

CITY OF JONESBORO

December 22, 1999

Mr. Robert L. Walters, Chief Engineer
Arkansas Highway & Transportation Dept.
P. O. Box 2261
Little Rock, Arkansas 72203-2261

Re: Signalization Project
Caraway Rd. @ U.S. 63 S. Off Ramp

Dear Mr. Walters:

Attached is a copy of a Resolution recently passed by the Jonesboro City Council requesting State and Federal aid for signalization of the intersection of Caraway Road and the U.S. 63 S. Off Ramp. It also commits the City to participate in accordance with its designated responsibility in the project.

As evidenced by the recent traffic study performed on this intersection, necessary warrants have been satisfied, thus justifying this project. Signalization of the intersection would greatly assist traffic facilitation, and provide much needed safety for the traveling public.

Please program this project at your earliest convenience, and advise as to when the project can be scheduled. Your cooperation and assistance is greatly appreciated.
