Councilmember David McClain commented that he was just curious as to why we are selling the property, is it to just get rid of it? Brian Richardson explained that that they had just gotten an unsolicited offer from Harold Watson. He had purchased 1.22 acres which is the surrounding property and this would be the interior portion of the property that he purchased. It borders the east side of the bridge, so there is really not much access to it. We did have an appraisal done on the property it came roughly within the purchase price and the city does not have any plans for that property. It has been in our inventory for several decades and I don't know of any other offers that was made on it.

A motion was made by Councilperson John Street, seconded by Councilperson

Brian Emison, that this matter be Recommended to Council . The motion PASSED with the following vote.

Finance Chairman Joe Hafner commented that he was looking forward to seeing what the new prepared food tax returns will be. Hopefully everybody is working on the report that he hope to have for you all on February 20th. Councilmember Dr. Charles Coleman stated that he was having lunch and the business owner and he said he was actually glad to pay his first payment to the city regarding the prepared food tax, I thought that spoke highly of the individual. Chairman Hafner said that he was glad to hear that and that hopefully when people realize the investment, and return of revenue to the city from this tax, especially when the complex is built, it will be a good thing for the city. The sport complex committee met this morning, so hopefully we will know maybe by tomorrow which company was chosen to do the feasibility study.
