Team

Zimmer Development Company's development department works with national and local business, as well as markets for multi-family housing, to identify land acquisitions for new growth and relocation opportunities. Working closely with real estate representatives, the development team evaluates individual markets for coverage, including creating market studies and site plan renderings, and pursues locations that meet the company's specific requirements.

Zimmer Development Company's construction department specializes in developing retail shopping centers, freestanding projects for national companies, planned community town centers, and multi-family housing, to name a few. The construction team has successfully directed and managed construction activities for many high profile national tenants. The construction managers are responsible for creating the project budget, selecting and supervising the architects, engineers, and contractors, while obtaining all permits, procuring approval of the final construction plans, directing the construction of the site and buildings, and managing the development schedule. They also frequently assist with small shop tenant budgets and build-outs, while verifying that each tenant's specifications are satisfied for the grand opening.

The in-house legal team is responsible for drafting the Lease Agreement and Amendments with our tenants, negotiating and drafting Offers to Purchase and Contract for land acquisitions, as well as handling any other legal matter that may arise.

Zimmer Development Company has a strong and aggressive leasing department. Their efforts have resulted in a portfolio occupancy rate of greater than 90% over the past decade. Zimmer Development Company has developed long and lasting relationships with many anchor and non-anchor national tenants, as well as local leasing brokers, while working with each one to achieve a mix of uses that will optimize consumer attraction and tenant retention.

In addition to the accounting function of the business, its professionals are immersed in the capital markets arena, staying on top of the most recent trends, structures, and projects in the industry.

The property management department is responsible for all account management and operational aspects of completed developments, including tenant coordination, annual contracts for property beatification, upkeep, maintenance, and repairs, emergency situations, and other tenant issues that may arise.
