RE: Unnamed ROW East of Hampton
Between Belmont & Concord

Dear Brian:

City Water and Light has no objections to the closing of the above referenced public right of way if permanent easement is obtained for our sanitary sewer. This easement should be 10' either side of the existing sanitary sewer as constructed.

Please call if more information if needed.

Respectfully,

Randy Simpkins

Dear Ms. Collins

This correspondence is in response to your fax of 2-18-94. Arkla Gas Co. has no facilities in the unnamed street between Belmont and Concord streets which are designated on the plat you sent us. We have no objections to the City closing this street.

Sincerely yours,
