3. New Business

Resolutions To Be Introduced

RES-13:127 A RESOLUTION TO ACCEPT A MAINTENANCE AGREEMENT FOR STORMWATER MANAGEMENT FACILITIES FOR HILL PARK ADDITION PHASE 1 & 2, A COMMERCIAL DEVELOPMENT

Sponsors: Engineering

Attachments: [Maintenance Agreement.pdf](#)
[Hill Park Addition - Phase 1 2](#)

A motion was made by Councilman Darrel Dover, seconded by Councilman

Chris Moore, that this matter be Recommended to Council . The motion PASSED with the following vote:

Aye: 5 - Gene Vance;Chris Moore;Mitch Johnson;Darrel Dover and Charles Coleman

RES-13:130 RESOLUTION BY THE CITY COUNCIL REPEALING RESOLUTION NO. 10:161, REINSTATING THE PROCEDURE FOR ABANDONMENT SET OUT IN STATE CODE.

Chairman Street inquired what this resolution does that State code doesn't. City Clerk Donna Jackson answered the City had a procedure that went against State code and this is correcting it.

Councilman Moore asked what the items were that did not follow code. Ms. Jackson answered the issue was with who handled the filings and how the procedure is handled. Mayor Perrin explained anyone who wants to do a abandonment will have to go to the City Clerk's Office and she will be able to instruct them on what they will need to do. City Planner Otis Spriggs stated his office will give consent letters to the City Clerk's Office that can be forwarded to the City Council.

Councilman Moore asked if State law states the City Clerk's Office handle this information. Ms. Jackson answered yes. She added this will require a resident to receive a letter from the Planning & Engineering Departments before it can be put on the Council agenda.

Councilman Moore stated that the Planning & Engineering Departments will have to sign off on the abandonment like the utilities companies. Ms. Jackson answered yes.

A motion was made by Councilman Chris Moore, seconded by Councilman Mitch Johnson, that this matter be Recommended to Council . The motion PASSED with the following vote:

Aye: 5 - Gene Vance;Chris Moore;Mitch Johnson;Darrel Dover and Charles Coleman

RES-13:134 RESOLUTION BY THE CITY COUNCIL OF THE CITY OF JONESBORO, ARKANSAS TO ACCEPT A SIDEWALK CONNECTION FROM THE JONESBORO HUMAN DEVELOPMENT CENTER'S TRACK TO THE MIRACLE LEAGUE COMPLEX

Sponsors: Mayor's Office

Attachments: [Engineering letter \(HKB\) Miracle League](#)

Mayor Perrin explained the Children's Colony is applying for the Recreational Trail Grant, which will allow for a trail to be built from their facility to the Miracle League Complex. He added the City will have to provide the property and the City will have to maintain the trail for 15 years.

A motion was made by Councilman Chris Moore, seconded by Councilman Gene Vance, that this matter be Recommended to Council . The motion PASSED with the following vote:

Aye: 5 - Gene Vance;Chris Moore;Mitch Johnson;Darrel Dover and Charles Coleman

RES-13:136 A RESOLUTION REQUESTING FREE UTILITIES AT 1618 STRAWFLOOR DRIVE FOR THE CITY OF JONESBORO

Sponsors: Engineering

Mayor Perrin stated this resolution is for the new building that pertains to the new communication tower that will be added on Strawfloor Road.

A motion was made by Councilman Chris Moore, seconded by Councilman Charles Coleman, that this matter be Recommended to Council . The motion PASSED with the following vote:

Aye: 5 - Gene Vance;Chris Moore;Mitch Johnson;Darrel Dover and Charles Coleman

RES-13:151

A RESOLUTION OF THE CITY OF JONESBORO, ARKANSAS, REQUESTING FREE UTILITIES AT 207 CATE AVENUE FOR THE CITY OF JONESBORO

Sponsors: Mayor's Office

Mayor Perrin explained this is for the parking lot that contains 87 spaces on Cate Avenue and this resolution will allow for the area to be decorated along with new signs to be installed. He added CWL has agreed to do the electrical work along with installing a sprinkler system.

A motion was made by Councilman Chris Moore, seconded by Councilman Mitch Johnson, that this matter be Recommended to Council . The motion PASSED with the following vote:

Aye: 5 - Gene Vance;Chris Moore;Mitch Johnson;Darrel Dover and Charles Coleman

4. Pending Items

5. Other Business

6. Public Comments

7. Adjournment

A motion was made by Councilman Mitch Johnson, seconded by Councilman Darrel Dover, that this meeting be Adjourned. The motion CARRIED with the following vote:

A RESOLUTION TO ACCEPT A MAINTENANCE AGREEMENT FOR STORMWATER MANAGEMENT FACILITIES FOR LINDEL TURNER'S 2ND APT DRIVE MINOR PLAT, A COMMERCIAL DEVELOPMENT

WHEREAS, the Section 112-157 of the Jonesboro Municipal code requires a maintenance agreement assuring perpetual maintenance of Stormwater Management Improvements and drainage easements to be dedicated to the City be agreed upon by the City and the developer prior to final plat approval;

WHEREAS, Turner Real Estate has submitted a Maintenance Agreement for Stormwater Management Facilities for Lindel Turner's 2nd Apt Drive Minor Plat;

WHEREAS, the City Engineer and City Attorney have reviewed the attached Maintenance Agreement and find it to be in compliance with the Stormwater Management Regulations.

WHEREAS, the Maintenance Agreement and the final plat are to be filed concurrently with the Craighead County Circuit Clerk, upon final approval of the plat.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL FOR THE CITY OF JONESBORO, ARKANSAS THAT:

Section 1: The City of Jonesboro accepts the attached maintenance agreement with Turner Real Estate for Lindel Turner's 2nd Apt Drive Minor Plat and authorizes the Mayor and City Clerk to execute all documents necessary to effectuate the agreement.

Section 2: The executed agreement is to be retained by the City Clerk until such time as the Clerk is provided with the approved final plat of the development by the Planning Department so that both documents can be filed concurrently with the Craighead County Circuit Clerk.

**MAINTENANCE AGREEMENT
FOR STORMWATER MANAGEMENT FACILITIES**

Property Identification

Project Name: Turner Apartments
Project Address: 5306 A Apt Drive Jonesboro, AR
Owner(s): Turner Real Estate
Owner Address: 5614 Greenbrook
City: Jonesboro State: AR Zip Code: 72404

In accordance with Section 112-157 of the Jonesboro Municipal Code, this agreement is made and entered into this ___ day of _____, 20___, by and between the City of Jonesboro, an Arkansas municipal corporation, hereinafter called the "City" and Turner Real Estate, hereinafter called the "Developer".

WITNESSETH, that:

WHEREAS, The Developer is proceeding to build on and develop the property in accordance with the Stormwater Management Plan (the "Plan") approved by the City and the recorded plat (the "Plat") for Lindel Turner's 2nd Apt Drive Minor Plat as recorded in the records of Craighead County, Arkansas.

WHEREAS, the City and the Developer, its successors and assigns, including any property owners' association or homeowners' association, agree that the health, safety, and welfare of the residents of the City of Jonesboro, Arkansas require that on-site stormwater runoff management facilities be constructed and maintained on the property.

WHEREAS, the City requires that on-site stormwater runoff management facilities as shown on the plan be constructed and adequately maintained by the Developer, its successors and assigns, including any homeowner association.

WHEREAS, adequate maintenance is defined herein as the general upkeep of the facilities, specifically the mowing and trimming of grasses or other vegetative cover and the removal of litter and other minor debris that could impact the functionality of the facility or that would otherwise be considered unsightly or a nuisance.

WHEREAS, the City of Jonesboro shall be responsible, after construction and final acceptance of the development, for the operation and long-term maintenance of all drainage structures and improved watercourses which are part of the City of Jonesboro Stormwater Management System, are within a dedicated public drainage easement; and, which are not constructed and maintained by or under the jurisdiction of any State or Federal agency.

WHEREAS, Long-term maintenance is defined herein as the removal of sediment deposits, re-grading or shaping of embankments, drainage channels, and detention areas, and the repair or replacement of piping networks, and other underground drainage structures.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants contained herein, and the following terms and conditions, the parties agree as follows:

1. The on-site stormwater runoff management facilities shall be constructed by the Developer, its successors and assigns, in accordance with the plans and specifications identified in the Plan.

COUNTY OF CRAIGHEAD

On this day before me, the undersigned officer, personally appeared Lindel Turner, to me well known to be the person whose name is subscribed to the foregoing instrument, and acknowledged that he had executed the same for the purposes therein stated and set forth.

A RESOLUTION TO ACCEPT A MAINTENANCE AGREEMENT FOR STORMWATER MANAGEMENT FACILITIES FOR ARKANSAS BAPTIST CHILDREN'S HOME MINOR PLAT, A COMMERCIAL DEVELOPMENT

WHEREAS, the Section 112-157 of the Jonesboro Municipal code requires a maintenance agreement assuring perpetual maintenance of Stormwater Management Improvements and drainage easements to be dedicated to the City be agreed upon by the City and the developer prior to final plat approval;

WHEREAS, Arkansas Baptist Children's Home has submitted a Maintenance Agreement for Stormwater Management Facilities for Arkansas Baptist Children's Home Minor Plat;

WHEREAS, the City Engineer and City Attorney have reviewed the attached Maintenance Agreement and find it to be in compliance with the Stormwater Management Regulations.

WHEREAS, the Maintenance Agreement and the final plat are to be filed concurrently with the Craighead County Circuit Clerk, upon final approval of the plat.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL FOR THE CITY OF JONESBORO, ARKANSAS THAT:

Section 1: The City of Jonesboro accepts the attached maintenance agreement with Arkansas Baptist Children's Home for Arkansas Baptist Children's Home Minor Plat and authorizes the Mayor and City Clerk to execute all documents necessary to effectuate the agreement.

Section 2: The executed agreement is to be retained by the City Clerk until such time as the Clerk is provided with the approved final plat of the development by the Planning Department so that both documents can be filed concurrently with the Craighead County Circuit Clerk.

FOR STORMWATER MANAGEMENT FACILITIES**

Property Identification

Project Name: Arkansas Baptist Children's Home
Project Address: 3600 Forest Hill Road
Owner(s): Arkansas Baptist Children's Home
Owner Address: 3600 Forest Hill Road
City: Jonesboro State: AR Zip Code: 72404

In accordance with Section 112-157 of the Jonesboro Municipal Code, this agreement is made and entered into this ___ day of _____, 20___, by and between the City of Jonesboro, an Arkansas municipal corporation, hereinafter called the "City" and Arkansas Baptist Children's Home, hereinafter called the "Developer".

WITNESSTH, that:

WHEREAS, The Developer is proceeding to build on and develop the property in accordance with the Stormwater Management Plan (the "Plan") approved by the City and the recorded plat (the "Plat") for Arkansas Baptist Children's Home Minor Plat as recorded in the records of Craighead County, Arkansas.

WHEREAS, the City and the Developer, its successors and assigns, including any property owners' association or homeowners' association, agree that the health, safety, and welfare of the residents of the City of Jonesboro, Arkansas require that on-site stormwater runoff management facilities be constructed and maintained on the property.

WHEREAS, the City requires that on-site stormwater runoff management facilities as shown on the plan be constructed and adequately maintained by the Developer, its successors and assigns, including any homeowner association.

WHEREAS, adequate maintenance is defined herein as the general upkeep of the facilities, specifically the mowing and trimming of grasses or other vegetative cover and the removal of litter and other minor debris that could impact the functionality of the facility or that would otherwise be considered unsightly or a nuisance.

WHEREAS, the City of Jonesboro shall be responsible, after construction and final acceptance of the development, for the operation and long-term maintenance of all drainage structures and improved watercourses which are part of the City of Jonesboro Stormwater Management System, are within a dedicated public drainage easement; and, which are not constructed and maintained by or under the jurisdiction of any State or Federal agency.

WHEREAS, Long-term maintenance is defined herein as the removal of sediment deposits, re-grading or shaping of embankments, drainage channels, and detention areas, and the repair or replacement of piping networks, and other underground drainage structures.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants contained herein, and the following terms and conditions, the parties agree as follows:

1. The on-site stormwater runoff management facilities shall be constructed by the Developer, its successors and assigns, in accordance with the plans and specifications identified in the Plan.

2. The Developer, its successors and assigns, including any property owners' association or homeowners' association, shall adequately maintain the on-site stormwater runoff management facilities.
3. The Developer, its successors and assigns, hereby grant permission to the City, its authorized agents and employees, to enter upon the Property to inspect and perform long-term maintenance of the on-site stormwater runoff management facilities whenever the City deems necessary.
4. In the event the Developer, its successors and assigns, fails to adequately maintain the stormwater runoff management facilities, the City may enter upon the Property upon thirty (30) days written notification or earlier, if deemed an emergency, and take whatever steps necessary to correct the deficiencies and charge the costs of such corrective action to the Developer, its successors and assigns. The Developer, its successors and assigns, shall reimburse the City upon demand, within thirty (30) days of receipt thereof for all actual costs incurred by the City including all labor, equipment, supplies, materials, and the like. This provision shall not be construed to allow the City to erect any structure of permanent nature on the land of the Developer outside of the easement for the on-site stormwater runoff management facilities. It is expressly understood and agreed that the City is under no obligation to routinely maintain or repair said facilities, and in no event shall this agreement be construed to impose any such obligation on the City.
5. This agreement shall be recorded among the land records of Craighead County, Arkansas and shall constitute a covenant running with the land, and shall be binding on the Developer, its administrators, executors, assigns, heirs and any other successors in interests, including any property owners' association or homeowners' association.
6. This Agreement is binding upon and inures to the benefit of the City, and the Developer, the Developer's successors and assigns, any property owners' association or homeowners' association created which pertains to all or any part of the property and any individual lot owner who has purchased all or any part of the property referred to in this Agreement. The terms of this Agreement are enforceable on all of the above parties.
7. In the event any party to this Maintenance Agreement must employ a lawyer to enforce the terms and obligations set out in this Agreement and litigation ensue, the prevailing party, as determined under Arkansas Law, shall be entitled to recover not only court costs as defined under Arkansas Law but all costs of litigation, including a reasonable attorney's fee.
8. This Agreement is the complete agreement and understanding between the parties who have executed this Agreement. There are no other agreements, either oral or written. All prior or contemporaneous statements, representations, or guarantees are declared void. This Agreement may be amended only by a written document signed by all parties.

A RESOLUTION AUTHORIZING AN AGREEMENT TO RELOCATE STRAWFLOOR ROAD
WHEREAS, the City of Jonesboro and other affected property owners desire to re-locate Strawfloor Road and;

WHEREAS, all affected parties desire to enter into an agreement to effectuate this purpose.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL FOR THE CITY OF JONESBORO,
ARKANSAS THAT:

Section 1: It is in the best interest of the City of Jonesboro, its citizens and the affected property owners that
Strawfloor Road be relocated.

Section 2: That Mayor Harold Perrin and City Clerk Donna Jackson are authorized to execute such documents
as are necessary to effectuate this agreement.

AGREEMENT

On this _____ day of _____, 2012, the parties, **E. SLOAN FARMS, INC., B & G LAND COMPANY, INC., BTS TRUST, LLC, CRSS, LLC, CHERYL W. TRIMARCHI, TRUSTEE OF THE MARTHA LAIRD WALL TESTAMENTARY TRUST, JANET K. LAIRD, SHERIDAN L. SPERRY, STEPHEN K. LAIRD, KATHLEEN L. CALDWELL, DONALD BURGESS LAIRD, TRUSTEE OF THE SARAH L. MERNISSI TRUST, LYLE KNIGHT LAIRD, DONALD BURGESS LAIRD, CITY OF JONESBORO, GARY ROBERTS, ASPHALT PRODUCERS, LLC, and RAZOR ROCK MATERIALS COMPANY**, and for their agreement state:

WHEREAS, a portion of Strawfloor Road, hereinafter **Strawfloor**, in Township 14, Range 3 East, in Craighead County, Arkansas, has been closed to through traffic; and

WHEREAS, the closure of said portion of Strawfloor originated with the City of Jonesboro's desire and need to mine the clay material needed to cap off the old Jonesboro landfill, and

WHEREAS, said closure afforded other parties to this Agreement the ability to mine their properties as well; and

WHEREAS, it is in the best interests of the parties hereto to relocate and restore Strawfloor as more particularly set out herein; and

WHEREAS, the parties desire to set out their agreement as to the future relocation of Strawfloor and related matters:

IT IS, THEREFORE, AGREED AS FOLLOWS:

1. Relocation: All parties agree that Strawfloor will be relocated within the parameters of the corridor as set out generally in Exhibit "A" hereto and all affected landowners specifically agree to the relocation.

2. Restoration Obligations: The parties agree that the following restoration obligations will be to build private haul roads that will be upgraded to the standard of the previous Strawfloor Road before opening to public traffic. If any of the parties later wish a different location for the public road across their respective property, that party will be responsible for constructing the relocated road on their property.

A. Asphalt Producers, LLC, agrees to restore Strawfloor from a point beginning at the intersection of Strawfloor and Tall Burch Road (Point A on Exhibit "A") to a point ending on the property belonging to the City of Jonesboro (hereinafter City) at the current location of the City's private access road coming down from Strawfloor (Point B on Exhibit "A").

 B. Gary Roberts agrees to restore Strawfloor from Point B on Exhibit "A" to the west boundary line of the City's property (Point C on Exhibit "A").

C. Razor Rock Materials Company agrees to restore Strawfloor from Point C on Exhibit "A" to where the new alignment meets Strawfloor (Point D on Exhibit "A").

3. General Standards and Specifications: The restoration of Strawfloor shall be to the same standards, specifications and conditions as existed immediately preceding the time that Strawfloor became inaccessible to through traffic and the City specifically agrees to accept the restored road rebuilt to those prior standards, specifications and conditions as a public road by usage under the same terms and conditions as the previous Strawfloor Road accepted from Craighead County at the time of its annexation. The City

further agrees that once Strawfloor is restored to its former condition and is reopened to through traffic that it will be responsible for future maintenance of the roadway.

4. Elevations: It is agreed that Strawfloor shall be restored to substantially the same elevations at Points A, B, C and D as show on Exhibit "A" as existed prior to the closure of Strawfloor to through traffic.

5. Sloping and Curves: It is agreed that all slopes and curves of the restored Strawfloor shall conform to generally accepted engineering principles and the standards set out by the City.

6. Timing: The parties acknowledge that it is not anticipated that the restoration of Strawfloor will occur until all dirt, sand, gravel and clay mining operations have been exhausted and completed within the region surrounding the proposed relocation. At that point, the parties responsible for the restoration of Strawfloor as set out in paragraph 2 shall have a reasonable time within which to accomplish the restoration.

7. Rights of Way: All affected landowners agree that upon completion of the relocation of Strawfloor Road as set out herein that the parties hereto and the public shall be restored to the same rights of ingress, egress, regress and usage as were afforded and enjoyed prior to the closure of Strawfloor Road.

8. Temporary Haul Road: The parties agree that the relocated Strawfloor Road as set out in paragraph 1 will first be utilized as a temporary haul road. All parties agree to allow unlimited and unfettered access to all temporary haul road with the purpose and intent that all parties maintain access to the outlet at the intersection of Tall Burch Road and Strawfloor. Asphalt Producers shall have the duty to construct and maintain the haul road from Point A to Point B as reflected on Exhibit "A"; Gary Roberts shall have the duty to construct and maintain the haul road from Point B to Point C as reflected on Exhibit

Exhibit "A"; and Razor Rock Materials will have the duty to construct and maintain the haul road from Point C to Point D as reflected on Exhibit "A".

9. Future Improvements: Future improvements to the relocated Strawfloor Road shall be handled in the same manner and be governed by the same rules and regulations that may then exist pertaining to gravel roads within the city limits of Jonesboro. Any future improvements to Strawfloor Road undertaken at the initiative of an independent property owner or owners, or for the development of a property owner's property shall be the sole responsibility of the owner or owners, and all such improvements shall conform to city standards in effect at that time.

IN WITNESS WHEREOF, the parties have hereunto set their hands on this ____ day of _____, 2012.

A RESOLUTION TO ACCEPT A MAINTENANCE AGREEMENT FOR STORMWATER MANAGEMENT FACILITIES FOR WILDWOOD ADDITION PHASE 3A, A RESIDENTIAL SUBDIVISION
WHEREAS, the Section 112-157 of the Jonesboro Municipal Code requires that a Maintenance Agreement be executed between the Developer and the City prior to recording the final plat;

WHEREAS, RWT Land Development, LLC has submitted a Maintenance Agreement for Stormwater Management Facilities for Wildwood Addition Phase 3A development;

WHEREAS, the City Engineer and City Attorney have reviewed the attached Maintenance Agreement and find it to be in compliance with the Stormwater Management Regulations.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL FOR THE CITY OF JONESBORO, ARKANSAS THAT:

Section 1: That the City of Jonesboro accepts a Maintenance Agreement for Stormwater Management Facilities with RWT Land Development, LLC and authorizes the filing of a record plat for Wildwood Addition Phase 3A development.

Section 2: The Mayor and the City Clerk are hereby authorized by the City Council for the City of Jonesboro to execute all documents necessary to effectuate this agreement.

**MAINTENANCE AGREEMENT
FOR STORMWATER MANAGEMENT FACILITIES**

Property Identification

Project Name: Wildwood Addition Phase 3A
Project Address: Wildwood Subdivision
Owner(s): RWT Land Development, LLC
Owner Address: 2209 A Grant Ave.
City: Jonesboro State: AR Zip Code: 72401

In accordance with Section 112-157 of the Jonesboro Municipal Code, this agreement is made and entered into this ___ day of _____, 20___, by and between the City of Jonesboro, an Arkansas municipal corporation, hereinafter called the "City" and RWT Land Development, LLC, hereinafter called the "Developer".

WITNESSTH, that:

WHEREAS, The Developer is proceeding to build on and develop the property in accordance with the Stormwater Management Plan (the "Plan") approved by the City and the recorded plat (the "Plat") for Wildwood Addition Phase 3A as recorded in the records of Craighead County, Arkansas.

WHEREAS, the City and the Developer, its successors and assigns, including any property owners' association or homeowners' association, agree that the health, safety, and welfare of the residents of the City of Jonesboro, Arkansas require that on-site stormwater runoff management facilities be constructed and maintained on the property.

WHEREAS, the City requires that on-site stormwater runoff management facilities as shown on the plan be constructed and adequately maintained by the Developer, its successors and assigns, including any homeowner association.

WHEREAS, adequate maintenance is defined herein as the general upkeep of the facilities, specifically the mowing and trimming of grasses or other vegetative cover and the removal of litter and other minor debris that could impact the functionality of the facility or that would otherwise be considered unsightly or a nuisance.

WHEREAS, the City of Jonesboro shall be responsible, after construction and final acceptance of the development, for the operation and long-term maintenance of all drainage structures and improved watercourses which are part of the City of Jonesboro Stormwater Management System, are within a dedicated public drainage easement; and, which are not constructed and maintained by or under the jurisdiction of any State or Federal agency.

WHEREAS, Long-term maintenance is defined herein as the removal of sediment deposits, re-grading or shaping of embankments, drainage channels, and detention areas, and the repair or replacement of piping networks, and other underground drainage structures.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants contained herein, and the following terms and conditions, the parties agree as follows:

1. The on-site stormwater runoff management facilities shall be constructed by the Developer, its successors and assigns, in accordance with the plans and specifications identified in the Plan.

2. The Developer, its successors and assigns, including any property owners' association or homeowners' association, shall adequately maintain the on-site stormwater runoff management facilities.
3. The Developer, its successors and assigns, hereby grant permission to the City, its authorized agents and employees, to enter upon the Property to inspect and perform long-term maintenance of the on-site stormwater runoff management facilities whenever the City deems necessary.
4. In the event the Developer, its successors and assigns, fails to adequately maintain the stormwater runoff management facilities, the City may enter upon the Property upon thirty (30) days written notification or earlier, if deemed an emergency, and take whatever steps necessary to correct the deficiencies and charge the costs of such corrective action to the Developer, its successors and assigns. The Developer, its successors and assigns, shall reimburse the City upon demand, within thirty (30) days of receipt thereof for all actual costs incurred by the City including all labor, equipment, supplies, materials, and the like. This provision shall not be construed to allow the City to erect any structure of permanent nature on the land of the Developer outside of the easement for the on-site stormwater runoff management facilities. It is expressly understood and agreed that the City is under no obligation to routinely maintain or repair said facilities, and in no event shall this agreement be construed to impose any such obligation on the City.
5. This agreement shall be recorded among the land records of Craighead County, Arkansas and shall constitute a covenant running with the land, and shall be binding on the Developer, its administrators, executors, assigns, heirs and any other successors in interests, including any property owners' association or homeowners' association.
6. This Agreement is binding upon and inures to the benefit of the City, and the Developer, the Developer's successors and assigns, any property owners' association or homeowners' association created which pertains to all or any part of the property and any individual lot owner who has purchased all or any part of the property referred to in this Agreement. The terms of this Agreement are enforceable on all of the above parties.
7. In the event any party to this Maintenance Agreement must employ a lawyer to enforce the terms and obligations set out in this Agreement and litigation ensue, the prevailing party, as determined under Arkansas Law, shall be entitled to recover not only court costs as defined under Arkansas Law but all costs of litigation, including a reasonable attorney's fee.
8. This Agreement is the complete agreement and understanding between the parties who have executed this Agreement. There are no other agreements, either oral or written. All prior or contemporaneous statements, representations, or guarantees are declared void. This Agreement may be amended only by a written document signed by all parties.

RESOLUTION BY THE CITY COUNCIL OF THE CITY OF JONESBORO, ARKANSAS AUTHORIZING THE MAYOR AND CITY CLERK TO SELL PROPERTY LOCATED AT 417 SOUTH PATRICK, JONESBORO, ARKANSAS TO MARMAC CONSTRUCTION.

WHEREAS, the City of Jonesboro, Arkansas desires to sell and did advertise the property at 417 South Patrick for sell, and

WHEREAS, Marmac Construction desires to purchase property at 417 South Patrick, owned by the City of Jonesboro, Arkansas being more described as follows, to wit:

Lots 13 and 14 in Block "A" and the North 50 feet of lots 3 and 4 in Block "B" of McHose Addition to Jonesboro, Arkansas, less and except a 30 foot right-of-way from the existing centerline of Patrick Street and Hope Avenue to be retained by the City for public use.

WHEREAS, it is in the best interest of the City of Jonesboro that said property be sold to Marmac Construction for the sum of \$28,000.00.

NOW THEREFORE, BE IT RESOLVED, by the City Council for the City of Jonesboro, Arkansas that:

Section 1: The Mayor and City Clerk are hereby authorized to execute the documents necessary to complete this transaction and accept the purchase price of \$28,000.00 due and payable at the time of closing by the buyer.

BUILDING & FACILITIES MINUTES

September 24, 2013

1:30 pm

PRESENT: Mayor Perrin; LM Duncan; Mike Yates; Ottis Spriggs; Keith Sanders; Steven Hales; Erick Woodruff; Gene Vance; Guest James McCleod

Meeting was called to order by Gene Vance.

Mike Yates made a motion to approve minutes from last meeting. Erick Woodruff seconded. Motion passed.

Keith Sanders made a motion to sell 417 South Patrick with legal description showing what is needed to widen Patrick to Marmac Construction for \$28,000. Mike Yates seconded. Motion passed.

Keith Sanders made a motion to dismiss. LM Duncan seconded.

Title:	A RESOLUTION OF THE CITY OF JONESBORO, ARKANSAS TO ENTER INTO AN AGREEMENT WITH GARVER, LLC TO PERFORM PROFESSIONAL ENGINEERING SERVICES				
Sponsors:	Engineering				
Indexes:	Contract				
Code sections:					
Attachments:	Agreement.pdf				

Date	Ver.	Action By	Action	Result
------	------	-----------	--------	--------

A RESOLUTION OF THE CITY OF JONESBORO, ARKANSAS TO ENTER INTO AN AGREEMENT WITH GARVER, LLC TO PERFORM PROFESSIONAL ENGINEERING SERVICES
 WHEREAS, the City of Jonesboro desires to enter into an agreement for professional engineering services with Garver, LLC to study the intersection of Highway 351 (Airport Road) and Aggie Road to determine the improvements necessary to increase capacity and reduce delay at this location; and,

WHEREAS, the City of Jonesboro's forces are fully employed on other urgent work that prevents their early assignments to the aforementioned work; and,

WHEREAS, Garver, LLC is adequately staffed and well qualified, and it has been determined that its current workload will permit completion of the project on schedule; and,

WHEREAS, Garver, LLC has agreed to provide the Scope of Services detailed in the attached agreement; and,

WHEREAS, Federal monies have been allocated to fund this work and expenses are reimbursable through Section 115 Federal-aid Transportation and Drainage Planning Funds administered through the Arkansas Highway and Transportation Department (AHTD).

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL FOR THE CITY OF JONESBORO, ARKANSAS THAT:

Section 1: That the City of Jonesboro shall enter into an agreement with Garver, LLC to perform professional engineering services to study the intersection of Highway 351 (Airport Road) and Aggie Road to determine the improvements necessary to increase capacity and reduce delay at this location.

Section 2: Federal monies have been allocated to fund this work and expenses are reimbursable through Section 115 Federal-aid Transportation and Drainage Planning Funds administered through the Arkansas Highway and Transportation Department (AHTD).

Section 3: The Mayor and the City Clerk are hereby authorized by the City Council for the City of Jonesboro to execute all documents necessary to effectuate this agreement.

AGREEMENT
FOR
ENGINEERING SERVICES
(LOCAL VERSION – COST PLUS FEE)

JOB NO. 100790
FEDERAL AID PROJECT (“FAP”) NO. SD-AR51(4)
Hwy. 351/Aggie Rd. Inters. Impvts (Jonesboro) (S)

PREAMBLE

THIS AGREEMENT, entered into this ____ day of _____, _____, by and between the City of Jonesboro, in Craighead County, Arkansas (“Owner”), and Garver, LLC, (“Consultant”), a corporation existing under the laws of the State of Arkansas, with principal offices at 4701 Northshore Drive, North Little Rock, Arkansas.

WITNESSETH:

WHEREAS, the Owner is planning to study and construct intersection improvements at Hwy. 351 (Airport Road) and Aggie Road; and,

WHEREAS, the Owner’s forces are fully employed on other urgent work that prevents their early assignment to the aforementioned work; and,

WHEREAS, the Consultant’s staff is adequate and well qualified, and it has been determined that its current workload will permit completion of the project on schedule.

NOW THEREFORE, it is considered to be in the best public interest for the Owner to obtain the assistance of the Consultant’s organization in connection with engineering services. In consideration of the faithful performance of each party of the mutual covenants and agreements set forth hereinafter, it is mutually agreed as follows:

1. PRELIMINARY MATTERS

- 1.1. “Consultant’s Representative” shall be Todd Mueller, PE, until written notice is provided to the Owner designating a new representative.
- 1.2. “Contract Ceiling Price.” The Contract Ceiling Price for this Agreement is \$94,437. The Contract Ceiling Price is the maximum aggregate amount of all payments that the Owner may become obligated to make under this Agreement. In no event, unless modified in writing, shall total payments by the Owner under this Agreement exceed the Contract Ceiling Price. The Consultant shall not be entitled to receive adjustment, reimbursement, or payment, nor shall the Owner, its officers, agents, employees, or representatives, incur any liability for, any fee or cost, exceeding the Contract Ceiling Price.
- 1.3. “Contract Price” is aggregate amount of allowable costs and fees to be paid by the Owner under this Agreement.
- 1.4. “Default” means the failure of the Consultant to perform any of the provisions of this Agreement. *Default includes, but is not limited to, failure to complete phases of the work according to schedule or failure to make progress in the work so as to endanger timely performance of this Agreement, failure to pay subcontractors in a timely manner, failure to comply with federal and state laws, and failure to comply with certifications made in or pursuant to this Agreement.*

- 1.5. "Department" or "AHTD" means the Arkansas State Highway and Transportation Department.
- 1.6. "DOT" means the United States Department of Transportation.
- 1.7. "FAR" means the Federal Acquisition Regulations, codified in 48 C.F.R.
- 1.8. "Fee" whether fixed or otherwise is a dollar amount that includes the Consultant's profit on the job.
- 1.9. "FHWA" means the Federal Highway Administration.
- 1.10. "Indirect Cost Rate." The Indirect Cost Rate is defined in the provisions of 48 C.F.R. Part 31, and is also subject to any limitations contained herein. The Indirect Cost Rate for the Consultant under this Agreement shall be 187.57 percent. If applicable, the Indirect Cost Rate for each subcontractor shall be listed in Appendix B.
- 1.11. "Title I Services" are those services provided by the Consultant before the award of the contract for the construction of the Project, consisting primarily of engineering services for the planning or design of the Project.
- 1.12. "Title I Services Ceiling Price." The Title I Services Ceiling Price for this Agreement is \$94,437. The Title I Services Ceiling price is the maximum aggregate amount of all payments that the Owner may become obligated to make under this Agreement for fees and costs related to Title I Services. In no event, unless modified in writing, shall total payments by the Owner related to Title I Services exceed the Title I Services Ceiling Price. The Consultant shall not be entitled to receive adjustment, reimbursement, or payment for, nor shall the Owner, its officers, agents, employees, or representatives, incur any liability for, any fee or cost related to, Title I Services exceeding the Title I Services Ceiling Price.
- 1.13. "Title II Multiplier" (if applicable) is the mark-up by which the fee and indirect costs associated with Title II services are calculated. The Title II Multiplier, which accounts for the fee and indirect costs, is multiplied by the salary rate, as shown on the Schedule of Salary Ranges, of the particular individual(s) performing the Title II services. The Title II Multiplier for the term of this Agreement is 3.22.
- 1.14. "Title II Services" are those services provided by the Consultant after the award of the contract for the construction of the Project, consisting primarily of engineering services during the construction of the Project.
- 1.15. "Title II Services Ceiling Price". The Title II Services Ceiling Price for this Agreement is \$ 0.00. The Title II Services Ceiling price is the maximum aggregate amount of all payments that the Owner may become obligated to make under this Agreement for fees and costs related to Title II Services. In no event, unless modified in writing, shall total payments by the Owner related to Title II Services exceed the Title II Services Ceiling Price. The Consultant shall not be entitled to receive adjustment, reimbursement, or payment for, nor shall the Owner, its officers, agents, employees, or representatives, incur any liability for, any fee or cost related to, Title II Services exceeding the Title II Services Ceiling Price.

2. TYPE OF AGREEMENT

- 2.1. This Agreement is a cost-plus-fixed-fee contract. The Consultant is being hired to perform professional engineering services in connection with the Project as set forth herein. In consideration for Title I services performed, the Owner will reimburse the Consultant for allowable direct and indirect costs, as defined herein, and pay the Consultant a fixed fee. If Title II services are to be performed, the Owner will reimburse the Consultant for allowable direct costs and also pay the Consultant an amount determined by multiplying the salary rate of the individual(s) performing the Title II services, as shown on the Schedule of Salary Ranges, by the Title II Multiplier.
- 2.2. The Project to be performed under this Agreement is a federally-assisted project and federal funds will be used, in part, to pay the Consultant. Therefore, notwithstanding any provision of this Agreement, all payments, costs, and expenditures are subject to the requirements and limitations of 48 C.F.R. Part 31, and the Consultant shall certify the accuracy of all invoices and requests for payment, along with supporting documentation and any information provided in determining the Indirect Cost Rates.

3. COSTS, FEES, AND PAYMENT

3.1. *Allowable costs.*

3.1.1. Allowable costs are subject to the limitations, regulations, and cost principles and procedures in 48 C.F.R. Part 31, which are expressly incorporated into this Agreement by reference. For the purpose of reimbursing allowable costs (except as provided in subparagraph 2 below, with respect to pension, deferred profit sharing, and employee stock ownership plan contributions), the term *costs* includes only—

3.1.1..1. Those recorded costs that, at the time of the request for reimbursement, the Consultant has paid by cash, check, or other form of actual payment for items or services purchased directly for the Agreement;

3.1.1..2. When the Consultant is not delinquent in paying costs of contract performance in the ordinary course of business, costs incurred, but not necessarily paid, for—

- Materials issued from the Consultant's inventory and placed in the production process for use in its performance under this Agreement;
- Direct labor;
- Direct travel;
- Other direct in-house costs; and
- Properly allocable and allowable indirect costs, as shown in the records maintained by the Consultant for purposes of obtaining reimbursement under government contracts; and
- The amount of progress payments that have been paid to the Consultant's subcontractors under similar cost standards.

3.1.2. Consultant's contributions to any pension or other post-retirement benefit, profit-sharing or employee stock ownership plan funds that are paid quarterly or more

often may be included in indirect costs for payment purposes; *provided*, that the Consultant pays the contribution to the fund within 30 days after the close of the period covered. Payments made 30 days or more after the close of a period shall not be included until the Consultant actually makes the payment. Accrued costs for such contributions that are paid less often than quarterly shall be excluded from indirect costs for payment purposes until the Consultant actually makes the payment.

3.1.3. Notwithstanding the audit and adjustment of invoices or vouchers, allowable indirect costs under this Agreement shall be obtained by applying Indirect Cost Rates established in accordance with Subsection 3.3 below.

3.1.4. Any statements in specifications or other documents incorporated in this Agreement by reference designating performance of services or furnishing of materials at the Consultant's expense or at no cost to the Owner shall be disregarded for purposes of cost-reimbursement.

3.2. *Salaries.* The following schedule covers the classification of personnel and the salary ranges for all personnel anticipated to be assigned to this project by the Consultant:

3.2.1. SCHEDULE OF SALARY RANGES

Description	Billing Class	Min. Hourly	Max. Hourly
Construction Observer	C-1	\$16.00	\$35.00
Sr. Construction Observer	C-2	\$24.00	\$47.00
Designer	D-1	\$18.00	\$36.00
Sr. Designer	D-2	\$26.00	\$48.00
Design Engineer	E-1	\$20.00	\$39.00
Sr. Design Engineer	E-2	\$25.00	\$44.00
Project Eng. / Resident Eng.	E-3	\$30.00	\$53.00
Sr. Proj. Eng. / Sr. Rsdnt. Eng.	E-4	\$38.00	\$60.00
Proj. Mngr. / Sr. Proj. Mngr.	E-5	\$40.00	\$74.00
Sr. Proj. Mngr.	E-6	\$45.00	\$110.00
Environmental Scientist or Specialist	P-1	\$18.00	\$36.00
Environmental Project Manager	P-2	\$36.00	\$53.00
Rodman	S-1	\$10.00	\$20.00
Instrument Man	S-2	\$12.00	\$25.00
Party Chief	S-3	\$15.00	\$30.00
Project Surveyor	S-4	\$22.00	\$44.00
Sr. Project Surveyor	S-5	\$30.00	\$55.00
Technician or Intern	T-1	\$9.00	\$32.00
Sr. Technician	T-2	\$20.00	\$41.00
Administrative Assistant	X-1	\$9.00	\$30.00
Sr. Administrative Asst.	X-2	\$15.00	\$39.00
Executive Assistant	X-3	\$20.00	\$55.00

3.2.2. The Owner shall reimburse the Consultant for overtime costs only when the overtime has been authorized in writing by the Owner. When authorized, overtime shall be reimbursed at the rate of time and one-half for all nonexempt employees. Notwithstanding this provision, the Consultant must comply with all federal and state wage and hour laws and regulations, regardless whether the overtime is considered reimbursable under this Agreement.

3.3. *Indirect Cost Rates.*

- 3.3.1. Allowable indirect costs incurred by the Consultant shall also be reimbursed by the Owner at the Indirect Cost Rate. The Indirect Cost Rate of the Consultant for this Agreement shall be the rate as set forth in subsection 1.10. If applicable, the Indirect Cost Rate for subcontractors shall be determined in the same manner and subject to the same limitations as the Consultant, and shall be listed for each subcontractor identified in Appendix B. The Indirect Cost Rate, or any adjustment thereto, shall not change any monetary ceiling, contract obligation, or specific cost allowance, or disallowance provided for in this Agreement except as provided for in sections 3.3.4. and 3.3.5. The Indirect Cost Rate must reflect the allowable indirect costs pursuant to 48 C.F.R. Part 31 ("FAR").
- 3.3.2. In establishing the Indirect Cost Rate or proposing any adjustment thereto, the Consultant shall, upon request, submit to the Owner, FHWA, or their representatives an audited indirect cost rate and supporting cost data in accordance with the requirements set forth in the current *Arkansas Highway & Transportation Department Indirect Cost Rate Audit Requirements*.
- 3.3.3. During the term of this Agreement, if an audit of a subsequent accounting period of the Consultant demonstrates that the Consultant has incurred allowable indirect costs at a different rate than the Indirect Cost Rate, the Indirect Cost Rate shall be adjusted. Any adjustment is subject to the audit and documentation requirements of the FAR and the current *Arkansas Highway & Transportation Department Indirect Cost Rate Audit Requirements*. Except in the case of a provisional Indirect Cost Rate, as provided in the following subparagraphs, or the disallowance of cost following a subsequent audit, any adjustment to the Indirect Cost Rate shall be effective only prospectively from the date that the adjustment is accepted.
- 3.3.4. In order to expedite some projects, when an audited indirect cost rate has not yet been submitted and approved, the Owner may extend a temporary waiver and accept a provisional indirect cost rate. This provisional rate must be reviewed by, and receive a positive recommendation from the Arkansas Highway and Transportation Department's Chief Auditor. The provisional cost proposal must be accompanied by written assurance from an independent CPA that he/she has been engaged to audit the costs in accordance with the above requirements. The anticipated audit must be based on costs incurred in the most recently completed fiscal year for which the cost data is available, with the audit scheduled to begin within a reasonable time frame. If the date of the initial cost proposal is within the last quarter of the current fiscal year, the audit may be delayed until the current fiscal year is closed and the final cost data is available. The written assurance from the CPA that he or she has been engaged to perform the audit at an appropriate time is still required.
- 3.3.5. Once an audited indirect cost rate is approved, the ceiling prices provided for in the initial agreement using the provisional indirect cost rate will be adjusted with a supplemental agreement to implement the resulting increase or decrease from revising the indirect cost rate, and all amounts paid the consultant prior to receipt and acceptance of an audited indirect cost rate will be retroactively adjusted for changes in the indirect cost rate. However, no changes in hours, fixed fees, or other costs will be allowed as a result of applying the audited indirect cost rate.
- 3.4. *Fees*. The justification for the fees and costs is contained in Appendix A. In addition to reimbursement of the allowable costs as set forth above, the Owner shall pay to the Consultant a fixed fee of \$8,787 for Title I Services. For Title II Services, if applicable, the Owner shall reimburse the Consultant for allowable direct costs and also pay to the Consultant an amount determined by multiplying the salary rate of the individual(s)

performing the Title II Services, as shown on the Schedule of Salary Ranges, by the Title II Multiplier. The Title II Multiplier shall account for all fees and indirect costs associated with Title II services.

3.5. *Invoices, Reimbursement, and Partial Payments.* Submission of invoices and payment of the fees shall be made as follows, unless modified by the written agreement of both parties:

3.5.1. Not more often than once per month, the Consultant shall submit to the Owner, in such form and detail as the Owner may require, an invoice or voucher supported by a statement of the claimed allowable costs for performing this Agreement, and estimates of the amount and value of the work accomplished under this Agreement. The invoices for costs and estimates for fees shall be supported by any data requested by the Owner.

3.5.2. In making estimates for fee purposes, such estimates shall include only the amount and value of the work accomplished and performed by the Consultant under this Agreement which meets the standards of quality established under this Agreement. The Consultant shall submit with the estimates any supporting data required by the Owner. At a minimum, the supporting data shall include a progress report in the form and number required by the Owner.

3.5.3. Upon approval of the estimate by the Owner, payment upon properly executed vouchers shall be made to the Consultant, as soon as practicable, of 100 percent of the allowed costs, and of 90 percent of the approved amount of the estimated fee, less all previous payments. Notwithstanding any other provision of this Agreement, only costs and fees determined to be allowable by the Owner in accordance with subpart 31.2 of the Federal Acquisition Regulations (FAR) in effect on the date of this Agreement and under the terms of this Agreement shall be reimbursed or paid.

3.5.4. Before final payment under the Agreement, and as a condition precedent thereto, the Consultant shall execute and deliver to the Owner a release of all claims which are known or reasonably could have been known to exist against the Owner arising under or by virtue of this Agreement, other than any claims that are specifically excepted by the Consultant from the operation of the release in amounts stated in the release.

3.6. *Title I Services, Title II Services, and Contract Ceiling Prices.* The parties agree that aggregate payments under this Agreement, including all costs and fees, shall not exceed the Contract Ceiling Price. The parties further agree that aggregate payments for Title I services under this Agreement, including all costs and fees, shall not exceed the Title I Services Ceiling Price; and that aggregate payments for Title II services under this Agreement, including all costs and fees, shall not exceed the Title II Services Ceiling Price. No adjustment of the Indirect Cost Rate or the Title II Multiplier, claim, or dispute shall affect the limits imposed by these ceiling prices. No payment of costs or fees shall be made above these ceiling prices unless the Agreement is modified in writing.

3.7. *Final payment.*

3.7.1. The Consultant shall submit a completion invoice or voucher, designated as such, promptly upon completion of the work, but no later than forty-five (45) days (or longer, as the Owner may approve in writing) after the completion date. Upon approval of the completion invoice or voucher, and upon the Consultant's compliance with all terms of this Agreement, the Owner shall promptly pay any balance of allowable costs and any retainage owed to the Consultant. After the release of said retainage Consultant agrees that it will continue to provide

consultation services to the Owner as needed through supplemental agreement(s) with respect to the contracted services under this Agreement until all work is completed under both Title I and Title II.

3.7.2. The Consultant shall pay to the Owner any refunds, rebates, credits, or other amounts (including interest, if any) accruing to or received by the Consultant or any assignee under this Agreement, to the extent that those amounts are properly allocable to costs for which the Consultant has been reimbursed by the Owner. Reasonable expenses incurred by the Consultant for securing refunds, rebates, credits, or other amounts shall be allowable costs if approved by the Owner. Before final payment under this Agreement, the Consultant and each assignee whose assignment is in effect at the time of final payment shall execute and deliver—

- An assignment to the Owner, in form and substance satisfactory to the Owner, of refunds, rebates, credits, or other amounts (including interest, if any) properly allocable to costs for which the Consultant has been reimbursed by the Owner under this Agreement; and,
- A release discharging the Owner, its officers, agents, and employees from all liabilities, obligations, and claims which were known or could reasonably have been known to exist arising out of or under this Agreement.

3.8. *Owner's Right to Withhold Payment.* The Owner may withhold payment to such extent as it deems necessary as a result of: (1) third party claims arising out of the services of the Consultant and made against the Owner; (2) evidence of fraud, over-billing, or overpayment; (3) inclusion of non-allowable costs; (4) failure to make prompt payments to subcontractors in the time provided by this Agreement; (5) payment requests received including fees for unapproved subcontractors; and/or (6) the Consultant's default or unsatisfactory performance of services. The withholding of payment under this provision shall in no way relieve the Consultant of its obligation to continue to perform its services under this Agreement.

4. DISALLOWANCE OF COSTS

4.1. Notwithstanding any other clause of this Agreement, the Owner may at any time issue to the Consultant a written notice of intent to disallow specified costs incurred or planned for incurrence under this Agreement that have been determined not to be allowable under the contract terms.

4.2. Failure to issue a notice under this Section shall not affect the Owner's rights to take exception to incurred costs.

4.3. If a subsequent audit reveals that: (1) items not properly reimbursable have, in fact, been reimbursed as direct costs; or (2) that the Indirect Cost Rate contains items not properly reimbursable under the FAR; then, in the case of indirect costs, the Indirect Cost Rate shall be amended retroactively to reflect the actual allowable indirect costs incurred, and, in the case of both direct and indirect costs, the Owner may offset, or the Consultant shall repay to Owner, any overpayment.

5. RECORDS & AUDITS

5.1. *Records* includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.

- 5.2. *Examination.* The Consultant shall maintain, and the Owner, AHTD, FHWA, and their authorized representatives shall have the right to examine and audit all records and other evidence sufficient to reflect properly all costs (direct and indirect) claimed to have been incurred or anticipated to be incurred in performance of this Agreement. This right of examination shall also include examination and audit of any records considered, relied upon, or relating to the determination of the Indirect Cost Rate or any certification thereof, including any CPA audit relied upon to establish the rate. This right of examination shall also include inspection at all reasonable times of the Consultant's offices and facilities, or parts of them, engaged in performing the Agreement.
- 5.3. *Supporting Data.* If the Consultant has been required to submit data in connection with any action relating to this Agreement, including the negotiation of or pre-negotiation audit of the Indirect Cost Rate, the negotiation of the Fee, request for cost reimbursement, request for payment, request for an adjustment, or assertion of a claim, the Owner, AHTD, FHWA, or their authorized representatives, in order to evaluate the accuracy, completeness, and accuracy of the data, shall have the right to examine and audit all of the Consultant's records, including computations and projections, related to—
- The determination or certification of the Indirect Cost Rate, including any independent CPA audit or certification thereof;
 - Any proposal for the Agreement, subcontract, or modification;
 - Discussions conducted on the proposal(s), including those related to negotiating;
 - Fees or allowable costs under the Agreement, subcontract, or modification;
 - Performance of the Agreement, subcontract or modification; or,
 - The amount and basis of any claim or dispute.
- 5.4. *Audit.* The Owner, AHTD, FHWA, or their authorized representatives, shall have access to and the right to examine any of the Consultant's records involving transactions related to this Agreement or a subcontract hereunder.
- 5.5. *Reports.* If the Consultant is required to furnish cost, funding, or performance reports, the Owner, AHTD, FHWA, or their authorized representatives shall have the right to examine and audit the supporting records and materials, for the purpose of evaluating (1) the effectiveness of the Consultant's policies and procedures to produce data compatible with the objectives of these reports and (2) the data reported.
- 5.6. *Availability.* The Consultant shall retain and make available at its office at all reasonable times the records, materials, and other evidence described in this Section and Section 28, Disputes and Claims, for examination, audit, or reproduction, until five years after final payment under this Agreement, or for any longer period required by statute or by other clauses of this Agreement. In addition—
- 5.6.1. If this Agreement is completely or partially terminated, the records relating to the work terminated shall be retained and made available for five years after the termination; and,
- 5.6.2. Records relating to any claim or dispute, or to litigation or the settlement of claims arising under or relating to this Agreement shall be retained and made available until after any such claims or litigation, including appeals, are finally resolved.

5.7. The Consultant shall insert a clause containing all the terms of this Section in all subcontracts under this Agreement.

6. DESCRIPTION OF THE PROJECT

6.1. The City of Jonesboro has programmed a project to make improvements to the intersection of Highway 351 and Aggie Road in Jonesboro, Craighead County, Arkansas.

6.2. The project generally consists of determining the feasibility and engineering services for the improvements at the intersection. The scope of work will generally consist of traffic studies and reports, NEPA environmental documentation, construction plans, specifications, cost estimate, and right-of-way plans.

6.3. The existing condition is a four-way stop at the intersection Airport Road and Aggie. Airport Road is two-lane state highway 351 and Aggie is a two-lane city street. There are no shoulders on the roadways with the exception of the shoulder on the north side of the west approach to the intersection. The speed limit of Airport Road is posted at 45 mph and Aggie Road is posted at 25 mph to the south and 30 mph to the north.

7. INFORMATION AND TITLE I SERVICES TO BE PROVIDED BY THE CONSULTANT

7.1. Identification and Analysis of Traffic Demands

7.1.1. Identification of the Current Transportation Demands: In order to identify the current transportation demands within the study area, the following information will be collected.

- All prior studies conducted within the study area
- New traffic counts (peak hour turning movement and 24-hour machine counts) are expected at the intersection of Highway 351 (Airport Road) and Aggie Road (The City of Jonesboro will provide one person to assist Garver in this effort)
- Previous traffic data compiled by AHTD or the City of Jonesboro in the study area
- Site visit to assess local peaking characteristics and observe the extent and duration of vehicle delay and queuing within the study area, especially during the school peak
- Crash data
- Information on the new school

7.1.2. Analysis of the Current Transportation Demands: The Consultant will use the collected data and the information compiled from previous studies, and the Owner input to produce a traffic model of the intersection for 2013. The Consultant will analyze the intersection using the Highway Capacity Software (HCS 2010) and Synchro/SimTraffic. Historic crash data provided by the Owner and AHTD will be analyzed to determine if there are any crash clusters or prevailing trends in the study area.

7.1.3. Forecast and Analysis of Future Transportation Demands: The Consultant will project the 2013 traffic volumes to a 20-year horizon to determine the future “no

build” traffic conditions. The same analysis procedures performed for the 2013 “no build” will be used for the future “no build” analysis.

7.2. Analysis of Proposed Improvement

7.2.1. *Geometric Analysis:* The Consultant will evaluate the proposed improvement to ensure that the number of lanes provided and length of turn bays is adequate for the future needs.

7.2.2. *Operational Analysis:* The Consultant will evaluate the proposed improvement to ensure that the future capacity needs at the intersection are met.

7.3. Determination of Feasibility of Proposed Improvement

7.3.1. *Benefits and Costs of an Improvement:* The benefits of the intersection improvements can be approximated by determining the savings incurred by the roadway users. AASHTO’s User and Non-User Benefit Analysis for Highways, provides guidance on calculating the “user costs.” The manual groups the costs into three categories or modules: value of time, operating costs, and accident costs. Factors that influence the “user costs” include travel speed or delay, vehicle miles travelled, and crash rates. The cost estimate for the intersection improvements will be compared to the benefits that the improvements will provide.

7.3.2. *Non-Monetary Improvements:* The improvements to the intersection of Highway 351 (Airport Road) at Aggie Road could provide several non-monetary benefits, including the following:

- Safety – Fewer crashes can be expected with improvements.
- Development – Less congestion at this intersection may promote some development on the west side.
- Traffic capacity – Shorter queues and less delay will occur.

7.4. Preparation of Final Report

7.4.1. *Final Report:* The Consultant will prepare a final summary report containing the results and conclusions of the study, planning level cost estimates, and all necessary support documentation. A draft summary report will be submitted to the city and AHTD for review. Once all comments have been addressed, the final summary report will be submitted to the city.

7.5. Surveys

7.5.1. Surveys will consist of performing design surveys and/or land surveys on an as needed basis. All survey tasks shall be performed according to AHTD requirements specified in the most current version of the General and Detailed Scope of Work for Control Surveys, Design Surveys, and Land Surveys or as specified by the Surveys Division. The surveys shall extend a minimum of 600 feet along Hwy. 351 and 500 feet along Aggie Rd. from the center of the intersection. Minimum surveys to be performed may consist of one or more of the tasks that follow. Additional survey tasks required will be as shown in the attached Proposed Cost.

7.5.2. Design Surveys

7.5.3. Horizontal Control - Primary project horizontal control traverses based on control as specified by the AHTD. In most cases, a decision will be made whether assumed horizontal coordinates may be used on a project before a contract is in place. But, even when assumed coordinates were originally specified, the project shall be moved to the Arkansas State Plane Coordinate System (AR SPCS) when any of items that follow are involved.

- Additional Right of Way required
- Improvements to the roadway
- As directed by the AHTD

7.5.4. Elevation Control - Three Wire Level based on control as specified by the Department. In most cases, a decision will be made whether assumed elevations may be used on a project before a contract is in place. But, even when assumed elevations were originally specified, the project shall be moved to the NGS NAVD 88 Vertical Datum (or a more current datum as specified) when any of items that follow are involved.

7.5.5. Topography

- All Design Survey (DSUR) data shall be submitted to AHTD Surveys Division for review. Standard requirements for all submittals as specified in Appendix E shall apply.
- Establish the existing centerline based on Court Orders, Subdivision plats, existing pavement, etc., as directed by the AHTD
- Utility and Drainage Surveys
- Low Wires of Overhead Utilities

7.5.6. Land (Parcel) Surveys

- Title Search
- Parcel Surveys and work sheets
- Establish the existing centerline and existing rights of way based on Court Orders, Subdivision plats, existing pavement, etc., or as directed by the AHTD shall be done on all projects.
- Final Plat
- All Land Survey (PSUR) data shall be submitted to the Owner to submit to the Surveys Division for review. Standard requirements for all submittals as specified in Appendix E shall apply. Garver anticipated that this task will include right-of-way for one parcel.

7.6. Environmental Documentation

7.6.1. Garver anticipates that a Tier III Categorical Exclusion will be sufficient for the environmental clearance.

7.6.2. *Environmental Data Collection* – Mapping data associated with the proposed project area will be collected and assessed for the social, economic, and environmental impacts area, including:

- Air Quality
- Noise Quality

- Hazardous Materials
- Wetlands and Stream Impacts
- Water Quality, including Public Drinking Supplies
- Farmland
- Land Use and Land Cover
- Terrestrial and Aquatic Communities
- Endangered Species
- Economic
- Community
- Relocations of Homes and Businesses
- Environmental Justice and Title VI
- Recreational Areas
- Archeological and Historic Sites
- Visual
- Section 4(f)
- Secondary and Cumulative Impacts

7.6.3. *Environmental Constraints Map* – All environmental data collected will be transferred to appropriately scaled aerial photographs to produce a map that indicates all known environmental sensitive areas.

7.6.4. *Field Studies* - No field studies of environmental impacts are included in the fee. Field studies to complete the environmental documentation will be negotiated following the initial data collection if required. Field studies include wetland determinations, biological field investigations, etc.

7.6.5. *Section 4(f)* – No Section 4(f) Evaluation is included in this scope of work.

7.6.6. *Tribal Letters* – Tribal letters will be corresponded with FHWA for submittal

7.6.7. *Phase I Cultural Resources Survey*

7.6.8. *Environmental Document*

- Prepare environmental document.
- Submit draft environmental document in electronic format for review by Jonesboro and AHTD
- Perform alterations necessary to respond to comments made in Jonesboro and AHTD review
- Submit final draft to Jonesboro for AHTD and FHWA Approval
- Prepare designated number of copies of environmental document after FHWA approval and distribute as directed. An electronic copy of the approved environmental document in pdf form will be provided to Jonesboro and AHTD.

7.7. Traffic and Signalization Design (If required)

7.7.1. *Traffic Analysis*

- To accommodate pedestrians on the approach, new crosswalks, wheelchair ramps, and pedestrian signals will be included in the design. Typically, supplemental nearside signal heads and flashing signal ahead signs are used on roadways with higher speeds. However, the sight restrictions may require supplemental signal heads and signage.

- The project shall be designed in accordance with the latest edition of the AHTD's "Standard Specifications for Highway Construction" with supplemental specifications; the latest edition of the "Manual on Uniform Traffic Control Devices"; with AASHTO's "A Policy on Geometric Design of Highways and Streets, 2004", the 2006 Interim to AASHTO's "Standard Specifications for Structural Supports for Highway Signs, Luminaires and Traffic Signals", 4th Edition and other appropriate publications.

7.7.2.Preliminary Design - Signalization Plans (if required)

- Once the design analysis is complete, Garver will construction plans for the installation of a traffic signal at the intersection of Airport and Aggie Road. The preliminary plans will include a 30% submittal and a 60% submittal. The preliminary plan sheets will incorporate the findings from the design phase to produce a product which can be constructed. Preliminary engineering drawings will be developed using current AHTD design standards as well as the City of Jonesboro's preferences. Garver anticipates two preliminary submittals for each assignment. The 30% submittal will typically include the following:
 - Title sheet
 - Index of sheets
 - Summary of quantities
 - Control detail sheet
 - Maintenance of traffic
 - Wheelchair ramp details
 - Signalization plans
 - Special details as needed
 - Signalization details
- The signalization plan sheets will include the basic geometry of the intersection, the existing and/or proposed right-of-way, and pole locations identified by stations and offsets. Also, the details will include design parameters, wiring diagram, phasing diagram, interval chart, detector chart, and turning movement diagrams.
- The 60% plans will incorporate comments from the 30% plan submittal. In most cases a field review will occur after the 30% submittal. However, there are occasions when this will occur after the 60% submittal. Garver will attend a field review meeting. Any comments generated during the field review will be incorporated into the final plans.

7.7.3.Final Design - Signalization Plans (if required)

- During the final design stage, there will be a 90% submittal and a final submittal. Both of these submittals will include the following:
 - All information included in the previous submittals
 - Quantities
 - Special provisions written for the project
 - Construction specifications shall be the current edition of the AHTD's Standard Specifications for Highway Construction
 - Construction cost estimate
 - Signal timing plan

- If required, Garver will attend the final field inspection. The final plans will be stamped and sealed by a registered professional engineer.

7.8. *Geotechnical Investigation*: The geotechnical investigation will be performed by Grubbs, Hoskyn, Barton & Wyatt, Inc. and is expected to include the following tasks:

7.8.1. Grubbs, Hoskyn, Barton & Wyatt will visit the project alignment to observe site conditions. Published information on site geology and available information from prior geotechnical studies in the area will be reviewed.

7.8.2. Grubbs, Hoskyn, Barton & Wyatt will contact landowners to secure right of access in the project alignment prior to accessing boring locations. Underground utility locations will be cleared prior to beginning drilling. It is expected that Garver or the Department will provide property owner contact information, if needed. It is assumed that Garver will provide all right of access information and available maps and aerial photographs. This information will be required prior to contacting property owners and beginning work.

7.8.3. Access to boring locations will be provided by Grubbs, Hoskyn, Barton & Wyatt as dictated by site conditions and permitted by property owners. Applicable permits will be obtained and traffic control will be provided by Grubbs, Hoskyn, Barton & Wyatt. Truck-mounted drilling equipment will be utilized.

7.8.4. Sample borings will be advanced using dry-auger drilling techniques. The existing pavement section components will be measured. Undisturbed soil samples or Standard Penetration Values will typically be obtained in borings at 2-ft intervals. Groundwater measurements will be obtained during and at the completion of drilling operations. Boreholes will be backfilled after obtaining final groundwater measurements. Boreholes in existing pavement areas will be patched with asphalt concrete cold patch or a concrete mix.

7.8.5. The subsurface exploration program will consist of two (2) sample borings drilled approximately 10-ft depth. We have assumed one (1) day for the field

7.8.6. An adequate laboratory testing program will be planned and performed after the borings are completed. The purpose of the laboratory testing program will be to evaluate pertinent physical properties and engineering characteristics of the subgrade soils. These data will be used in developing geotechnical recommendations for subgrade support design parameters, subgrade preparation, and site grading. The testing program is expected to consist of classification tests.

7.8.7. An engineering report will be developed which will include the results of the field and laboratory studies, information on site conditions and geology, and recommendations for subgrade preparation, site grading, and pavement subgrade support parameters.

7.9. Right-of-Way Plans

7.9.1. This scope includes ROW Plans for four parcels in the vicinity of the intersection improvements. Garver anticipates ROW Plans for one parcel in each quadrant of the intersection. Right-Of-Way plans will be provided according to "Arkansas *State Highway & Transportation Department Stage Submittal of Right of Way Plans.*"

7.10. Roadway Design (Roundabout Alternative)

- 7.10.1. Garver will provide roadway design services for both signalized alternatives and roundabout alternatives at the intersection of Hwy. 351 (Airport Road) and Aggie Road. The roadway man-hour estimate is based upon a 13 point review by AHTD.
- 7.10.2. *Design Criteria:* The design criteria to be used in the design of the project will be prepared and submitted to the City of Jonesboro and AHTD. Garver will develop design criteria that include AHTD Plan Development Guidelines, AHTD Interoffice Memorandums, AASHTO requirements, and the City of Jonesboro Master Street Plan components. Specific criteria for horizontal curvature will be tailored to the requirements of the design speed. After submittal and approval by the city and AHTD, the design criteria will be distributed to all team members for inclusion in the project quality control plan to ensure that all project requirements are met.
- 7.10.3. *Pavement Design:* The pavement design alternatives for the proposed pavement will be prepared according to the requirements of the AHTD Roadway Design Plan Development Guidelines using AASHTO design procedures. The recommended pavement design will be submitted to the city and AHTD for approval. It is anticipated that overlays will be utilized where the existing pavement structure is in good condition.
- 7.10.4. *Conceptual Design:* Conceptual alternatives will be developed for both signalized and roundabout options for inclusion in the environmental documentation. Basic plan view graphics with approximate impacts will be developed for each alternative.
- 7.10.5. *30% Plans:* Preliminary plans shall be submitted at the 30% level for city approval of the geometric design, title sheet, and typical sections as defined in Appendix I of the AHTD Roadway Design Plan Development Guidelines. The plans will incorporate the city standards and guidelines where appropriate.
- 7.10.6. *60% Plans:* Garver will provide roadway plan sheets for 60% review to the city and AHTD and attend the preliminary field inspection. The roadway plans shall include the following:
- Title sheet
 - Typical sections of improvement
 - Special details as needed
 - Roadway plan sheets showing:
 - Roadway grades for main lanes, crossing roads, and driveways
 - Alignment data for main lanes and crossing roads
 - Tentative construction limits
 - Right of way, permanent and temporary construction easements
 - All roadway/roadside features within the right of way
 - Drainage structures
 - Maintenance of traffic conceptual plans
 - Control detail sheets of the survey baseline and design centerline with control point data in accordance with the standards used by the Roadway Design Division of AHTD
 - Permanent Pavement Marking Details
 - Culvert Diagrams
 - Erosion Control Plans
 - Location of any retaining walls as required
 - Attend preliminary field inspection

- Perform alterations necessary to respond to comments from the preliminary field inspection

7.10.7. *90% Plans*: Garver will provide 90% roadway plan sheets for review and final field inspection. All roadway design shall be complete, and all drawings shall be thoroughly checked by Garver prior to submittal. Garver will provide the construction plans for the project for one construction contract. Additional phasing of the project and breakouts of plans for additional construction plans will be additional work. The 90% plans shall include everything included in the 60% submittal, along with the following items of work:

- Provide quantities
- Provide special provisions
- Provide a construction cost estimate
- Attend final field inspection
- Make plan changes resulting from the 90% review and final field inspection

7.10.8. *100% Plans*: Garver will provide final signed and sealed plans after all revisions have been incorporated into the 90% plans.

7.11. Bidding Phase Services

7.11.1. Bidding Services are not included in this fee and can be negotiated following approval of final plans.

- Issue plans and specifications to publishing organization
- Answer questions from contractors during bid phase
- Issue addenda
- Attend Bid Opening
- Review and certify bids for construction
- Prepare Construction Contract
- Issue letter of recommendation for acceptance of bid

8. INFORMATION TO BE PROVIDED BY THE OWNER

- 8.1. Coordinate review of construction plans and specifications, award of construction contract, and construction contract change orders with AHTD.
- 8.2. Right-of-way
- 8.3. Provide right-of- way appraisal and acquisition
- 8.4. Abstract information for Parcels
- 8.5. Handle utility adjustments
- 8.6. Environmental Permitting
- 8.7. Review plans and specifications prepared by Consultant
- 8.8. Advertise and receive bids and award the construction contract through AHTD
- 8.9. Available aerial and mapping data
- 8.10. Advertisements for public meetings and construction bidding

9. TITLE II SERVICES TO BE PROVIDED BY THE CONSULTANT

- 9.1. Title II services may be added to the contract at a later date. Title II services and fee to be negotiated after approval of final plans.

10. COORDINATION WITH OWNER

10.1. Throughout the Project, the Consultant shall hold bi-monthly teleconferences in Jonesboro, Arkansas, or such other location as designated by the Owner, with representatives of the Owner, the AHTD, and the FHWA so that as the Project progresses, the Consultant shall have full benefit of the Owner's knowledge of existing needs and facilities and be consistent with the Owner's current policies and practices. The extent and character of the work to be done by the Consultant shall be subject to the general oversight and approval of the Owner.

11. OFFICE LOCATION FOR REVIEW OF WORK

11.1. Review of the work as it progresses and all files and documents produced under this Agreement may be made by representatives of the Owner, the AHTD, and the FHWA at the project office of the Consultant located at 4701 Northshore Drive, North Little Rock, Arkansas.

12. ACCESS TO PROPERTY

12.1. The Consultant's services to the Owner may require entry upon private property. The Owner will present or mail to private landowners a letter of introduction and explanation, describing the work, which shall be drafted by the Consultant. The Consultant will make reasonable attempts to notify resident landowners who are obvious and present when the Consultant is in the field. The Consultant is not expected to provide detailed contact with individual landowners. The Consultant is not expected to obtain entry by means other than the consent of the landowner. If the Consultant is denied entry to private property by the landowner, the Consultant will not enter the property. If denied entry to the property, the Consultant shall notify the Owner and advise the Owner of an alternate evaluation method if one is feasible. The Owner shall decide on the course of action to obtain access to the property.

13. DELIVERABLES

- 13.1. Traffic Study Final Report
- 13.2. SHPO Approved Cultural Resources Report
- 13.3. Tier III Categorical Exclusion
- 13.4. Pavement Design
- 13.5. 30,60 & 90% Submittals
- 13.6. Final plans and specifications
- 13.7. Right-of-way plans
- 13.8. Construction cost estimate
- 13.9. Documentation of meetings with the City and AHTD concerning the project.
- 13.10. Electronic files as requested in Bentley Microstation format.

14. SUBCONTRACTING

14.1. Unless expressly disclosed in Appendix B, the Consultant may not subcontract any of the services to be provided herein without the express written approval of the Owner. All subcontractors, including those listed in Appendix B, shall be bound by the terms of this Agreement. All subcontractors shall be subject to all contractual and legal restrictions concerning payment and determination of allowable costs, and subject to all disclosure and audit provisions contained herein and in any applicable federal or state law.

14.2. Unless the consent or approval specifically provides otherwise, neither consent by the Owner to any subcontract nor approval of the Consultant's purchasing system shall

constitute a determination (1) of the acceptability of any subcontract terms or conditions, (2) of the acceptability of any subcontract price or of any amount paid under any subcontract, or (3) to relieve the Consultant of any responsibility, obligation, or duty under this Agreement.

14.3. No subcontract placed under this Agreement shall provide for payment on a cost-plus-a-percentage-of-cost basis, and any fee payable under cost-reimbursement subcontracts shall not exceed the fee limitations of the FAR.

14.4. Furthermore, notwithstanding any other provision within this Agreement, no reimbursement or payment for any markup of the cost of any subcontract shall be considered by the Owner without the express written agreement of the Owner.

14.5. *Prompt Payment.* The Consultant shall pay subcontractors for satisfactory performance of their subcontracts within 30 days of receipt of each payment by the Owner to the Consultant. Any retainage payments held by the Consultant must be returned to the subcontractor within 30 days after the subcontractor's work is completed. Failure to comply with this provision shall be considered a Default by the Consultant. If the Consultant fails to comply with this provision, in addition to any other rights or remedies provided under this Agreement, the Owner, at its sole option and discretion, may:

- make payments directly to the subcontractor and offset such payments, along with any administrative costs incurred by the Owner, against reimbursements or payments otherwise due the Consultant;
- notify any sureties; and/or,
- withhold any or all reimbursements or payments otherwise due to the Consultant until the Consultant ensures that the subcontractors have been and will be promptly paid for work performed.

14.6. The Consultant shall insert a clause containing all the terms of this Section in all subcontracts under this Agreement.

15. RESPONSIBILITY OF THE CONSULTANT

15.1. Notwithstanding any review, approval, acceptance, or payment by the Owner, the Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The Consultant shall, without additional compensation, correct or revise any errors or deficiencies in its designs, drawings, specifications, and other services.

15.2. The Consultant shall demonstrate to the Owner the presence and implementation of quality assurance in the performance of the Consultant's work. The Consultant shall identify individual(s) responsible, as well as methods used to determine the completeness and accuracy of drawings, specifications, and cost estimates.

15.3. The Consultant further agrees that in its performance of work under this Agreement, it shall adhere to the requirements in the Design Standards of the AHTD and FHWA, which shall be incorporated herein by reference.

- 15.4. The Owner shall have the right at any time and in its sole discretion to submit for review all or any portion of the Consultant's work to consulting engineers engaged by the Owner for that purpose. The Consultant shall fully cooperate with any such review.
- 15.5. The Consultant and any subcontractor shall employ qualified and competent personnel to perform the work under this Agreement.
- 15.6. Neither the Owner's review, approval, or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement, or of any cause of action arising out of the performance of this Agreement. The Consultant shall be and remain liable to the Owner for all damages to the Owner caused by the Consultant's negligent performance of any of the services furnished under this Agreement.
- 15.7. The rights and remedies of the Owner provided under this Agreement are in addition to any other rights and remedies provided by law.
- 15.8. If the Consultant is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

16. WARRANTY OF SERVICES

- 16.1. *Definitions. Acceptance*, as used in this Agreement, means the act of an authorized representative of the Owner by which the Owner approves specific services, as partial or complete performance of the Agreement. *Correction*, as used in this Agreement, means the elimination of a defect.
- 16.2. Notwithstanding inspection and acceptance by the Owner or any provision concerning the conclusiveness thereof, the Consultant warrants that all services performed and work product under this Agreement will, at the time of acceptance, be free from defects in workmanship and conform to the requirements of this Agreement.
- 16.3. If the Consultant is required to correct or re-perform, it shall be at no cost to the Owner, and any services corrected or re-performed by the Consultant shall be subject to this Section to the same extent as work initially performed. If the Consultant fails or refuses to correct or re-perform, the Owner may, by contract or otherwise, correct or replace with similar services and charge to the Consultant the cost occasioned to the Owner thereby, or make an equitable adjustment in the Contract Price.
- 16.4. If the Owner does not require correction or re-performance, the Owner shall make an equitable adjustment in the Contract Price.
- 16.5. Nothing within this Section shall constitute a waiver or exclusion of any other right or remedy that the Owner may possess at law or under this Agreement.

17. TERM, COMMENCEMENT, AND COMPLETION

- 17.1. This Agreement shall commence on the effective date set forth above and remain in effect until the completion of the Consultant's Scope of Services, as defined herein, to be completed ***within a period of 10 months***, unless extended or terminated by the Owner in accordance with this Agreement.
- 17.2. The Consultant shall begin work under the terms of this Agreement within ten (10) days of receiving written notice to proceed. [If services are to be performed in subsequent phases, then each phase shall be commenced upon the Owner's approval

of the previous phase. The Consultant shall not be entitled to any compensation or reimbursement for services performed in a phase unless and until it has received approval from the Owner to proceed with such services.]

17.3. It is further agreed that time is of the essence in performance of this Agreement. The Consultant shall complete the work, or each phase, as scheduled, and the Owner shall provide any required approval of the work or phase meeting the requirements contained herein in a reasonable and timely manner. The project schedule for this project has been included in Appendix D.

18. TERMINATION

18.1. The Owner may terminate this Agreement in whole or, from time to time, in part, for the Owner's convenience or because of the Default of the Consultant.

18.2. The Owner shall terminate this Agreement by delivering to the Consultant written notice of the termination.

18.3. Upon receipt of the notice, the Consultant shall:

- Immediately discontinue all services affected (unless the notice directs otherwise).
- Deliver to the Owner all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this Agreement, whether completed or in process.
- Terminate all subcontracts to the extent they relate to the work terminated.
- In the sole discretion and option of the Owner, and if and only if requested to do so, assign to the Owner all right, title, and interest of the Consultant under the subcontracts terminated, in which case the Owner shall have the right to settle any claim or dispute arising out of those subcontracts without waiver of any right or claim the Owner may possess against the Consultant.
- With approval or ratification by the Owner, settle all outstanding liabilities arising from the termination of subcontracts, the cost of which would be allowable in whole or in part, under this Agreement.
- Complete performance of any work not terminated.
- Take any action that may be necessary, or that the Owner may direct, for the protection and preservation of the property related to this Agreement which is in the possession of the Consultant and in which the Owner has or may acquire an interest.

18.4. If the termination is for the convenience of the Owner, the Owner shall make an equitable adjustment in the Contract Price, subject to the Ceiling Prices and Funding Limitations provisions, *but shall allow no anticipated fee or profit on unperformed services.*

18.5. If the termination is for the Consultant's Default, the Owner may complete the work by contract or otherwise and the Consultant shall be liable for any reasonable and necessary additional cost incurred by the Owner to the extent caused by Consultant's default.

18.6. Disputes and claims arising from termination of this Agreement shall be governed by Section 28, Disputes and Claims (48 CFR 31.205-42(e)(2)).

18.7. The rights and remedies of the Owner provided in this Section are in addition to any other rights and remedies provided by law or under this Agreement, and shall not constitute a waiver of any other such right or remedy.

19. STOP WORK ORDERS

19.1. The Owner may, at any time, by written order to the Consultant, require the Consultant to stop all, or any part, of the work called for by this Agreement for a period of up to 90 days after the order is delivered to the Consultant, and for any further period to which the parties may agree. Upon receipt of the order, the Consultant shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop work order is delivered to the Consultant, or within any extension of that period to which the parties shall have agreed, the Owner shall either—

19.1.1. Cancel the stop work order; or

19.1.2. Terminate the work pursuant to Section 18, Termination.

19.2. If a stop work order issued under this Section is canceled or the period of the order or any extension thereof expires, the Consultant shall resume work. The Owner shall make an equitable adjustment in the delivery schedule or Contract Price, or both, and the Agreement shall be modified in writing accordingly, if—

- The stop work order was not issued because of Consultant's Default in its performance of its obligations under any part of this Agreement; and,
- The stop work order results in an increase in the time required for, or in the Consultant's cost properly allocable to, the performance of any part of this Agreement; and,
- The Consultant provides Notice of Potential Claim pursuant to Section 28, Disputes and Claims.

20. CHANGES

20.1. The Owner may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this Agreement, including but not limited to: (1) drawings, designs, or specifications; (2) time of performance (i.e., hours of the day, days of the week, etc.); and (3) places of inspection, delivery, or acceptance.

20.2. If any such change causes an increase *or decrease* in the cost of, or the time required for, performance of any part of the work under this Agreement, whether or not changed by the order, the Owner shall make an equitable adjustment in the (1) estimated cost, delivery or completion schedule, or both; (2) amount of any fee; and (3) other affected terms.

20.3. All claims and disputes shall be governed by the Section 28, Claims and Disputes. As provided in Section 28, the Consultant must provide written notice of its intention to make a claim for additional compensation before beginning the work on which the claim

is based. If such notice is not given, the Consultant hereby agrees to waive any claim for such additional compensation.

- 20.4. Failure to agree to any adjustment shall be a dispute under Section 28, Disputes and Claims. *However, nothing in this Section or any other provision of this Agreement shall excuse the Consultant from proceeding with the Agreement as changed.*

21. OWNERSHIP OF DOCUMENTS & DATA

- 21.1. All project documents and data, regardless of form and including but not limited to original drawings, disks of CADD drawings, cross-sections, estimates, files, field notes, and data, shall be the property of the Owner. The Consultant shall further provide all documents and data to the Owner upon the Owner's request. The Consultant may retain reproduced copies of drawings and other documents. In the event that any patent rights or copyrights are created in any of the documents, data compilations, or any other work product, the Owner shall have an irrevocable license to use such documents, or data compilations, or work product.

22. PATENT AND COPYRIGHT INFRINGEMENT

- 22.1. The Consultant shall report to the Owner, promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this Agreement of which the Consultant has knowledge.
- 22.2. In the event of any claim or suit against the Owner on account of any alleged patent or copyright infringement arising out of the performance of this Agreement or out of the use of any supplies furnished or work or services performed under this Agreement, the Consultant shall furnish to the Owner, when requested by the Owner, all evidence and information in possession of the Consultant pertaining to such suit or claim. Such evidence and information shall be furnished at the expense of the Consultant.
- 22.3. The Consultant agrees to include, and require inclusion of, the provisions of this Section in all subcontracts at any tier for supplies or services.
- 22.4. The Consultant shall indemnify the Owner and its officers, agents, and employees against liability, including costs and attorneys' fees, for infringement of any United States patent or copyright arising from the manufacture or delivery of supplies, the performance of services, or the construction, alteration, modification, or repair of real property under this Agreement, or out of the use or disposal by or for the account of the Owner of such supplies or construction work.
- 22.5. This indemnity shall not apply unless the Consultant shall have been informed within ten (10) business days following the Owner's receipt of legal notice of any suit alleging such infringement and shall have been given such opportunity as is afforded by applicable laws, rules, or regulations to participate in its defense. Further, this indemnity shall not apply to (1) an infringement resulting from compliance with specific written instructions of the Owner directing a change in the supplies to be delivered or in the materials or equipment to be used, or directing a manner of performance of the Agreement not normally used by the Consultant, (2) an infringement resulting from addition to or change in supplies or components furnished or construction work performed that was made subsequent to delivery or performance, or (3) a claimed infringement that is unreasonably settled without the consent of the Consultant, unless required by final decree of a court of competent jurisdiction.

23. BANKRUPTCY

23.1. In the event the Consultant enters into proceedings relating to bankruptcy, whether voluntary or involuntary, the Consultant agrees to furnish, by certified mail, written notice of the bankruptcy to the Owner. This notice shall be furnished within five days of the initiation of the proceedings relating to bankruptcy filing. This notice shall include the date on which the bankruptcy petition was filed, the identity of the court in which the bankruptcy petition was filed, and a listing of AHTD job numbers and FAP numbers for all contracts with Owner against which final payment has not been made. This obligation remains in effect until final payment under this Agreement.

24. FUNDING LIMITATIONS

24.1. The Owner's obligations under this Agreement are contingent upon the availability of appropriated funds from which payments under the terms of this Agreement can be made in this and each subsequent fiscal year for the duration of the Agreement. No legal liability on the part of the Owner of any kind whatsoever under this Agreement shall arise until funds are made available to the Owner for performance of this Agreement, including those to be appropriated and provided by the State of Arkansas and those to be provided by the United States.

25. SUCCESSORS AND ASSIGNS

25.1. This Agreement shall be binding upon the parties and their successors and assigns, and except as expressly set forth herein, neither the Owner nor the Consultant may assign, delegate, or transfer any benefit or obligation under this Agreement without the express written consent of the other party. Nothing herein shall be construed as a waiver of any immunity or as creating any personal liability on the part of any officer or agent of the Owner or any other governmental entity either made a party to, or having any interest in, this Agreement.

26. INDEMNITY AND RESPONSIBILITY FOR CLAIMS AND LIABILITY

26.1. *Indemnity.* The Consultant shall hold harmless and indemnify the Owner and the AHTD, their officers, employees, and agents, from and for all claims and liabilities stemming from any wrongful (whether negligent, reckless, or intentional) acts or omissions on the part of the Consultant and its subcontractors, and their agents and employees.

26.2. *No Personal Liability.* No director, officer, manager, employee, agent, assign, or representative of the Owner or the AHTD shall be liable to the Consultant in a personal or individual capacity under any term of this Agreement, because of any breach thereof, or for any act or omission in its execution or performance.

26.3. *Independent Contractor Relationship.* The parties intend that the Consultant shall be an independent contractor of the Owner and that the Consultant shall be liable for any act or omission of the Consultant or its agents, employees, or subcontractors arising under or occurring during the performance of this Agreement. No act or direction of the Owner shall be deemed to be an exercise of supervision or control of the Consultant's performance.

27. INSURANCE

- 27.1. *Professional Liability Insurance Coverage.* The Consultant shall maintain at all times during the performance of services under this Agreement professional liability insurance coverage for errors, omissions, and negligent acts arising out of the performance of this Agreement in an amount per claim of not less than five (5) times the original Contract Ceiling Price or \$1,000,000, whichever is less. Such insurance shall extend to the Consultant and to its legal representatives in the event of death, dissolution, or bankruptcy, and shall cover the errors, omissions, or negligent acts of the Consultant's subcontractors, agents, and employees. Such insurance shall extend to any errors, omissions, and negligent acts in the performance of services under this Agreement committed by the Consultant or alleged to have been committed by the Consultant or any person for whom the Consultant is legally responsible.
- 27.2. *Deductible.* The Consultant may maintain a professional liability insurance policy with a deductible clause in an amount approved by the Owner if, in the judgment and opinion of the Owner, the Consultant's financial resources are sufficient to adequately cover possible liability in the amount of the deductible. The Consultant shall submit promptly to the Owner, upon request as often as quarterly, detailed financial statements and any other information requested by the Owner to reasonably determine whether or not the Consultant's financial resources are sufficient to adequately cover possible liability in the amount of the deductible.
- 27.3. *Worker's Compensation Insurance.* The Consultant shall at all times during the Term of this Agreement maintain Worker's Compensation and Employers Liability Insurance as required under Arkansas law.
- 27.4. *General Liability Insurance.* The Consultant shall at all times during the term of this Agreement maintain comprehensive general liability insurance coverage for bodily injury and property damage in the combined single limit of \$1,000,000, and comprehensive automobile liability insurance coverage for bodily injury and property damage in the combined single limit of \$1,000,000, which shall cover all owned, hired, and non-owned vehicles. The Consultant's insurance coverage shall also cover restoration of plans, drawings, field notes, and other documents in the event of their loss or destruction while in the custody of the Consultant.
- 27.5. *Insurance Policies and Certificates.* The Consultant shall provide the Owner upon request copies of its insurance policies and evidence satisfactory to the Owner concerning the effectiveness and the specific terms of the insurance. Prior to the execution of this Agreement, the Consultant shall furnish to the Owner certificates of insurance reflecting policies in force, and it shall also provide certificates evidencing all renewals of any expiring insurance policy required hereunder within thirty (30) days of the expiration thereof. The Consultant's failure to provide and continue in force and effect any insurance required under this Article shall be deemed a Default for which Owner, in its sole discretion, may terminate this Agreement immediately or on such other terms as it sees fit.
- 27.6. *Additional Insurance Requirements.* All insurance maintained by the Consultant pursuant to this Section shall be written by insurance companies licensed to do business in Arkansas, in form and substance satisfactory to the Owner, and shall provide that the insurance will not be subject to cancellation, termination, or change during its term except upon thirty (30) days prior written notice to the Owner.
- 27.7. *Duration of Insurance Obligations.* The Consultant shall maintain its professional insurance coverage required under this Agreement in force and effect for a period not less than five years after the final acceptance of the project or the completion of the

Consultant's services under this Agreement, whichever comes later. Comprehensive General Liability Insurance Coverage required under this Agreement shall be in full force and effect until the final acceptance or the completion of the Consultant's services, whichever comes later. All other insurance shall be maintained in full force and effect until final acceptance of the project or completion of the Consultant's services, whichever comes first.

27.8. *Consultant's Insurance Primary.* All insurance policies maintained by the Consultant pursuant to this Agreement shall provide that the consultant's insurance shall be primary and the Owner's own insurance shall be non-contributing.

27.9. *Additional Insured.* All liability insurance policies, except the professional liability policy, maintained by the Consultant pursuant to this Agreement shall be endorsed to include the Owner, its officers, directors, managers, employees, agents, assigns and representatives, individually and collectively, as additional insured, and all property damage insurance shall be endorsed with a waiver of subrogation by the insurer as to the Owner.

28. DISPUTES AND CLAIMS

28.1. *Notice of Potential Claim.* Whenever a Consultant deems that any additional compensation is due, the Consultant shall notify the Owner in writing of its intention to make a claim for additional compensation ("Notice of Potential Claim") **before beginning the work that gives rise to the claim.**

28.2. *Time & Manner for Submitting Claim.* All disputes and claims shall first be submitted in writing to the Owner within 45 calendar days after the completion or termination date. **The Consultant hereby agrees that the failure to submit the dispute or claim to the Owner prior to 45 calendar days after the completion or termination date shall constitute a waiver of the dispute or claim.**

28.3. *Form.* All disputes and claims must be submitted in writing and in sufficient detail to permit the Owner to determine the basis for entitlement and the actual allowable costs incurred. Each claim must contain:

- A detailed factual statement of the claim providing all necessary dates, locations, and items of work affected by the claim;
- The date the actions resulting in the claim occurred or conditions resulting in the claim became evident;
- A copy of the "Notice of Potential Claim";
- The name, title, and activity of each Owner's employee knowledgeable about facts that gave rise to such claim;
- The name, title, and activity of each Consultant, Subcontractor, or employee knowledgeable about the facts that gave rise to the claim;
- The specific provisions of the Agreement that support the claim and a statement why such provisions support the claim;
- The identification and substance of any relevant documents, things, or oral communications related to the claim;

- A statement whether the claim is based on provisions of the Agreement or an alleged breach of the Agreement;
- If an extension of time is sought, the specific number of days sought and the basis for the extension;
- The amount of additional compensation sought and a specific cost breakdown of the amount claimed; and,
- Any other information or documents that are relevant to the claim.

28.4. *Decision and Appeal.* The decision of the Owner shall be final and conclusive.

28.5. *Continued Performance.* Pending final resolution of a dispute or claim, unless the Owner has terminated this Agreement pursuant to Section 18 or issued a stop work order pursuant to Section 19, the Consultant shall proceed diligently with the performance of this Agreement in accordance with the Owner's decisions.

28.6. The rights and remedies of the Owner provided in this Section are in addition to any other rights and remedies provided by law or under this Agreement, and shall not constitute a waiver of any other such right or remedy. If the Owner decides the facts justify the action, the Owner may, at its sole option and discretion, receive and act upon a proposal, dispute, or claim submitted at any time before final payment under this Agreement.

29. COVENANT AGAINST CONTINGENCY FEES

29.1. The Consultant warrants that no person or agency has been employed or retained to solicit or obtain this Agreement upon an agreement or understanding for a contingent fee, except a bona fide employee or agency. For breach or violation of this warranty, the Owner shall have the right to annul this Agreement without liability or, in its discretion, to deduct from the Contract Price or consideration, or otherwise recover, the full amount of the contingent fee.

29.2. *Bona fide agency*, as used in this Section, means an established commercial or selling agency, maintained by the Consultant for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain government contracts nor holds itself out as being able to obtain any government contract or contracts through improper influence.

29.3. *Bona fide employee*, as used in this Section, means a person, employed by the Consultant and subject to the Consultant's supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain government contracts nor holds out as being able to obtain any government contract or contracts through improper influence.

29.4. *Contingent fee*, as used in this Section, means any commission, percentage, brokerage, or other fee that is contingent upon the success that a person or concern has in securing a government contract.

29.5. *Improper influence*, as used in this Section, means any influence that induces or tends to induce a government employee or officer to give consideration or to act regarding a government contract on any basis other than the merits of the matter.

30. TITLE VI ASSURANCES (NONDISCRIMINATION)

During the performance of this Agreement, the Consultant, for itself, its successors, and its assigns, certifies and agrees as follows:

- 30.1. *Compliance with Regulations.* The Consultant shall comply with the Regulations relative to Title VI (Nondiscrimination in Federally-assisted programs of the Department of Transportation and its operating elements, especially Title 49, Code of Federal Regulations, Part 21 and 23 Code of Federal Regulations, as amended, and hereinafter referred to as the Regulations). These regulations are herein incorporated by reference and made a part of this Agreement. Title VI provides that the recipients of Federal financial assistance will maintain and implement a policy of nondiscrimination in which no person shall, on the basis of race, color, national origin, sex, age, or disability, be excluded from participation in, denied the benefits of, or subject to discrimination under any program or activity by recipients of Federal financial assistance or their assignees and successors in interest.
- 30.2. *Nondiscrimination.* The Consultant, with regard to the work performed by it during the term of this Agreement, shall not discriminate on the basis of race, color, national origin, sex, age, or disability in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the agreement covers a program set forth in Appendix B of the USDOT Regulations.
- 30.3. *Solicitations for Subcontracts, Including Procurements of Material & Equipment.* In all solicitations, either by competitive bidding or negotiation, made by the Consultant or for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the Consultant of the Consultant's obligations under this Agreement and the Regulations relative to nondiscrimination on the grounds of race, color, national origin, sex, age, or disability.
- 30.4. *Information and Reports.* The Consultant shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities by the Owner, the AHTD, or the USDOT and its Affiliated Modes to be pertinent to ascertain compliance with such regulations or directives. Where any information required of the Consultant is in the exclusive possession of another who fails or refuses to furnish this information, the Consultant shall so certify to the Owner, the AHTD or the USDOT and its Affiliated Modes, as appropriate, and shall set forth what efforts it has made to obtain the information.
- 30.5. *Sanctions for Noncompliance.* In the event of the Consultant's noncompliance with the nondiscrimination provisions of this Agreement, the Owner shall impose such contract sanctions as it, the AHTD, or the USDOT and its Affiliated Modes may determine to be appropriate, including but not limited to, withholding of payments to the Consultant under the Agreement until the Consultant complies with the provisions and/or cancellation, termination, or suspension of the Agreement, in whole or in part.
- 30.6. *Incorporation of Provisions.* The Consultant shall include the terms and conditions of this section in every subcontract including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Consultant shall take such action with respect to any subcontract or procurement as the Owner, the AHTD, or USDOT and its Affiliated Modes may direct as a means of

enforcing these terms and conditions, including sanctions for noncompliance; *provided*, however that, in the event the Consultant becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of any direction, the Consultant may request the Owner or the AHTD to enter into such litigation to protect the interests of the State, and, litigation to protect the interest of the United States.

31. DBE CLAUSE

- 31.1. The Consultant or subcontractor shall not discriminate on the basis of race, color, national origin, sex, age, religion, or disability in the performance of this Agreement. The Consultant shall comply with the applicable requirements of 49 C.F.R. Part 26 and perform any actions necessary to maintain compliance in the award and administration of DOT-assisted contracts. Failure by the Consultant to comply with or perform these requirements is a material breach of this Agreement, which may result in the cancellation, termination, or suspension of this Agreement in whole or in part, or such other remedy that the Owner may determine appropriate.
- 31.2. The Consultant shall insert a clause containing all the terms of this Section in all subcontracts under this Agreement.

32. TITLE II OF THE AMERICANS WITH DISABILITIES ACT (NONDISCRIMINATION)

- 32.1 The Consultant will comply with the provisions of the Americans with Disabilities Act (ADA), Section 504 of the Rehabilitation Act, Title VI of the Civil Rights Act of 1964, FHWA Federal Aid Project Guidance, and any other Federal, State, and/or local laws, rules and/or regulations.
- 32.2 The Consultant, during the term of this Agreement, shall not discriminate on the basis of race, color, sex, national origin, age, religion or disability, in admission or access to and treatment in programs and activities associated with this Agreement, or in the selection and retention of subcontractors, including procurement of material and leases of equipment. The Consultant shall not participate either directly or indirectly in any discrimination prohibited by the Regulations, including employment practices.
- 32.3 In accordance with Section 504 regulations 49 C.F.R. Part 27.15, the Owner's Notice of Nondiscrimination is required in any bulletins, announcements, handbooks, pamphlets, brochures, and any other publications associated with this Agreement that are made available to the public, program participants, applicants or employees.

33. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

- 33.1. The Consultant certifies, to the best of its knowledge and belief, that—
- 33.1.1. The Consultant and any of its Principals—
- 33.1.1.1. Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any federal or state agency;
- 33.1.1.2. Have not, within a 3-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) contract or subcontract; violation

of federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

33.1.1.3. Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in Subsection 33.1.1.2; and,

33.1.1.4. The Consultant has not within a 3-year period preceding this offer, had one or more contracts terminated for default by any federal or state agency.

33.2. *Principals*, for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions). This certification concerns a matter within the jurisdiction of an agency of the United States and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Section 1001, Title 18, United States Code, as well as any other applicable federal and state laws.

33.3. The Consultant shall provide immediate written notice to the Owner if, at any time prior to contract award, the Consultant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

33.4. The certification in Subsection 33.1 is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Consultant knowingly rendered an erroneous certification, the Owner may terminate the contract resulting from this solicitation for default in addition to any other remedies available to the Owner.

34. MISCELLANEOUS

34.1. *General Compliance with Laws*. The Consultant shall comply with all Federal, State, and local laws, regulations, and ordinances applicable to the work, including but not limited to, the Americans with Disabilities Act and Occupational Safety and Health Act as amended.

34.2. *Registered Professional Engineer's Endorsement*. All plans, specifications, estimates, and engineering data provided by the Consultant shall be endorsed and recommended by an authorized representative of the Consultant, who shall be a registered Professional Engineer licensed in the State of Arkansas.

34.3. *Choice of Law*. This Agreement shall be governed by the laws of the State of Arkansas without consideration of its choice of law provisions.

34.4. *Choice of Forum*. The Consultant agrees that any cause of action stemming from or related to this Agreement, including but not limited to disputes or claims arising under this Agreement, for acts or omissions in the performance, suspension, or termination of this Agreement, whether sounding in contract or tort, equity or law, may only be brought in the appropriate forum within State of Arkansas.

34.5. *No Waiver of Immunity*. The Owner expressly does not waive any defense of immunity that it may possess under either federal or state law, and no provision in this Agreement shall be construed to constitute such a waiver in whole or in part.

- 34.6. *Conflicts Between Laws, Regulations, and Provisions.* In the event of conflicting provisions of law, the interpretation shall be governed by the following in this order, from most controlling to least: Federal law and regulations, State law and regulations, Department and FHWA Design Standards, and this Agreement.
- 34.7. *Severability.* If any term or condition of this Agreement shall be held invalid, illegal, or unenforceable by a court of competent jurisdiction, all remaining terms of this Agreement shall remain valid and enforceable unless one or both of the parties would be materially prejudiced.
- 34.8. *No-Waiver.* The failure of the Owner to strictly enforce any term of this Agreement shall not be construed as a waiver of the Owner's right to require the Consultant's subsequent performance of the same or similar obligation or duty.
- 34.9. *Modification and Merger.* This written Agreement and any provisions incorporated by reference reflect the entire agreement of the parties and may be modified only by the express written agreement of both parties.

35. CERTIFICATION OF AUTHORIZED REPRESENTATIVES

- 35.1. This Agreement and the certifications contained herein or attached hereto constitute the whole Agreement of the parties, and each party certifies that this Agreement and any attached certification have been executed by their duly authorized representatives.

36. NOTICE

36.1. All notices, approvals, requests, consents, or other communications required or permitted under this Agreement shall be addressed to either the Owner's Representative or the Consultant's Representative, and mailed or hand-delivered to:

36.1.1. To the Owner's Representative:

Craig Light, PE
City of Jonesboro
307 Vine Street
Jonesboro, AR 72403

36.1.2. To the Consultant:

Todd Mueller, PE
Garver, LLC
4701 Northshore Drive
North Little Rock, AR 72118

IN WITNESS WHEREOF, the parties execute this Agreement, to be effective upon the date set out above.

SUBCONSULTANT AGREEMENT

JOB NO. 100790

FEDERAL AID PROJECT ("FAP") NO. SD-AR51(4)
Hwy. 351/Aggie Rd. Inters. Impvts. (Jonesboro) (S)

1. SUBCONSULTANT AGREEMENT

- 1.1. The services to be performed under this Subconsultant Agreement will be performed in connection with the Agreement for Engineering Services ("Prime Agreement") between the Consultant and the City of Jonesboro ("Owner") for Job No. 100790, dated _____, _____. Garver, LLC ("Consultant") and Grubbs, Hoskyn, Barton & Wyatt, Inc. ("Subconsultant") hereby agree that the Subconsultant shall perform the professional and related services as described herein. In consideration for the performance of the professional services the Consultant agrees to compensate (and reimburse, if applicable) the Subconsultant in the manner and at the rate(s) provided herein.
- 1.2. The definitions of the Prime Agreement, and its provisions relating to the obligations, duties, and rights of subcontractors, *or which are otherwise required to be inserted into any subcontracting agreements*, are deemed to be part of, and are hereby incorporated by reference into, this Subconsultant Agreement and made binding upon the Subconsultant.

2. DESCRIPTION OF PROJECT AND SERVICES TO BE PROVIDED

- 3.1. The City of Jonesboro has programmed a project to make improvements to the intersection of Highway 351 and Aggie Road in Jonesboro, Craighead County, Arkansas.
- 3.2. The project generally consists of determining the feasibility and engineering services for the improvements at the intersection. The scope of work will generally consist of traffic studies and reports, NEPA environmental documentation, construction plans, specifications, cost estimate, and right-of-way plans.
- 3.3. The existing condition is a four-way stop at the intersection Airport Road and Aggie. Airport Road is two-lane state highway 351 and Aggie is a two-lane city street. There are no shoulders on the roadways with the exception of the shoulder on the north side of the west approach to the intersection. The speed limit of Airport Road is posted at 45 mph and Aggie Road is posted at 25 mph to the south and 30 mph to the north.
- 3.4. "Services to be Provided by Subconsultant." Grubbs, Hoskyn, Barton and Wyatt, Inc. will perform the following tasks to prepare the geotechnical investigation for the project:
 - 3.4.1. Grubbs, Hoskyn, Barton & Wyatt will visit the project alignment to observe site conditions. Published information on site geology and available information from prior geotechnical studies in the area will be reviewed.
 - 3.4.2. Grubbs, Hoskyn, Barton & Wyatt will contact landowners to secure right of access in the project alignment prior to accessing boring locations. Underground utility locations will be cleared prior to beginning drilling. It is expected that Garver or the Department will provide property owner contact information, if needed. It is assumed that Garver will provide all right of access information and available maps

and aerial photographs. This information will be required prior to contacting property owners and beginning work.

3.4.3. Access to boring locations will be provided by Grubbs, Hoskyn, Barton & Wyatt as dictated by site conditions and permitted by property owners. Applicable permits will be obtained and traffic control will be provided by Grubbs, Hoskyn, Barton & Wyatt. Truck-mounted drilling equipment will be utilized.

3.4.4. Sample borings will be advanced using dry-auger drilling techniques. The existing pavement section components will be measured. Undisturbed soil samples or Standard Penetration Values will typically be obtained in borings at 2-ft intervals. Groundwater measurements will be obtained during and at the completion of drilling operations. Boreholes will be backfilled after obtaining final groundwater measurements. Boreholes in existing pavement areas will be patched with asphalt concrete cold patch or a concrete mix.

3.4.5. The subsurface exploration program will consist of two (2) sample borings drilled approximately 10-ft depth. We have assumed one (1) day for the field

3.4.6. An adequate laboratory testing program will be planned and performed after the borings are completed. The purpose of the laboratory testing program will be to evaluate pertinent physical properties and engineering characteristics of the subgrade soils. These data will be used in developing geotechnical recommendations for subgrade support design parameters, subgrade preparation, and site grading. The testing program is expected to consist of classification tests.

3.4.7. An engineering report will be developed which will include the results of the field and laboratory studies, information on site conditions and geology, and recommendations for subgrade preparation, site grading, and pavement subgrade support parameters.

4. COSTS, FEES, PAYMENTS AND RATE SCHEDULES

4.1. For the work described herein, except as otherwise agreed to in writing by the Engineer and the Subconsultant, the Engineer will pay the Subconsultant in accordance with the terms in Attachment B1. The Subconsultant will submit monthly invoice indicating the amount complete. Engineer will not be required to pay Subconsultant for work represented by invoices received more than 60 days after the billing period when the work occurred.

4.2. The Engineer will bill the Owner monthly. All Subconsultant bills must be received 10 calendar days prior to the last Friday of the month in order to be included in the Engineer's invoice to the Owner for that month. Payment to the Subconsultant will be made within 10 days of the Engineer receiving payment from the Owner for the Subconsultant work included in each invoice.

5. COMPENSATION SUBJECT TO LIMITATIONS OF FEDERAL AND STATE LAW

5.1. The Project (as defined in the Prime Agreement), part of which is to be performed under this Subconsultant Agreement, is a federally-assisted project and federal funds will be used, in part, to pay the Consultant and Subconsultant. Therefore, notwithstanding any provision of this Subconsultant Agreement or the Prime Agreement, all payments, costs, and expenditures are subject to the requirements and limitations of 48 C.F.R. Part 31, including those relating to determination of indirect cost rates, if applicable. The Subconsultant shall certify the accuracy of all invoices, requests for

payment, and cost rates (if applicable), along with supporting documentation and any supporting information or records provided prior to, during, or after the term of this Subconsultant Agreement.

6. COMMISSION, AHTD, AND FHWA AS THIRD PARTY BENEFICIARIES

- 6.1. This Subconsultant Agreement is between and binding upon only the Consultant and Subconsultant. The Commission, AHTD, and FHWA are not parties to this Subconsultant Agreement, but are expressly made third-party beneficiaries of this Subconsultant Agreement and shall be entitled to enforce any obligation of the Subconsultant owed to the Consultant. No provision of this Subconsultant Agreement or the Prime Agreement, nor the exercise of any right thereunder, shall be construed as creating any obligation or any liability on the part of, or operating as a waiver of any immunity of, the Commission, the AHTD, the FHWA, or any of their employees, officers, or agents.
- 6.2. The Subconsultant's sole recourse, if any, for any injury arising under or related to this Subconsultant Agreement, the performance of services hereunder, or compensation or claims hereunder, shall be against the Consultant.
- 6.3. The Disputes and Claims provisions of the Prime Agreement shall not apply to this Subconsultant Agreement.

7. COVENANT AGAINST CONTINGENCY FEES

- 6.1. The Subconsultant warrants that no person or agency has been employed or retained to solicit or obtain this Subconsultant Agreement upon an agreement or understanding for a contingent fee, except a bona fide employee or agency. For breach or violation of this warranty, the AHTD and Consultant shall have the right to annul this Subconsultant Agreement without liability or, in its discretion, to deduct from the Contract Price or consideration, or otherwise recover, the full amount of the contingent fee.
- 6.2. *Bona fide agency*, as used in this section, means an established commercial or selling agency, maintained by the Subconsultant for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain government contracts nor holds itself out as being able to obtain any government contract or contracts through improper influence.
- 6.3. *Bona fide employee*, as used in this section, means a person, employed by the Subconsultant and subject to the Subconsultant's supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain government contracts nor holds out as being able to obtain any government contract or contracts through improper influence.
- 6.4. *Contingent fee*, as used in this section, means any commission, percentage, brokerage, or other fee that is contingent upon the success that a person or concern has in securing a government contract.
- 6.5. *Improper influence*, as used in this section, means any influence that induces or tends to induce a government employee or officer to give consideration or to act regarding a government contract on any basis other than the merits of the matter.

7. TITLE VI ASSURANCES (NONDISCRIMINATION)

During the performance of this Subconsultant Agreement, the Subconsultant, for itself, successors, and assigns, certifies and agrees as follows:

- 7.1. *Compliance with Regulations.* The Subconsultant shall comply with all regulations relative to nondiscrimination in federally-assisted programs of the United States Department of Transportation, 49 C.F.R. Part 21 and 23 C.F.R. Part 172, and as they may be amended from time to time ("Regulations"), which are hereby incorporated by reference and made a part of this Subconsultant Agreement.
- 7.2. *Nondiscrimination.* The Subconsultant, during the term of this Subconsultant Agreement, shall not discriminate on the basis of race, color, sex, age, disability, religion, or national origin in the selection and retention of subcontractors, including procurement of material and leases of equipment. The Subconsultant shall not participate either directly or indirectly in any discrimination prohibited by the Regulations, including employment practices.
- 7.3. *Solicitations for Subcontracts, Including Procurements of Material & Equipment.* In all solicitations, either by competitive bidding or negotiation, made by the Subconsultant for work to be performed under a subcontract, including procurement of materials and leases of equipment, each potential subcontractor or supplier shall be notified by the Subconsultant of the Subconsultant's obligations under this Subconsultant Agreement and the Regulations.
- 7.4. *Information and Reports.* The Subconsultant shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, and accounts, other sources of information, and its facilities by the AHTD or the FHWA for the purposes of investigation to ascertain compliance with such regulations and directives. Where any information required of the Subconsultant is in the exclusive possession of another who fails or refuses to furnish this information, the Subconsultant shall so certify to the AHTD or the FHWA, as appropriate, and shall set forth the efforts made by the Subconsultant to obtain the records or information.
- 7.5. *Sanctions for Noncompliance.* In the event of the Subconsultant's noncompliance with the nondiscrimination provisions of this Subconsultant Agreement, the AHTD may impose such contract sanctions as it or the FHWA may determine to be appropriate, including but not limited to, withholding of payments to the Consultant or Subconsultant until the Subconsultant complies with the provisions and cancellation, termination, or suspension of this Subconsultant Agreement, in whole or in part.
- 7.6. *Incorporation of Provisions.* The Subconsultant shall include the terms and conditions of this section in every subcontract or purchase order so that these terms and conditions will be binding upon each subcontractor or vendor. The Subconsultant shall take such action with respect to any subcontract or purchase order as the AHTD or FHWA may direct as a means of enforcing these terms and conditions, including sanctions for noncompliance; *provided*, that if the Subconsultant becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of any direction, the Subconsultant may request the AHTD or the United States to enter into the litigation to protect the interests of the State and the United States, respectively.

8. DBE CLAUSE

- 8.1. The Subconsultant shall not discriminate on the basis of race, color, national origin, sex, age, religion, or disability in the performance of this Subconsultant Agreement. The Subconsultant shall comply with the applicable requirements of 49 C.F.R. Part 26 and perform any actions necessary to maintain compliance in the award and administration of DOT-assisted contracts. Failure by the Subconsultant to comply with or perform

these requirements is a material breach of this Subconsultant Agreement, which may result in the cancellation, termination, or suspension of this Subconsultant Agreement in whole or in part, or such other remedy that the AHTD may determine appropriate.

8.2. *Prompt Payment.* The Subconsultant shall pay its subcontractors, if any, for satisfactory performance of their subcontracts within 30 days of receipt of each payment by the AHTD to the Subconsultant. Any retainage payments held by the Subconsultant must be returned to the subcontractor within 30 days after the subcontractor's work is completed. Failure to comply with this provision shall be considered a Default by the Subconsultant. If the Subconsultant fails to comply with this provision, in addition to any other rights or remedies provided under this Subconsultant Agreement, the AHTD, at its sole option and discretion, may:

- make payments directly to the subcontractor and offset such payments, along with any administrative costs incurred by the AHTD, against reimbursements or payments otherwise due the Subconsultant;
- notify any sureties; and/or,
- withhold any or all reimbursements or payments otherwise due to the Subconsultant until the Subconsultant ensures that the subcontractors have been and will be promptly paid for work performed.

8.3. The Subconsultant shall insert a clause containing all the terms of this section in all subcontracts under this Subconsultant Agreement.

9. TITLE II OF THE AMERICANS WITH DISABILITIES ACT (NONDISCRIMINATION)

9.1 The Subconsultant will comply with the provisions of the Americans with Disabilities Act (ADA), Section 504 of the Rehabilitation Act, Title VI of the Civil Rights Act of 1964, FHWA Federal Aid Project Guidance, and any other Federal, State, and/or local laws, rules and/or regulations.

9.2 The Subconsultant, during the term of this Agreement, shall not discriminate on the basis of race, color, sex, national origin, age, religion or disability, in admission or access to and treatment in programs and activities associated with this Agreement, or in the selection and retention of subcontractors, including procurement of material and leases of equipment. The Consultant shall not participate either directly or indirectly in any discrimination prohibited by the Regulations, including employment practices.

9.3 In accordance with Section 504 regulations 49 C.F.R. Part 27.15, the Owner's Notice of Nondiscrimination is required in any bulletins, announcements, handbooks, pamphlets, brochures, and any other publications associated with this Agreement that are made available to the public, program participants, applicants or employees.

10. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS

10.1. The Subconsultant certifies, to the best of its knowledge and belief, that—

10.1.1. The Subconsultant and any of its Principals—

- 10.1.1.1. Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any federal or state agency;

- 10.1.1.2. Have not, within a 3-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) contract or subcontract; violation of federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 10.1.1.3. Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subsection 10.1.1.2; and,
 - 10.1.1.4. The Subconsultant has not within a 3-year period preceding this offer, had one or more contracts terminated for default by any federal or state agency.
- 10.2. *Principals*, for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions). This certification concerns a matter within the jurisdiction of an agency of the United States and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under section 1001, title 18, United States Code, as well as any other applicable federal and state laws.
- 10.3. The Subconsultant shall provide immediate written notice to the AHTD if, at any time prior to contract award, the Subconsultant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 10.4. The certification in subsection 10.1 is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Subconsultant knowingly rendered an erroneous certification, the AHTD may terminate the contract resulting from this solicitation for default in addition to any other remedies available to the AHTD.

11. NOTICE

11.1. All notices, approvals, requests, consents, or other communications required or permitted under this Agreement shall be mailed or hand-delivered to:

11.1.1. To the Subconsultant:

Mark Wyatt
Grubbs, Hoskyn, Barton & Wyatt, Inc.
No. 1 Trigon Plaza, P.O. Box 55105
Little Rock, AR 72215

11.1.2. To the Consultant:

CERTIFICATION OF CONSULTANT

I hereby certify that I, Jerry Holder, am Vice President and duly authorized representative of the firm of Garver, LLC whose headquarters address is 4701 Northshore Drive, North Little Rock, AR, and that neither I nor the above firm I here represent has:

- (a) employed or retained for a commission, brokerage, contingent fee, or other considerations, any firm or person (other than a bona fide employee working solely for me) to solicit or secure this contract,
- (b) agreed, as an express or implied condition for obtaining this contract, to employ or retain the services of any firm or person in connection with carrying out the contract, or
- (c) paid or agreed to pay, to any firm, organization or person (other than a bona fide employee working solely for me) any fee contribution, donation or consideration of any kind for, or in connection with, procuring or carrying out the contract;
- (d) included any costs which are not expressly allowable under the cost principles of the FAR of 48 CFR 31, whether direct or indirect. All known material transactions or events that have occurred affecting the firm's ownership, organization and indirect cost rates have been disclosed.

except as here expressly stated (if any):

I acknowledge that this certificate is to be furnished to the Arkansas State Highway and Transportation Department and the Federal Highway Administration, U.S. Department of Transportation, in connection with this contract involving participation of Federal Aid Highway Funds, and is subject to applicable State and Federal laws, both criminal and civil.

Furthermore, as a recipient of Federal Aid Highway Funds, I certify and hereby agree to the conditions of Title VI Assurances as outlined in Section 31 of this Agreement and shall insert the Notice of Nondiscrimination Statement as shown below in all solicitation of work or procurement of materials or equipment.

NOTICE OF NONDISCRIMINATION STATEMENT

Garver, LLC ("Consultant") complies with all civil rights provisions of federal statutes and related authorities that prohibited discrimination in programs and activities receiving federal financial assistance. Therefore, the Consultant does not discriminate on the basis of race, sex, color, age, national origin, or disability, in the admission, access to and treatment in Consultant's programs and activities, as well as the Consultant's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Consultant's nondiscrimination policies may be directed to Tatiana Herrington (ADA/504/Title VI Coordinator), 4701 Northshore Dr., North Little Rock, AR, (501-376-3633), or , the following email address: [tbherrington@ GarverUSA.com](mailto:tbherrington@GarverUSA.com). This notice is available from the ADA/504/Title VI Coordinator in large print, on audiotape and in Braille.

CERTIFICATION OF CONSULTANT

I hereby certify that I, Mark Wyatt, am the President and duly authorized representative of the firm of Grubbs, Hoskyn, Barton, and Wyatt, Inc. whose headquarters address is No. 1 Trigon Plaza, , Little Rock, AR, and that neither I nor the above firm I here represent has:

- (a) employed or retained for a commission, brokerage, contingent fee, or other considerations, any firm or person (other than a bona fide employee working solely for me) to solicit or secure this contract,
- (b) agreed, as an express or implied condition for obtaining this contract, to employ or retain the services of any firm or person in connection with carrying out the contract, or
- (c) paid or agreed to pay, to any firm, organization or person (other than a bona fide employee working solely for me) any fee contribution, donation or consideration of any kind for, or in connection with, procuring or carrying out the contract;
- (d) included any costs which are not expressly allowable under the cost principles of the FAR of 48 CFR 31, whether direct or indirect. All known material transactions or events that have occurred affecting the firm’s ownership, organization and indirect cost rates have been disclosed.

except as here expressly stated (if any):

I acknowledge that this certificate is to be furnished to the Arkansas State Highway and Transportation Department and the Federal Highway Administration, U.S. Department of Transportation, in connection with this contract involving participation of Federal Aid Highway Funds, and is subject to applicable State and Federal laws, both criminal and civil.

Furthermore, as a recipient of Federal Aid Highway Funds, I certify and hereby agree to the conditions of Title VI Assurances as outlined in Section 31 of this Agreement and shall insert the Notice of Nondiscrimination Statement as shown below in all solicitation of work or procurement of materials or equipment.

NOTICE OF NONDISCRIMINATION STATEMENT

Grubbs, Hoskyn, Barton & Wyatt (“Consultant”), complies with all civil rights provisions of federal statutes and related authorities that prohibited discrimination in programs and activities receiving federal financial assistance. Therefore, the Consultant does not discriminate on the basis of race, sex, color, age, national origin, or disability, in the admission, access to and treatment in Consultant’s programs and activities, as well as the Consultant’s hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Consultant’s nondiscrimination policies may be directed to Kay Keller (ADA/504/Title VI Coordinator), 8114 Cantrell Road, Suite 350, Little Rock, AR 72227, (501.663.8800), or the following email address: kkellergrubbsengineers.com.

This notice is available from the ADA/504/Title VI Coordinator in large print, on audiotape and in Braille.

Authorized Firm Representative

CERTIFICATION OF CITY OF JONESBORO

I hereby certify that I am the Mayor of Jonesboro and that the aforementioned consulting firm or its representative has not been required, directly or indirectly as an express or implied condition in connection with obtaining or carrying out this contract to:

- (a) employ or retain, or agree to employ or retain, any firm or person, or
- (b) pay, or agree to pay, to any firm, person, or organization, any fee contributions donation, or consideration of any kind:

except as here expressly stated (if any):

I acknowledge that this certificate is to be furnished to the Arkansas Highway and Transportation Department and the Federal Highway Administration, U.S. Department of Transportation, in connection with this contract involving participation of Federal-Aid Highway Funds, and is subject to applicable State and Federal laws, both criminal and civil.

Jonesboro and AHTD										█	
Final Plans, Cost Estimate, and Specs										█	
Final Approval											

NOTE: (1) This schedule includes a total agency review time of 13 weeks (as shown above) for all submittals and additional review time may extend the schedule beyond 9 months. (2) The schedule anticipates receiving responses for the letters of technical assistance for the Categorical Exclusion within 2 weeks after submittal to environmental agencies.

**Arkansas Highway and Transportation
Department
APPENDIX E
General and Detailed Scope of Work
For
CONTROL SURVEYS, DESIGN SURVEYS, AND LAND SURVEYS,**

The sections that follow will apply to a specific project based on the type of services specified in the project overview.

The required procedures for all surveying tasks are documented in ***Requirements and Procedures for Control Surveys, Design Surveys and Land Surveys***, prepared by the Surveys Division, will be called the Surveys Manual throughout the remainder of this general scope of work. The most current Surveys Manual is to be used regardless of the start date of a survey project.

A copy of the most current version of the Surveys Manual is available on the AHTD's internet file transfer (ftp) site at:

<ftp://www.arkansashighways.com/outgoing/surveys/contents.htm>.

PART I A

Control Surveys

The project consists of performing Control Surveys for the Arkansas State Highway Commission acting by and through its Director of Highways and Transportation, hereinafter called the Owner, for the tasks (individual job numbers) listed in Table I, *Control Surveys (Task Projects) for GPS Collection*; Table II, *Control Surveys (Task Projects) for Photogrammetry Mapping Control*; Table III, *Control Surveys (Task Projects) for Vertical Control*; and Table IV, *Control Surveys (Task Projects) for Horizontal Control*.

Work on these tasks is intended to commence on (Date), and is to be completed and submitted no later than the dates listed for each task project.

Ample time shall be scheduled and adequate resources dedicated to the project to complete the Control Surveys by the submittal date. Completion includes submittal of 100% of Control Surveys.

1. General Information

The following information shall apply to all phases of Control Surveys.

- 1.1 For all parts of the project and all sections that follow, more details and requirements can be found in the Surveys Manual.
- 1.2 All surveys shall be U. S. Foot unless specified otherwise.

- 1.3 Survey controls used and established shall comply with AHTD requirements for the type of work performed.

Note: Hubs and tacks shall not be used for any purpose on this project.

- 1.4 Accuracy of measurements –All measurement data shall be consistent with minimum standards. Distances are to be measured and displayed on drawings to two (2) decimal places for projects in U.S. Foot. Bearings shall be displayed to the second. Horizontal and vertical angles shall be measured with an instrument capable of reading angles with a minimum accuracy of five seconds (5”) and recorded to one second (1”). Coordinates shall be displayed and copied to disk to the fourth decimal place as a minimum to avoid bearing and distance round off when inverting between data points.

- 1.5 The work shall be done in a professional and workmanlike manner satisfactory to the Owner, and except in the matter of advising the Consultant/Surveyor what work is to be done and the results that are expected to be obtained, the Owner shall have no supervision over the Consultant/Surveyor or any of his employees. The Consultant/Surveyor shall direct the work himself, using the methods prescribed by the Owner to accomplish it and shall represent the will of the Owner as to the results of his work.

- 1.6 The Consultant/Surveyor’s surveyor shall be a Professional Surveyor (PS) in the State of Arkansas. All services performed by the surveyor shall be in compliance with Arkansas laws and regulations governing the practice of Professional Surveyors and with all Federal, State and Local laws, regulations and ordinances applicable to the work.

- 1.7 Survey operations shall be conducted with due regard to the safety of personnel and equipment. Contact with the airport traffic control tower is mandatory during surveys at any controlled airports.

- 1.8 All surveys are to be performed using Grid Coordinates based on the Arkansas State Plane Coordinate System Zone in which the project is located.

Note: Current procedure requires all grid coordinates be projected to ground coordinates, based on the combination adjustment factor assigned by or approved by the AHTD, for project design. This shall be a specific task if it is part of a contract for work to be performed.

- 1.9 When entering or crossing private property, which is the case on many of the surveys, the Consultant/Surveyor shall contact the property owner. If personal contact cannot be made, a copy of the notification form shall be left at the in an “easy to be seen” location on the property. This form is found in the Surveys Manual.

- 1.10 The following information shall be placed on a control flag, supplied by the Owner, to be set near all control points:

Job Number
Point Number

AHTD Surveys Division (501) 569-2341

- 1.11 The Consultant/Surveyor shall inform the Owner when fieldwork has started on the project. During the course of the project a progress report shall be sent to the Owner each Thursday, indicating the percentage of the work completed. The report can be faxed to the Surveys Division at (501) 569-2344 or e-mailed to the Surveys Division Staff member who is responsible for this task as specified in the current Surveys Manual.
- 1.12 All field AASHTOWare® SDMS® data files (PRJ & EDI) for the field work completed each day shall be submitted to the Surveys Division Office via email on a daily basis. These files are to be sent to surveysupport@arkansashighways.com.
- 1.13 All raw and calculated data shall be submitted electronically on compact disk (CD) in the required formats.
- 1.14 The Surveys Manual includes the following:
- File Naming Procedures
 - Software Requirements
 - Point Numbering
 - Feature Codes
 - Survey Procedures for Control Surveys
 - AASHTOWare® SDMS® Configuration
 - AASHTOWare® SDMS® Sequences
 - Checklist
- 1.15 A hard copy of the checklists and inventory sheets in Appendix F of the Surveys Manual shall be submitted.
- 1.16 The following information is attached:
- One (1) copy of a location sketch, showing task project location;
 - One (1) copy of an aerial photo covering the task project location;
 - One (1) copy of NGS Vertical Sheets for area around each task project location;
 - One (1) copy of GPS Control Data Forms for each task project location; and,
 - One (1) copy of the “Format For Estimating Costs” form.
- 1.17 Any horizontal or vertical control work that requires using techniques other than GPS, shall be collected and processed using AASHTOWare® SDMS® Collector and AASHTOWare® SDMS® Processor, respectively, and using procedures required by the AHTD. Current procedures required can be reviewed in the Surveys Manual
- 1.18 All data collection and processing shall be done using the AASHTOWare® SDMS® Collector and AASHTOWare® SDMS® Processor, respectively. The software shall be furnished to Consultants/Surveyors currently certified to perform surveys for the AHTD under the site license held by the AHTD from

AASHTO to use said software. The Consultant/Surveyor shall comply with all legal requirements of AASHTO while using the software.

1.19 Data shall be furnished to the AHTD as specified in the Surveys Manual as follows:

- Collection data shall be in AASHTOWare® SDMS® .PRJ format.
- Edited data shall be in AASHTOWare® SDMS® .EDI format.
- Processed SDMS formatted data shall be in the AASHTOWare® SDMS® .PAC format
- Control Point data shall be in AASHTOWare® SDMS® .CTL format
- Static GPS data shall be in RINEX v2.10 format.
- RTK GPS data shall be in TRIMBLE® .DC format.
- Calculated RTK GPS data shall be in AASHTOWare® SDMS® .CAL format.

1.20 Accounting Procedures – See Appendix A-1

1.21 Proposals submitted shall follow the format on the attached form, “Format For Estimating Costs”, which details the following:

- The estimated level of effort in man-hours
- Hourly rate by classification
- Overhead costs
- Expenses
- Total cost

1.21.1 Additional information to be included with proposals includes:

- A list of the make and model of levels and level rods to be used for this project, if applicable.
- A list of the make and model of total stations to be used for this project, if applicable.
- A list of the make and model of GPS equipment to be used for this project, if applicable.

2. Static GPS

2.1 This part of the project consists of obtaining and submitting GPS Collection for Control Surveys, as detailed in the Surveys Manual as follows:

2.1.1 This survey shall observe the GPS Control stations along the task projects as listed in Table I, *Control Surveys (Task Projects) for GPS Collection*.

2.1.2 Static GPS techniques, approved by the AHTD, shall be used for this purpose.

2.1.3 The Owner, prior to the start of the task project, shall set all GPS Control points in Arkansas. The Consultant/Surveyor shall set all GPS Control points outside of the State Boundary.

2.1.3.1 All GPS control points shall consist of pairs of inter-visible points. One point shall be designated the station monument and one as an azimuth mark.

- 2.1.3.2 All GPS control points set shall consist of a 5/8" rebar with a 2 1/2" aluminum cap. These caps will be furnished by the Department. Sufficient length of rebar shall be used to provide stability for the soil conditions encountered for each point set with a minimum length of 48". Each point shall be stamped according to the AHTD marking and numbering system.
- 2.1.4 Global Positioning System (GPS) shall be used to establish survey controls on the task project. It shall be established from first order (1:100,000) NGS Geodetic Survey control points, Arkansas High Accuracy Regional Network points, and Continuous Operating Reference Stations (CORS) in the area based on NAD 83 (1997) and using GEOID96. First order (1:100,000) accuracy shall be maintained on all baselines. Procedures for GPS shall comply with those set out in Geometric Geodetic Standard and Specifications for using GPS Relative Positioning Techniques, by the Federal Geodetic Control Committee, version 5.0 (Reprinted 8/1/1989), or later.
- 2.1.5 Data from the CORS in the region shall be used in the processing. The seven AHTD NGS National CORS are located in Batesville (ARBT), Camden (ARCM), Fayetteville (ARFY), Hope (ARHP), Harrison (ARHR), Little Rock (ARLR), and Paragould (ARPG). There are fourteen NGS National CORS in addition to the AHTD CORS in the area. Positions and data for the NGS CORS are available from the NGS web site and the AHTD ftp web site.
- 2.1.6 Data from the surrounding NGS and AHTD CORS sites shall be retrieved and compiled by AHTD. All data processing shall be done by AHTD.
- 2.1.7 The observing scheme shall be arranged so that for each station, the start time of one of the observing sessions shall be at least four (4) hours different from the other two. The observing scheme shall be arranged to ensure that adjacent stations are directly connected in at least one observing session, and at least half of all base lines are repeated. Three (3) sessions of two (2) hours each shall be observed on each control point. In order to provide a check, the equipment shall be broken down and reset with a minimum of 30 minutes between the three sessions.

A typical schedule is as follows:

Monday / Travel Day

8:00 am – 11:00 am	Travel
11:00 am – 12:00 pm	Lunch
12:00 pm – 12:30 pm	Setup
12:30 pm – 2:30 pm	Session A
2:30 pm – 3:00 pm	Break / Setup
3:00 pm – 5:00 pm	Session B

Tuesday – Thursday

8:00 am – 8:30 am	Setup
8:30 am – 10:30 am	Session A

10:30 am – 11:00 am	Break
11:00 am – 12:00 pm	Lunch
12:00 pm – 12:30 pm	Setup
12:30 pm – 2:30 pm	Session B
2:30 pm – 3:00 pm	Break / Setup
3:00 pm – 5:00 pm	Session C

Friday / Travel Day

8:00 am – 8:30 am	Setup
8:30 am – 10:30 am	Session A
10:30 am – 11:00 am	Break / Setup
11:00 am – 1:00 pm	Session B
1:00 pm – 2:00 pm	Lunch
2:00 pm – 5:00 pm	Travel

Note: This schedule should be adjusted accordingly so that optimum satellite coverage is utilized and occupation times should correspond to the operation times of area AHTD CORS Sites.

2.1.8 Each station shall be occupied at least three times - twice at one observing window and once at the other. Adjacent stations shall be directly connected in at least one observing session, and at least one-half of all base lines shall be repeated. The CORS base lines shall be repeated. CORS data shall be used throughout the task project.

NOTE: The observation schedule shall be provided to the Owner at the beginning of each task project and whenever the Consultant/Surveyor revises the observation schedule.

2.1.9 The GPS receivers and antennae shall be of geodetic quality collecting full-wavelength L1/L2 Dual Frequency data and they shall be set to track satellites down to a 15-degree elevation angle. Data collection shall be accomplished as specified in the field utilizing a dual-frequency receiver in the compressed mode at a 15-second epoch collection interval. The model of the antenna used for observations shall be on the list of calibrated/modeled antenna by the National Geodetic Survey which can be found at <http://www.ngs.noaa.gov/ANTCAL/index.shtml> .

The GPS system used shall produce Receiver Independent Exchange (Rinex) Version 2.10 data format which can be found at <http://www.ngs.noaa.gov/CORS/rinex210.txt>. The Consultant/Surveyor shall provide the raw GPS data in the manufacturer's native format and in the RINEX v2.10 format.

The receivers used for network surveys should record the full wave-length carrier phase and signal strength of both the L1 and L2 frequencies, and track at least eight satellites simultaneously on parallel channels. Dual frequency instruments are required for all baselines. Receivers should have sufficient memory and battery power to record six (6) hours of data at 15-second epochs.

- 2.1.10 Special Requirements - Antenna set-up is critical to the success of this task. Fixed-height tripods are preferred for all receivers. The plumbing bubbles on the antenna pole of the fixed-height tripod shall be shaded when plumbing is performed. They shall be shaded for three (3) minutes before checking and/or re-plumbing. Also, the perpendicularity of the poles shall be checked at the beginning of the project and any other time there is suspicion of a problem.

When a fixed-height tripod is not used, the height of the antenna shall be carefully measured to prevent station set-up blunders from occurring. Tribrachs used for these set-ups shall be checked and adjusted when necessary. Totally independent measurements of the antenna height above the mark in both metric and English units shall be made before and after each session.

Some GPS antennas have detachable ground planes and radomes. In order to help identify what exactly was used at a particular site, it would be useful to have a snapshot of the setup and, if possible, a close-up of the antenna as viewed from the side. The GPS antennas shall have stable phase centers and choke rings or large (> 16 cm) ground planes to minimize multipath interference.

- 2.1.11 A rubbing of the stamping of the mark shall be made at each visit to a station. If it is impossible to make a rubbing of the mark, a plan sketch or digital picture of the mark shall be substituted, to accurately recording all markings.
- 2.1.12 For each station visited, a visibility obstruction diagram shall be prepared and the TO-REACH description carefully checked for errors or omissions.
- 2.1.13 The following shall be recorded at each occupation of a station:
- receiver manufacturer;
 - antenna manufacturer;
 - receiver model number (part number);
 - antenna model number (part number);
 - the complete serial number of the receiver, and;
 - the complete serial number of the antenna;
 - antenna heights.
- 2.1.14 Success of this task requires that the highest quality GPS data be collected. Therefore, during each station occupation, the operators shall carefully monitor the operation of the receivers. Any irregularities in the data due to equipment malfunction, DOD adjustment of the satellite orbit, obstructions, etc., shall be reported to the Surveys Division Staff member who is responsible for this task as specified in the current Surveys Manual.

- 2.2 The following additional information is attached:
One (1) copy each of GPS Control Observation Log Form, GPS Recovery Form, GPS Visibility Form, and GPS Pencil Rubbing Form.
- 2.3 In lieu of submitting the checklists and inventory sheets in Appendix F of the Surveys Manual, the GPS Forms listed above shall be submitted for each session and for each station.
- 2.4 The Consultant/Surveyor shall submit a proposal by *(Date)*, for performing GPS Collection Surveys on each task project. The proposal shall follow the format on the attached form, "Format For Estimating Costs" and titled: "CONTROL SURVEYS – GPS COLLECTION."

3. Photogrammetry Mapping Targets

- 3.1 This part of the project consists of obtaining and submitting Photogrammetry Mapping Targets Collection for Control Surveys, as detailed in the Surveys Manual as follows:
- 3.1.1 This survey shall be data collection on the Photogrammetry Mapping Targets for the task projects as listed in Table II, *Control Surveys (Task Projects) for Photogrammetry Mapping Control*.
- 3.1.2 The Owner's Photogrammetry Section, prior to the start of the task project, shall determine whether the task project is a Photo Identifiable Point (pick) or a target project.
- 3.1.3 If determine to be a "TARGET" project, then the following shall apply:
- 3.1.3.1 Target Material shall be supplied by the owner.
- 3.1.3.2 Targets shall be placed in an open area within 100' of the location shown on the photograph provided.
- 3.1.3.3 The target shall be placed on the ground in a plus "+" shape with three (3) foot legs. The orientation of the legs does not matter except that each leg shall be 90 degrees from the previous leg. The length from one leg end to an opposite end shall be six (6) foot.
-
- NOTE: If the task project is designated as High Altitude, then twelve-foot (12') targets shall be utilized with six (6) foot legs.
-
- 3.1.3.4 At the center of this target shall be placed a 5/8" x 24" rebar with a 2" aluminum cap as designated in the Surveys Manual. The owner, if requested by the Consultant/Surveyor, shall supply these materials.
- 3.1.3.5 If the target can be placed such that it is painted on asphalt then a concrete nail can be placed at the center in lieu of the cap and rebar.
- 3.1.3.6 The following information shall be placed on the target:
Job Number (as listed in Table II)
Point Number (as listed on the photo)
AHTD Surveys Division (501) 569-2341

- 3.1.3.7 If requested by the property owner, the Consultant/Surveyor shall return to the job site and remove the target material after the task project has been flown and all targets have been located on the photograph.
- 3.1.3.8 As soon as all targets have been placed on the project, the Consultant/Surveyor shall contact the Section Head of Photogrammetry at (501) 569-2410 and the Surveys Division Staff member who is responsible for this project as specified in the current Surveys Manual.
- 3.1.4 If determined to be a "PICK" project then the following shall apply:
 - 3.1.4.1 If the pick location is within the AHTD right-of-way and will be used for primary control, place a 5/8" x 24" rebar with a 2" aluminum cap, stamped as designated in the Surveys Manual, at the location designated on the photograph. The owner, if requested by the Consultant/Surveyor, shall supply these materials.
 - 3.1.4.2 If the pick location is within the AHTD right-of-way and the surface is asphalt, then a concrete nail can be used to designate the spot.
 - 3.1.4.3 If the pick location is within the AHTD right-of-way but not suitable for permanent marking, as described above, then a suitable temporary mark shall be made so that all required information can be collected.
 - 3.1.4.4 If the pick location is not within the AHTD right-of-way then a suitable temporary mark shall be made so that all required information could be collected.
- 3.1.5 When collecting information of the "pick" target or placing a target on private property, which is the case on many of the targets, the Consultant/Surveyor shall contact the property owner. The property owner shall be made aware that the target is for aerial flight control only and not necessarily the center of the highway improvements.
- 3.1.6 If personal contact cannot be made, a copy of the notification form shall be left at the in an "easy to be seen" location on the property. This form is found in the Surveys Manual.
- 3.1.7 If the Horizontal Panel Targets (HPT) is to be part of the primary control network, then they shall have elevations run to them using AASHTOWare® SDMS® and three (3) wire level techniques.
- 3.1.8 All Vertical Panel Targets (VPT) are to have elevation loops run to them using AASHTOWare® SDMS® and three (3) wire level techniques. Certain GPS techniques, if approved by the AHTD in advance, may be used for this purpose. If approved in advance, RTK GPS may be done in lieu of running elevations to Vertical Panel Targets.
- 3.1.9 All Horizontal Panel Targets (HPT) are to be traversed in using an EDM. This traverse shall be a closed loop from either the GPS Control points or the primary control. Certain GPS techniques, if approved by the AHTD in

advance, may be used for this purpose. If approved in advance, RTK GPS may be done in lieu of running traverse to Horizontal Panel Targets.

- 3.2 The Consultant/Surveyor shall submit a proposal by *(Date)*, for performing Photogrammetry Mapping Control Surveys for each task project. The proposal shall follow the format on the attached form, "Format For Estimating Costs", and titled: "CONTROL SURVEYS – PHOTOGRAMMETRY MAPPING TARGETS."

4. Vertical Control Surveys – Elevation

- 4.1 This part of the project consists of obtaining and submitting Vertical Data Collection for Control Surveys, as detailed in the Surveys Manual as follows:

4.1.1 This survey shall be vertical data collection to and through the task projects as listed in Table III, *Control Surveys (Task Projects) for Vertical Control*.

4.1.2 Vertical control shall be established from a minimum of two (2) NGS First or Second Order vertical control monuments and shall be based on NAVD 88 Datum. Three-wire leveling shall be used to establish vertical control to and within the task project limits for benches and control points as detailed in Surveys Manual.

An approved automatic level and a high quality wood Philadelphia type rod with readings made to the thousandth (**##.###**) shall be used on all projects.

4.1.3 The Consultant/Surveyor shall establish vertical control points on this task project. Each control point shall have an elevation established using three (3) wire level techniques.

4.1.4 As detailed in the Surveys Manual, vertical control points are to be set as follows:

4.1.4.1 Every ½ mile to the task project location and every ¼ mile within the task project location.

4.1.4.2 On every major culvert and bridge to and within the task project location.

4.1.4.3 All primary control points and random traverse points.

4.2 The following additional information is attached:

4.2.1 One (1) copy of AHTD existing job control points designated as to which need elevations.

4.3 An elevation control plan shall be prepared and accompany the estimate. The plan shall include a narrative and a layout on an at least 1"=2000' aerial photograph or USGS Quadrangle sheet. The plan shall include:

- The NGS Bench Marks found and to be used.
- The elevation control route proposed.
- The types and proposed locations of the marks to be established along the elevation control route.

4.4 The Consultant/Surveyor shall submit a proposal by *(Date)*, for performing Vertical Control Surveys on this task project. The proposal shall follow the

format on the attached form, "Format For Estimating Costs" and titled: "CONTROL SURVEYS – ELEVATIONS."

- 4.5 If the government datum is more than two (2) miles from task project site, then the Consultant/Surveyor shall provide the estimated cost and length of 3-wire level runs required to tie the task project to the government datum as detailed in the Surveys Manual. The Consultant/Surveyor shall submit a proposal by *(Date)*, for performing Vertical Control Surveys to the actual task project location. The proposal shall follow the format on the attached form, "Format For Estimating Costs" and titled "CONTROL SURVEYS – VERTICAL CONTROL TO PROJECT."

5. Horizontal Control Surveys – Traverse

- 5.1 This part of the project consists of obtaining and submitting Horizontal Data Collection for Control Surveys, as detailed in the Surveys Manual as follows:
- 5.1.1 This survey shall be horizontal data collection on the control points for the task projects as listed in Table IV, *Control Surveys (Task Projects) for Horizontal Control*.
- 5.1.2 All horizontal traverse work shall be performed with an approved total station utilizing AASHTOWare® SDMS® Collector shall be used for all traverses. The traverse shall be a closed loop from either the GPS Control points or the primary control with adequate redundant ties between control points to perform a least squares analysis of the data. Certain GPS techniques, if approved by the AHTD in advance, may be used for this purpose. If approved in advance, RTK GPS may be done in lieu of running a conventional traverse.
- 5.1.3 The Consultant/Surveyor shall establish control points on this task project. Field generated control includes adequate control points on the ground to correctly geo-reference any alternatives, if part of the task project. Control points shall be inter-visible at distances no greater than 800 feet apart. Each control point set shall have an elevation established using three (3) wire level techniques.
- 5.1.3.1 Control points shall be a 5/8" x 24" rebar with a 2" aluminum cap as designated in the Surveys Manual. The owner, if requested by the Consultant/Surveyor, shall supply these materials.
- 5.2 The following additional information is attached:
- 5.2.1 One (1) copy of AHTD existing job control points designated as to which need horizontal coordinates.
- 5.3 The Consultant/Surveyor shall submit a proposal by *(Date)*, for performing Control Surveys - Horizontal for this task project. The proposal shall follow the format on the attached form, "Format For Estimating Costs" and titled: "CONTROL SURVEYS – HORIZONTAL."

PART I B

Design Surveys - Topography and Terrain Data

The project consists of performing Topographic & Digital Terrain Model Surveys for the Arkansas State Highway Commission acting by and through its Director of Highways and Transportation, hereinafter called the Owner, at *(project location)*, in the area shown on the enclosed map. It is requested that the job be completed and submitted no later than *(DATE)*. Ample time shall be scheduled and adequate resources dedicated to the project to complete the Topographic and Digital Terrain Model surveys by the submittal date. Completion includes submittal of 100% of Topographic and Digital Terrain Model surveys.

This part of the project consists of obtaining and submitting Topographic, and Digital Terrain Model Surveys, as detailed in the Surveys Manual as follows:

- 1.2 Obtain all pertinent topographic data. (Refer to Digital Terrain Modeling section of *Surveys Manual*.)
- 1.3 Set control references (Resection References) for the project. The reference monuments shall be set following procedures as described in the Surveys Manual.
- 1.4 All design data collection and processing shall be done using the AASHTOWare® SDMS Collector and SDMS Processor, respectively. The software will be furnished to Surveyors/Consultants currently certified to perform surveys for the AHTD under the site license held by the AHTD from AASHTO to use said software. The Surveyor/Consultant shall comply with all legal requirements of AASHTO while using the software.
- 1.5 All raw and calculated data shall be submitted electronically on compact disk (CD) in the required AASHTO SDMS formats.
- 1.5. All design surveys will be U.S. Foot unless specified otherwise.
- 1.6. All design surveys are to be performed using Grid Coordinates based on the Arkansas State Plane Coordinate System Zone in which the project is located.

Note: Current procedure requires all grid coordinates be projected to ground coordinates, based on the combination adjustment factor assigned by or approved by the AHTD, for project design. This will be a specific task if it is part of a contract for work to be performed.

- 1.7. Land Ties as described in the surveys manual.

Note: Land Ties **are not** required for this project

- 1.8. Utility surveys to locate all above ground and below ground utilities. Procedures as described in the Surveys Manual shall be followed.

- 1.9. Field surveys for all drainage structures, including bridges. Procedures as described in the Surveys Manual shall be followed.

Note: Valley Sections **are not** required for this project.

- 1.10 Provide a hard copy of the checklists and inventory sheets in Appendix F of the Surveys Manual.
2. Accuracy of measurements –All measurement data shall be consistent with minimum standards. Distances are to be measured and displayed on drawings to two (2) decimal places for projects in U.S. Foot. Bearings shall be displayed to the second. Horizontal and vertical angles shall be measured with an instrument capable of reading angles with a minimum accuracy of five seconds (5") and recorded to one second (1"). Coordinates shall be displayed and copied to disk to the fourth decimal place as a minimum to avoid bearing and distance round off when inverting between data points.
3. The work shall be done in a professional and workmanlike manner satisfactory to the Owner, and except in the matter of advising the Consultant/Surveyor what work is to be done and the results that are expected to be obtained, the Owner shall have no supervision over the Consultant/Surveyor or any of his employees. The Consultant/Surveyor will direct the work himself, using the methods prescribed by the Owner to accomplish it and will represent the will of the Owner as to the results of his work.
4. The Consultant's surveyor shall be a Professional Surveyor (PS) in the State of Arkansas. All services performed by the surveyor shall be in compliance with Arkansas laws and regulations governing the practice of Professional Surveyors and with all Federal, State and Local laws, regulations and ordinances applicable to the work.
5. The Consultant will inform the Owner when fieldwork has started on the project. During the course of the project a progress report shall be sent to the Owner each Thursday, indicating the percentage of the work completed. The report can be faxed to Surveys Division at 501-569-2344, or e-mailed to the Surveys Division Staff member who is responsible for this task as specified in the current Surveys Manual.
6. The following information is attached:
 - 6.1 One (1) copy of a location sketch, showing project location.
 - 6.2 One (1) copy of an uncontrolled aerial photo, at a scale of 1 in.=200ft (approximate), covering the project location, and outlining the minimum limits for the Topographic and Digital Terrain Model Survey.
 - 6.3 One (1) copy of the "Format for Estimating Costs" form.

- 6.4 Horizontal and vertical control data – any GPS Control Data Forms; other horizontal control data; and, vertical control data that shall be used for this project.
- 6.5 The Surveys Manual will include the following:
- File Naming Procedures
 - Software Requirements
 - Point Numbering
 - Feature Codes
 - Survey Procedures for Topographic Surveys
 - Land Ties
 - SDMS Configuration
 - SDMS Sequences
 - Checklist
7. The Consultant shall submit a proposal by *(DATE)*, for performing Topographic and Digital Terrain Model Surveys on this project. The proposal shall follow the format on the attached form, “Format For Estimating Costs”, which details the following:
- The estimated level of effort in man-hours
 - Hourly rate by classification
 - Overhead costs
 - Expenses
 - Total cost
- The Consultant shall also provide the estimated cost and length of 3-wire level runs required to tie the project to government datum as detailed in the manual. This estimate should be entered on line 7.1 of the estimate form and shall be included in the total estimate price.
8. Accounting Procedures – See Appendix A-1.

PART I C

Design Surveys – Photogrammetry

Aerial Photogrammetry and Digital Terrain Model (DTM) and Mapping (Design Level). Obtain new low altitude aerial photography flown at an altitude of 1800 feet above mean terrain level (1:3600 Photo Scale Reciprocal). Perform ground support GPS control, airborne GPS, analytical aerotriangulation, DTM, topographic mapping, and prepare digital orthophotos for the design alignment with a map scale of one inch equals fifty feet (1" = 50'). The mapping corridor shall be a minimum of 1000 feet wide on each side of the preferred alternative alignment location. Photogrammetry is to be performed using Grid Coordinates based on the Arkansas State Plane Coordinate System Zone in which the project is located. Photogrammetry shall be furnished to the AHTD in Intergraph ISPM format.

Note: Current procedure requires all grid coordinates be projected to ground coordinates, based on the combination adjustment factor assigned by or approved by the AHTD, for project design. This will be a specific task if it is part of a contract for work to be performed.

PART II LAND SURVEYS

PART IIA

Title Services

1. This part of the project consists of furnishing the Arkansas Highway and Transportation Department, Surveys Division, with current ownership data, including: certificates, deeds, surveys, subdivision plats, and strip map for properties that are or may be involved. The individual(s) performing this task shall have a current license as an Abstractor in the State of Arkansas.
- 1.1 The work required to be performed and furnished to the Surveys Division by the abstractor is as follows:
 - a. **Certificates of Title:** A Certificate of Title shall be furnished for each parcel of land fronting or touching each side of the highway along the length of the project. A copy of the record legal description of any contiguous lands owned by the person or persons listed in the certificates of title shall also be furnished.

Each certificate will be for the current ownership as of the date of the certificate of title is prepared for this project and shall contain the following data:

- AHTD Job Number;
- AHTD Job Name, Review Date;
- County,
- Grantee(s) Name and Address;
- Parcel (tax) ID;
- Land Value;
- Improvements Value;
- Area (acres);
- Type of Instrument;
- Date of Instrument;
- Date Filed;
- Record Book and Page and/or Instrument Number;
- Grantor(s) name(s)
- The Record Description per the deed.
- A Certificate Number shall be assigned and shall be displayed in the lower right hand corner of each certificate.

Certificate numbers shall be grouped together for all parcels within each land section and within each subdivision involved. The certificates with corresponding deeds are to be numbered and indexed by number and the owner's name. The certificates are to be furnished in booklet form with the index at the front of each booklet. The name, address and telephone number of the abstracting firm is to be on the

index as well as on each certificate. Certificates are to be prepared on forms similar to the attached sample form.

- b. **Deeds:** An actual legible copy of each deed, (either photo copied or scanned), including acknowledgments, stamps, and recording data is to be furnished for each parcel and contiguous lands.
- c. **Survey Plats:** Where deeds refer to surveys by a surveyor, a complete and legible copy (border to border) of the surveyor's plat is to be furnished. All other related surveys that come to light during the course of research are also to be furnished.
- d. **Subdivision Plats:** Where parcels are deeded per subdivision plats of record or where deeds make reference to subdivision or survey plats, either recorded or unrecorded, complete and legible copies (border to border) of said subdivision or survey plats are to be furnished, along with any accompanying bills of assurance. All other related subdivision plats that come to light during the course of research are also to be furnished.
- e. **Strip Map:** A strip map shall be made and furnished similar to the attached example. The strip map is to show the approximate location of the highway project, as well as all intersecting streets, roads and highways, including their names and/or numbers. The relative location of the parcels with their certificate numbers is to be shown. Where the parcels are described by metes and bounds, their relationship is to be shown within sixteenth sections, section, township and range. Where the parcels are described within subdivisions, either recorded or unrecorded, their relationship within the subdivision is to be shown. This includes certificate numbers, lot and block numbers, street names, and subdivision names. The approximate boundaries of subdivisions are to be delineated on the strip map. The strip map is to be plotted at a scale large enough to show deed calls.

- 1.2 Title services must be completed and delivered on or before *(Date)*. Submittals are to include one copy of each certificate booklet and strip map, along with one copy of each survey plat, subdivision plat, and bill of assurance. Submittals are to be sent to the Engineer of Surveys Division. The address to use depends on method of delivery as follows:

Standard Mail

Kit Carson, PE, PS
Engineer of Surveys Division
Arkansas Highway and Transportation Department
P.O. Box 2261
Little Rock, AR 72203

Shipped – (UPS, Federal Express, etc.)

Kit Carson, PE, PS
Engineer of Surveys Division
Arkansas Highway and Transportation Department
10324 Interstate 30
Little Rock, AR 72209

2. Invoices for work completed on this project shall include:

- Job name and number
- Designated as Title Services
- Federal Tax ID Number
- Billing period dates
- Total earned for the period
- Total amount due for the period

A sample invoice is attached.

NOTE: It is not necessary to follow the format shown on the attached sample invoice. However, it is necessary the items listed above be included on your invoices.

3. A completed Microsoft® Excel spreadsheet for each billing period shall accompany each invoice. The actual Excel file, furnished by the Department, will be based on the Consultant's approved estimate. This file will be furnished provided to the Consultant once a contract has been signed by the AHTD. The Excel spreadsheet will be sent by E-mail. A sample Microsoft® Excel spreadsheet is attached.

PART IIB

Land Surveys (Parcel Surveys) for Right of Way Acquisition

- 1 This portion of the project consists of performing Land Surveys within the limits of the project. The work performed and plats prepared and furnished shall meet the current Arkansas Minimum Standards for Property Boundary Surveys and Plats as well as AHTD requirements. The Surveyor performing the work shall be on the current list of those certified to perform land surveys for the AHTD.

Note: All land surveys are to be performed using Grid Coordinates from the Arkansas State Plane Coordinate System Zone in which the project is located projected to ground coordinates. The ground coordinates shall be based on the combination adjustment factor assigned by or approved by the AHTD.

- 1.1 The Consultant/Surveyor shall coordinate the work and allocate sufficient time to complete and submit the Land Surveys at the 100% level no later than (*Date Specified Here*).
- 1.2 Any revisions or corrections required by the Owner in the submitted data shall be made by the Consultant and resubmitted to the Owner within two weeks of notification of such revisions.
2. The work required to be performed by the Surveyor will be as follows:
 - 2.1 All land survey data collection, as well as any design survey data, shall be done using the AASHTOWare® SDMS Collector. All data collected shall be processed using the AASHTOWare® SDMS Processor. This software is furnished at no charge to the Consultant/Surveyor under the site license

held by the Owner for the AASHTOWare® SDMS Data Collection System. The Consultant/Surveyor is obligated to comply with all license requirements while using this software.

Field procedure shall comply with the Surveys Manual.

All field data files (PRJ) for the field work completed each day shall be submitted to the Surveys Division Office via email on a daily basis. These files are to be sent to <mailto:surveysupport@arkansashighways.com>

- 2.2 All field data processing should be performed using AASHTO SDMS Processor. This software is also furnished at no charge to the Consultant/Surveyor under the site license held by the Owner for the AASHTOWare® SDMS Data Collection and Processing System. The Consultant/Surveyor is obligated to comply with all license requirements while using this software. Processing procedures should comply with the Surveys Manual.

Processed data files shall be archived and submitted to the Surveys Division Office via email on a weekly basis. The archive shall include all files imported into, edited in, and developed by SDMS Processor. These files are to be sent to <mailto:surveysupport@arkansashighways.com>.

- 2.3 Establish field survey ties to pertinent land monuments, property corners and existing right of way monuments using the feature IP and as described in the Surveys Manual.
- 2.4 All raw and calculated field data shall be furnished to the Surveys Division as part of the final submittal on compact disk (CD) in the AASHTOWare® SDMS format, as described in the Surveys Manual.
- 2.5 Prepare all drawings, maps and plats using the Bentley Systems, Inc., Microstation Inroads, Version 8.9/SP2 and Microstation Version 8.5 or higher. The cell library, seed files, feature table, and preference tables furnished by the Department shall be used. This data shall be archived and emailed on the Thursday of each week. These files are to be sent to <mailto:surveysupport@arkansashighways.com>.

The design files (.DGN) graphics and geometry database (.ALG) shall be in the format prescribed, based on using Bentley Inroads 8.9/SP2 as specified in the information that follows:

Bentley Inroads

Land Survey coordinate geometry (COGO) and worksheets shall be developed using Bentley Inroads are as follows:

- Point Number Range based on the feature code shall be as described in the Surveys Manual.
- Feature Codes shall be used as specified in the Manual or in the Project Scope.
- Complete point descriptions and all pertinent and required attributes shall be stored and displayed for each tied or calculated point necessary to define that specific point or geometry chain.

- Coordinate geometry shall be done using coordinate geometry (cogo) commands. Graphic intersection commands shall not be used to create geometry points.
- All alignment points shall be stored as cogo points.
- All parcel tracts shall be stored as closed polygon alignment chains.
- All computed points not used are to be deleted from the data base.
- Surveyor's notes, text notes, and any legal descriptions displayed on the worksheet and/or plat shall be also stored in a text file. Specific requirements are defined elsewhere in this document.
- All pertinent graphical data shall be within the particular DGN file being submitted, to include project data, text, and sheet borders. Topographic survey data may be in a referenced DGN file.
- The Design History shall be turned-on for all Microstation design (.DGN) files.

Data Files to be furnished

- Complete database of points, survey chains, alignment chains, and text elements in ALG format (*See Note 1 above*).
- Finished graphics of points, survey chains, alignment chains, and text elements actually used saved as a DGN and the text files as specified in the Surveys Manual. *See Appendix J of the Surveys Manual for details.*
- Points with all pertinent and required attributes – SDMS PAC format and Inroads ALG format. *See Appendix J of the Surveys Manual for details.*
- Survey Chains
 - o SDMS PAC format
 - o Inroads ALG format.
- Alignment Chains (figures based on coordinate geometry and used as boundary lines with bearing and distance) and chain descriptions
 - o Inroads ALG format
- Individual sheets shall be saved in DGN format.
- Text file of Coordinate Geometry commands (Audit Trail) used to create points and alignments.

Surveyor's and Other Text Notes

All surveyor's notes and other pertinent text notes and any legal descriptions written shall be displayed on the worksheets and/or plats. These notes shall also be stored as separate text files for each sheet developed. The filename shall include the job number and sheet number where it appears. The format is:

Job Number(SPACE)Note Number(same as sheet number).txt.

If it is necessary to create more than one text file for a particular page, add an alpha character after the note (sheet) number. Use the letter "A"

for the first additional file and continue through the alphabet as necessary. The format is:

Job Number(SPACE)Note Number(same as sheet number)A.txt
Job Number(SPACE)Note Number(same as sheet number)B.txt
Etc..

If a sheet should exceed 26 files, use the same procedure but add a second letter (AA, BB, etc.).

- 2.6 Reproducible sheets in 11"x17" size shall be provided as a hard copy and electronic form on compact disk in the Microstation DGN format prescribed above. The CADD and hard copy drawings shall include the following:
 - 2.5.1 Section lines, quarter and quarter-quarter section land lines and established land corners found and computed. Corners shall be described as shown in Chapter IV of the Manual of Surveying Instructions 1973, U.S. Department of Interior BLM; the Handbook for Arkansas Land Surveys, 2nd Edition, 1981; and as described in the Surveys Manual.
 - 2.5.2 Ties to corners, monuments, corner accessories and other relevant witness information which control the location of said 1/16 section lines and corners; the surveyor's basis of acceptance and/or computations thereof, and the originating source of found monument.
 - 2.5.3 Complete descriptions for said 1/16 corners, whether found or computed, using PLSS designations, as shown in the Surveys Manual.
 - 2.5.4 1/16 Sections named and bearing and distance shown on all sides.
 - 2.5.5 The existing right of way centerline and right of way lines.
 - 2.5.6 The construction centerline if furnished by the Owner.
 - 2.5.7 Property lines, with bearings and distances, and platted additions or subdivisions with lot and block numbers.
 - 2.5.8 All pertinent topography located during Design Surveys and Land Surveys.
 - 2.5.9 Description of land corners and property corners tied and other physical evidence of land lines; the basis of acceptance and/or computations thereof; and, the originating source of any found monument.
 - 2.5.10 Easements of record shall be shown on the plat.
 - 2.5.11 All gaps and overlaps found shall be clearly identified. An explanation for the gaps and overlaps shall be included in the surveyor's notes
 - 2.5.12 Point number assigned to each point tied or computed. Computed points shall use the LC feature code for graphics and the point number range as described in the Surveys Manual.
 - 2.5.13 Existing Right of Way for a roadway, if applicable, that has been established using existing monumentation and/or by computation. The

geometry chain (figure) delineating the existing right of way, as established, shall use the line feature code of RE.

2.5.14 Basis of bearings and coordinates, based on the designation described in the Surveys Manual.

2.5.15 Surveyor's Report (Sample copies of the format required is available).

2.6 Sheet Scales – The CADD graphics and hard copy sheets shall be set up and submitted as 11" x 17" size sheets. The text shall be of a sufficient font (size) that it is legible on an 8.5" x 11" sheet when reduced on a copier. All sheets scales shall be standard Engineering scales. All sheets shall have the required information as follows:

2.6.1 Section subdivision (section breakdown) sheets shall be submitted separate from the parcel sheets. Section subdivision shall be by 1/16 Section. Each sheet shall contain all information specified earlier in this section, and shall also include the location of the proposed construction centerline, if applicable. The scale used is determined by the amount of information required to justify and explain the methods and results being submitted.

2.6.2 Parcel sheets - Complete data is to be submitted to the Owner, consisting of a closed polygon for each parcel of property from which the Owner can prepare plans and property descriptions for the purchase of highway right of way. Each sheet may display as many ownership certificates as practical based on the scale used. The scale used is determined by the amount of information required to justify and explain the methods and results being submitted. Enlarged detailed sketches should be included on sheets with congested areas.

2.7 Parcel work sheets and preliminary parcel sheets shall be submitted for review and approval at the following phases of development:

- Phase I Preliminary Subdivision of Sections (Sectional Breakdown), including pertinent surveyor's notes.
- Phase II Determination of any existing Rights of Way, including pertinent surveyor's notes.
- Phase III Any conflicts in ownership encountered (Gaps, overlaps, etc.).
- Phase IV Preliminary parcel sheets.

2.8 The data shall be submitted in the formats specified to the Engineer of Surveys Division. The raw field data files (PRJ) and edited files (EDI) shall be emailed daily to the Surveys Division Office. CADD files shall be archived and emailed weekly to the Surveys Division Office. This data shall be sent as specified in Section 2.1.

Hard copies of plats for review, as well as the final submittal of all data in the formats specified for the project shall be sent for delivery as follows:

Standard Mail

Kit Carson, Engineer of Surveys Division
Arkansas Highway and Transportation Department

P.O. Box 2261
Little Rock, AR 72203

Shipped – (UPS, Federal Express, etc.)

Kit Carson, Engineer of Surveys Division
Arkansas Highway and Transportation Department
10324 Interstate 30
Little Rock, AR 72209

Discussions necessary to resolve issues may be handled via teleconference. Complex issues may require “face to face” conferences to resolve.

3. Accuracy of Measurement – All measurement data shall be consistent with minimum standards. Distances are to be measured and displayed on drawings to two (2) decimal places for projects in U.S. Foot. Bearings shall be displayed to the second. Horizontal and vertical angles shall be measured with an instrument capable of reading angles with a minimum accuracy of 5” (seconds) and recorded to the second. Coordinates shall be displayed and copied to disk to the fourth decimal place as a minimum to avoid bearing and distance round off when inverting between data points.
4. Static, Rapid Static, or RTK GPS may be approved for establishing control on a case-by-case basis. All GPS procedures and techniques shall be submitted to the AHTD for review and approval prior to performing any of this type work. The AHTD will not pay for any time or materials for any GPS type work done without prior approval.

Minimum requirements for GPS require that all receivers used be capable of collecting data from the L1 and L2 carrier signals. GPS data shall be furnished to the AHTD as follows:

- GPS collection data for control applications shall be in Trimble DAT (raw observations) and Trimble DC (point name and attributes) file formats.
- GPS Computed data shall be in SDMS points and chain (PAC) format.

Current requirements prohibit using RTK for land monument positioning. The Surveyor shall be certified for GPS control surveys to be considered for Land Survey applications.

5. The work to be performed by Surveyor shall be done in a professional and workmanlike manner satisfactory to the Owner, and except in the matter of advising the Surveyor what work is to be done and the results expected to be obtained, the Owner shall have no supervision over the Surveyor or any of his employees, but the Surveyor will prosecute and direct the work himself, using his own methods to accomplish it and will represent the will of the Owner only as to the result of his work.
6. The Surveyor shall be a Professional Surveyor (PS) in the State of Arkansas. All services performed by the Surveyor shall be in compliance with Arkansas laws and regulations governing the practice of Professional Surveyors and with all Federal, State and Local laws, regulations and ordinances applicable to the work.
7. During the course of the project a progress report shall be sent to the Owner

each Thursday by 12:00 P.M., stating the approximate percentages of fieldwork and office work that has been completed. The Progress Reports are to be sent by e-mail to the Surveys Division Senior Staff Land Surveyor as specified in the current Surveys Manual.

8. Accounting Procedures – See Appendix A-1.
9. The following information is attached or has been previously submitted:
 - One (1) copy of existing Roadway or Right of Way plans showing existing right-of-way.
 - Sample copy of parcel survey drawings and/or right of way maps. *
 - One (1) copy of property descriptions located along and adjacent to the highway and within the job limits.
 - One (1) copy of preliminary highway construction plans and/or mapping if available.
 - One (1) copy of General Land Office (GLO) plats of the area.
 - One (1) copy of aerial photographs, at a ratio of 1:9600, to cover the project area.
 - Sample copy of weekly progress report.
 - Sample invoice.
 - Sample Microsoft® Excel spreadsheet.

PART IIC

Right of Way Staking

The Right of Way shall be staked for acquisition on each tract requested by Right of Way Division. AHTD vinyl flags with the proper designations shall be used for this task.

PART IID

Right of Way Monumentation, and Final Plats Right of Way Monumenting and Final Plat

- 1.1 The Right of Way shall be monumented after property is acquired and with the approval of the AHTD to proceed. Monuments shall be set at all Right of Way breaks, and at all property lines and “40 Acre” lines crossed by the Right of Way line. Land corners, such as Section Corners, Quarter Corners, and 1/16th Corners used as the basis of legal descriptions shall also be set, if required by the AHTD. Each point shall set using the monument assembly and stampings prescribed and according to AHTD procedures described in Surveys Manual.

A monument assembly consists of:

- Monument Shaft - 5/8” diameter rebar of sufficient length for the monument to be set firmly in the ground. Minimum length shall be 24

inches, unless grouted in solid rock or set in concrete. The length used shall be approved by the AHTD.

- Monument cap – 2” aluminum flat cap, stamped as directed by the AHTD.
- Witness post and sign.

Exceptions will be approved on a case-by-case basis and in locations specified by the Surveys Division of AHTD.

Standard monument materials will be furnished by the AHTD. This includes rebar, 2” caps, witness post, and sign. Monument caps with specific stampings will be used. Most of the information is pre-stamped on the cap.

The Consultant/Surveyor shall notify the Surveys Division of the number of monument caps for each required designation necessary for this project. The PLS Number of the Consultant/Surveyor may be added if the number of caps required justifies.

Materials may have to be special ordered for this project. Therefore, the Surveys Division shall be notified a minimum of 45 days prior to the date field monumenting is expected to commence with the quantities of material and cap designations needed to allow adequate time to acquire the materials to complete this task.

a. 1.2 Coordination with Resident Engineer

The Consultant/Surveyor shall maintain correspondence with the Resident Engineer that is responsible for this project. The Consultant/Surveyor shall send a representative to the pre-construction meeting held with the Resident Engineer. This meeting may be used to coordinate scheduling for final right of way monumentation.

b. 1.3 Final Plat

A final plat shall be prepared using the requirements that apply described in the section for parcel work sheets. The plat shall show all monuments set and markings placed on each cap. The Surveyor performing the work shall be on the current list of those certified to perform land surveys for the AHTD. The plat shall meet the current Arkansas Minimum Standards for Property Boundary Surveys and Plats as well as AHTD requirements. Therefore, it may be necessary to incorporate information contained on the parcel worksheets and the right of way plans to complete the final plat.

The boundary lines shown on this plat shall not have the word “Proposed” as used on the plans for right of way acquisition. The plat shall be sealed (stamped) by the PLS who has oversight over the project as well as the PLS responsible for establishing the monuments if not the same.

The final plat shall be recorded in the State Land Surveyor’s Office. Each plat sheet shall have an instrument number assigned by the State Land Surveyors Office and the date affixed by an official in the State Land Surveyor’s Office. Original versions of the recorded plat(s), as well as the

electronic files for those plat(s), shall be furnished to the Surveys Division of the AHTD.

Copies of the recorded plat(s) shall be furnished to the Right of Way Division of the AHTD, and, the Circuit Clerk's Office of the county or counties involved if the Circuit Clerk requests the plats.

Note: All land surveys are to be performed using Grid Coordinates from the Arkansas State Plane Coordinate System Zone in which the project is located projected to ground coordinates. The ground coordinates shall be based on the combination adjustment factor assigned by or approved by the AHTD.

Appendix E-1

Accounting Procedures

Travel Expense Procedures – State Travel Regulations issued by the AHTD:

- 1.1 Travel Day – For the Purpose of these regulations, the “calendar day” for travel shall commence at 6:00 A.M., and shall include (1) breakfast, (2) lunch, (3) dinner, and (4) one night’s lodging; and the travel “day” shall end at 6:00 A.M. the following morning. It should be remembered that the travel “day” as defined here applies to the traveler who is already in the field, in full travel status. Normally, at the beginning of the travel period, the traveler will commence his field trip “after” breakfast, and at the end of the trip he will normally return “before” dinner.
- 1.2 Maximum Daily Limits on Meals and Lodging (Not Per Diem): The maximum daily allowance for meals and lodging are those rates which are established and set forth in the General Services Administration’s Federal Travel Directory, except for the reduced rate for Arkansas which was determined by the Department of Finance and Administration.

For each calendar day in full travel status, when all four items of breakfast, lunch, dinner, and lodging are included, the maximum daily allowance will be the actual expenses incurred, limited to the standard rate set by the Fiscal Services Division of the AHTD.

Partial days shall be charged based on the statewide rates (plus state and local taxes) or specified rates set by the Fiscal Services Division of the AHTD. A copy will be furnished upon request.

Note: Travel reimbursement IS NOT a per diem, and is to be claimed for actual expenses for meals and lodging not to exceed the maximum allowable rates. The maximum must not be claimed unless the actual expenditures for such purposes equal or exceed the maximum allowable rate. Reimbursement for meals without overnight travel is not allowed.

- 1.3 Vehicle Allowance: Effective March 27, 2000, the rate of reimbursement for vehicles used on State projects will be as specified by the Fiscal Services Division of the AHTD.

Each invoice shall be for the services rendered within this agreement since the last invoice submitted. A ten percent (10%) retainage shall be shown on each invoice. Each invoice shall be accompanied by a spreadsheet showing the charges and retainage for each billing period in addition to the total charges and retainage to date. The retainage will be held for approximately one month after completed data is submitted. A final invoice can then be submitted for the retainage. Pending further review that requires revisions and corrections, the final invoice will be approved for payment.

Invoices for work completed on this project shall include:

- Job name and number
- Designated as design survey
- Federal Tax ID Number

- Billing period dates
- Total earned for the period
- Total amount due for the period

A sample invoice is attached.

Note: It is not necessary to follow the format shown on the attached sample invoice. However, it is necessary the items listed above be included on your invoices.

A completed Microsoft® Excel spreadsheet for each billing period shall accompany each invoice. The actual Excel file, furnished by the Department, will be based on the Consultant's approved estimate. This file will be furnished provided to the Consultant once a contract has been signed by the AHTD. The Excel spreadsheet will be sent by E-mail. A sample Microsoft® Excel spreadsheet is attached.

RESOLUTION BY THE CITY COUNCIL OF THE CITY OF JONESBORO, ARKANSAS FOR THE SUGGESTED RENAMING OF STADIUM BOULEVARD TO RED WOLVES BOULEVARD AS REQUESTED BY ARKANSAS STATE UNIVERSITY.

WHEREAS, businesses located on Stadium Boulevard were contacted regarding the street name change and agreed to the renaming; and

WHEREAS, the United States Post Office Post Master Robert Driskell has stated the mail delivery service will be continued to both street names to the addresses of the businesses; and

WHEREAS, the information gathered produced the following recommendations:

1. Immediate renaming of Stadium Blvd. to Red Wolves Blvd. as per Arkansas State University request.
2. Naming priority shall be considered to any new street within the city limits, or any future bypass created around Jonesboro.

THEREFORE, BE IT RESOLVED, by the City Council of the City of Jonesboro, Arkansas that:

1. The above recommendations are hereby accepted by the Jonesboro City Council.
2. The Mayor and City Clerk are hereby authorized to submit necessary documents to effectuate this agreement.

CITY OF JONESBORO

February 25, 2013

Mr. Walter McMillan, District Engineer
AR Highway Department
2510 W. Kingshighway
PO Box 98
Paragould, AR 72451-0098

RE: Stadium Blvd.

Dear Walter:

I had a request from Arkansas State University that we consider naming Stadium Boulevard from Hwy 63 to past the stadium which would be Hwy 49N. I was wondering if I needed to get permission from the State in order to change this to Red Wolves Blvd. rather than Stadium Blvd. If so please let me know what I need to do. L.M. and I are going around to the businesses to phase this in and see if they like it. If I come up with too much resistance I'm not for sure I want the city to do this. Please let me know what I need to do and I appreciate what you do for District.

Sincerely,

Harold Perrin
Mayor

March 4, 2013

Honorable Harold Perrin
Mayor of Jonesboro
P.O. Box 1845
Jonesboro, AR 72403

Dear Mayor Perrin:

Reference is made to your letter of February 25, 2013 concerning the changing of the name of Highway 49 North from Highway 63 to Johnson Ave. to Red Wolves Boulevard.

The state highway system is referenced by route and section numbers. The Department normally allows the local jurisdiction to place an appropriate name on a section of state highway if they so desire. If the City elects to make this change, please advise the Department so the appropriate changes can be made to the guide signs at the Highway 49 North Interchange on Highway 63. The updating of the street names signs along Highway 49 North will be the responsibility of the City.

If you have any questions concerning this matter, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads 'Walter McMillan'.

Walter McMillan
District Engineer

OFFICE OF THE CHANCELLOR
P.O. Box 600, State University, AR 72467 | o: 870-972-3030 | f: 870-972-3465

The Honorable Harold Perrin
Mayor, City of Jonesboro
P. O. Box 1845
Jonesboro, AR 72403

Dear Mayor Perrin:

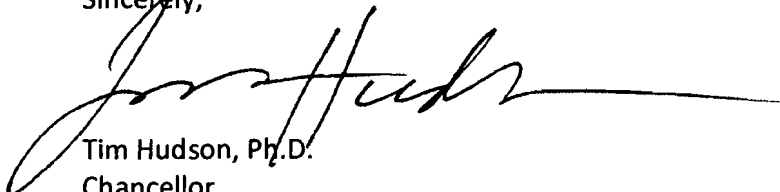

We at Arkansas State University greatly appreciate the consideration of the proposal for Red Wolf Boulevard to replace Stadium Boulevard between Johnson Avenue and U.S. 63. This concept has generated community dialogue among the City Council, businesses on Stadium, and local residents.

Based on these discussions, we respectfully request that the City Council postpone consideration of the change for two months. This extra time allows all constituents of the city and the campus ample opportunity to express their views and contribute to the decision-making process.

Transforming this segment of Stadium Boulevard into Red Wolf Boulevard serves as an important marketing initiative for Arkansas State, and using a mascot name for street naming purposes is in line with other university cities across the country. The change would send a compelling message to visitors that Jonesboro is a city that values its close ties with its university.

Arkansas State wants to continue to be a good community partner and a good neighbor. Please let me know what we can do to facilitate further discussion and input.

Sincerely,

Tim Hudson, Ph.D.
Chancellor
Arkansas State University

Discussion Update: Text Amendment: Mobile Vending Ordinances: Itinerant Street Vendors Units, to allow hot dog vending units in the C-1 Downtown Core Area

Proposed Text Amendments: Mobile Vending- Hot Dog Vending Units

EXISTING ORDINANCE IN BLUE/ PROPOSED TEXT AMENDMENT IN RED

Sec. 117-258. - Mobile vending trailers.

(a)

Purpose. The purpose of this section is to establish standards to regulate the use and location of commercial trailers in the city. These standards are necessary to promote public safety and preserve property values.

(b)

Applicability. This section shall apply to any commercial trailer or vending stand that is transported to property within the city. A commercial trailer or vending stand is defined as a transportable structure not permanently attached to the ground which is used on a short-term basis to conduct a commercial activity such as, but not limited to, the sale of merchandise or food. Vending carts and tables shall be included in this definition.

(c)

General provisions. The following provisions shall apply to commercial trailers.

(1)

Commercial trailers and vending stands shall be permitted only in zoning districts which permit the specific use for which the trailer is intended as permanent sited location, unless otherwise allowed by this section.

(2)

Prior to locating a commercial trailer or vending stand on any parcel, a building permit must be obtained. The trailer or stand must be permanently attached to a foundation with an approved permit issued. Only one commercial trailer is permitted on each parcel, unless provided for otherwise within this section.

(3)

At the time a building permit is requested, a site plan shall be provided of the parcel on which the trailer is to be located. The site plan shall show the boundaries of the parcel, all existing buildings and their dimensions, parking areas and the number of spaces, and the proposed location of the trailer.

(4)

When applicable, a state health district approval letter shall accompany the permit application for products under the jurisdiction of the state health district. Use of the commercial trailer or vending unit shall not commence until a final occupancy certificate is issued by the building department.

(5)

A minimum of three parking spaces shall be provided for the use of employees and customers. This requirement is in addition to the number of parking spaces required for the existing buildings on the parcel. The trailer or stand may not be placed on the parcel if its placement would cause the parcel to no longer meet this zoning chapter requirements for minimum number of parking spaces.

(6)

The trailer must meet the minimum setback requirements for the zoning district in which it is located. In no instance may a commercial trailer or vending stand be located within a public right-of-way, unless otherwise permitted by this section.

(7)

The trailer unit must be inspected by the city electrical inspector to ensure the safety of the outside electrical connections.

(8)

The trailer must not be placed in a location which may be unsafe for its occupants, customers and the vehicles which must pass by.

(9)

Special exceptions and exempted activity.

1.

Seasonal inventory trailers shall be permitted by permit for a period not to exceed three months, and must be placed in the rear yard of the subject property or docking area.

2.

Vending units shall be permitted in the industrial park area at manufacturing plants zoned I-2 industrial, for a time duration not to exceed two hours, with a permit application including an approval letter from the ownership provided to the planning department.

3.

Vending units shall be permitted at citywide amusement fairs, festivals, parades, athletic events and games, if and only if, the business representative secures a valid business license after giving proof of owner's consent.

4.

Sidewalk sales that are located at the front entrance to the building structure, and not in parking areas nor along public rights-of-way shall be exempt from this section if the products sold are part of the

principal use of the commercial property. Inventory sales shall satisfy all applicable building setbacks for the associated zoning district.

5.

Ice cream trucks shall be exempted from this section, but must not be in business at an extended and stationary location.

6.

Temporary tent sales shall be permitted in areas zoned for C-3 commercial for a maximum of 30 days; the structure must be placed no closer than 35 feet to any right-of-way line, and required parking for the principal use must not be utilized by the tent location. The business representative must secure site plan review and a valid business license after giving proof of owner's consent.

(Zoning Ord., §§ 14.25.01—14.25.04; Ord. No. 08:005, 2-20-2008)

The following language is suggested to be drafted as an Ordinance to allow limited vending of hot dog carts in the Downtown Area.

d. Itinerant Street Vendors Units

(1) *Definitions.* The following words, terms and phrases, when used in this section, shall have the following meanings ascribed to them, except where the context clearly indicates a different meaning:

- i. *Administrator* means the Planning Director of the City of Jonesboro, Arkansas, or the designee;
- ii. *City* means the City of Jonesboro, Arkansas;
- iii. *Itinerant street vendor* means a person dispensing food, goods, materials or services from a unit or other contrivance operated on the streets and sidewalks. This term shall not include or apply to a "temporary open air enterprise" or a "mobile vending units" as those terms are defined in Section 117-258 (a.) 117-258 (c.) herein such as: Concession trailers, Walk-in concession stands, charcoal smoke creating pit/trailers, tables and tents vending accessory and non-food items,

(2) *Operating permit required.*

(1) No person shall operate as an itinerant street vendor in the city, except as expressly permitted under this article.

(2) Each itinerant street vendor, in addition to a city business license, must obtain an annual operating permit from the city and business license renewal.

(3) Prior to issuing an operating permit, the city will inspect each ice cream truck and itinerant street vendor unit to ensure each unit is in a mechanically safe condition, and that all such units meet the equipment specifications of subsection (d) herein. The inspection will be conducted by the administrator.

(3) *Equipment specifications.* All itinerant street vendor units shall be equipped with the following:

(a.) Signs or decals on both the front and the rear of the unit identifying the unit as an itinerant street vendor and displaying the words "SLOW CHILDREN CROSSING" in distinctive lettering at least six inches in height which is visible at 300 feet to the front and rear in normal sunlight upon a straight level roadway or highway.

(b.) A sign or decal that is visible at all times with the business address and telephone number of the business license holder printed on the side of the unit in letters of not less than two inches in height.

(c.) A trash receptacle to dispose of all litter that is generated from products sold from the ice cream truck or itinerant street vendor unit.

(4) *Operational requirements/Operator permit required.*

a. *Required.* No person shall operate an itinerant street vendor unit in the city, and no person who owns or controls an itinerant street vendor unit shall permit it to be so operated at any time, unless the operator of said itinerant street vendor unit shall have first obtained and shall then have in force an itinerant street vendor unit driver's permit issued under the provisions of this chapter.

b. *Qualifications.* No itinerant street vendor unit driver's permit shall be granted unless the applicant is at least 18 years of age, has a valid state issued driver's license, and the applicant has no active suspension on his or her driving privileges in any state. Further, no permit shall be issued if the applicant has been convicted of a felony in the past five years. Further, no permit shall be issued if the felony conviction was for a sexual offense, an offense involving drugs, or the use of a firearm in the commission of the offense, or if it was a violent felony, regardless of when the felony occurred (there is no five-year limitation for these types of felony crime).

(5) *Application for Permits.* Any person desiring an itinerant street vendor unit driver's permit shall apply in writing to the administrator. The form of such application shall be developed by the administrator and shall include, but not be limited to, the age, name and address of the applicant. The police department shall also have the authority to require additional documentation, as needed, to process the application.

- a. When the application is approved, the itinerant street vendor unit driver's permit shall be issued in card form designed by the administrator. The photograph of the driver shall be attached to the card. Each driver will be given an itinerant street vendor unit driver's permit which will be on such permit. This card shall be posted in a prominent place in the itinerant street vendor unit and shall be shown to any customer, police officer, or code enforcement officer upon request. Only one permit shall be posted in an itinerant street vendor unit at any time.
- b. Acknowledgment of application. The applicant shall acknowledge with any application that he or she understands that the itinerant street vendor unit permit, if granted, will be for a specific period of time not to exceed one year, and an annual review and approval will then be required for renewal of the permit.
- c. Permit Issuance& Renewal Procedure:
Itinerant Street Vending shall only be available for permit approval at the following approved locations within the C-1 Downtown District:

Permit locations shall be restricted to the approved and adopted Locations V-1 thru V-14. Mapped locations shall be maintained in both the Planning Department and City Collector's Office at all times. Permits shall be issued for period durations of 12 months. Upon expiration, the itinerant vendor shall apply for permit renewal with the Office of the Planning Director. Once all 14 approved locations are committed and reserved as permitted sites, the Director shall generate a waiting list of applicants hoping to locate at one of the adopted 14 approved locations. Once slots become available, the waiting list shall continue to rotate. If at time of expiration, no vendor is awaiting unit location assignment, a vending renewal may be approved and renewed at same said location or any available selected slot.

- (6) *Cleanliness required.*
 - (a.) The interior and exterior of each itinerant street vendor unit, and all equipment therein, shall be kept clean and sanitary and maintained in good repair at all times.
 - (b.) The interior and exterior of each vending unit shall comply with all local, state, and federal codes and regulations governing the sale and distribution of food products.
 - (c.) Trash canisters shall be visibly available and all associated trash and waste collection within the perimeter of the vending unit shall be the responsibility of the vendor.
- (7) *Vending Location Restrictions.*

- a. No itinerant street vendor shall vend within 500 feet of any property used as a school from one hour before the regular school day to one hour after the regular school day; provided, this subsection shall not apply on days when school is not attended by children.
 - b. No itinerant street vendor may vend before the ice cream truck or itinerant street vendor unit is lawfully parked or stopped.
 - c. Itinerant street vendors may only vend from the side of the unit that is away from moving traffic and as near as possible to the curb or edge of the roadway or street.
 - d. No itinerant street vendor may vend to a person standing in the roadway.
 - 1. No itinerant street vendor may vend in areas that will cause non-compliance with the City of Jonesboro Code of Ordinance Sections: Sec. 66-188 - Obstructing traffic and Sec. 117-327 - Corner visibility.
 - e. Only individually pre-packaged products or items may be sold from itinerant street vendor units, unless the itinerant street vendor unit has been issued a health department permit from the State of Arkansas Department of Health.
 - f. A copy of a current, valid health department permit from the State of Arkansas, or a letter from the State of Arkansas Department of Health stating that no permit is required, must be on file in the city collector's office and must also be carried in the itinerant street vendor unit.
 - g. A current city operating permit issued to the individual itinerant street vendor unit must be visibly displayed on the itinerant street vendor unit.
- (8.) *Penalty for violations.* Any person violating any of the provisions of this article shall be subject to a fine as provided by the Code of Ordinances of the City of Jonesboro, Arkansas. In the event of a continuing violation, each and every day the violation continues is considered a separate and punishable violation. Each sales transaction completed in violation of the terms of this subchapter shall be considered a separate violation.

Title

AN ORDINANCE TO AMEND ORDINANCE 92:907 AND SECTION 14, ZONING, OF THE CODE OF ORDINANCES OF THE CITY OF JONESBORO, ARKANSAS, BY CLARIFYING SECTION 14.25 TO REGULATE THE USE AND LOCATION OF COMMERCIAL TRAILERS AND MOBILE VENDING UNITS.

Body

WHEREAS, the primary purpose of the public streets and sidewalks is the use by vehicular and pedestrian traffic, and

WHEREAS, vending in public areas and areas along the many street corridors can cause visual clutter and impede on both the vehicular and pedestrian environment, and

WHEREAS, reasonable regulation of mobile vending is necessary to protect the public health, safety and welfare, and

WHEREAS, the regulations contained in this ordinance do not prohibit free speech but merely regulate activities which are commercial in nature, and

WHEREAS, the granting of business licenses for the use of public streets and the making of charges therefore are authorized by Jonesboro Code of Ordinances, Title 4: Business Licenses and Regulations and are subject to such conditions as the Council may impose to protect the public interest, welfare and convenience.

WHEREAS, it shall be unlawful to vend on public sidewalks and public right of ways near venues that attract large pedestrian crowds on event days,

NOW, THEREFORE BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF JONESBORO THAT:

SECTION 1: 14.25.01 PURPOSE. The purpose of this ordinance is to establish standards to regulate the use and location of commercial trailers in the City of Jonesboro. These standards are necessary to promote public safety and preserve property values.

SECTION 2: 14.25.02 APPLICABILITY. This ordinance shall apply to any commercial trailer or vending stand that is transported to property within the City limits of Jonesboro. A commercial trailer or vending stand is defined as a transportable structure not permanently attached to the ground which is used on a short-term basis to conduct a commercial activity such as, but not limited to, the sale of merchandise or food. Vending carts and tables shall be included in this definition.

SECTION 3: 14.25.03 GENERAL PROVISIONS. The following provisions shall apply to commercial trailers.

(A) Commercial trailers and vending stands shall be permitted only in zoning districts which permit the specific use for which the trailer is intended as permanent sited location, unless otherwise allowed by this ordinance.

(B) Prior to locating a commercial trailer or vending stand on any parcel, a building permit must be obtained. The trailer or stand must be permanently attached to a foundation with an approved permit issued. Only one commercial trailer is permitted on each parcel, unless provide for otherwise within this ordinance.

(C) At the time a building permit is requested, a site plan shall be provided of the parcel on which the trailer is to be located. The site plan shall show the boundaries of the parcel, all existing buildings and their dimensions, parking areas and the number of spaces, and the proposed location of the trailer. When applicable, a State Health District approval letter shall accompany the permit application for products under the jurisdiction of the State Health District. Use of the commercial trailer or vending unit shall not commence until a final occupancy certificate is issued by the Building Department.

(D) A minimum of three parking spaces shall be provided for the use of employees and customers. This requirement is in addition to the number of parking spaces required for the existing buildings on the parcel. The trailer or stand may not be placed on the parcel if its placement would cause the parcel to no longer meet the zoning ordinance requirement for minimum number of parking spaces.

(E) The trailer must meet the minimum setback requirements for the zoning district in which it is located. In no instance may a commercial trailer or vending stand be located within a public right of way, unless otherwise permitted by this ordinance.

(F) The trailer/unit must be inspected by the City Electrical Inspector to ensure the safety of the outside electrical connections.

(G) The trailer must not be placed in a location which may be unsafe for its occupants, customers, and the vehicles which must pass by.

SECTION 4: Special Exceptions and Exempted Activity:

1. Seasonal Inventory Trailers shall be permitted by permit for a period not to exceed 3 months, and must be placed in the rear yard of the subject property or docking area.
2. Vending units shall be permitted in the Industrial Park Area at manufacturing plants zoned I-2 Industrial, for a time duration not to exceed 2 hours, with a permit application including an approval letter from the ownership provided to the Planning Department.
3. Vending units shall be permitted at city-wide amusement fairs, festivals, parades, athletic events and games, if and only if, the business representative secures a valid business license after giving proof of owner's consent.
4. Sidewalk sales that are located at the front entrance to the building structure, and not in parking areas nor along public right of ways shall be exempt from this ordinance if the products sold are part of the principal use of the commercial property. Inventory sales shall satisfy all applicable building setbacks for the associated Zoning District.
5. Ice cream trucks shall exempted from this ordinance, but must not be in business at a extended and stationary location.

6. Temporary Tent Sales shall be permitted in areas Zoned for C-3 Commercial for a maximum of 30 days; the structure must be placed no closer than 35 ft. to any right of way line, and required parking for the principal use must not be utilized by the tent location. The business representative must secure site plan review and a valid business license after giving proof of owner's consent.

SECTION 5: It is found and declared by the City Council that an emergency exists and this Ordinance, being necessary for the preservation of public peace, health and safety, shall take effect from and after its passage and approval.

SECTION 6: Conflict - If any part of this Section is found to be in conflict with any other Section of the Zoning Ordinance or with any other Ordinance, the most restrictive or highest standard shall prevail. If any part of this Section is explicitly prohibited by Federal law or state statute that part shall not be enforced.

PASSED AND APPROVED THIS 19th day of February, 2008.
