### REZONING INFORMATION:

The applicant is responsible for explaining and justifying the proposed rezoning. *Please prepare an attachment to this application answering each of the following questions in detail:*

- (1). How was the property zoned when the current owner purchased it? Property was acquired by applicant through foreclosure. Property was zoned R-1 at the time of foreclosure. Property that is under contract is zoned R-1.
- (2). What is the purpose of the proposed rezoning? Why is the rezoning necessary? So that the property can be used for its highest and best use.
- (3). If rezoned, how would the property be developed and used? It is anticipated that the property would be developed in phases over a number of years.
- (4). What would be the density or intensity of development (e.g. number of residential units; square footage of commercial, institutional, or industrial buildings)? Adjacent residential development is currently zoned R-3, which is identical in density to the requested RS-7. The requested RM-8 is only slightly more dense than the adjacent property which is zoned R-3. After street development is considered, it is anticipated that the density for the RM-8 will be approximately 5.5 units per acre.
- (5). Is the proposed rezoning consistent with the *Jonesboro Comprehensive Plan* and the *Future Land Use Plan*? It is consistent with adjacent zoning, density levels are consistent with existing development, and is near property areas designated for higher density development.
- (6). How would the proposed rezoning be in the public interest and benefit the community? The property would be used for its highest and best use and allow affordable housing to be available for Jonesboro's continued growth.
- (7). How would the proposed rezoning be compatible with the zoning, uses, and character of the surrounding area? Property is at the edge of the city limits and is adjacent to property that is zoned R-3 (18 units per acre). Development will enhance the surrounding property and will likely increase surrounding property values.
- (8). Are there substantial reasons why the property cannot be used in accordance with existing zoning? Current zoning is not highest and best use of the property.
- (9). How would the proposed rezoning affect nearby property including impact on property value, traffic, drainage, visual appearance, odor, noise, light, vibration, hours of use or operation and any restriction to the normal and customary use of the affected property. There should be no adverse impact on any adjacent property owner. Property values will increase and the traffic facilities are sufficient to handle the increased load from the proposed development. The property is adjacent to Higginbottom Creek, which has capacity to handle the anticipated development.
- (10). How long has the property remained vacant? Part of the property is presently being used for agricultural purposes. The entire property was formerly used for agricultural purposes. Approximately 31 acres of the property is currently vacant pending development.
- (11). What impact would the proposed rezoning and resulting development have on utilities, streets, drainage, parks, open space, fire, police, and emergency medical services? No adverse impact on the utilities, streets, drainage or emergency services such as fire, police and medical services, as all services are sufficient to handle the anticipated future development of this property.
- (12). If the rezoning is approved, when would development or redevelopment begin? Unknown. It is anticipated that development would occur in phases to meet demand over a number of years.
- (13). How do neighbors feel about the proposed rezoning? Please attach minutes of the neighborhood meeting held to discuss the proposed rezoning or notes from individual discussions. *If the proposal has not been discussed with neighbors, please attach a statement explaining the reason. Failure to consult with neighbors may result in delay in hearing the application.* Property owner to the west of the 17.26 acres has no objection to the rezoning proposal. Property owners to the west of the 8.81 acre tract have not been contacted as the characteristics of the adjacent property will not change under the proposed rezoning.
- (14). If this application is for a Limited Use Overlay (LUO), the applicant must specify all uses desired to be permitted. Not applicable.
