Gentlemen,

After careful review with multiple legal counselors, I have decided to cancel the escrow on the property listed at 1206 S. Main St. and focus my energy and resources where we might face less opposition. While I am confident that we can succeed in efforts to rezone the property, I think the time frame and dollar estimate for such a risk is not justified against the potential loss and even a potential passing.

If you two have any ideas on other structures that might be viable, please let me know. If not, please keep an eye out in the coming days.

Please rest assured that I have the utmost respect for the both of you and will continue to use your services as we proceed to the next option.

Best!
Josh
