Subject: Dogwood Acres Phase II

Mr. Spriggs,

The submittals for Dogwood Acres Phase II were approved by Michael Morris and a grade permit issued to begin work on October 28, 2008. Due to a long wet winter in 2008, poor weather conditions and a poor economy, this project was put on hold. The approval letter was valid for one year from date of consent.

I spoke with Mr. Morris yesterday and he indicated that it may be possible to get an extension to begin this project rather than go through the submittal/approval process again. We have not changed any details of the project in any way. We have simply waited for a more opportune time to begin. I am now ready to proceed with the project with your consent. Please advise what I need to do at this point in order to be able to start the next phase of this development. If I need to attend the next MAPC meeting, I'm happy to do so. Just let me know if this statement is sufficient to get me on the agenda.

I appreciate your time and help with this matter.

Sincerely,
Scott Throgmartin
