

August 2014

To the members of the city council and the mayor's office:

This is a petition set forth by the residents of Meadowlark and Meadowlark extended subdivision regarding drainage issues. Many of us have lived in this neighborhood for years and noticed that the drainage has worsened over time. There has been a great deal of growth in our area and the changes seem to correspond with the growth. On different occasions the city has been contacted and asked for assistance with this problem. There have been a few projects that we were assured would remedy the problem. In fact they have not remedied the problem and the problem continues to worsen with time. As a collective we are petitioning that something be done to help prevent any further financial loss, erosion, and property damage that a result of the worsening drainage.
