Reclamation House will be a group living facility for women, post-drug rehabilitation or incarceration, located at 534 West Washington Ave, in the heart of Downtown Jonesboro. The 101 year old property features 13 bedrooms and 13.5 baths.

It is our mission to provide a safe living environment for women in order for them to reclaim their lives and become happy, healthy, sober and productive members of society.

Reclamation House is an ideal location within walking distance of public transportation, Federal, State & Local Court Systems, Celebrate Recovery meeting and other NA & AA support group venues.

We intend on teaching women how to manage money, grow a vegetable garden, can vegetables, sewing classes will be offered as well as various group meetings where speakers will come to discuss general life skills such as couponing , how to grocery shop, how to interview and build a resume as well as dressing for success.

This home will not only change the lives of the women we serve, but it will also change the lives of their families and children for generations to come.

I have also attached a letter from Ken Stacks that you might find helpful.
