Dear Mr. Gamblin: -

Mr. Brooks Nichols, in response to your telephone call of this date, has asked that we send you the enclosed print of the proposed Willow Street improvements at Jonesboro.

From the print you will note that our surfacing work on Willow Street will begin approximately 853 ft. South of the median centerline of the U.S. 63 Bypass.

If we can provide further information please advise.

Yours truly,

Robert L. Walters
Engineer of Roadway Design
