Mr. Richardson said, you know, it is a recently remodeled house. The plan is not to remove that house. Councilmember McClain said, okay. Mr. Richardson said, there is a plethora of opportunities. I've talked to a couple of different departments that think that they might have the ability to use that for something. It is a good space. So, it would certainly be in discussion for possible beneficial uses.

A motion was made by Councilperson Chris Gibson, seconded by Councilperson Brian Emison, that this matter be Passed. The motion PASSED with the following vote.

Aye: 10 - Brian Emison;Chris Moore;Chris Gibson;Joe Hafner;Mitch Johnson;Janice Porter;John Street;Charles Coleman;LJ Bryant and Ann Williams

Nay: 2 - David McClain and Anthony Coleman

Councilmember John Street said, Mayor, at the public hearing earlier this evening, it was requested by one of the parties to postpone temporarily this item until November 21, 2023 so that they would have time to get with the other party to discuss a possible solution to this. So, I would move that we postpone temporary until November 21, 2023. Councilmember Joe Hafner seconded the motion. City Attorney Carol Duncan said, this item will not be at 4:00 p.m. It will be on the regular agenda at 5:30 p.m. The public hearing will be at 4:00 p.m. Councilmember Chris Moore said, I am going to recuse myself from voting on this. My brother owns the adjoining property. Mayor Harold Copenhaver said, November 21, 2023. Ms. Duncan said, the hearing was postponed until 4:00 p.m., but this will stay on the regular City Council agenda just like it is now. Mayor Copenhaver asked, does everyone understand? All voted aye except Councilmember Moore who abstained.

A motion was made by Councilperson John Street, seconded by Councilperson Joe Hafner, that this matter be Postponed Temporarily . The motion PASSED with the following vote.

Councilmember John Street motioned, seconded by Councilmember Chris Gibson, to suspend the rules and offer ORD-23:038 by title only. All voted aye.

Garrett Dunnam 3121 Galloway Court, said, good evening. I am just here on behalf of Southard Construction and wanted to offer some information on the request. The property in question is currently zoned R-2 which is a Multi-Family zoning. The request is simply just to rezone it to RM-12 to allow for multiple buildings on one lot. There was a site plan that was submitted for both what would be built if it was not to be rezoned and one that was submitted if it were to be rezoned. The RM-12 allows for a cleaner layout. It does not require a city street. We can have private parking. There was discussion at the Planning Commission that there were concerns about maybe security. I have spoken with the owner. He is willing to have a security fence installed around the property. There was also discussion about recreational areas. The owner is considering doing some low impact amenities for that regard. But, simply, the request, the density will be the same. The density will be the same and it will fit with the R-2 zoning density. Simply, we are trying to accomplish multiple buildings on the same lot and not having to subdivide it. Thank you. Mayor Copenhagen said, thank you for your comments.

Penny Newton, 5701 Pacific Road, said, I live exactly where, right on the other side of these apartments are going to be built. I am coming to you tonight to tell you that we do want you to approve the RM-12 because we do want single-story apartments, okay. We feel like that would be best for our neighborhood. We would prefer not to have any more apartments out there, but we have no choice. We are going to have to have apartments. And, we would rather have single story apartments. We hope that you all will address the traffic issues that we are going to have on Pacific. I know that all of you know that we are getting a new five-lane highway through there, MLK. Pacific is going to have a lot of apartments. We have tons of apartments being built out there and we just don't want anymore apartments. These apartments that are being built, that are fixing to be built, we want to make sure that the builder does it right. We are worried about crime out in our area. We are worried about it not being fenced, but he has taken the initiative to say that they are going to fence the property. We are hoping that maybe before we come back to the Council meeting again, is that we might be able to have a meeting with this property owner to make sure that we get everything addressed that we needed addressed out there because our drainage problem is really bad out there on Pacific. When it rains really hard out there, the road floods. There is nothing in the paperwork saying that they are going to widen Pacific because our ditches are not that deep out there. Even though they are going to have two retention ponds, I live right there beside it. If they are going to build that property up three or four feet, those retention ponds are not going to keep all of that water there. It is going to

come back over on us. We just want to make sure that the Council knows that these issues are things that we face out there in that community. We hope to get to speak with the developer before everything passes. I am just asking each and every one of you, councilmembers, if you would just drive out into our neighborhood, just to see what is going on out there because there is a lot of new development going on out there. And, if it were your neighborhood, if this is the place that you would live and what you would want for your family. I have been there 59 years. My parents built that home that I'm in. My mother is 86. She has been there all of her life and I fear for her safety every day. And, with getting more apartments and stuff, I just want each and every one of you all to consider what we are having to do, okay. It has been a rural community out in our area for a long time. Well, now, it is beginning to be more. And, the people that are building these apartments, they are not going to keep these apartments. They are going to build these apartments and they are going to sell them to somebody in California. So, we want them built right. We want the people to live in them to have pride and take pride in where they live. Just like I take pride in where I live. And, I want to make sure that Jonesboro, I can still call Jonesboro my hometown. I want each and every one of you all to drive out there. And, we do want them rezoned to RM-12 because we do want single story apartments. Thank you. Mayor Copenhaver said, Ms. Newton, thank you very much for your comments and I will even offer as well if you and the developer would like to have that meeting, we will be more than happy to set it up here at the city for you and we can make that work for you. Ms. Newton said, thank you very much. We will do that. Mayor Copenhaver said, you bet. We will do that.

Councilmember Joe Hafner said, Derrel, I have just a couple of questions for you if you don't mind coming up. Obviously, with the R-2, they can already build apartments, but with RM-12 that actually gives the city more architectural control over what they can build, right? Planning Director Derrel Smith said, even if they did R-2, they would still have to follow the multi-family design guidelines. Councilmember Hafner said, okay. Mr. Smith said, it does allow them to put everything on one lot instead of multiple lots. Councilmember Hafner said, right. Mr. Smith said, if they do R-2, they would have to subdivide the property into multiple lots, put a street in, and then put four-plexes on each lot. Councilmember Hafner asked, and then the site plan, that has to go back to MAPC to be approved before they can do anything, correct? Mr. Smith said, that is correct, yes. Councilmember Hafner said, that talks about drainage and traffic control, everything, right? Mr. Smith said, they will be required to follow the drainage plan, they will have to meet the drainage ordinance of the city. They will be required to do a traffic impact analysis to determine what the traffic conditions are and any impacts. We will look at everything to do with the site plan. Councilmember Hafner said, that is all I have got, thank you councilman. Mayor Copenhaver said, thank you.

Councilmember LJ Bryant said, Mr. Mayor, I have two questions. I know the lady mentioned single story, what would make them be single story under RM-12? Mr. Smith said, I think that is something that the developer has agreed to. They are not required to be. But, they can be multi-story in RM-12 also. But, to get the density they were wanting in the R-2, they were looking at stacking four-plexes is what they were looking at. Two and then two on top. Councilmember Bryant asked, depending upon the result of the traffic study, would they potentially have to make some road improvements? Mr. Smith said, that is just going to depend on the amount, the volume of traffic going in and out of there. Without knowing the number of units and everything, it is too early to tell. Councilmember Bryant said, thanks. Mayor Copenhaver said, thank you Derrel.

8. MAYOR'S REPORTS

Mayor Harold Copenhaver reported on the following:

So, as we continue to move closer toward a revenue bond and capital improvement allocation, I want to say thank you to all of you who have shared your thoughts. Please continue sending your ideas as I certainly don't want us to overlook projects, large or small, that could help move the needle in Jonesboro. If you have not sent in your thoughts or would like to meet, please let me know. I am happy to offer some meeting times to choose from. We must make investments in the quality of place for Jonesboro in our safety, in roads, in other necessary infrastructure. With your help, we have increased allocations considerably in all of these areas over the last 2 ½ years. Council, I am a firm believer that we have to rethink a lot of ways we plan for our future. We are in the late stages of a Master Parks Plan and from what I have seen so far, it will reinforce what we already all know, that we need to make investments to attract and retain young talent, provide families entertainment, and work as selling points to potential industry. We also all have to protect all of these with a robust safety, public safety presence. Jonesboro has grown into a city that competes regionally for large industry and sharp entrepreneurs. We must position ourselves to get our fair share and I feel we are making progress in that area. I would like to continue to hear your input through the end of this week. Then, we will release a public statement and document on projects early next week. So, now, continuing on the bond revenue effort. We are working with bond counsel on a timeline which currently calls for the preliminary authorization resolution to be presented to City Council on November 7, 2023. The purpose for this resolution is to allow expenses for planning, architect fees, etc. captured from that date forward to be reimbursable for bond dollars. As you will see, the Council meeting will be the first of multiple public hearings and disclosures that will ensure a very open, transparent, and clear process. This same meeting will

include a public hearing regarding the issuance of the bonds. These hearings are necessary and a legal requirement for the issuance of the bonds. Since the public notice hearing must be published 10 days in advance of the public hearing, our plans are to publish the notice by October 26, 2023. The city's financial advisor and bond counsel will be available to answer any questions. After the November 7th meeting, our financing team will continue to work on finalizing the various documents for the sale of the bonds with the intention of presenting the final bond ordinance to City Council on December 5, 2023. The sale of the bonds are expected to occur on December 4, 2023 and the bond ordinance will contain the final terms and conditions of the bond offering. Since interest rates can change each day, it is typical for a municipalities to have all three readings and the related emergency clause approved in one meeting to lock in the interest rate and other terms. We foresee that occurring no sooner than the December 5, 2023 meeting. Our financial advisor and bond counsel will also be here at that meeting. The closing of the bond issuance can occur 30 days after the publication of the bond ordinance. The projected closing date is January 9, 2024. In summation, there are a lot of needs and just as many visions about how we can improve the city. I truly believe that by continuing to work together on projects like these, Jonesboro will be even a better place to call home.

So, I noticed earlier this week in "The Sun," a story over the weekend that caught me by surprise, but confirmed what we knew all along that the State Attorney General says our A&P tax receipts can be used for only tourist related purposes. While the opinion is obviously correct, what concerned me was that some think that the city or city committee might have requested an AG opinion to divert the funding. That was not the case. And, while we are talking about the A&P, I don't want to miss an opportunity to say thank you for the work of Jerry Morgan, Kevin Hodges, and the rest of the A&P Commission for what they have done to bring this fabulous facility to Jonesboro. Their contributions are nothing new whether it is new turf at Joe Mack, a big contribution to ASTATE athletics, or the sports complex that is going to be the draw of Northeast Arkansas in a couple of years. They have put in countless hours for no pay, put up with criticism that I consider unfounded, and run our A&P Commission as a big city operation that it has become under their leadership. I simply cannot thank them enough.

I hope all Council have seen that we have a new Grants Director and Community Development Director all in one. You have noticed that we made an announcement yesterday of hiring Jeremy Biggs from the Court Appointed Special Advocates Second District as a coup for the City of Jonesboro. I have never seen our Grants Department better positioned for success. And, I am confident that if you don't know Jeremy, you will know him and hold him in high regard in a very short order.

Councilman Dr. Reverend Coleman came by the office this morning with some SUCCESS Academy students who were very engaging and interested in city operations. These are good kids and I want to think they can make futures for themselves right here in this community. And, I want to thank Dr. Coleman for his endless commitment to these young people.

I enjoyed some laughs at the Kids Chance of Arkansas fundraiser over the weekend roasting ASTATE President Chuck Welch. And, I want to give a shout out to Councilman Bryant and his team for hosting the event. I appreciate that fundraising opportunity Mr. Bryant.

We held a groundbreaking as well earlier this week at the swimming pool at Parker Park. And, it does my heart good to know we finally have a first class public pool going

in in North Jonesboro. Many of you were in attendance, so I won't prattle on, but that was a good day and I look forward to the day that it is open.

We held an online contest as well to name the new dog park on Highland behind Jonesboro High School. More than 1,000 participants produced "Bark Park" as the most liked name. I also want to point out that the cost of the park was misrepresented to some degree by one outlet. It doesn't cost \$3,000,000, it is around \$300,000.

At the next City Council meeting, the First Lady of Jonesboro who I happened to be married to will begin a new tradition by presenting the "Thanks for Giving" awards to those who volunteer to our city in various capacities and are vital to our success. Volunteering creates special moments in your life, but also in other's lives as well.

9. CITY COUNCIL REPORTS

Councilmember Dr. Charles Coleman said, I want to thank the Mayor, Bill Campbell, Brian Richardson, and everybody secretaries for being available to talk with the kids that we brought from SUCCESS School today. As I told the Mayor, they kind of surprise me. I didn't know they were going to ask all of those questions. Bill Campbell gave them a sermon and so I said amen. And, so, it was good. Mayor Copenhaver said, thank you for your comments.

Councilmember Chris Moore said, Mayor, thank you for clearing up the "Bark Park." Ann and I almost stroked down here when we saw it was going to cost \$200,000 more to build the "Bark Park" than the swimming pool on the North side. I'm glad that was a mistake. That was on my list of things to bring up under new business. Question for the City Attorney, did I read this week that you are going to perfect a lien on the icehouse? City Attorney Carol Duncan said, we have filed a foreclosure in Circuit Court asking the court to force the sale of the property. Councilmember Moore asked, do we have a list or an idea of how many other properties that are currently or can we get a list maybe at the next couple of meetings that tell us how many we have liens on and where we are at on that? Ms. Duncan said, that would be a Scott Roper question, but I am sure we can. Councilmember Moore said, that made me think there are maybe several that are coming down the pipe that we are going to have to file foreclosure on and maybe several pieces of property that will be coming our way. What is the timeline on the icehouse foreclosure? Ms. Duncan said, I mean it is hard to say. Right now, I don't know that they have been served. I was kind of hoping that they would be served before it was on the front page of the newspaper, but they were not. So, they are being a little difficult to locate at the moment. So, that kind of affects our timeline. Councilmember Moore asked, do you estimate years or months. Ms. Duncan said, I would have never estimated that it would have taken so many years to bring down the icehouse and it did. So, I am hopeful for months, but if we have to have a hearing date in Circuit Court, that could take longer obviously based on the court schedule. Councilmember Moore said, I know we are in the process of revitalizing that corridor through there and the icehouse is a key component of it. So, the sooner the better I would think. If you or Roper can compile some idea of how many are coming down the pipe in the next 6 or 8 months that we have liens on that we are going to foreclose, I would like to have an idea of that too. Mayor Copenhaver said, thank you Councilmember.

Councilmember David McClain said, I will take a page out of Ann's book, we have talked about impact fees before. I know we haven't had any more conversations. Where are we on that and are we anticipating on doing some type of study to tell us where we should do them and what is a good idea as far as doing those? Mayor

Copenhaver said, that is a great question and continuing up from what Ann had asked earlier, we had done a summation of that and what we can do is pile that together and present it to you on where they can be used and the process we have to go through in order to accomplish that. So, yeah, we will get you that information. Councilmember McClain said, okay.

Councilmember Dr. Anthony Coleman said, thank you. It is funny that I wrote down impact fees and we haven't even talked about it. I was real concerned with the things Ms. Newton, who got up about Pacific, mentioned and I didn't say anything earlier, but that is in my area. And, several concerns, but drainage and our area is really growing really fast which is a good problem. But, the young man, Mr. Dunnam mentioned that the developer would consider recreational things or parks or something like that. I know that is one dire need we have in Ward 6. I don't know how that conversation needs to happen or who, but I think we need to get back at the table and not assume that it is just solely the city's responsibility to come up with parks and things like that. And, also ask our developers what they are willing to do from pocket parks to sidewalks, you know, things like that. We have to address that. I just want to make sure that I stated that openly so when you all have that discussion and please ask the developer straight up, you know, what are his plans in that regard? And, that also mentions that also deals with the MLK road. And, I haven't seen a whole lot or heard a whole lot about that completion. So, I would like to see where we are on that. The second thing I wanted to mention was I was just standing outside in front of the Chambers and there are a lot of dogs and other pets and other things that are coming around and we probably want to consider adding a little litter bag or something like that for that area. That is just a thought. I just sat there and saw at least six dogs come by doing their thing. Mayor Copenhaver said, well, we actually do have some dog bags back here. Councilmember Dr. Anthony Coleman said, I knew it was in the back, but I was talking about right here in front. Mayor Copenhaver said, in saying that, we are looking for, we do have a small area downtown that is being looked at for individuals downtown to be able to be able to take their dogs and utilize their facilities. So, it will be a small area, less than an acre somewhere around there that will give people an area to walk their dog to. Councilmember Dr. Anthony Coleman said, I was just saying maybe just the little stand up with the bags (doggie bags) because they are going to walk right here. You know, I saw at least 6 or 7 and I was standing out there maybe 20-25 minutes and saw that. It is just a suggestion. Thank you. Mayor Copenhaver said, thank you.

Councilmember LJ Bryant said, just a few things. Mayor, my birthday is in February. I saw Dr. Coleman got a \$3,000,000 pool for his birthday. So, I will be thinking about what I have in mind. But anyway, Mayor, thank you so much for coming to the Kids Chance event and Councilwoman Porter as well. And, I made kind of a joking reference to this at that event, I don't know what Benton County knows that we don't know, but that really worries me about their forecasting for next year on their budget knowing that they are a growing area like we are. So, I know as you look at the budget, I just hope we will be careful and not plan on more growth than what will actually be there.

Councilmember John Street said, I just want to thank Danny Kapales for all the work that they do. He was speaking earlier about the event at Southside Softball Complex this last weekend that we are always looking at for major draws to the city of people and he commented on how the restaurant they went to was fairly occupied. And, another event that we had that I was very proud of was that Jonesboro High School hosted a regional band competition. I say regional, but it was more than a regional band completion. We had everyone from the City of Jonesboro all the way to Hope,

Arkansas. So, it was a big draw. Hundreds and hundreds, probably in the thousands of kids, parents, and all the schools that participated. So, I really appreciate the hard work and effort that goes into putting on that band competition. Paragould hosted a regional placement last night. They have got another competition this weekend and ASU hosts them. They don't get as much attention, maybe, as some of the sports, but the band activity around here is incredible and we have got some very talented kids and I just wanted to give them a little recognition for the hard work they do to support their schools. Mayor Copenhaver said, absolutely. And, if I can add to that, you were there as well as I. Councilmember Street said, I did see you there. Mayor Copenhaver said, they were recognized, the ASU band and they pulled forward the kids out of the ASU band from Northeast Arkansas. And, out of the 200+ kids in the band, I would say 150 of them are at Arkansas State University. So, again, we build that program. Councilmember Street said, we are building that program. Mayor Copenhaver said, that is right. It is an excellent program.

10. PUBLIC COMMENTS
