**Subject:** 4004 E. Highland Condemnation

Good afternoon,

Donna asked me to send an email to update a change in the status of the condemnation case I have working at 4004 E. Highland:

Mr. Kevin Kissee owns the property we are working on and called to advise that he noticed that the address was incorrect on the paperwork I sent him and should be 4006 E. Highland. I used the Edge GIS mapping software to get the physical address of Mr. Kissee's property after it was inspected. When he notified me of this, I checked again and it still showed 4004 E. Highland. I used AR County Data and pulled up the map view and compared it against the parcel number, Edge had the addresses shifted east by one lot. I have contacted the Carol and was advised to restart the condemnation process since the previous paperwork is inaccurate. I have since corrected the file and will schedule the property for public safety once I get the new title search. I did notified Engineering and advise the of the GIS error so they can get it corrected as well. Donna advised me that it will still be on the agenda for tonight and I will be present to explain to the council and answer any questions.

Thank you,

Michael Tyner
