

Site plan for the Hilton Garden Hotel

Mr. Krennerich stated that he felt that if they connected the parking lots so that they aren't forcing the people to use this one entrance on Caraway and give them outlets on other streets.

Let them have the two entrances but let the two businesses interconnect the parking lots so that people have other access points to get out of the lot.

Mr. Spriggs stated that staff can try to negotiate if they need to see the board. Mr. White stated that they have not received all of their permits at this time.

Mr. Krennerich stated that it isn't that bad and they could approve it but they need to set precedence and make it easier for the people. Mr. Spriggs stated that when they have the master street plan finished that it would be easier to have these types of things taken care of. At this time they are having to work with the plans individually since there are no regulations.

Mr. Krennerich moves to deny the site plan as proposed. Mr. Day seconded. They decided no vote was needed.

Lots 3 and 4 are the lots with concern. Mr. White stated that he believes George will work with them on the parking lot.
