The Honorable Hubert Brodell
Mayor of Jonesboro
314 W. Washington
Jonesboro, Arkansas 75401

Re: CSN 16-0163 Permit 0-139-S

Dear Mayor Brodell:

On October 1, 1987, I performed an inspection of your facility referenced above, pursuant to the Solid Waste Management Act and Disposal Code. My inspection revealed that Mr. Hardin has done an excellent job in closing out the landfill. However, there are two areas that need further attention. old area number 1 has been closed out and graded, but no vegetation has been sewed on the area. Old area number 2 and part of area number 1 needs to be graded, final cover applied, and sewed with some kind of vegetation before winter weather arrives.

You must notify me, in writing, when the above areas are completely closed out, but no later than November 5, 1987. If this time period is not acceptable, please call me at 935-7221 locally.

I appreciate the cooperation and hospitality shown by your employees during my inspection.

Sincerely,

Gale Fuqua
District Field Inspector
Environmental Field Services
