Subject: Variance Application

To Whom It May Concern,

We are submitting an application for a variance on our residential fence. We request to extend our fence 24 feet beyond the east side of our home which faces Evan Dr. The fence will stop 15 feet before reaching the street. We are making this request as we are the 4th and final home to be built at the intersection of Merrell Dr. and Evan Dr. and would like our fence to be **consistent** with the houses on each of the other 3 corners (which all extend beyond the sides of their homes on the street facing side). Additionally we are the parents of two young children, ages 4 and 18 months, and would like to maximize the area of **safe** play space for them in our back yard.

We have notified the adjoining property owners per instructions given to us by your office. Within this application package I have included signed notices and/or green receipts from the USPS showing that all impacted parties have been properly notified. Additionally included are the application form and 7 copies of a diagram of our intended fence plans.

Sincerely,

David and Sarah Norris
