

WE THE UNDERSIGNED, do totally agree that street parking on the west side of Church Street next to Southwestern Bell Co. needs to be removed. The necessity for removal of this parking is because of the need to improve the safety at this location.

Church Street has recently been resurfaced and the traffic now has a tendency to be faster along with the narrow condition of Church Street between the sidewalks at this location, it is not safe for people to park on the west side of Church Street and step out of their vehicle.
