Councilmember David McClain said, and like you said, the gate workers are paid from 1099. I get a check, you don't give me cash. Director Danny Kapales said, correct. **There is absolutely nobody paid by cash, and I do want to clarify one question y'all had earlier there is potentially ***PHONE RANG*** there is** and I think you referenced that and I want to clarify. There is employees that's with other departments that have officiated for many, many years. Not just with us but with schools, with things of that sorts. They do that as a part-time job outside, and they do work with us as well. **But all of them get paid through a check, and they do it outside of their normal hours of working for the city. They do it in the evenings and weekends on the other job as a secondary job. But that is something that they do, but that is completely a separate item and everybody's paid by check.**
