Request by Attorney Skip Mooney to address the Committee regarding property in the Harmon Industrial Park Second Addition

Attachments: [Supporting information](#)

Chairman Street explained this concerns a street that was built in the Industrial Park before the City required bonds and the City had accepted a Letter of Credit that was no good. He noted he spoke with Mr. Light concerning coming up with a price estimate to pave the gravel road, but Mr. Light has been unable to complete the estimate. He also added that he believes the City cannot take any action on this matter until the cost estimate has been completed.

Councilman Vance asked if the resolution that is included in the supporting information will make the City obligated to do the work or will it give the City the authority to do it if they want to. Chairman Street answered the resolution is one that the City had APERMA draw up when the City started to require bonds. He added it is just a guideline the City can follow if they want to do the work, but the City is not obligated to do the work.

Skip Mooney Sr. who is the attorney for Mr. Don Latourette explained that Mr. Latourette purchased the property located at 2313 Carrie DeHon from Mr. Jay Harmon in 1999. He added the Mr. Latourette built a 40,000 square foot warehouse on the property that he had replatted but the street was never paved by Mr. Harmon. He added Mr. Latourette lost his tenant a few years ago and since then he has been unable to rent the building because the road is not paved.

Discussion was held concerning a resolution that was passed in 2005 concerning what would be done if the roads were never finished.

Mr. Mooney stated his client followed all the rules that are in place for building a building. He is asking that this committee look at the criteria for paving this road so Mr. Latourette can rent his property. He further explained that Mr. Latourette is willing to pay to have the road paved in front his property. He noted he believes the City is trying to remove themselves from the situation because the street sign has been removed.

Chairman Street asked that Mr. Light work on getting the cost estimate for the project and bring it to the Public Works Committee meeting in December.
