Re: Ordinance #1834

Parks Director, Dave Wimpy has stated that the aforementioned ordinance can be rescinded or abolished. He further states that with the impending closure of DuPont, they have removed the trap machine and this agreement no longer exists.

Would you please prepare an ordinance needed to comply with Dave's suggestion?

I will place this on the next agenda for first reading on December 4, 1989. Thank you.

Material is attached regarding the matter.
