Issue: Loberg Rezoning

I am opposed to the 1110 Loberg Rezoning due to the proposal for the complex lacking accommodations for disabled Arkansans. My concerns, as outlined in my statement to the council:

- Arkansas has a disabled population of at least 17.3%, including people of all ages. At least 10.3% have trouble with walking or climbing stairs.
- Townhouses are not an accessible home for people with ambulatory disabilities.
- Jonesboro is the fifth largest city in Arkansas and the largest city in Northeast Arkansas. We should be a leader on accessibility issues.
- Multi-family housing proposed in Jonesboro should at the bare minimum include a few units that are accessible to people with disabilities.

On behalf of the residents of Scenic Hills who are are opposed to this specific rezoning, I urge the council to reject the rezoning request of 1110 Loberg Lane and leave this property zoned R-1.

Best,  
R. Williams
